Have used PAIN KILLER in my family for forty years, and have never known it to fail.—RESSON LEWIS, Waynesboro, Ga.

I began using PAIN KILLER in my family twenty-five years ago and have used it ever since, and have found no medicine to take its place.—B. W. DYER, Druggist, Oneida, N. Y.

For whooping-cough and croup it is the best preparation made. We would not be without it.—A. P. HOUTS, Liberty Mills, Va.

For twenty-five years I have used PAIN KILLER for colds and chapped lips, and consider it the best medicine ever offered.—ELIAS HOOPES, Wilmington, N. C.

I was suffering severely with bronchitis, and my throat was so inflamed I could scarcely swallow my food. I was advised to try your PAIN KILLER, and after taking a few doses was completely cured.—T. WILKINSON.

Dr. WALTON writes from Coshocton: Your PAIN KILLER cures diphtheria and sore throat so alarmingly prevalent here, and has not been known to fail in a single instance. This fact you should make known to the world.

Mrs. ELLEN B. MASON writes: My son was taken violently sick with diphtheria, high fever, and cold chills. So many children have died here, I was afraid to call a physician, and tried your PAIN KILLER. He was taken on Sunday, and on Wednesday his fever was gone. It was a wonderful cure, and I wish it could be known to the poor mothers who are losing so many children.

For Chills and Fever **PAIN KILLER** has no equal. It cures when everything else fails.

Delays are often dangerous. A bottle of PAIN KILLER in the house is a safeguard that no family should be without.

All druggists sell it at 25c., 50c., and $1.00 per bottle.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., Insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

Have Signed or Endorsed the Following Remarkable Document:

Messrs. Seabury & Johnson, Manufacturing Chemists, 21 Platt St., New York:

Gentlemen:—For the past few years we have sold various brands of Porous Plasters. Physicians and the Public prefer Benson's Capcine Porous Plaster to all others. We consider them one of the very few reliable household remedies worthy of confidence. They are superior to all other Porous Plasters or Liniments for external use.

Benson's Capcine Plaster is a genuine Parmaceutical product, of the highest order of merit, and so recognized by physicians and druggists.

When other remedies fail get a Benson's Capcine Plaster.

You will be disappointed if you use cheap Plasters, Liniments, Pads or Electrical Magnetic toys.

has enabled them to attain such perfection that they can with confidence ask you to test the quality of their work. They carefully avoid all poisonous drugs, make only fast colors, which are thoroughly washed in hot water and soap, thereby removing anything which would stain underclothing.

Those who buy and wear their prints will, they feel confident, find them superior in durability, artistic style and finish. Be sure and ask for their goods, and see that their marks and tickets are on them.

THE SURGEON'S KNIFE.

Wonderful Surgical Operation—Removal of Urinary Stones from the Bladder—Successful.

Mr. Simeon Tietsell, of Saurgerties, N. Y., had been treated for seven years by various physicians for what they called stricture of the urethra, without benefit. He finally consulted Dr. David Kennedy, of Rondout, N. Y., who found his trouble to be Urinary Calculi or stones in the Bladder. The doctor at once removed the foreign bodies with the knife and then gave his great Blood Specific, "Favorite Remedy," to prevent their reformation. The entire treatment was eminently successful, and Mr. Tietsell's recovery was rapid and perfect.

While "Favorite Remedy" is a specific in all kidney and bladder diseases, it is equally valuable in cases of bilious disorders, constipation of the bowels, and all the class of ills apparently inseparable from the constitutions of women. Try it. Your druggist has it, and it costs only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The doctor would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to office practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery. tmch21

NOTED MEN!

DR. JOHN F. HANCOCK, late President of the National Pharmaceutical Association of the United States, says:

"Brown's Iron Bitters has a heavy sale, is conceded to be a fine tonic; the character of the manufacturers is a voucher for its purity and medicinal excellence."

DR. JOSEPH ROBERTS, President Baltimore Pharmaceutical College, says:

"I indorse it as a fine medicine, reliable as a strengthening tonic, free from alcoholic poisons."

DR. J. FARIS MOORE, PH. D., Professor of Pharmacy, Baltimore Pharmaceutical College, says:

"Brown's Iron Bitters is a safe and reliable medicine, positively free from alcoholic poisons, and can be recommended as a tonic for use among those who oppose alcohol."

DR. EDWARD EARICKSON, Secretary Baltimore College of Pharmacy, says:

"I indorse it as an excellent medicine, a good digestive agent, and a non-intoxicant in the truest sense."

DR. RICHARD SAPINGTON, one of Baltimore's oldest and most reliable physicians, says:

"All who have used it praise its standard virtues, and the well-known character of the house which makes it is a sufficient guarantee of its being all that is claimed, for they are men who could not be induced to offer anything else but a reliable medicine for public use."

A Druggist Cured.

In view of the many suspicious circumstances connected with the burning of the Highland house at Biddeford Pool on Monday of last week, Mayor Clark of Biddeford has notified sheriff Z. R. Folsom under the statutes to investigate, and if possible determine the cause of the fire.

The executive council of Maine last week rejected the nomination of John S. Derby to be county attorney for York county.

Rev. Edward Chase has resigned the pastorate of the Pavilion church at Biddeford.

Mr. William Noyes died at his home in Biddeford on Thursday of last week, at the age of seventy-three years and one day. He was one of the oldest and best-known printers and publishers in Maine, and was an excellent man in every sense. In 1833 he started the *Maine Farmer*, one of the most successful agricultural papers in the state, and published it for eleven years; and then, in 1845, commenced publishing the *Union* (now the *Union & Journal*) in Biddeford. About 1850 he gave up journalism and went into the job-printing business, continuing it until 1864, when he purchased the *Maine Democrat* of Alpheus A. Hanscom, and in company with his sons conducted it until 1867, when he sold it to Charles A. Shaw. In 1868 he moved to Rockland and started the *Knox & Lincoln Patriot*, and in 1869 removed from Rockland to Saco and started the *York County Independent*, which he published until 1880, when he retired from active business. He was the father of nine children, of whom four survive—two sons and two daughters, all printers. He was a man of unquestioned probity, ever courteous, and deservedly respected.

Max Maretzek has returned to New York, having severed his connection with the Cincinnati College of Music. He gives as his reason that President Nichols "can't tell Yankee Doodle from the 'swan song' in Lohengrin," and practices a style of advertising better suited to patent medicines than to art.

The Boston, Revere Beach & Lynn railroad was badly submerged by the high tide of Saturday, and travel was stopped. Lynn passengers were obliged to take the Eastern railroad cars.

Mayor Grace, of New York, admits that he has been naturalized twice. It is suspected that it didn't "take" the first time.

Ex-President Hayes is president of a savings bank company just organized at Fremont, Ohio, with a capital of $50,000.

A petition was sent to Washington from Chicago, Saturday night, asking for the pardon of Sergeant Mason. It has 100,000 signatures.

ELY'S CREAM BALM CO., Owego, N. Y.—Please send us at once two gross Ely's Cream Balm. We take pleasure in congratulating you on the success you are having with the "Cream Balm" catarrh and hay fever cure. Its sale is steadily increasing with wonderful rapidity as you can see by our frequent orders. It is evidently an article of great merit. Very truly, JOHNSTON, HOLLOWAY & CO., 602 Arch st., Philadelphia. March 19, 1881.

Messrs. Ely Bros., Druggists, Owego, N. Y.—I have had catarrh for a number of years in its worst form. Before I had used one bottle of your Cream Balm droppings into my throat had entirely ceased, pain and soreness in my head was entirely removed, as well as deafness, I have used a great many remedies, but nothing that equals yours. It also gives immediate relief for cold in the head. MRS. J. D. HAGADORN, Union, N. Y., Dec. 7, 1878.

Price fifty cents.

A young farmer living near Springfield, Mass., says he was recently working in a field when a man and a woman came along in a carriage. The man asked him if he would marry the woman for $500; he consented, and they went to the nearest justice, who performed the ceremony. He shows the $500 as proof, and the justice bears him out in the strange story. The mysterious bride and her companion rode away immediately after the marriage, and no more is known of them.

The Inconsistency of Man.

Scheming, diverse, and manifold advertisements of worthless goods, will never attract profitable customers; only meritorious articles such as Swayne's Ointment for skin diseases, are recognized and sought after by the people. Real worth always receives its just merit, A man may profit for a while by imposing upon the public, but it is only a question of time when he will reach the end of his rope. Man has never dared to doubt the efficacy of this great vegetable Ointment.

Shocking accounts still come from the country inundated by the Mississippi. In Arkansas many people are in a starving condition, and the stench of the dead animals is fearful. In Louisiana almost the entire cotton region is under water, and 70,000 people are destitute. The water is still rising in the lower portions of the river.

A comet was discovered in the constellation Hercules, Friday morning, by Charles S. Wells of the Dudley observatory at Albany, N. Y. It is quite bright, and has a short tail. It is invisible to the naked eye.

When all with one accord give spontaneous testimony in favor of St. Jacobs Oil, we know that its virtues are such as to merit it, and we are heartily glad of the generosity which does not hesitate to give a good article its due meed of praise. Mr. William Hadeler, at the Marathon hotel, Wausau, Wis., relates the following experience: Some time since, said Mr. H., I took a severe cold, which settled in my limbs, and gradually developed into a bad case of rheumatism. After suffering for some time, and using many different preparations (among which was a remedy prescribed by a physician)—all without receiving any benefit whatever, a friend advised me to try St. Jacobs Oil. I did so expecting to receive but little benefit, and was considerably surprised to feel somewhat easier after the first application. The use of only one-third of a bottle perfectly cured me. From a state of complete helplessness, I am now just as strong and healthy as ever, and gladly give all the praise to that wonderful remedy, St. Jacobs Oil.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Ship Screamer, from Phildelphia for New Orleans with coal, foundered on the 10th inst., four men perishing. The captain, two mates and twelve seamen were saved by the brig Addie Benson, of Digby, N. S., and landed at Provincetown, Mass., March 20th. The steward of the brig. Mr. J. W. Doane of Digby, displayed great bravery and skill in managing the life boat which saved the Screamer's crew.

Nursing mothers gain strength by using Brown's Iron Bitters. It acts like a charm in restoring to health and strength overstrained nature.

Portsmouth Chronicle.

TUESDAY, MARCH 21, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

A Successful "Strike."

Jay Gould, with his millions in stock of the Western Union Telegraph Co., wants more wealth, so last week he gave orders to cut the pay of the boys for delivering messages in Boston, from two cents and a half to two cents per message. A message may have to be carried a great distance from the office, and in many cases the boys would not receive the cost of the shoe leather worn out in the errand. The result of Gould's order was that the boys would not stand the reduction, and the W. U. T. had hundreds of undelivered messages on their hands. Many boys went to the offices of the Mutual Union, and were at once employed, as the non-delivery of messages by their grasping rival threw a large amount of business into the offices of the Mutual Union.

On Monday the Western Union got tired of having its message delivery half-performed by inexperienced boys, and the strikers were restored to their places at the old rates.

Naval Affairs.

The Kearsarge left New Orleans on the 15th inst., for a cruise in the West Indies, and to supply the steamer Dispatch, now in Samana bay, with coal. The Kearsarge is under orders to return to Hampton Roads by May 1st.

Civil Engineer Norman Stratton, on the retired list, died in Brooklyn on the 11th inst.

Gunner David A. Roe has been placed on the retired list.

Capt. John H. Russell is ordered to special duty at Washington.

Lieut. Charles Seymour has reported his return home, having been detached from the Ashuelot, Asiatic station, Feb. 6th, and has been placed on waiting orders.

The naval board of survey on the schooner Willie Erdix, towed into Boston last week by the U. S. S. Tallapoosa, after having been run down by that steamer while at anchor on Nantucket shoals, estimated the damage to the schooner at $325.

News and Notes.

Messrs. Everett & Zerrahn, newspaper advertising agents, have taken room No. 7 in the *Herald* building, Boston, which gives them largely increased facilities for transacting their advertising business.

At Cherryfield, Me., Sunday evening, Mrs. Hetty Sprague, a widow, was killed while leaving church by Chester Cunningham, he cutting her throat. The murderer was arrested. Jealousy probably caused the crime.

The Pacific national bank, of Boston, reopened for business on the 18th inst., after having been closed exactly four months.

Mr. John F. Coles, the well known temperance lecturer, is dead.

The strike in the Pacific mills at Lawrence, Mass., bids fair to be a serious one. The wages paid by the mills are small, and the strike was against a reduction to a starvation level.

At Tampa, Fla., last week, a young Englishman, C. D. Owens, attacked a young lady, and stabbed her nearly to death. He was placed in jail, but within an hour he was taken out by a mob and hanged.

The Maine Central smoking car No. 202 was completely gutted by fire at Bath, Me., on the night of the 18th inst., just previous to the departure of the midnight train. Cause unknown. Loss $1000. The same car had been burned once before, and on the same spot.

The Pacific national bank of Boston, which resumed business last Saturday, during the day paid out $280,000, and there was deposited $243,000, by sixty-nine depositors. About $32,500 worth of paper presented was refused, on the ground that the bank had received no value, and had a perfect legal defence.

Herr Ruif of Memel, Prussia, writes to the *Jewish World*, saying that the decisions of the St. Petersburg commission on the Jewish question in favor of compelling the Jews to quit rural districts, etc., although ostensibly aimed at the prevention of persecution, will have the immediate effect of depriving a million of people of homes, and rendering their life unbearable.

Several Chinese women who arrived at San Francisco last week on a British steamship will be sent back to China by the authorities, it being supposed they were imported for immoral purposes.

H. S. Seward on Friday last palmed off two alleged gold bricks on Peter Kiernan, bullion clerk of the United States at the New Orleans mint, receiving a negotiable receipt for the deposit of 733 33-100 ounces of gold, valued at $15,000.

John Trimm of Lewiston, Me., whose supposed body was picked up in Portland harbor five or six years ago, and buried by his relatives, has just returned from Minnesota on a visit home. He has been in the latter state ever since his supposed decease, and read in the papers all the pleasant things said about him after his funeral.

The Empress of Austria is said to have determined to visit Canada next autumn for the purpose of hunting.

Major William Camp, of Shippenville, Pennsylvania, aged ninety-two, a veteran of the war of 1812, was married on the 13th inst. to Mrs. Martha A. Rich, aged seventy-two.

AROUND HOME.

There will be a social assembly at Trefethen's hall, Kittery, this (Tuesday) evening, the grand march commencing at eight o'clock. The steamer James Sampson will leave this city for Kittery at 7:45, returning after the dance.

Commenting on the pigeon-shooting match of the Tremont Gun club of Boston, at Eliot last week, an exchange says: "Much indignation is expressed throughout York county, because of these annual visitations from shooting clubs. Vigorous measures will at once be taken to prevent a repetition." These "visitations" will cease whenever the state of Maine passes a law against them—not before. Trap-shooting is prohibited by statute in Massachusetts and New Hampshire, and as a consequence the Massachusetts shooters leave their own state and cross New Hampshire to the borders of Maine, where they can indulge in this "sport" with impunity. An attempt was made at the late session of the Maine legislature to secure the passage of an anti-pigeon-shooting law, but it failed.

Among the recent charters are a schooner of 142 tons, with cement from Rondout to Dover at thirty-two cents, and a schooner of 100 tons from Rondout to Newburyport at thirty-one cents. The one for Newburyport has the best bargain. A schooner of 101 tons has been chartered to take coal from Weehawken to Kittery, Me., at $1.60 per ton.

The gas lantern at the corner of Market and Green streets was broken some time ago, and no light was shown from it for a week or ten days previous to Friday evening last, when a Market street business man went to the police station and procured a lantern, which he lighted and placed on top of the post. The lantern burned all Friday night and through the day on Saturday, and was still blazing away at seven o'clock on Saturday evening; whether it has yet burned out or not we cannot say.

Mr. Enoch T. Coleman of Newington will shortly begin work on a new barn to take the place of his old one; the building will be forty feet long and thirty-four feet wide—two feet wider than the former structure—and most of the timber for it was raised on Mr. Coleman's place. Mr. Benjamin S. Hoyt is also busily engaged in putting together the frame of a new barn; he has completed the cellar and wall, and will be ready to raise the frame in a short time.

Gov. Plaisted fixes on March 30th as Fast day in Maine. In olden times the observance of this day was usually later in the season in that state than in New Hampshire; this year it is a week earlier. The different days appointed by the governors of Maine, New Hampshire and Massachusetts cause great annoyance to business men, and the error of having two holidays in succession (Thursday in Massachusetts and Friday in New Hampshire) will cause quite a serious loss of time to the many persons whose business will be interrupted by the inconvenient arrangement.

The Free Public library has received a gift of Chambers' Encyclopedia. By the "spring arrangement" of the library, the hour for opening in the evening be will half-past seven o'clock from this time until further notice, instead of seven o'clock as heretofore.

The hay and drift-wood from the wrecked schooner E. A. Elliott were scattered all along the shore for many miles; about fifty bales of hay, with much lumber, etc., went on the beach at Plum island, Newburyport.

Dr. Samuel C. Whittier of this city has accepted an appointment as examining surgeon of the United States pension bureau. With three examining surgeons in this city, there can now be a board of examiners before whom in some instances applicants for invalid pensions are ordered.

The schooner Eva Lendall brought in two hundred pounds of fish on Monday, and still her crew thought it a profitable trip, as they were fortunate enough to secure most of their trawls, which had been set over a week.

Charles Summer Atherton was found dead in a room in the house of a Mr. Corson at South Newmarket, on Wednesday of last week. He had been on a spree for several days.

The master and crew, five in number, of the wrecked schooner E. A. Elliott, were brought up to the city on Monday by the tug Clara Batemen, and proceeded to their homes in Maine. They were completely destitute, and were very kindly furnished by the Eastern railroad with free transportation over its lines.

The schooners Storm King and Addie & Hattie, having baited up with clams, left for the fishing grounds on Monday night. This is the last trip of the Addie & Hattie in fishing; she will be engaged in procuring lobsters until July. The Storm King will probably fish out of Boston.

Several hundred people visited the scene of the wreck at Gerrish's island, Kittery, on Sunday. Wreckers were at work along the shore among the debris of the wreck, for such valuables as were thrown up by the sea; one man secured forty pounds of salt junk.

The funeral services of the late David D. Badger at Newington on Sunday were attended by several hundred people, among whom were many friends of the deceased from this city.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

NE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2500 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $5.00.—non assessable. This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. MECHANICS & TRADERS' BANK.

Mr. John Laighton having decided to give his personal attention to his business at No. 1 Market square, has resigned his office as cashier of the National Mechanics & Traders' bank, and James P. Bartlett, Esq., has been chosen as his successor.

Mr. Bartlett is well known to the business community as a competent man for the position he has been invited to fill. Formerly he was in the auction and commission business, and engaged in marine and life insurance. At the organization of the Bank of New Hampshire in 1855 he was invited to become its cashier, and held this office until he was elected to the presidency in March, 1861, in which office he has ever since served the bank. He is familiar with bank duties, courtious to patrons, and will prove to be a valuable acquisition to the Mechanics & Traders' bank.

THE NEW RAILROAD.

PORTSMOUTH, March 20th.

Mr. Editor: It is seldom that I trouble you with a communication, but when I read one in the CHRONICLE of to-day, signed "Business Man," I could not help thinking that he had come much nearer to the proper location of the projected railroad from Rye than the engineers who have laid out the routes which in your previous editions you have given to the public. One location (the first I believe,) was *decidedly bad*. The location of the one given in your paper of this morning seems to me to be a very expensive one, if tunnelled, and a very dangerous one if allowed to cross the highways at grade. A marginal railway would seem to me to be the most sensible and practical way to bring about the results desired, and it would, although it might necessitate a longer route, be one in which the grades would be light and the expenses per mile less than either of those surveyed. Should the railroad come through as marginal, it would be of decided benefit to a part, at least, of the business portion of our city, as a road around our water-front would have a tendency to offer additional inducements, as regards transportation, to the large fishing trade which is fast developing here. There is no harbor on the coast which surpasses ours in every facility that the fishermen can wish, and a road so located would tend to increase our local trade; and last, but not perhaps least, the scenery along our coast line would be one that our summer visitors would heartily appreciate. Of course I do not refer to the classic shades of Water street, Puddle dock, etc., for we cannot expect to build the road and have it all go through Paradise. CIVIL.

NOTICE TO MARINERS.

Under the heading "A Dangerous Ledge," the Newburyport *Herald* of the 20th inst. prints the following, which we copy as being of especial interest to seamen who may have occasion to run between this harbor and Newburyport:

About four miles off Boar's Head, and five or six miles north-north-east from the outer can buoy [at Newburyport,] there is a ledge known among fishermen as Shoal rock, on which the sea was breaking furiously yesterday. This ledge is in the track of vessels bound to Portsmouth, and as there is but fourteen feet of water on the ledge at low tide, a buoy should be placed there. It is not down on any chart, and is a dangerous rock for vessels going to or coming from any eastern port.

MATTERS IN RYE.

RYE, March 20th.

There are two opinions in Rye concerning the propriety of having the railroad come to the sea-shore in our town. One party thinks that it will bring to Rye large hordes of rough and noisy people; that Sunday crowds will throng our streets and usurp the best places and fill our hotels; that drinking places will multiply; houses of ill-repute be opened; squatters locate; and that the motley mob which is seen when a railroad built into a little quiet and beautiful locality has laid waste a region, will come to Rye and riot among our peaceful paths. That the roads will be crossed by rails, and our beautiful drives made dangerous, and that our wealthy, respectable and orderly summer visitors will be succeeded by crowds of transient Sabbath-breakers, gamblers and persons of low estate, is their fear and prediction.

Another set say we must keep up with the times. If the factory operatives of Dover, Great Falls, Newburyport, Lawrence and other places, wish to come for a Sunday holiday at Rye, why not permit them? Have they not as good right to pick their teeth on the piazza of the Farragut, or dine at the Sea View, or bask in the rays of the "Rising Sun," as any? Is not the ocean air free to all? Have only the wealthy, rights in Rye?

The boarding-houses of course will not gain by a new line of railroad. Many who come here for a season, visit Rye because it is far from the haunts of men. The roads are not crossed by railway tracks, and horses can be driven without danger of fright. If this railway comes, its advent of course will be followed by an influx of populace before which the refined visitors at Rye will flee. New hotels will go up, like the cheap establishments at Old Orchard beach, and Rye will have large inroads, but it will be of a class of transient visitors, many of whom will be of no profit to our people.

The road would perhaps be an expensive one for the Eastern road to build and operate, but something must be done to head off the Boston & Maine road, or it will come to Rye and York beaches, even if it demoralizes these resorts as much as it has Old Orchard. At present the difficulty seems as to the means of constructing the proposed road so that it will go by every man's house and have a station at his front gate. The surveyors gave but little satisfaction in their replies to questions as to what is to be the selected route. OCEAN SPRAY.

The U. S. S. Tallapoosa, on leaving the navy yard Monday evening for Boston at about half-past six o'clock swung against the bow of the U. S. S. Plymouth, staving in the wheel house and one of the quarter boats of the former, besides doing other damage which will neeessitate her remaining at this navy yard for repairs. The tide was running down strong at the time, and the accident was probably unavoidable. At 8:30 o'clock (low-water slack) she was still across the Plymouth's bow, but on flood tide she swung around and cleared herself, and was again moored to the wharf.

All sorts of travelling could be found on our streets, Monday. In some places the dust was flying, in others there was a sufficiency of mud and water, and in still others there were snow-banks and thick beds of ice.

Wallace Hackett, Esq., city solicitor, arrived home on Monday evening from San Francisco.

The organ for the new church arrived on Monday, from the manufactory of Messrs. Hook & Hastings, Boston. The chime of bells is expected in about four weeks.

Mr. Morris C. Foye in another column announces a reduction in the price of corsets, for which his store on Market street is headquarters.

Frank Horn, formerly of Newmarket but now a resident of South Newmarket, is in serious trouble, through too much political zeal. He voted in South Newmarket in the forenoon on the 14th inst., and in the afternoon voted the democratic ticket in Newmarket, where the election was hotly contested, one democratic candidate for selectman being elected by Horn's vote. Horn has been arrested.

Mr. Henry Bean of Newington has purchased the Wentworth-farm milk-route, and eight of the choice cows formerly owned on the farm.

Some of the vessels fishing out of this port, unable to get fresh herring for bait, are using clams.

The brewers of this city and their agents in Dover have raised the price of beer, and now charge the retailers a half-dollar more per barrel, than formerly. The saloon keepers growl considerably over the increase, but can't help themselves.

A large amount of baled hay was picked up along the Newcastle shore on Saturday, undoubtedly coming from the wreck at Gerrish's island. Numerous pieces of timber, planking, etc., were also thrown ashore by the sea, which was heavier than at any time for many weeks.

Patrons of the Telephone Co. can get boys from the Mutual Union telegraph office to come to their stores, houses and places of business, and take telegrams to the office free of charge, by calling up the Mutual Union office.

Superintendent Sanborn, of the Conway railroad, says the management is making preparation for a larger summer business this year than ever before, and expecting to get it. The restaurant at Wolfeboro' Junction is to be enlarged, and all through trains will stop there for meals.

Baird's Mammoth Minstrels will give an entertainment in Music hall on Thursday evening, March 30th.

Granville Knox, of Newington, has sold from his farm $50 worth of timber to be used in the construction of the schooner now being built at Freeman's point.

The town debt of Newington was decreased $700 the past year, and the same amount the year previous; the debt now amounts to something over $700, which will probably be paid the coming year if possible.

Musical Entertainment !

The M. E. Society

Of this city will give an entertainment in their CHURCH ON STATE STREET

Wednesday Evening, March 22d,

On which occasion will be presented for the first time in this vicinity the new and attractive Cantata entitled,

Under the Palm.

The subject deals with the captivity of the Jews in Babylon, and the return to Jerusalem, and comprises a great variety of solos, duets, trios, quartettes, quintetts, partial and full choruses, etc. No pains have been spared to make it a highly enjoyable entertainment. The proceeds will be used toward furnishing music for the coming year. This is a good object and we hope to see present an audience limited only by the capacity of the building.

Admission 20 cents, children half price. Will commence promptly at 7:45 owing to its length.

A GOOD DIVIDEND PAYING INVESTMENT.

The Gifford Compo Shoe Machine Co.

CAPITAL $100,000. 1000 SHARES.
PAR VALUE $100.

Thomas J. Gifford, President;
Aug. J. Archer, Treasurer;
Wallace Hackett, Secretary.

Organized and incorporated for the purpose of manufacturing and leasing their Patent Hydraulic Compo Shoe Press.

This is the most perfect machine yet invented for attaching soles to Boots and Shoes by the Compo process. The shoes made on them are as easy and pliable as a glove, inasmuch as they have a perfectly smooth and flexible sole of solid leather, having no nails, pegs or objectionable fastenings, attached by a process which renders it strong and durable, and impervious to dampness.

The capacity of the machine is fifteen cases per day. More than 2,000,000 pairs Misses' and Children's Shoes were made on these machines the past year, and we are now supplying machines for making Men's and Women's Boots and Shoes, which pay larger royalties. Its success is assured; and as the machines multiply, largely increased earnings and dividends will be realized.

Dividends are paid quarterly from Royalties collected on every pair of Boots or Shoes made on the machine.

We confidently offer the stock as not only a safe, but profitable investment, promising larger returns in the near future.

A few shares paying 8 per cent. per annum are offered for sale at par.

The Science of Life, or Self-Preservation, is the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single of either sex can either require or wish to know, but what is fully explained. In short, the book is invaluable to all who wish for good health.—*Toronto Globe.*

The book for young and middle aged men to read just now is the Science of Life, or Self-Preservation. It is worth many times its weight in gold.—*Medical Times.*

The author of the Science of Life is a noble benefactor. He reaches the very roots and vitals of disease, and is enabled to apply thorough remedies. The book should be read upon both continents by millions.—*London Lancet.*

The Gold and Jewelled Medal awarded the author of the Science of Life was fairly won and worthily bestowed.—*Massachusetts Ploughman.*

Thousands of extracts similar to the above could be taken from the leading journals—literary, political, religious and scientific—throughout the land.

The Book is guaranteed to be a better medical work, in every sense, than can be obtained elsewhere for double the price, or the money will be refunded in every instance.

Thousands of Copies are sent by mail, securely sealed and post-paid, to all parts of the world, every month, upon receipt of price, $1.25. Address

TO GRATIFY HIS WIFE.

An Interesting Story—A Hopeless Case Cured. A Good Reason for Happiness.

Statement of Mr. Washington Monroe, of Catskill, Green County, New York.

"For many years I had suffered from a complaint which the physicians called gravel. I had employed some of the most noted doctors without obtaining any permanent relief, and for a long time my case was regarded as hopeless. All who knew the circumstances said I must die. Finally, my wife induced me to try a bottle of Dr. Kennedy's 'Favorite Remedy' which she had somewhere heard of or seen advertised. Without the slightest faith in it, but solely to gratify her, I bought a bottle of a druggist in our village. I used that and two or three bottles more, and—to make a long story short—I am now as healthy a man as there is in the country.

Since then I have recommended 'Favorite Remedy' to others whom I knew to have suffered from Kidney and Liver complaints; and I assure the public that the 'Favorite Remedy' has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

DR. BULL'S COUGH SYRUP

William V. Smith, M. D., son of the late President Smith, has been appointed lecturer on anatomy and physiology in the Dartmouth medical college.

Mrs. Loren Flanders of Nashua, a highly respected lady, left her home Friday evening and has not yet been found. It is supposed she has wandered away, being temporarily insane.

Solomon R. Barron, an aged and respected farmer of Merrimack, fell from the high beams in his barn on the 18th inst., and was fatally hurt. He laid in the barn until Sunday morning before being found.

Capt. Otis Whitcomb of East Swansey, the original of Uncle Josh Whitcomb, is dangerously ill.

The business boom has reached Dover. On Friday night last the police ran in five drunks in less than one hour.

At Milford, Sunday morning, Richard A. McDow was found dead in his room by the servant girl at the Union hotel. The matter has a suspicious look of foul play, and yet may be a case of suicide, Mercury was found in his hair and on the face, and a gash at the corner of the right eye. A bottle marked ether was also found.

The Boston & Northern Telephone Co. last week petitioned the city government of Dover for permission to set telephone poles on several streets, "on which to run trunk lines from Dover to Great Falls and Salmon Falls, and to Exeter and Portsmouth. Said poles will have suitable fixtures, and will be painted." The matter was referred to a committee, to report.

The yearly meeting of the Freewill Baptists of New Hampshire is to hold its session in Rochester in June. The Congregational society have generously proffered the use of their church for the session.

Morrill Currier of Wilmot has voted at every election in that town for sixty-three years. Last election day he walked five miles to the polls, and then deposited a democratic ticket. Elder March, another democrat, of Henniker, has voted sixty-two consecutive years in the same town house. These gentlemen are old enough to know better than to vote as they do.

The grocery store of M. J. French, of Kingston, was burned on the 17th inst. by an incendiary fire. Loss $2000; insurance $1800.

On Wednesday of last week, at Nashua, Edward Cleveland, aged twenty years, while rabbit hunting with friends, let his gun fall on a stone. It went off, and the contents entered his right groin. He died in four hours after the accident.

Goffstown is prosperous, owing nothing, and having on hand $2,723.43.

Last year claims for damages from various causes were brought against the city of Nashua, for the amount of $22,500, but they were settled for $1275.

"Put's Boy" has got into trouble again. The president has appointed the old man infernal revenue collector for the state of New Hampshire, and the "boy" has got to look after him.—*Lebanon Free Press.*

A cold is unlike most visitors;—if you want to get rid of it, you must give it a warm reception with Dr. Bull's Cough Syrup, the standard cough remedy of our age. For sale by all druggists at twenty-five cents a bottle.

Why We Have So Few Good Riders.

It has frequently been the subject of remark as to the cause of the scarcity of good jockeys. To be sure we have some excellent riders—Barrett, Evans, Hughes, Barbee, Feakes, and probably half a dozen others, but not more. The secret is explained in the fact that unless a jockey takes great care of himself, constant exercise in the saddle will superinduce piles of the most aggravating character, that itch intensely, particularly after getting warm in bed, and thus render him unfit for service on the track. However, if Swayne's Ointment were used, the worst case of itching piles would be speedily cured.

As a specific, economical and positive cure, SWAYNE'S OINTMENT is superior to anything in the market. Sold by druggists, or send 50 cts. in 3-ct. Stamps. 3 boxes, $1.25. Address, DR. SWAYNE & SON, Phila. Pa.

Diphtheria.

A cold or sore throat may not seem to amount to much, and if promptly attended to can easily be cured; but neglect is often followed by consumption or diphtheria. No medicine has ever been discovered which acts so quickly and surely in such cases as PERRY DAVIS' PAIN KILLER. The prompt use of this invaluable remedy has saved thousands of lives.

PERRY DAVIS' PAIN KILLER is not an experiment. It has been before the public for forty years, and is most valued where it is best known.

A few extracts from voluntary testimonials read as follows:

PAIN KILLER has been my household remedy for colds for the past twenty-seven years, and have never known it to fail in effecting a cure.—L. S. CROCKER, Williamsville, N. Y.

For thirty years I have used PAIN KILLER, and found it a never-failing remedy for colds and sore throat.—SAMUEL BEARD.

Have received immediate relief from colds and sore throat, and consider your PAIN KILLER an invaluable remedy.—GEO. R. EVERETT, Hickman, N. Y.

I have just recovered from a very severe cold, which I have had for some time. I could get no relief until I tried your PAIN KILLER, which relieved me immediately. I will never again be without it.—C. O. FORCE, Lowndes, Ga.

Have used PAIN KILLER in my family for forty years, and have never known it to fail.—RANSOM Lawrie, Waynesboro, Ga.

I began using PAIN KILLER in my family twenty-five years ago and have used it ever since, and have found no medicine to take its place.—B. W. DYER, Drysdale, Oneida, N. Y.

For whooping-cough and croup it is the best preparation made. We would not be without it.—A. P. ROUTH, Liberty Mills, Va.

For twenty-five years I have used PAIN KILLER for colds and chapped lips, and consider it the best medicine ever offered.—J. PROCTER, Wilmington, N. C.

I was suffering severely with bronchitis, and my throat was so inflamed I could scarcely swallow my food. I was advised to try your PAIN KILLER, and after taking a few doses was completely cured.—T. WILKINSON.

Dr. WALTON writes from Coshocton: Your PAIN KILLER cures diphtheria and sore throat, so alarmingly prevalent here, and has not been known to fail in a single instance. This fact you should make known to the world.

Mrs. ELLEN B. MASON writes: My son was taken violently sick with diphtheria, high fever, and cold chills. So many children have died here, I was afraid to call a physician, and tried your PAIN KILLER. He was taken on Sunday, and on Wednesday his throat was clear. It was a wonderful cure, and I wish it could be known to the poor mothers who are losing so many children.

For Chills and Fever PAIN KILLER has no equal. It cures when everything else fails.

Delays are dangerous. A bottle of PAIN KILLER in the house is a safeguard that no family should be without.

All druggists sell it at 25c., 50c., and $1.00 per bottle.

THE SURGEON'S KNIFE.

Wonderful Surgical Operation—Removal of Urinary Stones from the Bladder—Successful.

Mr. Simeon Tietsell, of Saurgerties, N. Y., had been treated for seven years by various physician for what they called stricture of the urethra, without benefit. He finally consulted Dr. David Kennedy, of Rondout, N. Y., who found his trouble to be Urinary Calculi or stones in the Bladder. The doctor at once removed the foreign bodies with the knife and then gave his great Blood Specific, "Favorite Remedy," to prevent their reformation. The entire treatment was eminently successful, and Mr. Tietsell's recovery was rapid and perfect.

While "Favorite Remedy" is a specific in all kidney and bladder diseases, it is equally valuable in cases of bilious disorders, constipation of the bowels, and all the class of ills apparently inseperable from the constitutions of women. Try it. Your druggist has it, and it costs only one dollar a bottle. The lucky man is he who puts this advice in practice. Don't forget the name and address, Dr. David Kennedy, Rondout, N. Y. The doctor would have it understood that, while he is engaged in the introduction of his medicine, "Favorite Remedy," he still continues the practice of his profession, but confines himself exclusively to office practice. He treats all diseases of a chronic character, and performs all the minor and capital operations of surgery. tmch11

Business Change.

PORTSMOUTH, N. H., Feb. 13, 1882.

I HAVE this day disposed of my Job Printing Office, located in the Chronicle Building, to MR. RICHARD I. WALDEN, who has been for a number of years Foreman and Job Printer in the office of the Portsmouth Journal.

Mr. Walden is well known to the public as a careful and skillful printer, and I can conscientiously recommend him to my patrons and to the public generally as a good mechanic and a worthy young man.—As such, I bespeak for him the patronage that has been so generously accorded to me.

NOTED MEN!

DR. JOHN F. HANCOCK, late President of the National Pharmaceutical Association of the United States, says:

"Brown's Iron Bitters has a heavy sale, is conceded to be a fine tonic; the character of the manufacturers is a voucher for its purity and medicinal excellence."

DR. JOSEPH ROBERTS, President Baltimore Pharmaceutical College, says:

"I indorse it as a fine medicine, reliable as a strengthening tonic, free from alcoholic poisons."

DR. J. FARIS MOORE, PH. D., Professor of Pharmacy, Baltimore Pharmaceutical College, says:

"Brown's Iron Bitters is a safe and reliable medicine, positively free from alcoholic poisons and can be recommended as a tonic for use among those who oppose alcohol."

DR. EDWARD EARICKSON, Secretary Baltimore College of Pharmacy, says:

"I indorse it as an excellent medicine, a good digestive agent, and a non-intoxicant in the fullest sense."

DR. RICHARD SAPINGTON, one of Baltimore's oldest and most reliable physicians, says:

"All who have used it praise its standard virtues, and the well-known character of the house which makes it is a sufficient guarantee of its being all that is claimed, for they are men who could not be induced to offer anything else but a reliable medicine for public use."

A Druggist Cured.

Boonsboro, Md., Oct. 12, 1880.
Gentlemen: Brown's Iron Bitters cured me of a bad attack of Indigestion and fullness in the stomach. Having tested it, I take pleasure in recommending it to my customers, and am glad to say it gives entire satisfaction to all."
GEO. W. HOFFMAN, Druggist.

Ask your Druggist for BROWN'S IRON BITTERS, and take no other. One trial will convince you that it is just what you need.

WHEAT BITTERS

THE Great LIQUID FOOD FOR BLOOD, BRAIN AND NERVES.

☞ A SUPERIOR NUTRITIVE MEDICINE, RICH IN PHOSPHATES AND NOT A CHEAP, ALCOHOLIC DRINK. ☞ Highly recommended by Chemists and Physicians as

A POSITIVE TONIC, ALWAYS ACCEPTABLE AND RELIABLE,

as it does not stimulate the brain or irritate the system and leave deleterious effects. On the contrary, it furnishes just that which is necessary to the brain, strengthens and quiets the nerves, purifies the heart's blood, and thereby makes only the best flesh, bone and muscle. ☞ It works wonders, curing NERVOUS and GENERAL DEBILITY, MALARIA, DYSPEPSIA, INSOMNIA. Produces a healthy action of the Liver and Kidneys, fortifying the system against the miasmatic influences, and will be found invaluable in all pulmonary and bronchial difficulties. DELICATE FEMALES, NURSING MOTHERS and WEAKLY CHILDREN can find no remedy equal to this healthful blood and nerve food tonic. ☞ For sale by all Druggists. $1.00 per bottle. Prepared only by WHEAT BITTERS CO.,
Office 19 Park Place, New York City.

Daily Chronicle.

"The artistic and domestic life of John Singleton Copley" is the title of a new life of this famous portrait painter, which has been prepared by his granddaughter, Mrs. Martha Babcock Amory, and just published. It need hardly be said that it is a valuable addition to the small number of authoritative and trustworthy works upon American artists. Copley's life was a singularly interesting and varied one, and although other writers have attempted to write of it, the present work must certainly take a foremost place, since it is based upon authenticated facts, and is written *con amore*. The interest which artists and lovers of art, as well as the general reading public, take in the founders of American art, centres in Copley, Stuart, and Allston. The last two have been made familiar to the present generation by the publication of their lives and the exhibition of their works, while a familiar acquaintance with Copley remains to be made. In the volume in question will be found a sketch of his works, and interesting reminiscences of his son, Lord Lyndhurst, Lord Chancellor of Great Britain. A very fine steel portrait of Copley is prefixed.

There is an allusion to the Copley portraits at the old Wentworth mansion in this city. Mrs. Amory was especially interested in a painting by her grandfather in the Warner house, and on her visit to it was enthusiastic in her admiration of the artist's work. The portraits in the Barrell mansion at York, Me., which have been so much admired, were also the object of more than one visit to the spot where for so many years they have been carefully kept. We should have preferred to have learned by the book more of the history of these paintings, which would have been of more interest than is much of patent recital in the appendix.

The work is published by Houghton, Mifflin & Co., Boston; price $3.00.

Mother Died of Salt Rheum.

J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicines on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relieved or cured until I used the Cuticura Remedies."

☞ Canned corn is æsthetic. Oscar Wilde approves it.

Almost Killed.

I was almost killed by the doctors, who treated me for bleeding piles. It cost me over $100 without relief. I took Sulphur Bitters for two months, and now I am well.—*Gus Hall, Troy.*

Gov. Bigelow of Connecticut has appointed Friday, April 7th, (Good Friday,) as a day of fasting and prayer.

The Inconsistency of Man.

Scheming, diverse, and manifold advertisements of worthless goods, will never attract profitable customers; only meritorious articles such as Swayne's Ointment for skin diseases, are recognized and sought after by the people. Real worth always receives its just merit. A man may profit for a while by imposing upon the public, but it is only a question of time when he will reach the end of his rope. Man has never dared to doubt the efficacy of this great vegetable Ointment.

James Lacy and Robert Raddock, members of a notorious gang of cattle thieves, were taken from jail at Rawlins, Wyoming, Sunday, and hanged by a mob of stockmen.

Death to rats, mice, roaches and ants; Parsons' Exterminator. Barns, granaries and households cleared in a single night. No fear of bad smells. Best and cheapest vermin killer in the world. Sold everywhere.

Deacon Edward D. Boylston, the senior proprietor of the *Farmer' Cabinet*, at Amherst, has published in a neat form the interesting poem entitled "Fragrant Memories; or The Dead of a Hundred Years," which he read at the centennial celebration in that town, May 30, 1860. He affectionately dedicates it to his little grandson, William Boylston Rotch.

It is useless to deny that the brightest and fairest fall easy victims to consumption, and equally fruitless to ignore the fact that decline has its origin in many cases in neglected catarrh. Sanford's Radical Cure is a pure, sweet, balsamic specific.

The rector of Trinity (Episcopal) church at Claremont has introduced the first chancel choir of men and boys in this diocese. They have been under the training of Prof. A. H. Austin of New York, and give great satisfaction. A new organ costing $3,000, built by Hook & Hastings, has just been put in the church. Its expense was met by voluntary contributions of the principal members of the society.

Money for a Rainy Day.

"For six years my daughter was sick from kidney and other disorders. We had used up our savings on doctors, when our dominie advised us to try Parker's Ginger Tonic. Four bottles effected a cure, and as a dollar's worth has kept our family well over a year, we have been able to lay by money again for a rainy day."—A poor man's wife.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y. eod&wtyr8

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

The stage curtain at the Mechanics' Building, Boston, was burned Monday night at the close of the first act of the opera. The audience, for the most part, remained in their seats, and no panic occurred.

"They that are whole need not a physician, but they that are sick;" and never was a physician hailed with more genuine enthusiasm than the venerable monk, St. Jacob, reminding one strangely of the forest odors, lingering sunsets and the bright green meadows of far away Germany. I say welcome, because he comes, bringing healing and consolation in his hand to snap the cords of human suffering and set the pain-racked body free. Like the ancient Druids, he quickly finds favor with all classes, and why? Because his remedy is simple, cheap and effective. Rev. W. B. Ballou, Stoughton, Mass., says: "St. Jacobs Oil has done wonders for me and my people. Last fall I was beside myself with rheumatism, and was affected so badly that I had to resort to crutches to aid me in locomotion. My son obtained for my use a bottle of St. Jacobs Oil, which he called the great German remedy. I applied it most faithfully, and in less than three weeks I was able to cast aside my crutches and was well."—*Chicago (Ill.) Sentinel.*

A number of little girls at Saccarappa, Me., were swinging around a perpendicular iron rod, to see which could swing the most times. Little Marcia Bachelder swung until she dropped senseless, and shortly after died.

No Doctors Need Apply

To me to get their living. The only doctor I have is Sulphur Bitters. They cured me of dyspepsia when the doctors all failed.—*George Paige, Rochester.*

"Rev." H. A. Ellis, the evangelist, and Mrs. Lizzie O. Rose of Rockland, Me., have been indicted for criminal misconduct. The woman is very respectably connected; the man is a tramp revivalist.

"Wealthy Candidates."

The Nashua *Telegraph*, while attempting to state a case, raises an issue concerning which there can be no controversy. No one doubts that the lavish use of money has a corrupting effect in politics. The wonder is that the *Telegraph* editor should suppose, or affect to suppose, that any one doubted this fact. Our observation of the effects of the system in this city, where in several campaigs the drafts of the democracy upon their candidates have been most powerful, would have had the effect of teaching us a lesson in this respect, had we not known it before.

In theory, men of both parties are in accord with the ideas adduced by the *Telegraph*; but in either party are men,—and generally active men,—who delight to start up a wealthy candidate for obvious reasons. What we intended to say was that oftentimes the men who had large wealth possessed at the same time the energy, pluck and shrewdness which were just as serviceable in a campaign as in acquiring a fortune. It has often happened that a wealthy man has been nominated and elected mayor of a city, because he could get the votes of a class who believed in his ability and his desire to be economical in public affairs, reduce taxation and properly fund indebtedness, etc. It is for this reason that we hold that successful business men have made, not only the best candidates, but often the ablest public officials; and we think there are few exceptions to this rule.

Let an unsuccessful business man be put up for an office because he wants the emoluments, and however sympathetic his political associates may be, a smart, shrewd and able man who by his results has demonstrated what he can do in his private affairs, will obtain votes even from political opponents,—not because he has to purchase them, but for the reason that from the skill he has shown in his career, he will be credited with ability to manage the affairs of a municipality or will represent the business elements of a congressional constituency. It is as it was in our Saviour's time, when he spoke of the parable of the talents, and the returned tourist remarked to his servant: "Well done, good and faithful servant; thou hast been faithful over a few things, I will set thee over many things." The same rule of promotion applies to-day, as of old.

"Uncle Josh Whitcomb."

Capt. Otis Whitcomb, known throughout the country as the original of Denman Thompson's "Uncle Josh Whitcomb," died quietly at his home in Swansey on Saturday, March 18th, at the age of eighty-six years and six months. It is said of him that "he was a lovable old man, one of the best specimens of the rugged New England farmer, and is faithfully sketched by Mr. Thompson, whose love for him has grown from boyhood, and inspired the dramatization." Capt. Whitcomb was born at Saxton's River, Vt. He was a staunch old Jackson democrat, true and loyal, and when the war broke out, being too old to go himself, he sent three of his sons and a grandson into the army, and two of them lost their lives there. He raised a family of eighteen children, nine of whom are still living.

News and Notes.

Portland, Me., on the 20th inst. made a second attempt to elect a mayor, but without success, the vote being as follows: Libby, republican, 2572; Deering, "citizen," 2388; Littlefield, temperance, 567; Ames, "straight greenback," 40; scattering, seven. The election now goes to the city councils, which will elect Charles F. Libby, the republican candidate.

At Atlanta, Ga., on the 20th inst., the leading independents of Georgia held a caucus, and formulated an address to the people urging the formation of a new party, and calling for a mass meeting of all Georgia independents, to convene in Atlanta June 1st.

Mrs. Mary N. Rolfe, wife of a prominent merchant of Portland, Me., was taken ill at the railroad station in Bangor on the 20th inst., and died in about an hour.

The murderer of Mrs. Bell of Boston is still at large, the numerous arrests made of suspected persons having only resulted in thir discharge. The probability of the ruffian's capture now seems very small.

The strike in the Pacific mills at Lawrence, Mass., has thrown at least 3000 persons out of work. If it is continued the consequences to the general business interests of Lawrence will be serious.

Mrs. Ann Jackson, the wife of a tailor, committed suicide in the station house, in Hartford, Conn., Monday evening. She had only been locked up twenty-five minutes when she was found hanging to the cell door.

A Philadelphia young man went to Washington on purpose to get Guitean's autograph in his album, and then proudly exhibited the trophy to his pretty sweetheart. The girl explains the scene that followed by saying that she "was not anxious to marry a born fool." She might with propriety have used a different adjective to express the particular kind of fool her late sweetheart is.

Prof. David S. Jordan, of Indiana university, Bloomfield, Ind., writes to the New York *Tribune* that in September last on returning from a European trip with a company of thirty excusionists, they paid $5 to each custom house inspector at New York to prevent annoyances, and the inspectors obtained $10 from one lady in the party because she appeared to be wealthier than the others. There were no dutiable goods whatever in the baggage.

At Newton, Mass., on the 20th inst., some boys were playing under a shed, when one of them took up a pick-axe and drove it into a pile of rubbish. Instantly an explosion took place, and Thomas Peters, aged thirteen years, was instantly killed, and another boy injured. The rubbish was from the electric-fuse manufactory of George A. Goodyear, which was burned by lightning last summer.

The mayor of New Haven, Conn., has offered a reward of $500 for the arrest and conviction of any incendiary. Within the past month, in that city, about $300,000 worth of property has been destroyed by supposed incendiary fires.

A warrant has been issued against Edward H. Phelps, a newspaper man of Springfield, Mass., for malicious libel against Edward E. F. McMahon by caricaturing him in his paper as "Our local Oscar Wilde."

The fishing smack Nelson, of Yarmouth, Eng., recently arrived at that port with a leather bag, which the crew dredged up in the North sea, and was found to contain checks and documents of the value of £6,000. The bag belonged to the steamer Annie Arbib, which was lost in the North sea in November last.

AROUND HOME.

On Saturday of last week Kittery was visited by parties from Lynn, Mass., who are desirous of starting quite an extensive shoe manufactory in Kittery if certain conditions will be complied with. They ask the townspeople to put up a suitable building, and the town to exempt the business from taxation for a term of years; if this is done the company will lease the building at a fair rental, and go into the manufacture of shoes as soon as the building is ready for occupancy.

Capt. Braxila N. Trefethen, of Kittery, formerly master and owner of the fishing schooner Ranter, has bought the fishing boat Growler, and given her a thorough overhauling and fitting up. She is in prime condition, and will be used during the summer for fishing and pleasure parties, for which she is well suited.

The schooner G. W. Raitt came off the marine railway at Kittery on Monday, and was towed across to the Portsmouth side of the river by the steamer Mystic. The tug Ann was taken on the ways Tuesday.

Mrs. Sally Hall of South Newmarket, after having lived with Andrew Hall as his wife for twenty years, found out, after his death, that she had never been divorced from her first husband. This was not known when she applied for a pension. She is now seventy-nine years of age, and abundant evidence of the most substantial character has been presented to show that she has always borne an excellent reputation and enjoyed the respect of her neighbors, and now has their sympathy and esteem.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer im mediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. eod&wtjan22

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policyholders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25,000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*non assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. POLICE COURT.

TUESDAY, Mch. 21; *Batchelder J.*

James Gilchrist, *alias* "Scotty," was arraigned on two complaints. On the first one, for drunkenness, he was ordered to the county farm for four months, costs being taxed at $6.90. On a charge of assaulting John Welsh he was fined $20, with $6.90 costs. Scotty was only discharged from Brentwood on Monday, and celebrated his release as usual, by getting howling drunk; he is a chronic nuisance, but he is not likely to be back here again until some time next fall.

James Hurley, a marine who got drunk before going to see Buffalo Bill on Monday evening, and then made so much disturbance in the gallery that the police "snaked him out," was let off on the payment of $9.90.

James Dougherty, another marine, also paid $9.90 for one drunk had and expended.

Edward Clark, for drunkenness, was find $8, costs $6.90. Jail in default of payment.

Albert W. Ham, drunk, fine $5, costs $6.90. Brentwood.

Nellie Dickerman and Ada Clark, for drunkenness, were each fined $3; Grace Howard and Maud Kimball, for fast driving, were each fined $5; and the costs amounted to $6.90 in each case,—a total of $43.60, which was paid. A fifth woman, an inmate of the same place as the others, was arrested with them, but was dismissed.

YORK TOWN MEETING.

At the town meeting in York, Me., Monday, G. W. S. Putnam was chosen moderator, and the old board of officers re-elected, with the exception of superintending school committee, for which position George M. Payne received all the votes cast. Mr. Payne is a democrat, but was nominated by the republicans; all the other officers are republicans, and were elected by majorities ranging from forty-two to sixty.

The officers chosen are as follows: Joseph Bragdon, clerk; Geo. W. Currier, David Moulton and Rufus A. Moody, selectmen; Washington Junkins, treasurer; John H. Stewart, collector of taxes; John B. Fernald, town agent; Lemuel Mitchell, Eastman Hutchins and Wilbur F. Norton, overseers of the poor; G. W. S. Putnam, auditor; Dr. Haynes, Dr. Hawkes and Dr. Stewart, health officers; Daniel C. Goodwin, George F. Plaisted and John C. Stewart, constables.

It was voted to appropriate $1800 for the ordinary expenses of the town, and to raise $2000 toward paying the town debt; also to keep the highways in repair by a labor tax, to be worked out under the superintendence of surveyors appointed by the selectmen. The salaries of town officers will be the same as last year. It was voted to fund the town debt at a rate of interest not exceeding five per cent.

LONGEVITY IN HAMPTON.

The population of Hampton, in the year 1800, was 875; and there are now living of that number, twenty-six persons. The present number of inhabitants is nearly 1200, more than one-twelth of whom are upward of seventy years of age. There are in the town sixty-four persons between the ages of seventy and eighty years; thirty between eighty and ninety years; and seven over ninety. The average age of four persons in one family is eighty-seven years and six months.

Fishermen and wholesale fish dealers should not forget the important auction sale to-day, on Long and Commercial wharves, by Mr. Wendell, of wharf property, salt, seines and seine-boats, schooner and drag-boat, wheelbarrows, tools, etc. See advertisement.

This evening, in the Methodist church, State street, a new cantata entitled "Under the Palm" will be presented, for the first time in this vicinity. The proceeds of the entertainment will be used toward furnishing music for the coming year. The performance will commence promptly at 7:45 o'clock. See advertisement.

If pleasant this (Wednesday) evening Portsmouth Commandry, United Order of the Golden Cross, will go to South Eliot to assist in instituting a large commandry in that place. The members will leave their citadel at seven o'clock in barges.

In violation of and contempt for the act of Congress, the hours of labor on the navy yard were on Tuesday changed to ten hours a day.

Edward Jervis, for many years well known in this city as a sign-painter, has been admitted as an inmate of the Soldiers' Home at Togus, Me., and left for there on Tuesday.

The schooners Arcola, Campbell master, Triton, Freeman master, and Satellite, Adderton master, sailed for Boston on Monday, all having cargoes of brick from the yards at Eliot.

The fishing schooner Good Templar, Capt. Thomas White of Newcastle, master, was on Monday hauled out from "the pool" below the second Newcastle bridge, where she spent the winter, and towed to Newcastle by the steamer Mystic, to fit for the Grand banks. Capt. Robert White of Newcastle, and his crew, will go to Portland in the Good Templar to join their own vessel, which wintered at Portland, and fit her for the banks at once.

Mr. James Quinn has opened a barber shop on Market street, near Deer. The shop is nicely fitted up, and as Mr. Quinn is a good tonsorial artist he will no doubt have a fair share of patronage.

There were about 3000 lbs. of fish brought in on Tuesday, in lots of from three hundred to seven hundred lbs. The highest price paid was $3.75 per hundred pounds, by Randall & Caswell.

The schooner Christie Campbell, Jameson master, has completed her outfit for fishing, and will leave on the first favorable opportunity for Small Point, Me., for bait. She will fish out of Boston, for the fresh-fish market, until Christmas.

The damage done to the Tallapoosa by collision with the Plymouth while getting under weigh on Monday evening, was much less than first reported, and she proceeded on her voyage as soon as she got clear. The Plymouth's cutwater shows a big dint as evidence of the force of the blow she received.

At a meeting of the directors of the New Hampshire national bank, Tuesday, the resignation of James P. Bartlett, Esq., as president, was accepted, and E. A. Peterson, Esq., was elected president *pro tem.*

The fine sloop yacht "Sea Belle," owned by Mr. Stephen Decatur of Kittery Point, was put into the water on Monday. Since being taken up last autumn she has been lengthened several feet, had a new stern put on, and been otherwise improved, Mr. Wm. Dixon of Kittery doing the work. A new mast and a new (and said to be larger) suit of sails have been fitted for her, and she will be rigged this week. The boat travelled lively last season, and if she carries any more sail this year than she did then, we venture the assertion that so long as Mr. Decatur has all the breeze he covets he will not allow any other yacht to run by him, if the mast and canvas only hold and the Sea Belle doesn't run under.

Cuticura

Geo. W. Brown, 48 Marshall St., Providence, R. I., cured by Cuticura Resolvent (blood purifier) and Cuticura and Cuticura Soap (the great skin cures) of a Eczematous Humor got at the barber's which spread all over his ears, neck and face, and for six years resisted all kinds of treatment.

SKIN HUMOR,

F. H. Drake, Esq., agent for Harper & Bros., Detroit, Mich., gives an astonishing account of his case (eczema rodent), which had been treated by a consultation of physicians without benefit, and which speedily yielded to the Cuticura Resolvent (blood purifier) internally and Cuticura and Cuticura Soap (the great skin cures) externally.

SCALD HEAD.

H. A. Raymond, Auditor F. W., J. & S. R. R., Jackson, Mich., was cured of Scald Head of nine years duration by the Cuticura Remedies.

ECZEMA,

Hon. Wm. Taylor, Boston, Mass., permanently cured of a humor of the face and scalp (eczema) that had been treated unsuccessfully for twelve years by many of Boston's best physicians and most noted specialists, as well as European authorities.

MILK CRUST,

Mrs. Bowers, 145 Clinton St., Cincinnati, speaks of her sister's child, who was cured of milk crust which resisted all remedies for two years. Now a fine healthy boy, with a beautiful head of hair.

FALLING HAIR,

Frank A. Bean, Steam Fire Engine 6, Boston, was cured of Alopecia, or falling of the hair, by the Cuticura Resolvent (blood purifier) internally and Cuticura and Cuticura Soap (the great skin cures) externally, which completely restored his hair when all said that he would lose it.

TREATMENT,

The Cuticura treatment consists in the internal use of the Cuticura Resolvent, the new blood purifier, and the external use of Cuticura and Cuticura Soap, the great skin cures.

CUTICURA Remedies are for sale by all druggists. Price of Cuticura, a Medicinal Jelly, small boxes, 50c.; large boxes, $1. Cuticura Resolvent, the new blood purifier, $1 per bottle. Cuticura Medicinal Toilet Soap, 25c.; Cuticura Medicinal Shaving Soap, 15c.; in bars for barbers and large consumers, 50c.

A GOOD DIVIDEND PAYING INVESTMENT.

The Gifford Compo Shoe Machine Co.

CAPITAL $100,000. 2000 SHARES.
PAR VALUE $100.

Thomas J. Gifford, President;
Aug. J. Archer, Treasurer;
Wallace Hackett, Secretary.

Organized and incorporated for the purpose of manufacturing and leasing their Patent Hydraulic Compo Shoe Press.

This is the most perfect machine yet invented for attaching soles to Boots and Shoes by the Compo process. The shoes made on them are as easy and pliable as a glove, inasmuch as they have a perfectly smooth and flexible sole of solid leather, having no nails, pegs or objectionable fastenings, attached by a process which renders it strong and flexible, and impervious to dampness.

The capacity of the machine is fifteen cases per day. More than 2,000,000 pairs Misses' and Children's Shoes were made on these machines the past year, and we are now supplying machines for making Men's and Women's Boots and Shoes, which pay larger royalties. Its success is assured; and as the machines multiply, largely increased earnings and dividends will be realized.

Dividends are paid quarterly from Royalties collected on every pair of Boots or Shoes made on the machine.

We confidently offer the stock as not only a safe, but profitable investment, promising larger returns in the near future.

A few shares paying 8 per cent. per annum are offered for sale at par.

TO GRATIFY HIS WIFE.

An Interesting Story—A Hopeless Case Cured. A Good Reason for Happiness.

Statement of Mr. Washington Monroe, of Catskill, Greene County, New York.

"For many years I had suffered from a complaint which the physicians called gravel. I had employed some of the most noted doctors without obtaining any permanent relief, and for a long time my case was regarded as hopeless. All who knew the circumstances said I must die. Finally, my wife induced me to try a bottle of Dr. Kennedy's 'Favorite Remedy' which she had somewhere heard of or seen advertised. Without the slightest faith in it, but solely to gratify her, I bought a bottle of a druggist in our village. I used that and two or three bottles more, and—to make a long story short—I am now as healthy a man as there is in the country.

Since then I have recommended 'Favorite Remedy' to others whom I knew to have suffered from Kidney and Liver complaints; and I assure the public that the 'Favorite Remedy' has done its work with a similar completeness in every single instance. I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

DR. BULL'S COUGH SYRUP

"American Statesmen: John Quincy Adams;" by John T. Morse, Jr.

This is the first volume in the series of "American Statesmen," a publication designed to set forth the facts of American political history, and the main principles which underlie those facts, in a series of biographies which shall give just and accurate accounts of men and events in the political annals of our country. It is designed that a fair and impartial sketch of the men and their times should be given; not a fulsome or overdone recital. The authors are gentlemen who have made a special study of American history, and they will not only by knowledge, but as well by literary attainments, be able each to render the work assigned him, of especial value to the reader. The eras of the life of the "old man eloquent" are divided into three parts. Chapter one contains Youth and Diplomacy; chapter two, Secretary of State and President; chapter three gives his career in the House of Representatives.

This publication will be followed by "Alexander Hamilton," by Henry Cabot Lodge; "John C. Calhoun," by Dr. H. von Halst; "Andrew Jackson," by Prof. W. G. Sumner; "John Randolph," by Henry Adams. Biographies of other leading statesmen, namely, Madison, Munroe, Clay, Albert Gallatin, Patrick Henry, Jefferson, etc., are in course of preparation. Each biography will occupy a single volume, and to the young persons of our day they will be of much service in affording a concise but accurate sketch of these men so renowned in the history of our country.

The series will be issued in uniform 16-mo volumes, price $1.25 each. Houghton, Mifflin & Co., publishers, Boston. For sale by W. G. Myers, Congress street.

William H. Vanderbilt's wealth is estimated at $300,000,000. In gold it would weigh 781 tons. In $20 pieces he could construct a sidewalk forty-three inches wide and ten miles long.

The announcement is made that the health of Queen Victoria is failing.

A Fish Story.

The Norwegian barque Sidon, now in Boston, from Cardenas, reports that on the 14th of March, in latitude forty, longitude seventy-one, she sailed through large quantities of dead cod-fish, extending for a distance of about fifty miles in length. If a fisherman had come in and told such a yarn no one would have believed him. But when we reflect that a female codfish lays some two millions of eggs annually, and having seen an epidemic among menhaden when they have lain dead in this harbor by millions, it seems not at all improbable that the cod might suffer a like epidemic, and that the Norwegian captain's story is entirely truthful. The above latitude and longitude would bring the location of the dead fish about 210 miles east by south from Sandy Hook.—*Newburyport Herald.*

As the doctor turned sadly away from the patient whom he found using Dr. Bull's Cough Syrup, he said: "It beats me every time."

In Dover, last Saturday evening, a wooden building seventy feet long and thirty wide, used as a round-house by the Boston & Maine railroad, was burned. Loss about $700; covered by insurance. Two locomotives which were in the building when it took fire were run out by a watchman, one of the engines having enough steam up for the purpose.

Beauty Regained.

The beauty and color of the hair may be safely regained by using Parker's Hair Balsam, which is much admired for its perfume, cleanliness and dandruff eradicating properties.

A company for the manufacture of gloves, with a capital of $20,000, has been formed in Lancaster, and will soon begin operations.

How to Save.

All hard workers are subject to bilious attacks which may end in dangerous illness. Parker's Ginger Tonic will keep the kidneys and liver active, and by preventing the attack save much sickness, loss of time and expense. Delay at such times means danger.—*Detroit Press.* See other column.

There is a school district in Hancock where there were once 100 pupils, but this year none.

If you feel oppressed, discouraged, or out of sorts, Wheat Bitters will relieve 99 out of 100 cases. It is the great brain, blood and nerve food.

Mrs. M. J. Putnam has taught nearly fifty consecutive terms in Charlestown school.

Liver diseases, headache, and constipation, caused by bad digestion, quickly cured by Brown's Iron Bitters.

The following gentlemen voted the republican ticket at Lancaster on the 14th inst.: Abiatha Twitchell, aged ninety-two years; Edward Melcher, aged eighty-five; and Harvey Goodale, aged eighty-three.

Why We Have So Few Good Riders.

It has frequently been the subject of remark as to the cause of the scarcity of good jockeys. To be sure we have some excellent riders—Barrett, Evans, Hughes, Barbee, Feakes, and probably half a dozen others, but not more. The secret is explained in the fact that unless a jockey takes great care of himself, constant exercise in the saddle will superinduce piles of the most aggravating character, that itch intensely, particularly after getting warm in bed, and thus render him unfit for service on the track. However, if Swayne's Ointment were used, the worst case of itching piles would be speedily cured.

SWAYNES OINTMENT

AN UNFAILING REMEDY FOR ALL SKIN DISEASES such as TETTER, ITCH, SORES, PIMPLES, ERYSIPELAS, RING WORM, BLOTCHES, &c.

THE GREAT CURE FOR **ITCHING PILES**

Symptoms are—Heat, stinging, itching, worse at night; seems as if pin-worms were crawling about the rectum; the private parts are often affected. An pleasant, economical and positive cure, SWAYNE'S OINTMENT is superior to any article in the market. Sold by druggists, or send 50 cts. in 3-c. stamps for box, $1.25. Address, Dr. SWAYNE & SON, Phila., Pa.

Diphtheria.

A **cold** or **sore throat** may not seem to amount to much, and if promptly attended to can easily be cured; but neglect is often followed by **consumption** or **diphtheria.** No matter how long you have had a cough, use the remedy which acts so **quickly** and **surely** in such cases as **PERRY DAVIS' PAIN KILLER.** The prompt use of this *household remedy* has saved thousands of lives.

PERRY DAVIS' PAIN KILLER is **not an experiment.** It has been before the public for **forty years,** and is most valued where it is best known.

A few extracts from voluntary testimonials read as follows:

PAIN KILLER has been my household remedy for colds for the past twenty-seven years, and always proves known it to fail in effecting a cure.—E. S. CROCKER, Williamsville, N. Y.

For thirty years I have used PAIN KILLER, and found it a never-failing remedy for colds and sore throat.—BANTON SEAMAN.

Have received immediate relief from colds and sore throat, and consider your PAIN KILLER an invaluable remedy.—GEO. E. EVERETT, Dickinson, N. Y.

I have not recovered from a very severe cold, which I have had for some time. I could get no relief until I tried your PAIN KILLER, which relieved me immediately. I will never settle in without it.—C. O. FONCE, Lowndes, Ga.

Have used PAIN KILLER in my family for forty years, and have never known it to fail.—RANSOM LEWIS, Waynesboro, Ga.

I began using PAIN KILLER in my family twenty-five years ago, and have used it ever since, and have found no medicine to take its place.—B. W. DYER, Druggist, Oneida, N. Y.

For whooping-cough and croup it is the best preparation inside. We would not be without it.—A. P. ROUTS, Liberty Mills, Va.

For twenty-five years I have used PAIN KILLER for colds and chapped lips, and consider it the best medicine ever offered.—GEO. HOOPER, Wilmington, N. C.

I was suffering severely with bronchitis, and my throat was so inflamed I could scarcely swallow any food. I was advised to try your PAIN KILLER, and after taking a few doses was completely cured.—T. WILKINSON.

Dr. WALTON writes from Coehocton: YOUR PAIN KILLER cures diphtheria and sore throat, so alarmingly prevalent here, and has not been known to fail in a single instance. This fact you should make known to the world.

Mrs. ELLEN B. MASON writes: My son was taken violently sick with diphtheria, high fever, and cold chills. So many children have died here, I was afraid to call a physician, and tried your PAIN KILLER. He was taken on Sunday, and on Wednesday his throat was clear. It was a wonderful cure, and I wish it could be known to the poor mothers who are losing so many children.

For Chills and Fever **PAIN KILLER** has no equal. It cures when everything else fails.

Delays are often dangerous. A bottle of PAIN KILLER in the house is a safeguard that no family should be without.

All druggists sell it at **25c., 50c., and $1.00** per bottle.

NOTED MEN!

DR. JOHN F. HANCOCK, late President of the National Pharmaceutical Association of the United States, says:

"Brown's Iron Bitters has a heavy sale, is conceded to be a fine tonic; the character of the manufacturers is a voucher for its purity and medicinal excellence."

DR. JOSEPH ROBERTS, President Baltimore Pharmaceutical College, says:

"I indorse it as a fine medicine, reliable as a strengthening tonic, free from alcoholic poisons."

DR. J. FARIS MOORE, PH. D., Professor of Pharmacy, Baltimore Pharmaceutical College, says:

"Brown's Iron Bitters is a safe and reliable medicine, positively free from alcoholic poisons, and can be recommended as a tonic for use among those who oppose alcohol."

DR. EDWARD EARICKSON, Secretary Baltimore College of Pharmacy, says:

"I indorse it as an excellent medicine, a good digestive agent, and a non-intoxicant in the fullest sense."

DR. RICHARD SAPINGTON, one of Baltimore's oldest and most reliable physicians, says:

"All who have used it praise its standard virtues, and the well-known character of the house which makes it is a sufficient guarantee of its being all that is claimed, for they are men who could not be induced to offer anything else but a reliable medicine for public use."

Frauds in American Cotton.

There is much complaint made in English manufacturing districts of the adulteration of American cotton. It is charged that the cotton is not only wet with water and steamed, in order to give it extra weight, but that dust and sand are mixed with it for the same purpose. Albert D. Shaw, the United States consul at Manchester, England, has carefully investigated these complaints, and the result is set forth in his report to the State Department for 1881.

The most serious charge is that of the mixing of dust and sand with the cotton. Mr. Shaw says some of the cases which have been brought to his attention are of a shameful description. In the course of his inquiries he was told: "Oldham has to purchase, at the price of cotton, thousands of tons of white and red sand every year." He expresses the opinion that hundreds of tons, instead of thousands, would be nearer the truth, but adds: "The undoubted presence of sand and damp, in large percentage, in bales of our cotton, is a scandal that cannot be exposed and the frauds done away with a day too soon."

In some cases he says the sand is evidently thrown into the cotton during the process of packing, in shovelfuls. One of the largest consumers of American cotton in Lancashire, whose supply is mostly from New Orleans, mentioned a case in which nearly one hundred pounds of sand was found in one bale of cotton. Cases were brought to Mr. Shaw's attention, in which from twenty to eighty pounds of sand was found in the middle of the bales. There was evidence from the caking and discoloration that the cotton had also been wet. In some cases the sand is so very fine and white that it escapes detection at the first glance. An Oldham spinner thinks sand and dust must be blown into the cotton by some process at the time of or prior to the packing. In other cases red sand is distributed so evenly through the bale as to give the cotton a deep red color. It is alleged that the amount of damp in American cotton is increasing, and sometimes the cotton is caked in layers, as though water had been thrown in, during the process of packing. There is also complaint of the mixing of different grades of cotton in the same bale. This becomes more important in view of the fact that the use of Indian cotton is increasing, since it, as well as the Egyptian cotton, is better packed and freer from damp and sand than the American cotton. Formerly much complaint was made of the adulteration of Indian cotton, but now as the result of careful inspection by the large houses purchasing from the native growers, the cotton of India is noted for its purity. Mr. Shaw says he is satisfied that the fraudulent practices are limited in extent, and that the great body of American cotton is honestly put upon the market. Yet he thinks the frauds which are perpetrated are far too numerous and inexcusable, and a remedy should be sought at once.

The Swindling "Nobleman."

The Marquis of Huntley, against whom a warrant was issued at the Mansion house, London, for obtaining a large sum of money from Benjamin Nicholson under false pretences, some time since, surrendered himself at the Bow street police court in London on the 21st inst. He was remanded and subsequently admitted to bail, furnishing £2,000 himself, and two other sureties for the same amount each. After leaving the Bow street police court, he was arrested on two Mansion house warrants; in these bail was given in two sureties of £5,000 each, and two of £2,500 each.

A Cure at Last.

Specifies without number for the cure of catarrh have been extensively advertised, and doubtless there is some virtue in them all, but the evidence is overwhelming that Ely's Cream Balm goes more directly than any other to the seat of the disease, and though it is a comparatively new discovery, it has resulted in more cures within the range of our observation than all the others put together. Wilkesbarre, Pa. *Union Leader*, Dec. 19, 1879.

It is no exaggeration to say that Ely's Cream Balm is a cure for catarrh, hay fever, etc., for many cures have been made among my customers. Cream Balm should be resorted to by every one thus afflicted. With me no other remedy has ever equaled the Balm either in good results or sales. A. J. ODENWELDER, Druggists, Easton, Pa. Oct. 2, 1880. Price fifty cents.

At Newport, on the 21st inst., Henry A. Dickinson's new house and barn were burned by the explosion of a kerosene lantern. Loss $2,200.

Liver diseases, headache, and constipation, caused by bad digestion, quickly cured by Brown's Iron Bitters.

H. H. Shepard has just completed a new steam saw mill at Ashland at an expense of $10,000. It is understood that he intends to build several tenement houses.

Flies and Mosquitoes.

A 15c box of "Rough on Rats" will keep a house free from flies, mosquitoes, rats and mice, the entire season. Druggists.

See Here.

You are sick; well, there is just one remedy that will cure you beyond a possibility of doubt. If it's liver or kidney trouble, consumption, dyspepsia, debility, Wells' Health Renewer is your hope. One dollar. Druggists. Depot Thacher's.

Exeter at the late town meeting voted to have the old town records copied, and appriated $250 for the purpose.

The Inconsistency of Man.

Scheming, diverse, and manifold advertisements of worthless goods, will never attract profitable customers; only meritorious articles such as Swayne's Ointment for skin diseases, are recognized and sought after by the people. Real worth always receives its just merit, A man may profit for a while by imposing upon the public, but it is only a question of time when he will reach the end of his rope. Man has never dared to doubt the efficacy of this great vegetable Ointment.

Richmond is a town which does not make a great stir in the world, but always pays her bills promptly. She has a surplus above indebtedness of $1,719.18.

Life, when we pause to contemplate the hurrying throng rushing madly through the world, is too brief to spend much of it in pain, especially when a fifty cent bottle of St. Jacobs Oil will afford immediate relief. Millions say so, and they seem to know whereof they speak. The LaFayette (Ind.) *Courier*, in a late issue, says: Mr. Wendling, who as many of our readers may know, was a short time ago seriously afflicted with severe sickness, stated that while thus confined to bed for five weeks, during which his left leg was powerless, his attention was called to a statement in the *Courier* of wonderful cures effected by the St. Jacobs Oil. He sent for a bottle of this great German remedy, and states that after using the article for but a few days he was on his feet again, and that it entirely cured him. As such information is not only pleasing, but of great interest to everybody, we cheerfully give our readers the benefit thereof, and we congratulate our friend on his recovery, and the public on the fact that a reliable cure for one of the most painful of all ailments has at last been found.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful indiscretion causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self-cure, which he will send FREE to his fellow-sufferers. Address J. H. REEVES, 43 Chatham St., N. Y. eod6w13

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Charles F. Libby, republican, was on the 22d inst. elected mayor of Portland, Me., by the city councils, by a vote of eighteen to nine. Mayor Libby qualified immediately.

Why We Have So Few Good Riders.

It has frequently been the subject of remark as to the cause of the scarcity of good jockeys. To be sure we have some excellent riders—Barrett, Evans, Hughes, Barbee, Peakes, and probably half a dozen others, but not more. The secret is explained in the fact that unless a jockey takes great care of himself, constant exercise in the saddle will superinduce piles of the most aggravating character, that itch intensely, particularly after gettingwarm in bed, and thus render him unfit for service on the track. However, if Swayne's Ointment were used, the worst case of itching piles would be speedily cured.

Portsmouth Chronicle.

THURSDAY, MARCH 23. 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

For Chief Constructor, a Line Officer.

The senate's executive session on Monday was wholly consumed in debate on the nomination of Samuel Seabury, of New York, to be a naval constructor. He is now a master in the line, and his confirmation was opposed on the ground that to make him a full naval constructor would be unjust to the assistant naval constructors, whose claims for promotion are ignored by the proposed appointment. The senate adjourned without reaching the point of final action in the case.

The precedent sought to be established in this case is of so much importance that it is hardly possible that the nomination will be confirmed unless after a severe struggle.

The proposal to "jump" a line officer of the navy, who cannot possibly be a practical and experienced ship-builder, over the heads of a number of men who are shipbuilders, is certainly prompted by some other motive than admiration for Master Seabury's abilities as a practical mechanic.

The Lawrence Strike.

At six o'clock in the evening on the 21st inst. the gates of the Pacific mills at Lawrence, Mass., were closed, to remain shut, so far as mill help is concerned, indefinitely. The weavers and spinners, who have committees canvassing the city for aid to enable them to maintain their position, claim that they will be fully sustained by the citizens; but those who were free with promises heretofore now appear among the foremost to deplore the situation. By the strike and lockout there are stopped 135,000 cotton spindles, 25,500 worsted spindles, 4500 looms, and other machinery, throwing fully 5300 employes out of work. The closing of the mills casts a gloom over the city. The print works and dyeing departments will continue to be operated, for the dyeing mills have now on hand work enough to last until the change of the season, which occurs next May. For the print works, as heretofore, cotton cloth will be purchased and the works kept in operation.

The superintendent of the mills, Mr. Stone, when interrogated in relation to the length of time the mills would be stopped, said it depended largely on the disposition of the strikers and the condition of the market. If the market brightened in two weeks and the strikers refused to return to work, help could be imported from Bradford, England, where there is now a large amount of unemployed skilled labor. He could not state how long the mills would remain inoperative, but the mills stopped needed improvements in machinery and buildings, which would be prosecuted with vigor.

None of the discharged employes received their pay for the past three weeks, but it is understood they can have it at any time by applying at the office. As the actual number of strikers does not exceed 2000, others thrown out of work denounce the action of the former, especially the weavers, who when the nature of their work is taken into consideration, it is alleged have received better pay for years than any other class employed by the corporation.

News and Notes.

At the cabinet meeting on the 21st inst., the court-martial case of Cadet Whittaker was taken up and disposed of by disapproving the sentence of dismissal from the sentence imposed by the court, on the ground that the technical evidence taken at the trial was improperly introduced, thus sustaining the opinion of the judge advocate general. Whittaker will be dismissed from the service on the recommendation of the examining board at West Point, for deficiency in his studies.

Royal B. Conant, who was sentenced March 5th, 1880, to five years' imprisonment in the jail at Dedham, Mass., for the embezzlement of $70,000 from the Eliot national bank of Boston, has been pardoned by President Arthur. The reasons assigned for the pardon were that Conant's health has become greatly impaired, and that the ends of justice have been substantially satisfied by his imprisonment for two years.

Some of the guzzling congressmen who went to Cleveland to attend the funeral of Gen. Garfield are relieved by the announcement that the vouchers have been destroyed by Representative Page, who will report the aggregate sums without giving any items. This confirms the rumors about the large charges for wines and liquors.

The governor of Michigan has issued an address to the public tendering thanks on behalf of the state for generous and prompt contributions to the sufferers by the forest fires last year, and announcing that no more contributions are needed.

George Ellis, who made a confession concerning the murder of the Gibbons family at Ashland, Ky., and testified against Croft and Neal, who were convicted of murder, called a notary public into the jail, on the 21st inst., and made an affidavit that his confession and testimony were not true.

The president has approved the joint resolution appropriating $150,000 for the benefit of the sufferers from the Mississippi floods.

At Sweetbrier, forty miles west of Bismarck, Dakota, on the line of the Northern Pacific railroad, a work train went through a bridge on the 21st inst., and was followed by a passenger train. Thirty persons were reported killed, and many wounded.

The action brought by Mary E. Parker against the Boston & Albany railroad company to recover damages for injuries received by her while a passenger on the defendant's road, resulted on the 20th inst. in a verdict of $15,000 in her favor, which is $2,000 more than a previous verdict, set aside by Judge Aldrich because it was excessive. Mrs. Parker purchased a ticket from New York for Boston, and took passage on an express train which did not advertise to stop between South Framingham and Boston. On that day, however, the train came to a stop at Newton, where Mrs. Parker lived, and while she was getting off the train started and she was seriously injured. Stillman B. Allen, Esq., was counsel for the plaintiff.

Judge Advocate General Swaim has made a report to the secretary of war upon the case of Sergt. Mason, in which it is understood he recommended a modification of the latter's sentence. The ground upon which he bases this recommendation is that Guiteau was not in position where he could possibly have been killed by Mason when the latter fired the shot, and that under such circumstances the charge of assault with intent to kill cannot be sustained. This view of the case is said to be supported by a long line of precedents.

A tramp called at the house of S. J. P. Barnes, of Norwich, Conn., and asked for a meal, which was given him. He then demanded that Mrs. Barnes should mend his clothes, which the lady declined to do. That night the house was set on fire, and other property was destroyed, the loss amounting to $10,000.

The destitution and distress in the overflowed districts of the south are increasing rapidly. Miasma from decaying animal and vegetable matter is an additional danger now threatening.

Railroads in the Rocky mountain region are blocked by heavy snow storms. A number of persons were killed by a snow slide at Genoa, Nevada.

A Rome despatch says there is a prospect of the re-opening of the Antonelli will case, the court of cassation having decided that the Countess Lambertini, who alleges that Cardinal Antonelli was her father, has a right to call evidence in regard to her paternity and the fraud which she asserts exists in the register of her baptism.

Bishop Healey, of the Catholic diocese of Portland, has appointed Father Ryan of Houlton, Me., to the pastorate of the Catholic parish in Newmarket. Father O'Sullivan, assistant pastor at Great Falls, has been appointed to succeed Father Ryan at Houlton.

—Lord Sherbrook's butler caught a burglar in his lordship's town house. "William," said the peer to a page, "go into the kitchen and tell a policeman or two to come up." William, amazed at the order, went, and soon returned with the news that there was no policeman on the premises. "A plain cook and three housemaids in my employ, and no policeman in the kitchen!" said Lord Sherbrook. "It's a miracle! Butler, let the man go immediately!"

—Mrs. Smith (sympathetically)—"Poor Mrs. Siren! They say she has been ordered to a warmer climate. Do you think she will go?" Mrs. Brown (grimly)—"No, not while she lives."

Relief for the destitute wife and child of Sergeant Mason is being received from all parts of the country.

A barque which arrived at New York from Antwerp on the 15th inst., reported that on the 11th, on Georges bank, she "sailed through fifteen miles of dead cod-fish, and some wreckage." This was very naturally supposed to indicate that some fishing vessel had gone to pieces on the banks, but later reports indicate that the floating fish died "on their own hook," and not through the arts of the fisherman. A barque which arrived at Boston on the 18th inst. from Cardenas, reported that on the 14th she sailed through a mass of dead cod-fish extending for fifty miles, about latitude forty, longitude seventy-one; and a steamer which arrived at New York from Cuba on the 20th, reported having struck an immense school of dead fish, floating on the water, about a hundred miles south of Barnegat, the school extending fifty or more miles. The following, which we clip from the Boston *Globe* of Wednesday, the 22d inst., tends to show that the fish which have been dying in such vast numbers are something very different from the genuine "Cape Ann turkey:"

During the past few days there have arrived at this port a number of vessels from foreign ports, and in almost every case the captains have reported passing through large quantities of dead fish, which they suppose to be cod-fish. The mariners could form no theory for these fish fatalities. Many of them supposed that some fishing vessels were lost, and that these floating dead fish came from the holds of the vessels. Yesterday afternoon a foreign bark arrived at this port, and the captain, on being interviewed, stated that he had passed through large quantities of floating dead fish. Some of the crew caught thirty or forty of them. They were, the captain says, as hard as a rock, and had a head similar to that of a dolphin, and covered with large scales. They were not in any way decomposed, and the steward boiled some of them. The crew agreed with the captain that they had never eaten any sweeter fish. It is the opinion of the captain that these dead fish were inhabitants of the water south of the Gulf Stream, and that they had been forced up into colder water by the strong currents, where they had frozen to death. The fish weigh from eight to twenty pounds each.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00.—*not assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
March 23, 12:00 A. M.

Probabilities for New England:—

Light snow followed by clearing weather, stationary or slight fall in temperature, northwest to southwest winds and higher barometer.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 22 degrees above zero.

Sky clear.

TELEGRAPH CONSOLIDATION.

Our neighbor of the *Times*, on the 20th inst., published a despatch from New York asserting that the Mutual Union Telegraph Co. "has already agreed to transfer its wires to the Western Union," perfacing the despatch with the remark that it "may be of interest to those of the city government who were in favor of allowing the Mutual Union company to set up poles in our streets. As all sensible persons believed, the company was established for the sole purpose of making money by selling out."

On the 20th and 21st the same rumor of consolidation was repeated, with the additional information that three men who hold a majority of the Mutual Union stock were about to sell their interest in the new company to the managers of the Western Union.

Mr. D. J. Hern of Boston, superintendent of the Mutual Union between Hartford, Conn., and Bangor, Me., on the 22d. said he had the best of reasons for doubting the truth of these rumors, as he had since the 18th received from the managers in New York authority to close several important contracts, which would not have been approved did the managers propose to sell out; and on the same date Mr. George Wm. Ballou, vice president of the Mutual Union, telegraphed from New York that there was no truth whatever in the stories about consolidation, and no foundation of any kind for them.

This also "may be of interest to those of the city government who were in favor of allowing the Mutual Union company to set up poles in our streets."

ROLL OF HONOR.

The following-named pupils of the district schools of this city were neither absent nor tardy during the year ending December 31st, 1881:

District No. One—Harry E. Boynton, Tobias Burke, Frank Moore, Lillie M. Plaisted, Alice M. Lord and Carrie Wain.

District No. Two—Clara Goss.

District No. Three—Lily Haley, William Randall, Charles Lowd, Alice Fletcher, Clifton Humphreys and Elliot Harriman.

TEN HOURS VS. THE LAW.

The laborers of the Brooklyn, N. Y., navy yard, who founded a union some time ago in connection with the laborers of the Portsmouth and other navy yards, held a meeting on the evening of the 21st inst., at which it was stated that their demand for pay for overtime since the disregarding by the authorities of the eight-hour law of 1868, had been laid before President Arthur, who had referred it to Attorney General Brewster, from whom a favorable opinion is soon expected. General Butler is the counsel of all the unions, which comprise some 8000 people, and if the decision is against them a case will be brought by him in April in the United States court of claims. The claim of the workmen is a legal one, for the law is explicit, and has been and is now being openly set at defiance by the men being required to work ten hours a day, when the act of Congress says that eight hours shall constitute a day's work.

YOUNG MEN'S CLUB.

The adjourned meeting of the proposed young men's club was held in the common council room on the evening of the 21st inst., and was well attended. The constitution and by-laws drafted by a committee appointed at the previous meeting were adopted with some slight amendments, and a permanent organization was effected by the choice of the following officers:

President, Andrew P. Preston; vice president, Edward C. Stimson; secretary, Frank L. Pryor; treasurer, William C. Robinson; executive committee, Wm. Russell Foster, Gustave Peyser and Frank Williams.

The constitution adopted provides that the club shall be called "The Portsmouth Young Men's Club," the purpose of which shall be the advancement of the interests of the city, and the social and business relations of its members. The meetings of the club will be held once each month, when questions of interest will be discussed.

SALE OF WHARF, ETC.

Drisco's wharf, the schooners Rover's Bride and Little Kate, the brick house and store at the head of Long wharf, salt in bond, seines and seine-boats, etc., belonging to C. Morris Tredick, were sold at auction on Wednesday, the 22d inst., Mr. H. F. Wendell being the auctioneer. There was a large attendance at the sale, Boston, Gloucester and Portland being represented. The buyers were mostly residents in this city, the principal lots being sold as follows:

Drisco's wharf, for $600 to John S. Hontvet.

Dwelling and store, head of Long wharf, $1030; lot of land on Water street, $200; George Scott.

Schooner Rover's Bride (seven-eighths,) $625; Samuel Cole of Eliot.

Schooner Little Kate, $88; seine-boat, $6.25; Howard C. Russell.

Salt, 150 hds., $1.65 per hd.; Fairbanks scale, $14.75; clock, $10; Rider & Cotton.

Salt, 1050 hds., $1.50 per hd.; E. F. Sise & Co.

One seine-boat, $40; one seine 185 fathoms long, $115; fifty hogsheads salt, $1 per hd.; 500 box shooks, 27 1-2 cents per shook; Randall & Caswell.

Office safe, $33.50; Thomas J. Sheehan.

Fairbanks scale, $15.50; Charter Oak company.

Seine-boat, $23; G. J. Tarr, of Gloucester.

Seine, 208 fathoms long, $352; seine, 185 fathoms long, $109; seine-boat, $11; D. C. & H. Babson, Gloucester.

Lot of wood, old spars, etc., bid off by Oscar Johnson.

Sundry other small articles and lots were sold, to the amount of about $200, E. S. Newton & Co. and George Herbert & Co. being the principal buyers. The total amount of the sale was about $5500.

Three runaway boys from Manchester were taken in charge by the police on the 22d inst., and returned to their homes. They said they came down to have a look at the ocean.

City Marshal Entwistle on the 22d inst. received a summons to Washington to show cause, if any he has, why Mr. William Chandler should not be appointed secretary of the navy.

The dredgers finished their work at Kittery Point on Tuesday of this week, having excavated a channel two hundred feet long and twenty feet wide, with a depth of water of seven and a half feet at low tide; and also a basin at the landing which will enable the steamers to turn around on leaving the wharf.

Mr. George P. Abbott, who was at work in the office of Hon. Frank Jones on Market street, Tuesday of this week, fell about thirteen feet from the top of a ladder, striking on some barrels and receiving severe bruises, but was able to work the next afternoon.

A dance by the young folks of Newcastle, which was to have been held in the town hall of that place on Tuesday evening, the 21st inst., was postponed on account of the illness of Capt. Thomas White, of the schooner Flying Cloud. Fears are entertained of his not recovering, and his family have the sympathy of many friends in their affliction.

The purchaser of the Drisco wharf on Wednesday of this week was given a clear title to the property, which has not been had before for the last hundred years.

The steamer Acushnet left Boston on her regular trip for this port on Tuesday, the 21st inst., and got as far as buoy No. 3, Boston harbor, but had to put back again on account of heavy weather. She will not leave for here again until Friday.

Mr. George Herbert is to occupy the house and saloon at the head of Long wharf, lately owned by Mr. C. Morris Tredick, and bought by Mr. George Scott at auction on Wednesday.

A floating stage is to be placed at the steamboat wharf, Newcastle, for the accommodation of the steamers Fearless and James Sampson.

The woods in the vicinity of Sturgeon creek, Eliot, are rapidly disappearing before the blows of the woodchopper's axe. During the winter just ended—the almanac says it is ended—Samuel Clark has had cut one hundred cords of firewood; James H. Coleman, two hundred and forty-five cords; John Mathes, seventy-five cords. Mr. H. P. Abbott, proprietor of the steam brick-yard, has also had cut a considerable quantity from his premises. An Eliot company, including Mr. Abbott and others, last year bought an extensive wood lot near Mt. Agamenticus, York, and have had cut there during the winter a large quantity of fuel. Wm. Norton, a Portsmouth boy about nineteen years old, has chopped ninety cords of woods since last fall, and says he will not stop until he has credit for a hundred cords—the largest amount chopped by any one person in Eliot or vicinity the past winter. The price paid for cutting and "cording-up" wood has been from sixty to seventy cents per cord, which does not seem to be an extravagant remuneration.

A Cough, Cold or Sore Throat
Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. cod&wijan82

A Royal Gift of a $1,000,000.
The celebrated Charity Hospital will engage the attention of the many visitors who will throng to New Orleans this summer to the bi-centennial landing of La Salle at New Orleans. It is a historical institution, and has by the Divine blessing saved the lives of innumerable thousands of maimed, wounded, injured, and sick sufferers—of all nationalities and religions, races and colors. It is now, and has been, supported by the royal gift of $1,000,000 made by the Louisiana State Lottery Company in quarterly payments. For all information about the Hospital or the Lottery Drawing, write before the next one on April 11th to M. A. Dauphin, New Orleans, La.

Cuticura

A GOOD DIVIDEND PAYING INVESTMENT.

The Gifford Compo Shoe Machine Co.

CAPITAL $100,000. 1000 SHARES. PAR VALUE $100.

Thomas J. Gifford, President;
Aug. J. Archer, Treasurer;
Wallace Hackett, Secretary.

Organized and incorporated for the purpose of manufacturing and leasing their Patent Hydraulic Compo Shoe Press.

This is the most perfect machine yet invented for attaching soles to Boots and Shoes by the Compo process. The shoes made on them are as easy and pliable as a glove, inasmuch as they have a perfectly smooth and flexible sole of solid leather, having no nails, pegs or objectionable fastenings, attached by a process which renders it strong and durable, and impervious to dampness.

The capacity of the machine is fifteen cases per day. More than 2,000,000 pairs Misses' and Children's Shoes were made on these machines the past year, and we are now supplying machines for making Men's and Women's Boots and Shoes, which pay larger royalties. Its success is assured; and as the machines multiply, largely increased earnings and dividends will be realized.

Dividends are paid quarterly from Royalties collected on every pair of Boots or Shoes made on the machine.

We confidently offer the stock as not only a safe, but profitable investment, promising larger returns in the near future.

A few shares paying 5 per cent. per annum are offered for sale at par.

The Science of Life, or Self-Preservation, is the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single of either sex can either require or wish to know, but what is fully explained. In short, the book is invaluable to all who wish for good health.—*Toronto Globe.*

The book for young men, the middle aged men to read just now is the Science of Life, or Self-Preservation. It is worth many times its weight in gold.—*Medical Times.*

The author of the Science of Life is a noble benefactor. He reaches the very roots and vitals of disease, and is enabled to apply thorough remedies. The book already is read upon both continents by millions.—*London Issues.*

The Gold and Jewelled Medal awarded the author of the Science of Life was fairly won and worthily bestowed.—*Massachusetts Ploughman.*

Thousands of extracts similar to the above could be taken from the leading journals—literary, political, religious and scientific—throughout the land.

The Book is guaranteed to be a better medical work, in every sense, than can be obtained elsewhere for double the price, or the money will be refunded in every instance.

TO GRATIFY HIS WIFE.

An Interesting Story—A Hopeless Case Cured. A Good Reason for Happiness.

Statement of Mr. Washington Monroe, of Catskill, Green County, New York.

"For many years I had suffered from a complaint which the physicians called gravel. I had employed some of the most noted doctors without obtaining any permanent relief, and for a long time my case was regarded as hopeless. All who knew the circumstances said I must die. Finally, my wife induced me to try a bottle of Dr. Kennedy's 'Favorite Remedy' which she had somewhere heard of or seen advertised. Without the slightest faith in it, but solely to gratify her, I bought a bottle of a druggist in our village. I used that and two or three bottles more, and—to make a long story short—I am now as healthy a man as there is in the country.

Since then I have recommended 'Favorite Remedy' to others whom I knew to have suffered from Kidney and Liver complaints; and I assure the public that the 'Favorite Remedy' has done the work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

Dr. BULL'S COUGH SYRUP

For the Cure of Coughs, Colds, Hoarseness, Croup, Asthma, Bronchitis, Whooping Cough, Incipient Consumption and for the relief of consumptive persons in advanced stages of the Disease. For Sale by all Druggists.—Price, 25 cents.

Farm Help.

This question of help is one of a great deal of interest, and has quite an important bearing upon the agricultural development of the state in the future. The case has some aspects that were not touched upon by our correspondent. It has been the custom from time immemorial for most men to hire their help in the spring for the season, or until the crops are harvested in the fall. Then follow three or four months in which the farmer gets along without help, doing his chores himself, while the hired man is out of a job, and must either live upon what he has earned through the summer or get work from other sources. This is not the case in other kinds of business. There men work the year round, and often year after year in the same place. A man likes to be in a kind of business that will give him steady work at a fair compensation. An occupation that complies with these conditions will find a plenty of help that can render efficient services.

Now it is not possible for the farmer, who needs to hire at all, to so arrange his work that he can profitably employ the same amount of help in the winter as in the summer. It has come to this, that the winter season is the most profitable time to make butter, and many farmers make fully as much in winter as in summer. Dairying in winter calls for much additional labor, certainly if it is to be made profitable. There are many things that may be done in the winter season that will help to equalize the work throughout the year. We alluded to this as one of the points touching this question of help. The employer wants efficient help, the employed want steady work and fair compensation for the labor performed. The relation between the two will be governed by the same laws as are all other kinds of business, the natural laws of trade, in which both parties have their just and equal rights:—*Vermont Farmer.*

A strike of cotton-mill operatives is threatened at Biddeford. Unless the hours of labor are reduced, and in some cases wages raised, it is believed a general strike will be inaugurated within a few weeks. The operatives of the York, Pepperell and Laconia companies, who contemplate this movement, are about 4,500 in number.

The fishing schooner Pioneer, Noels master, arrived at Halifax, N. S., on the 21st inst., having had her deck swept, boats stove, and been badly strained, in a tremendous gale on Georges bank on the 18th; she also lost her anchors and cables, and had two men swept overboard, but they were swept back again by a reflex wave. During the gale the Pioneer saw two other fishing vessels, lying near by, go down with all hands; no aid could be rendered to the sinking vessels. The schooner Midnight, of Gloucester, also arrived at Halifax on the 21st, leaking, and with her fore-rigging carried away and dories smashed, having experienced very heavy weather on the Western banks on the 18th.

Some heathen are not as much of the heathen as we think; read a Mahometan proverb, "God has bestowed the good things of this world to relieve our necessities, not to reward our virtues; these will be rewarded in another world." We know of no greater necessity to be relieved, than a stubborn cold, and we know of no better relief than Dr. Bull's Cough Syrup.

J. W. Henderson of Dover, who spends his winters at St. Augustine, Fla., has recently been admitted to the bar at that place. The gentleman is quite a large property holder at Dover, where he resides, excepting in winter, when he goes south.

Not a drink, not sold in bar-rooms, but a reliable non-alcoholic tonic medicine, useful at all times, and in all seasons, is Brown's Iron Bitters.

THE GREAT CURE FOR ITCHING PILES

Symptoms are moisture, stinging, itching, worse at night; seems as if pin-worms were crawling about the rectum; parts become excoriated and often affected. An pleasant, economical and positive cure, SWAYNE'S OINTMENT is superior to any article in the market. Sold by druggists, or sent by mail for 50 cts. in 3-ct. stamps. 3 boxes, $1.25. Address, DR. SWAYNE & SON, Phila., Pa.

Diphtheria.

A cold or sore throat may not seem to amount to much, and if promptly attended to can easily be cured; but neglect is often followed by consumption or diphtheria. No medicine has ever been discovered which acts so quickly and surely in such cases as PERRY DAVIS' PAIN KILLER. The prompt use of this *invaluable remedy* has saved thousands of lives.

PERRY DAVIS' PAIN KILLER is not an experiment. It has been before the public for forty years, and is most valued where it is best known.

A few extracts from voluntary testimonials read as follows:

PAIN KILLER has been my household remedy for colds for the past twenty-seven years, and have never known it to fail in effecting a cure.—R. S. CROCKER, Williamsville, N. Y.

For thirty years I have used PAIN KILLER, and found it a never-failing remedy for colds and sore throat.—HARRISON SEAMAN.

Have received immediate relief from colds and sore throat, and consider your PAIN KILLER an invaluable remedy.—GEO. R. EVERETT, Dickinson, N. Y.

I have just recovered from a very severe cold, which I have had for some time. I could get no relief until I tried your PAIN KILLER, which relieved me immediately. I will never again be without it.—G. O. FORCE, Lawrence, Ga.

Have used PAIN KILLER in my family for forty years, and have never known it to fail.—RANSOM LEWIS, Waynesboro, Ga.

I began using PAIN KILLER in my family twenty-five years ago and have used it ever since, and have found no medicine to take its place.—B. W. DYER, Druggist, Oneida, N. Y.

For whooping-cough and croup it is the best preparation made. We would not be without it.—A. P. ROUTS, Liberty Mills, Va.

For twenty-five years I have used PAIN KILLER for colds and chapped lips, and consider it the best medicine offered.—ORA COOPER, Wilmington, N. C.

I was suffering severely with bronchitis, and my throat was so inflamed, I could scarcely swallow any food. I was advised to try your PAIN KILLER, and after taking a few doses was completely cured.—T. WILKINSON.

Dr. WALTON writes from Coshocton: YOUR PAIN KILLER cures diphtheria and sore throat, so alarmingly prevalent here, and has not been known to fail in a single instance. This fact you should make known to the world.

MRS. ELLEN B. MASON writes: My son was taken violently sick with diphtheria, high fever, and cold chills. So many children have died here, I was afraid to call a physician, and tried your PAIN KILLER. He was taken on Sunday, and on Wednesday his throat was clear. It was a wonderful cure, and I wish it could be known to the poor mothers who are losing so many children.

For Chills and Fever PAIN KILLER has no equal. It cures when everything else fails.

Delays are often dangerous. A bottle of PAIN KILLER at the house is a safeguard that no family should be without.

All druggists sell it at 25c., 50c., and $1.00 per bottle.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breath through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing it thoroughly.

Hay-FeveR

A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

Back Ache

POSITIVELY CURED BY

Benson's Capcine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.

Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination, which acts with increased rubefacient, stimulating, sedative and counter irritant effects.

Second.

Because they are a genuine pharmaceutical preparation, and so recognized by the profession.

Third.

Because they are the only plasters that relieve pain at once.

Fourth.

Because they will positively cure diseases which other remedies will not even relieve.

Fifth.

Because over 5000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use.

Sixth.

Because the manufacturers have received the only medals ever given for porous plasters.

NOTED MEN!

DR. JOHN F. HANCOCK, late President of the National Pharmaceutical Association of the United States, says:

"Brown's Iron Bitters has a heavy sale, is conceded to be a fine tonic; the character of the manufacturers is a voucher for its purity and medicinal excellence."

DR. JOSEPH ROBERTS, President Baltimore Pharmaceutical College, says:

"I indorse it as a fine medicine, reliable as a strengthening tonic, free from alcoholic poisons."

DR. J. FARIS MOORE, PH. D., Professor of Pharmacy, Baltimore Pharmaceutical College, says:

"Brown's Iron Bitters is a safe and reliable medicine, positively free from alcoholic poisons, and can be recommended as a tonic for use among those who oppose alcohol."

DR. EDWARD EARICKSON, Secretary Baltimore College of Pharmacy, says:

"I indorse it as an excellent medicine, a good digestive agent, and a non-intoxicant in the fullest sense."

DR. RICHARD SAPINGTON, one of Baltimore's oldest and most reliable physicians, says:

"All who have used it praise its standard virtues, and the well-known character of the house which makes it is a sufficient guarantee of its being all that is claimed, for they are men who could not be induced to offer anything else but a reliable medicine for public use."

A Druggist Cured.

Boonsboro, Md., Oct. 22, 1880.
Gentlemen: Brown's Iron Bitters cured me of a bad attack of Indigestion and fullness in the stomach. Having tested it, I take pleasure in recommending it to my customers, and am glad to say it gives entire satisfaction to all."
GEO. W. HOFFMAN, Druggist.

Ask your Druggist for BROWN'S IRON BITTERS, and take no other. One trial will convince you that it is just what you need.

WHEAT BITTERS

THE Great LIQUID FOOD FOR BLOOD, BRAIN AND NERVES.

☞ A SUPERIOR NUTRITIVE MEDICINE, RICH IN PHOSPHATES AND NOT A CHEAP, ALCOHOLIC DRINK. ☞ Highly recommended by Chemists and Physicians as

A GOOD TONIC, ALWAYS ACCEPTABLE AND RELIABLE,

as it does not stimulate the brain or irritate the system and leave deleterious effects. On the contrary, it furnishes just that which is necessary to the brain, strengthens and quiets the nerves, purifies the heart's blood, and thereby makes only the best flesh, bone and muscle. ☞ It works wonders, curing NERVOUS and GENERAL DEBILITY, MALARIA, DYSPEPSIA, INSOMNIA. Produces a healthy action of the Liver and Kidneys, fortifying the system against the miasmatic influences, and will be found invaluable in all pulmonary and bronchial difficulties. DELICATE FEMALES, NURSING MOTHERS and WEAKLY CHILDREN can find no remedy equal to this healthful blood and nerve food tonic. ☞ For sale by all Druggists. $1.00 per bottle. Prepared only by WHEAT BITTERS CO., Office 19 Park Place, New York City.

SULPHUR BITTERS

The Greatest Blood Purifier ON EARTH.

This Great German Medicine is composed of Sulphur, Yellow Dock, Mandrake, Dandelion, Juniper Berries, etc., combined with the Extract of Sulphur, which makes it the Greatest Blood Purifier known. Do not over take

BLUE PILLS

or arsenic, they are deadly. Your Kidneys are worse than a SULPHUR BITTERS, the purest and best medicine ever made. Dose, one wineglass. SULPHUR BITTERS will cure you, use with a yellow sticky substance? Is your Sulphur Bitters! intensive? Your stomach out of order? Y.—Agents wanted everywhere.

Daily Chronicle.

The body of Henry Spires of Taylor township, Harrison county, Ia., was found hanging to the limb of a tree in front of his father-in-law's house. His throat was cut from ear to ear. The deceased was in Nebraska when his wife, who was in Iowa, sent for him to come and take her away. On his return his father-in-law, Phillips, refused to admit him to the house.

The secretary of war has ordered 300,000 rations to be issued at New Orleans for the benefit of Louisiana, 200,000 at Memphis, Tenn., for the state of Mississippi, 50,000 at Helena, for Arkansas, and 10,000 each at Charleston, New Madrid and Gayoso for the state of Arkansas. These are the first rations issued to the overflowed districts under the last congressional appropriation of $150,000.

The steam yacht Sidney L. Wright, which sailed from New York Jan. 2d for Porto Rico, has undoubtedly been lost with all on board, as portions of her wreckage have been picked up on the North Carolina coast. She registered fifty-nine tons, and was manned by Capt. Crossman, Engineer McShane and three men. She was insured for $10,500.

Capt. Thomas Nye, a highly respected citizen of New Bedford, formerly a shipmaster and subsequently a merchant, shot himself Wednesday afternoon, the 22d inst. He was about eighty-three years of age.

The Inconsistency of Man.

Scheming, diverse, and manifold advertisements of worthless goods, will never attract profitable customers; only meritorious articles such as Swayne's Ointment for skin diseases, are recognized and sought after by the people. Real worth always receives its just merit. A man may profit for a while by imposing upon the public, but it is only a question of time when he will reach the end of his rope. Man has never dared to doubt the efficacy of this great vegetable Ointment.

Thomas Davis of Sumner, Ill., died on the 22d inst. from fracture of the skull, produced by brickbats thrown by Capt. E. C. Davis, a veteran of the war. The latter was held in $2,500 bail. Both men are well known and respectable. Capt. Davis married a neice of Speaker Keifer, of the national house of representatives.

Beauty Regained.

The beauty and color of the hair may be safely regained by using Parker's Hair Balsam, which is much admired for its perfume, cleanliness and dandruff eradicating properties.

The president's formal order, disapproving the finding of the court-martial in Cadet Whittaker's case and releasing him from arrest, has been issued.

How to Save.

All hard workers are subject to bilious attacks which may end in dangerous illness. Parker's Ginger Tonic will keep the kidneys and liver active, and by preventing the attack save much sickness, loss of time and expense. Delay at such times means danger.—*Detroit Press.* See other column.

The secretary of war has issued instructions for the transportation of 100 hospital tents from Philadelphia to Vicksburg, for the use of sufferers by the recent floods.

If you feel oppressed, discouraged, or out of sorts, Wheat Bitters will relieve 99 out of 100 cases. It is the great brain, blood and nerve food.

There are four grandchildren of Gen. Braddock, the hero of the historic defeat, living in Jefferson county, Fla.

Almost Killed.

I was almost killed by the doctors, who treated me for bleeding piles. It cost me over $100 without relief. I took Sulphur Bitters for two months, and now I am well.—*Gus Hall, Troy.*

A son of Jenny Lind Goldschmidt has just been appointed to a clerkship in the chancery registar's office in London, England.

Terrible Loss of Life.

Millions of rats, mice, cats, bed-bugs, roaches, lose their lives by collision with "Rough on Rats." Sold by druggists, 15cts.

Catarrh of the Bladder.

Stinging, smarting, irritation of the urinary passages, diseased discharges, cured by Buchupaiba. Druggists. Depot at Thacher's.

Capt. John Bertram, a well known wealthy philanthropist and retired ship captain of Salem, Mass., died on the 22d inst.

Liver diseases, headache, and constipation, caused by bad digestion, quickly cured by Brown's Iron Bitters.

General Butler, who has been in Washington for several days, says he has no idea of entering into the Guiteau case.

From rheumatism I have been a great sufferer during the past seven years, and part of the time have been confined to my bed. The last attack kept me in bed for seven long months, in which time I employed the best medical skill without securing relief. I was induced to try St. Jacobs Oil, which remedy has entirely cured me. My hands have become straight and can be used as well as ever. I have induced others afflicted with rheumatism to use it, and they have experienced the same happy result. I wish it was in my power to tell suffering humanity of the curative powers of St. Jacobs Oil. EDWARD RHOERLING, Scranton, Pa.

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Ex-Gov. Walter Harriman will sail from Boston in the steamer Marathon, April 1st, on a long tour to the Holy Land. He will be accompanied by Wm. D. Chandler, second son of Hon. W. E. Chandler. The young man will travel with Gen. Harriman, and subsequently go to to Heidelberg, as a student.

Why We Have So Few Good Riders.

It has frequently been the subject of remark as to the cause of the scarcity of good jockeys. To be sure we have some excellent riders—Barrett, Evans, Hughes, Barbee, Feakes, and probably half a dozen others, but not more. The secret is explained in the fact that unless a jockey takes great care of himself, constant exercise in the saddle will superinduce piles of the most aggravating character, that itch intensely, particularly after getting warm in bed, and thus render him unfit for service on the track. However, if Swayne's Ointment were used, the worst case of itching piles would be speedily cured.

Portsmouth Chronicle.

FRIDAY, MARCH 24, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

News and Notes.

A bill introduced in the United States senate on the 22d inst. by Mr. Anthony of Rhode Island, to establish the office of assistant secretary of the navy, provides for the appointment and confirmation of a line officer of the navy, not below the grade of rear admiral, whether active or on the retired list, who shall perform such duties as may be prescribed by the secretary of the navy or required by law, shall act as secretary in the absence of that officer, and shall receive the highest rate of pay allowed to his grade. If this bill passes, and Samuel Seabury of New York, now a mate in the navy, and lately nominated to be a naval constructor, is confirmed by the senate, "the line" will be well fixed. With a line officer as chief constructor—for that is just what Seabury's nomination aims at—and a rear admiral the virtual secretary of the navy, we shall be able to put afloat the most magnificent fleet of naval officers' yachts ever seen. What sort of war ships they will be is another matter.

Steam collier Hercules, from Philadelphia for Newburyport, struck on Cat ledge on the 22d inst., and was run aground in Harbor cove, Cape Ann, leaking badly.

Timothy Crebbin, aged twenty-four years, of Amherst, Mass., committed suicide by shooting himself through the temple, Tuesday night, the 21st inst. He was industrious and of good habits No reason is assigned for the act.

Dr. Benjamin T. Crooker, a well known apothecary of Bridgewater, Mass., committed suicide on Tuesday, the 21st inst., by severing an artery in the arm in four places. He died almost instantly. He was about fifty years old, and leaves a widow. Cause, temporary insanity.

The president has approved the joint resolutions granting the use of tents, etc., for the soldiers' reunion at Grand Island, Neb., in August, 1882, and the Grand Army of the Republic encampment at Gettysburg, Pa., in July, 1882.

Letters from Moscow, Russia, state that the 800 persons expelled from that place some time since for not having passports, were Jews.

At the Katahdin Iron Works at Bangor, Me., on the 21st, two workmen got into a dispute, when one of them knocked the other down with a shovel, cutting his head open and fracturing his skull, and then kicked and beat him brutally while on the ground, inflicting fatal injuries. The victim's name is Robinson, and he has a wife and two children.

Dr. Edward Nathan Gantz, who was committed for trial in England, with a view to his extradition to the Netherlands, where he is charged with fraud in obtaining money under false pretences, has obtained a rule for a writ of habeas corpus, claiming that he is a naturalized American. He is a blatherskite and bumbuster, whatever else he may be.

According to the Philadelphia *Record* the ship Screamer, recently lost on a voyage from Philadelphia to New Orleans, was one of the rottenest of all rotten old hulks. She was built at Brunswick, Me., thirty years ago, and in December, 1881, was known to be rotten from stem to stern, and totally unfit for sea service. Nevertheless her owners decided to send her to sea "once more," and, as was expected by many who had examined her, she went to the bottom, as hundreds of just such coffins have gone before.

The popularity of the sport called murder has largely increased in Maine of late years. Possibly the fact that in that state "Hanging for murder is played out" may have something to do with it.

In Philadelphia, on the 22d inst., Eugene V. Clad was arrested while at work with a lathe on pieces of gold coin. His plan was to take a $5 gold piece, saw off the top, take out about $2.50 worth of gold, and fill the cavity with platinum. Several pieces of the mutilated coin were found in the room.

Nine men were killed and eleven injured by the railroad accident at Sweetbriar, Dakota.

It is to be inferred, from an advertisement in the New York *Clipper*, that Mr. Woods disapproves of his wife going on the stage. "Managers engaging her," he says, "will be prosecuted. She is between thirty and thirty-five years old, medium height, light eyes, brown hair just turned a little gray, very slim build, weighing about ninety-five pounds, and when she last wrote home was playing in Ohio. She is recently reported to be in Iowa with a barn-storming show. Members of troupes in which she may be found are liable to have their baggage attached."

Two brutal murders in one week is a pretty good showing for a New England state—and the week only half gone, at that. Maine will soon have to build a new state prison in which to sacredly preserve her large and select assortment of murderers from harm.

Rev. Dr. Frederick Courtney of Chicago, who is considering an invitation to become the rector of St. Paul's church, Boston, was born in Plymouth, Eng., was educated at Christ's Hospital, the preparatory school at Hartford, the Blue Coat school and King's college, London. In 1876 he came to the United States, and was assistant minister at St. Thomas' church until 1880, when he went to the St. James' church, Chicago. He is forty-five years old. In theology he describes himself as "high, low and broad."

The London *Truth* says that Don Philippi de Bourbon, second son of Count d'Aguila, is about to marry Miss Mackay, an American heiress.

Mdlle. Jeanne Bonaparte, the daughter of the late Prince Pierre Bonaparte, who shot Victor Noir, was married at Paris on Thursday to the Marquis de Villeneuve Pargement, a legitimist.

"Dorothy:" a country story in elegiac verse. Boston; Roberts Brothers.

The author, who dedicates his book to Richard Doddridge Blackmore, A. M., author of "Lorna Doone," tells us in the appendix the object of his song. The heroine is one of the working women—a maid of all work, indoors and out, on an English farm. The poet seems to delight to hold up to observation the hard hands of Dorothy, enlarged by severe labor, and even gives us a specimen of her holding the plough. At the same time he never omits to remind us of the beauty of her face, and all along hints at the gentle blood of the charity girl, whose unacknowledged paternal ancestor comes down handsomely at her wedding, which occurs after a season of pastoral wooing sweetly described. The author fires several severe shots at the "Bill to regulate female employment," which has a common paternity with the heroine herself. We all through the poem admire Dorothy even if her hands are hardened by toil, and her noble lover, the Head Keeper, whose acts, governed by a sense of the fitness of things, are amply compensated at the nuptials. The dignity of toil, the contentment of womankind who "learn to labor and to wait," and the happy results of honest work in spheres of usefulness, are strongly portrayed. We see Dorothy, in cottage and in field, constant, faithful, and never seeking by any artificial process to better her station, but patiently content to bide her time when the good results may reach her. The poem takes us into the country, among fields and green pastures, and its pastoral recitals are most inviting and enjoyable, while we never cease to appreciate the noble nature of the daughter of toil and are interested in her career, every incident of which we are told has been taken from English life. Indeed the poet tells us her daughter is at present at service in his family.

Dorothy is a poem to be read and admired, both for its inherent eloquence of song and its picture of humanity.

The first number of Solon Chase's paper has been issued at Chase's Mills, Me. It bears the name of "Them Steers." A cut representing Solon and the Steers plowing, adorns the heading. The leader has the following: "Them Steers are going to make a good pull to save the greenback party of Maine from what was the fate of the Greeley party. The democrats gobbled Horace Greeley, and the liberal party was never heard of after the campaign was over. Many honest men are now in the democratic party, and don't know it; they don't see themselves as they are seen by their countrymen. Stop and think. Suppose a man who claimed to be a greenbacker should enter into the same relations with the republicans that you have entered into with the democrats, where would you put that man? Of course, in the republican party, where he belongs."

—The Paris papers are telling funny stories about the twenty Chinese mandarins who were sent out on a diplomatic tour through America and Europe. They say that the Englishman who interprets for them was bribed by a large tea corporation to teach the mandarins to repeat in the language of whatever court they might be visiting, the following phrase on being introduced: "The best tea is that of the Chinese-Anglo-Franco-American Tea Company." And at departure to exclaim: "It is the only tea which does not produce sleepiness."

—"How charmingly beautiful the Easter cards are this year, are they not?" said Algernon to Isabella last evening as he sat in the parlor "making talk." "Yes, indeed, they are beautiful; but there are some things I would prize more than Easter cards." "I presume so. If I should offer—offer—to—" "I don't know what ma would say to an offer in Lent;" and she blushed beautifully. Algernon was entrapped nicely. He was merely going to offer to escort her to the opera next week, and now he has got to have her lean on his arm through life. A young man cannot be too guarded in his conversation.

MORRILL. In Eliot, Me., Feb. 6th, Mr. Andrew Jackson Morrill, aged 47 years.

Ah, brother dear, will thou not hear
Thy sister in this hour of saddened grief?
Will thou not linger near,
And with thine unseen presence bring relief?
Art thou not ever nigh
To guard and guide me o'er life's thorny road?
Or is thy home so high
That thou canst never reach this dark abode?
I know not, brother dear,
Nor can I e'er define how this may be;
I only know while here
I ne'er shall cease to love and worship thee.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the SIX years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*non assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
March 24, 12:00 A. M.

Probabilities for New England:—

Partly cloudy weather, occasional light snow in the northern portions, southwest to northwest winds, falling followed by rising barometer, colder weather during night.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 34 degrees above zero. Cloudy.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening, March 23d, Mayor Sise in the chair:

Present, the full board.

The records of last meeting were read and approved.

J. W. Davis asked for a relay of sidewalk opposite Nos. 7 and 8, Market square. Granted.

W. G. Myers asked leave to encumber Austin street for building purposes. Granted.

A bill of one Page, for bounty on crows killed, was laid before the board. After some discussion the bill was referred.

Ald. Caswell made a verbal report on the north millpond nuisance, and the matter was referred brck to the committee before appointed, for further report.

The mayor reported the Spring market to be unoccupied, and on motion of Ald. Green it was voted that it be advertised for rent.

It was voted to offer a reward of $50 for the detection of any person breaking the lantern of any street light.

Adjourned.

In Common Council, no quorum.

Sheriff Kent authorizes the statement that the alleged missing man, George W. Davis, of Lynn, Mass., who has been supposed to be in some way connected with the Bell tragedy, was killed about a year ago by being run over by a train at Point of Pines, Mass. The body was identified by Davis' father, and remains were brought to Exeter for interment.

Capt. Orren Caswell, who has recently been in command of the fishing schooner Nettie Adams, will take charge of the Rover's Bride, having bought a quarter of that vessel.

Mr. Edward Jervis, who went to the Soldiers' Home at Togus, Me., Tuesday of this week, returned on Thursday, one day in the institution being enough to satisfy him.

The riggers' gang finished work on the schooner G. W. Raitt last Thursday forenoon, and in the afternoon she left the wharf on her way to Rockland, Me., to load with lime for Dover.

The dredging machine and scows started up river in tow on Thursday last, bound for the Cocheco.

Of Baird's minstrels, advertised to appear in Music hall on Thursday, March 30th, an exchange says: "Baird's Minstrels are new to us, but bid fair to take the wreath of superiority from all their predecessors, for they present an entertainment from beginning to end sparkling with new ideas and unique features, which is what amusement lovers seek just now. Mr. Baird has certainly a capital troupe, carefully selected and masters of their profession, and this company has a brilliant future."

John Glenn of York, Me., on Thursday last brought in one hundred lbs. of salmon, taken in York harbor. The lot was bought by E. S. Newton & Co., and sent to Boston, where salmon is commanding fancy prices. The same firm sent to Boston on Wednesday 13,500 lbs. of cod, for which they paid an average of $3.50 per hundred lbs. On Thursday they paid $4 per hundred, but the supply was small.

The schooner Active, Hontvet, was towed down the river on Thursday by the steamer James Sampson. She goes to Kennebec to load with ice.

The steamer Naumkeag is being overhauled for spring work. She will be ready for service in two weeks, and will take the schooner Cocheco, which is expected to arrive about that time with a cargo of coal, to Newmarket. It is the intention of her owners to run her this season, in connecion with towing, for excursion parties, and extensive alterations will be made to adapt her for this purpose.

About three thousand pounds of fish were received on Thursday, in small boats.

The schooner Daniel C. Baker has discontinued her fishing trips for the present.

The schooner Ambrose arrived on Thursday last from Eastport, Me., with 90,000 frozen herring. She immediately left for Gloucester, the market for herring being closed at this port.

Joseph Caswell and son left this port in a wherry at noon on Wednesday, the 22d inst., and arrived back Wednesday night with $39 worth of fish, taken about half way between Whalesback and the Shoals.

Mr. Granville Knox, of Newington, has this winter sold $150 worth of fire-wood to the proprietors of the several brickyards at Dover point. He has also furnished timber to the value of $150 for the schooner in course of construction at Fernald's shipyard, on which work is progressing rapidly.

Col. Andrew H. Young, of Dover, late collector of internal revenue for this district, was reported by the Washington correspondents on the 22d inst. to be then in that city at the instance of the Dover board of trade, to urge an appropriation by Congress of $30,000 to complete the improvement of the Cocheco river.

A Galveston, Texas, paper says: "W. F. Ladd & Co., of this city, shipped on the 7th instant 100 bales of high-grade cotton to San Francisco, the first shipment of the kind ever made from Galveston. The cotton was shipped via the Galveston, Houston & Henderson road, connecting with the all-rail route of the Gould system to El Paso, thence to San Francisco via the California Southern Pacific. It is understood that a sufficiently low freight rate was given to justify the shipment and to encourage a reciprocal interchange of commodities. This cotton is used, it is learned, in California woollen mills, where mixed fabrics to some extent are manufactured. In course of time California may come to take largely of the Texas cotton crop in the development of her manufacturing industries, in which event Galveston will be able to load returning cars bringing grain to the gulf for shipment. There is much in the possibilities outlined by the opening up of the Pacific coast trade, which Galveston business men seem disposed to take hold of and push with vigor." Mr. Ladd is a son of Chas. H. Ladd, formerly of the house of C. H. & A. H. Ladd of this city.

At the second attempt in Biddeford to elect a mayor, on the 22d inst., there was no choice, Clark, republican, lacking sixty-eight votes of a majority. At the next trial a plurality elect.

The schooner Jennie G. Pilsbury, of 162 tons, was launched at Kennebunk on the 22d inst. On the same day a schooner named the Fanny Spurling, built for A. M. Smith of Portland and not yet measured, was launched at Kennebunkport.

The Biddeford *Times* of the 21st inst. says the story sent from there to the Portland *Argus* regarding a prospective strike among the mill operatives in Biddeford was a lie pure and simple, gotten up for political effect, to help the democratic party in the municipal election. The agents of the several mills, many of the mill overseers, and the president and secretary of the mule spinners' association, all say that the story is a canard, and that no notice of a strike has been given by the operatives or the mule spinners' union, as was alleged by the *Argus*, and that there is no intention of given such notice.

—Rev. Mr. Swing says "that a novel is the world's truth with a beautiful woman walking through it." Generally, we may add, with a man after her.

—A Spanish proverb has it that "Man is the child of his own deeds." The American version should be that "Man is often the slave of his own mortgages."

—A Chicago man was arrested for thinking while in church that he was at the theatre; but the judge let him go, as he said there was so little difference between the two in Chicago that the mistake was natural.

—Stealing a red-hot has stoevalways been considered the maximum of larceny, but it was reserved for Chicago thieves to cap the climax, by carrying away the constitution and by-laws of the Phi Kappa Psi society of Chicago University.

—"Yes," said a lady customer, "these are very pretty; but haven't you something more expensive?" The gentlemanly clerk took down another package of the same goods, remarking briskly: "Oh, yes, ma'am; here is something which will cost you a dollar more per yard, but it is much finer, you will notice." Of course she took the highest-cost piece, because it was the highest.

—An English turfman visiting Mount Vernon engaged in conversation with a native, and after a few preliminary remarks observed: "I dare say Mr. Washington didn't care much for 'orses. You cawn't tell me, I suppose, if he was hever a 'orse breaker?" The Virginian eyed him a few seconds doubtfully, and then answered: "I ain't much on history, but to the best of my recollection the general was a lion tamer."

—It is reported that John Kelly, while in Florida, was swallowed by an alligator, but immediately rose to a point of order, and bolted the convention. The alligator has not since been heard from.

Cuticura

Geo. W. Brown, 48 Marshall St., Providence, R. I., cured by Cuticura Resolvent (blood purifier) and Cuticura and Cuticura Soap (the great skin cures) of a Ringworm Humor got at the barber's which spread all over his ears, neck and face, and for six years resisted all kinds of treatment.

SKIN HUMOR,

F. H. Drake, Esq., agent for Harper & Bros., Detroit, Mich., gives an astonishing account of his case (eczema rodent), which had been treated by a committation of physicians without benefit, and which speedily yielded to the Cuticura Resolvent (blood purifier) internally and Cuticura and Cuticura Soap (the great skin cures) externally.

SCALD HEAD.

H. A. Raymond, Auditor F. W., J. & S. R. R., Jackson, Mich., was cured of Scald Head of nine years duration by the Cuticura Remedies.

ECZEMA,

Hon. Wm. Taylor, Boston, Mass., permanently cured of a humor of the face and scalp (eczema) that had been treated unsuccessfully for twelve years by many of Boston's best physicians and most noted specialists, as well as European authorities.

MILK CRUST,

Mrs. Bowers, 143 Clinton St., Cincinnati, speaks of her sister's child, who was cured of milk crust which resisted all remedies for two years. Now a fine healthy boy, with a beautiful head of hair.

FALLING HAIR.

Frank A. Bean, Steam Fire Engine 6, Boston, was cured of Alopecia, or falling of the hair, by the Cuticura Resolvent (blood purifier) internally and Cuticura and Cuticura Soap (the great skin cures) externally, which completely restored his hair when all said that he would lose it.

TREATMENT,

The Cuticura treatment consists in the internal use of the Cuticura Resolvent, the new blood purifier, and the external use of Cuticura and Cuticura Soap, the great skin cures.

A GOOD DIVIDEND PAYING INVESTMENT.

The Gifford Compo Shoe Machine Co.

CAPITAL $100,000. 1000 SHARES.
PAR VALUE $100.

Thomas J. Gifford, President;
Aug. J. Archer, Treasurer;
Wallace Hackett, Secretary.

Organized and Incorporated for the purpose of manufacturing and leasing their Patent Hydraulic Compo Shoe Press.

This is the most perfect machine yet invented for attaching soles to Boots and Shoes by the Compo process. The shoes made on them are as easy and pliable as a glove, inasmuch as they have a perfectly smooth and flexible sole of solid leather, having no nails, pegs or objectionable fastenings, attached by a process which renders it strong and durable, and impervious to dampness.

The capacity of the machine is fifteen cases per day. More than 2,000,000 pairs Misses' and Children's Shoes were made on these machines the past year, and we are now supplying machines for making Men's and Women's Boots and Shoes, which pay larger royalties. Its success is assured; and as the machines multiply, largely increased earnings and dividends will be realized.

Dividends are paid quarterly from Royalties collected on every pair of Boots or Shoes made on the machine.

We confidently offer the stock as not only a safe, but profitable investment, promising larger returns in the near future.

A few shares paying 8 per cent. per annum are offered for sale at par.

The Science of Life, or Self-Preservation, is the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single, of either sex can either require or wish to know, but what is fully explained. In short, the book is invaluable to all who wish for good health.—*Toronto Globe.*

The book for young and middle aged men to read just now is the Science of Life, or Self-Preservation. It is worth many times its weight in gold.—*Medical Times.*

The author of the Science of Life is a public benefactor. He reaches the very roots and vitals of disease, and is enabled to apply thorough remedies. The book already is read upon both continents by millions.—*London Lancet.*

The Gold and Jewelled Medal awarded the author of the Science of Life was fairly won and worthily bestowed.—*Massachusetts Ploughman.*

Thousands of extracts similar to the above could be taken from the leading journals—literary, political, religious and scientific throughout the land.

The Book is guaranteed to be a better medical work in every sense, than can be obtained elsewhere for double the price, or the money will be refunded in every instance.

TO GRATIFY HIS WIFE.

An Interesting Story--A Hopeless Case Cured. A Good Reason for Happiness.

Statement of Mr. Washington Monroe, of Catskill, Green County, New York.

"For many years I had suffered from a complaint which the physicians called gravel. I had employed some of the most noted doctors without obtaining any permanent relief, and for a long time my case was regarded as hopeless. All who knew the circumstances said I must die. Finally, my wife induced me to try a bottle of Dr. Kennedy's 'Favorite Remedy' which she had somewhere heard of or seen advertised. Without the slightest faith in it, but solely to gratify her, I bought a bottle of a druggist in our village. I used that and two or three bottles more, and—to make a long story short—I am now as healthy a man as there is in the country.

Since then I have recommended 'Favorite Remedy' to others whom I knew to have suffered from Kidney and Liver complaints; and I assure the public that the 'Favorite Remedy' has done the work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

DR BULL'S COUGH SYRUP

For the Cure of Coughs, Colds, Hoarseness, Croup, Asthma, Bronchitis, Whooping Cough, Incipient Consumption and for the relief of consumptive persons in advanced stages of the Disease. For Sale by all Druggists.—Price, 25 cents.

Naval Affairs.

The senate committee on naval affairs, to whom the nomination of Pay Director Watmough as paymaster general of the navy was recently recommitted, have decided to adhere to their former action upon it, and to report it back to the senate adversely.

In the senate, on the 22d inst., Mr. Anthony introduced a bill to establish the office of assistant secretary of the navy. On the same date Mr. McPherson, from the committee on naval affairs, reported adversely the bill to equalize the pay of officers of the navy.

The Way they do in Brunswick.

The Brunswick *Herald* relates how the other evening at a party, toward the latter part they got to auctioneering off the remaining eatables, when one chap, who probably wanted to treat his Dulcinea in a cheap sort of a way, bid off a couple of custard pies for ten or fifteen cents. He was in the act of bearing off his trophy when a practical joker, thinking to create a laugh, reached over the young man's shoulder and scooped out a handful from one of the pies. The owner of the pies had no idea of letting him get off with even a handful of custard, and turning suddenly around threw the remaining whole pie at the fellow. The funny (?) fellow saw it coming, and dodged just in time to let it zip by his head and take a clergyman who was attentively watching the proceeding from a quiet corner square in the face, spreading all over his countenance, and reminding one of an antiquated Chinese war nap. It took four men and two women to hold him while they scraped the custard off his face and explained to him what had happened. The clergyman cooled down after awhile, but even now every time he sees that young man come into church during the service he eyes him with a peculiar look of distrust.

How Georgia Came to Secede.

Colonel Albert Lamar of Georgia, editor of the Macon *Telegraph*, tells how his state happened to secede. It was all brought about by a glass of brandy. When the secession convention met at Milledgeville the state was divided on the war question, and Herschel V. Johnson, who ran for vice president on the Douglas ticket, was fighting hard to keep Georgia in the Union. He was the best talker in the state, and began a speech at the convention which was rapidly swinging the delegates over to his side. But Toombs, Cobb & Co., fearing defeat, secured a recess, with the understanding that Johnson should continue his address afterward. Then Lamar mixed a stiff drink, and when Johnson resumed his speech his brain was so fuddled that he couldn't think, his tongue refused to do its work, the convention laughed at him, and the secessionists won the day.

A shoe contractor's shop at Newton, owned by Charles Currier, and occupied by Andrew Currier, was with its contents burned on the 22d inst. A considerable amount of shoe stock belonging to persons in Haverhill, Mass., was consumed. Loss $2,500; no insurance.

Waste no time; delays have dangerous ends! If a member of your family is suffering with a slight cough or cold, don't wait until it developes itself into consumption, put procure at once a bottle of Dr. Bull's Cough Syrup and cure that cough.

A bald-headed eagle, measuring six feet and two inches from tip to tip of its outstretched wings, was captured in a trap set for a fox, in Berlin, a few days since.

No Doctors Need Apply

To me to get their living. The only doctor I have is Sulphur Bitters. They cured me of dyspepsia when the doctors all failed.—*George Paige, Rochester.*

Madbury wants a postoffice, and a petition is now being circulated for that purpose, and is receiving numerous signatures. In case a postoffice should be established there, it is suggested by the petitioners that it be located in the new Boston & Maine depot.

Money for a Rainy Day.

"For six years my daughter was sick from kidney and other disorders. We had used up our savings on doctors, when our dominie advised us to try Parker's Ginger Tonic. Four bottles effected a cure, and as a dollar's worth has kept our family well over a year, we have been able to lay by money again for a rainy day."—A poor man's wife.

The Dover board of aldermen have given the telephone company permission to set poles on seven streets of the city.

"Wheat Bitters." A powerful invigorator in cases of weakness and debility, and is unequalled in female complaints. Price $1.00 per bottle.

After an extended examination, the coroner's jury in the case of Richard McDow, who was found dead in his room at the Union hotel at Milford returned a verdict of death from paralysis of the heart, caused by the inordinate use of tobacco. No friends appeared to claim the body, and it was placed in the receiving tomb.

The Distinguishing Charm.

A delightful fragrance of freshly gathered flowers and spices is the distinguishing charm of Floreston Cologne.

Hon. Henry P. Rolfe, of Concord, ex-United States district attorney, while riding with his wife at Horse Hill, near Fisherville, on the 18th inst., was thrown from his carriage by a balky horse, and seriously injured. He was taken to his home, where he now lies in a critical condition. It is feared that if he recovers he will lose the sight of one eye.

Not a drink, not sold in bar-rooms, but a reliable non-alcoholic tonic medicine, useful at all times, and in all seasons, is Brown's Iron Bitters.

SWAYNES OINTMENT

Address, Dr. SWAYNE & Son, Phila., Pa.

Diphtheria.

A **cold** or **sore throat** may not seem to amount to much, and if promptly attended to can easily be cured; but neglect is often followed by a malignant case of **diphtheria**. No medicine has ever been discovered which acts so **quickly** and **surely** in such cases as **PERRY DAVIS' PAIN KILLER.** The prompt use of this *invaluable remedy* has saved thousands of lives.

PERRY DAVIS' PAIN KILLER is **not an experiment.** It has been before the public for **forty years,** and is most valued where it is best known.

A few extracts from voluntary testimonials read as follows:

PAIN KILLER has been my household remedy for colds for the past twenty-seven years, and have never known it to fail in effecting a cure.—L. S. CROCKER, Williamsville, N. Y.

For thirty years I have used PAIN KILLER, and found it a never-failing remedy for colds and sore throat.—BARNEY SEAMAN, Ill.

Have received immediate relief from colds and sore throat, and consider PAIN KILLER an invaluable remedy.—GEO. B. EVERETT, Dickinson, N. Y.

I have just recovered from a very severe cold, which I have had for some time. I could get no relief until I tried your PAIN KILLER, which relieved me immediately. I will never be without it.—C. O. FORCE, Lowndes, Co.

Have used PAIN KILLER in my family for forty years, and have never known it to fail.—RANSOM Lewis, Waynesboro, Ga.

I began using PAIN KILLER in my family twenty-five years ago and have used it ever since, and have found no medicine to take its place.—B. W. DYER, Druggist, Oneida, N. Y.

For whooping cough and croup it is the best preparation made. We would not be without it.—A. P. HOOPER, Milledgeville, Ga.

For twenty-five years I have used PAIN KILLER for colds and disorders of the bowels, and consider it the best medicine ever offered.—GEO. HOOPER, Wilmington, N. C.

I was suffering severely with bronchitis, and my throat was so inflamed I could scarcely swallow any food. I was advised to try your PAIN KILLER, and after taking a few doses was completely cured.—T. WILKINSON.

Dr. WALTON writes from Coshocton: YOUR PAIN KILLER cures diphtheria, in the virulent, malignant form prevalent here, and has not been known to fail in a single case. This fact you should make known to the world.

Mrs. ELLEN B. MASON writes: My son was taken violently sick with diphtheria, high fever, and cold chills. So many children have died here, I was afraid to call a physician, and tried your PAIN KILLER. He was taken on Sunday, and on Wednesday his throat was clear. It was a wonderful cure, and I wish it could be known to the poor mothers who are losing so many children.

For Chills and Fever **PAIN KILLER** has no equal. It cures when everything else fails.

Delays are dangerous. A bottle of PAIN KILLER in the house is a safeguard that no family should be without.

All druggists sell it at **25c., 50c., and $1.00** per bottle.

Back Ache

POSITIVELY CURED BY

Benson's Capcine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.
Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination which acts with increased rubefacient, stimulating, sedative and counter irritant effects.

Second.
Because they are a genuine pharmaceutical preparation, and so recognized by the profession.

Third.
Because they are the only plasters that relieve pain at once.

Fourth.
Because they will positively cure diseases which other remedies will not even relieve.

Fifth.
Because over 5000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use.

Sixth.
Because the manufacturers have received the only medals ever given for porous plasters.

Business Change.

PORTSMOUTH, N. H., Feb. 13, 1882.

I HAVE this day disposed of my Job Printing Office, located in the Chronicle Building, to MR. RICHARD I. WALDEN, who has been for a number of years Foreman and Job Printer in the office of the Portsmouth Journal.

Mr. Walden is well known to the public as a careful and skillful printer, and I can conscientiously recommend him to my patrons and to the public generally as a good mechanic and a worthy young man.—As such, I bespeak for him the patronage that has been so generously accorded to me.

NOTED MEN!

DR. JOHN F. HANCOCK, late President of the National Pharmaceutical Association of the United States, says:

"Brown's Iron Bitters has a heavy sale, is conceded to be a fine tonic; the character of the manufacturers is a voucher for purity and medicinal excellence."

DR. JOSEPH ROBERTS, President Baltimore Pharmaceutical College, says:

"I indorse it as a fine medicine, reliable as a strengthening tonic, free from alcoholic poisons."

DR. J. FARIS MOORE, PH. D., Professor of Pharmacy, Baltimore Pharmaceutical College, says:

"Brown's Iron Bitters is a safe and reliable medicine, positively free from alcoholic poisons, and can be recommended as a tonic for use among those who oppose alcohol."

DR. EDWARD ERICKSON, Secretary Baltimore College of Pharmacy, says:

"I indorse it as an excellent medicine, a good digestive agent, and a non-intoxicant in the fullest sense."

DR. RICHARD SAPINGTON, one of Baltimore's oldest and most reliable physicians, says:

"All who have used it praise its standard virtues, and the well-known character of the house which makes it is a sufficient guarantee of its being all that is claimed, for they are men who could not be induced to offer anything else but a reliable medicine for public use."

A Druggist Cured.

Boonsboro, Md., Oct. 10, 1880.
Gentlemen: Brown's Iron Bitters cured me of a bad attack of indigestion and fullness in the stomach. Having tested it, I take pleasure in recommending it to my customers, and am glad to say it gives entire satisfaction to all."
GEO. W. HOFFMAN, Druggist.

The Democrats and the Geneva Award Bill.

The Portland *Advertiser* thus refers to the action of the democrats in Congress on the 20th inst., in regard to the Geneva award bill:

The democrats in the house appear to be so afraid of the Geneva award bill that they filibuster until midnight to stave it off. The democratic members of the judiciary committee also appear to have been guilty of a breach of faith. In explanation of the queer proceedings of the 20th inst. it is stated that Chairman Reed, some time ago, asked the committee to agree that the bill should have early consideration. The democratic members demurred to an early assignment, on the ground that they required time to prepare for the discussion of the question and at their instance and suggestion, and much to Mr. Reed's disappointment, Tuesday, March 28th, a date that gave them five weeks' time, was agreed upon. To all such arrangements made in committee it is customary for all parties to agree so far as permitting the house to vote upon the question of assignment without factious opposition. Mr. Reed therefore expected when he made the motion in the house on the 20th to assign March 28th for consideration of that bill that the motion would be voted upon without any question of amending or any factious proceedings. He was therefore not a little surprised, and so were all constituting the majority of the committee, when the democrats as a party, with the apparent favor and support of the democratic minority of the committee whom he had allowed to fix the date, began a course of filibustering to secure a further postponement of the bill until April 13th. A compromise on April 11th was finally reached. The purpose of the democrats is evidently to kill the bill by delay.

Death to rats, mice, roaches and ants; Parsons' Exterminator. Barns, granaries and households cleared in a single night. No fear of bad smells. Best and cheapest vermin killer in the world. Sold everywhere.

A number of leading greenback politicians have held an informal meeting at Augusta, Me., and decided to ignore Solon Chase entirely. They say he is working as an annex to the republican machine, which is not what the other greenbackers want, they desiring to have the greenback party run as an annex to the democratic machine, as heretofore. The greenback state committee has decided to hold the state convention on the same day as the democratic convention.

It is useless to deny that the brightest and fairest fall easy victims to consumption, and equally fruitless to ignore the fact that decline has its origin in many cases in neglected catarrh. Sanford's Radical Cure is a pure, sweet, balsamic specific.

Alfred Jaell, a pianist whose compositions are known to many young players, has just died in England.

The King of Floor Cloths.

The new and artistic designs brought out this season in the patent Linoleum floor cloth will, no doubt, give this popular article an increased sale. It is the only floor covering made combining in the highest degree the qualities essential to comfort, elegance and economy. On account of inferior imitations, see that the word "Linoleum" is on the back of every square yard. All carpet dealers keep it.

The courts in Des Moines, Ia., adjourned in haste, owing to smallpox breaking out in the jail, which is in the basement of the court house.

A Cure at Last.

Specifics without number for the cure of catarrh have been extensively advertised, and doubtless there is some virtue in them all, but the evidence is overwhelming that Ely's Cream Balm goes more directly than any other to the seat of the disease, and though it is comparatively new discovery, it has resulted in more cures within the range of our observation than all the others put together. Wilkesbarre, Pa. *Union Leader*. Dec. 19, 1879.

It is no exaggeration to say that Ely's Cream Balm is a cure for catarrh, hay fever, etc., for many cures have been made among my customers. Cream Balm should be resorted to by every one thus afflicted. With me no other remedy has ever equaled the Balm either in good results or sales. A. J. ODENWELDER, Druggists, Easton, Pa. Oct. 2, 1880.

Price fifty cents.

At Philadelphia last Thursday, the tugsteamer Henry C. Pratt expleded her boiler, killing four men. George Scully, the captain, was blown over the housetops into a street; he was taken to the hospital, where he died. The dead bodies of Bernard McCann and Patrick Flanagan, firemen, and a man named Maloney, have been recovered. John Lyons, engineer, is missing and is supposed to be drowned.

If a man would rather endure the tortures of rheumatism than provide himself with a bottle of St. Jacobs Oil we pity his penuriousness full as much as we do his sufferings. Officer Willet S. Haxxhurst, of the Brooklyn regular police force of the second precinct, detailed on duty at Catherine Ferry, says that he had been a violent sufferer with rheumatism for eight years—was very often disabled from the performance of duty—suffered intensely, with only short intervals of relief, and became so nearly a confirmed invalid and cripple that he was in the last degree despondent. But as a last desperate resort, and without consulting his physician, about three months ago he made a first trial of St. Jacobs Oil, with almost instant success. He has used about two bottles, and to-day is as well and active as he ever was. And straightening himself up he called attention to his healthy and robust appearance, remarking, "I am glad to have this opportunity of testifying to the virtues of the greatest remedy the world ever saw."

The Worcester, Mass., *Times* says whenever a hard-looking character is taken to the police station he is booked as Irish. A short time ago a colored man was booked as an Irishman.

Liver diseases, headache, and constipation, caused by bad digestion, quickly cured by Brown's Iron Bitters.

Charles W. Adams, United States minister to Bolivia, has been recalled.

The Inconsistency of Man.

Scheming, diverse, and manifold advertisements of worthless goods, will never attract profitable customers; only meritorious articles such as Swayne's Ointment for skin diseases, are recognized and sought after by the people. Real worth always receives its just merit, A man may profit for a while by imposing upon the public, but it is only a question of time when he will reach the end of his rope. Man has never dared to doubt the efficacy of this great vegetable Ointment.

Mrs. Lydia Tatro, a healthy looking Pittsfield, Mass., peddler, is the mother of twenty-two children; and of children and grandchildren she has just seventy.

Nothing Short of Unmistakable Benefits

Conferred upon tens of thousands of sufferers could originate and maintain the reputation which AYER'S SARSAPARILLA enjoys. It is a compound of the best vegetable alteratives, with the Iodides of Potassium and Iron,—all powerful, blood-making, blood-cleansing and life-sustaining—and is the most effectual of all remedies for scrofulous, mercurial, or blood disorders. Uniformly successful and certain, it produces rapid and complete cures of Scrofula, Sores, Boils, Humors, Pimples, Eruptions, Skin Diseases and all disorders arising from impurity of the blood. By its invigorating effects it always relieves and often cures Liver Complaints, Female Weaknesses and Irregularities, and is a potent renewer of waning vitality. For purifying the blood it has no equal. It tones up the system, restores and preserves the health, and imparts vigor and energy. For forty years it has been in extensive use, and is to-day the most available medicine for the suffering sick.

Testimonials.
I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.
"Inventors cannot employ a person more trustworthy or more capable of securing for them as early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.
BOSTON, October 19, 1870.
R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children: When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

The anti-Chinese bill passed the house on the 23d inst., as it came from the senate, by a vote of 167 yeas to 65 nays. Hurrah for Denis Kearney!

Why We Have So Few Good Riders.

It has frequently been the subject of remark as to the cause of the scarcity of good jockeys. To be sure we have some excellent riders—Barrett, Evans, Hughes, Barbee, Feakes, and probably half a dozen others, but not more. The secret is explained in the fact that unless a jockey takes great care of himself, constant exercise in the saddle will superinduce piles of the most aggravating character, that itch intensely, particularly after gettingwarm in bed, and thus render him unfit for service on the track. However, if Swayne's Ointment were used, the worst case of itching piles would be speedily cured.

Portsmouth Chronicle.

SATURDAY, MARCH 25, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Another Shortcoming.

The community was greatly surprised on Thursday evening by the announcement that George E. Lane of Exeter had failed in business. Mr. Lane had a well-arranged bookstore where he had a good trade; was county treasurer; and until recently was treasurer of the savings bank located in his store.

In August at the session of the legislature, an act was passed which was intended to hit Mr. Lane's case, and which provided that "no treasurer or person acting as treasurer of any savings bank shall carry on or be engaged in the business of private banking, or suffer the name to be carried on in the office of said bank." Mr. Lane then retired from the treasurership of the bank, and was succeeded by Capt. Frank P. Cram in that office, and Mr. Lane was elected president.

Before this and since Mr. Lane carried on business as a private banker, and bought and sold stocks, bonds and securities. His store was open day and evening, and the country people in the vicinity of Exeter were accomodated by always finding his place of business open even out of banking hours.

Mr. Lane was popular. He was regarded as a careful, honorable and reasonably sagacious man, and was one in whom his friends and neighbors placed the utmost confidence. He kept an account with a Boston bank and received deposits like any discount bank, and his checks passed freely far and wide, until quite recently.

But the refluent wave of speculation has stranded Mr. Lane. He is insolvent, and it is stated that in his accounts as county treasurer there is a deficit of $20,000. His bond to the county will cover this amount. The sureties are John J. Bell, Wm. B. Morrill, James W. Odlin and Geo. W. Weston of Exeter, and Frank P. Cram of Hampton Falls.

The savings bank, it is said will lose about $7000, which sum he took by order of the trustees to pay for bonds purchased of a firm in Boston. The bonds were bought, but not paid for, and the bank will be minus the price. The savings bank of course has no bond from Col. Lane as president.

Mr. Lane has been regarded as one of the last men to fall in this way, though in certain financial circles it was some time since known that he had "operated in stocks;" still it was not supposed that he was following in the wake of Shute, whose career while cashier of the Granite State bank in Exeter will be remembered by many of our readers.

He has been prominent in the affairs of his town, and been regarded as one of its best citizens; and his recent experience is but a repetition of numerous other experiments in speculation with a similar end, the effects of which no one can of course more keenly appreciate than can the late treasurer of our county. An investigation will be made to show just what the deficit is. It is not so much the loss of the amount of money which is to be deplored, but the shock to the confidence of his fellow citizens that one so generally trusted and believed in should have fallen in this unfortunate manner, even with the numerous lessons of others similarly situated so frequently brought to his notice.

Death of Mr. Longfellow.

Henry Wadsworth Longfellow died at his home in Cambridge, Mass., at 3:15 o'clock P. M. on the 24th inst., aged seventy-four years, one month and fifteen days.

AROUND HOME.

The door on the northerly side of Music hall, opposite the door which opens on Warren street, though put in when the building was erected has never been used by the public, for the very sufficient reason that it could not be opened, being kept locked, as there were no steps or passage-way leading from it to the street. The lack has been remedied, and hereafter the door will be used as a means of exit by persons in its vicinity, substantial steps having been built and a passage-way made from the door to Islington street, along the southern side of the Kearsarge house.

"The "mop-wringer" swindlers who some weeks ago unavallingly attempted to work their little game on a Market street merchant in this city and a storekeeper of Kittery, Me., have been practising on the good people further to the eastward, though with a change of programme. They now work as follows: One fellow goes ahead, sells to some person for a small sum the "right" to deal in the patent mop-wringers, and also sells a number of the wringers at a reasonable rate. In a few days along comes the confederate scamp, who informs the proposed victim that scamp number one had no power to dispose of the "right," and threatens a prosecution for infringement unless the case is settled at once; if he can terrify the threatened person into handing over $25 or $50, so much gained; if not, nothing is lost.

Mr. Frank Coleman has been appointed baggage master at the Eastern railroad station, vice Charles W. Roberts, resigned.

In Hampton Falls, at the recent election, two ladies were chosen to serve on the school board. It was voted not to sell the town's copies of the New Hampshire Reports.

Rev. John A. Goss of this city will make the regular address at the meeting of the Rockingham County Temperance Association in Atkinson on Thursday, March 30th.

Fred W. Rogers, Simon R. Marston, Frank W. Rand and George S. Leach have been appointed to take the vital statistics of the city.

The self-discharging coal-tub has been removed from the Concord railroad wharf, and taken to C. E. Walker & Co.'s wharf; it was tested one day this week in presence of Capt. Mills of the coal-steamer Lancaster, and worked nicely. The gear was put up by Mr. Warren Keen, in whose control the invention now is for this vicinity.

Complaint is made that the steps at the boat landing near the Spring market are constantly filthy, to such a degree that only men with sea-boots on would care to use them.

William Randall, who fishes from Smuttynose island, Isles of Shoals, in a wherry, brought in on Thursday evening about twelve hundred pounds of fish. The schooner Mary E. Smith brought in 1300 lbs. of fish on Friday, and about 500 lbs. were brought in by small boats.

The schooner Augusta E. Herricks, bound south after mackerel, came into the lower harbor this week, and in going out on Friday morning ran into a coaster and had her mainboom broken and mainsail torn, causing some delay in her trip. She will probably come up to the city for repairs.

The spar buoy off the Western Sister was carried away on Thursday last. On the same day a buoy went ashore at Rye beach.

Dennis H. Sullivan, one of the crew of the schooner M. E. Morse, was arrested on Thursday evening last while on a railway train and about to leave town, and was locked up to await the sailing of his vessel, when he will be put on board.

The steamer Mystic now sports on her pilot house her name in new and handsome letters, made by Messrs. John Bellamy and Henry Trefethen of Kittery, the former doing the cutting-out and the latter the gilding.

There is talk of having a letting station for marine bicycles at Pier wharf the coming summer.

Mr. Ephraim C. Spinney of Kittery is making up a raft of several hundred logs, to be towed to Mason's mills in this city to be sawed into lumber.

A summer residence for a Mrs. Dwight, of Boston, is being built at York harbor. It is shingled on the outside, the hall is shingled and clapboarded, and the finish throughout the house is in the rough.

Mr. George A. Hammond of Eliot is hauling a large number of logs to Eliot depot to be shipped on the cars. Mr. Hammond recently purchased of Mr. Daniel Goodwin of Eliot four strip of pine timber, each being upward of seventy feet long.

The steamer Naumkeag, which has laid up at Kittery during the winter, was on Friday last towed by the steamer James Sampson to the navy yard, to have her hull and boiler inspected by Messrs. Savage and Burnham, government inspectors of steamboats for this district.

The addition to the Goodwin house at York harbor is fast approaching completion; the plasterers commence work on the 27th inst., and the house will be completed in season for the summer business. The house when finished will accommodate seventy-five boarders.

The steamer James Sampson, recently bought by Mr. Theodore Keen, goes on the Kittery Point line on Monday.

—The full term of three years had nearly expired, and they were discussing at the breakfast table the certainty that they must move and the uncertainty as to where, when the young miss of the pasonage drew a heavy sigh. "Oh, I was thinking what a mistake mother and I made when we married a Methodist minister."

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountains over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*non assessable*. This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

A SAD STORY.

On Thursday last Sheriff Kent received a telegram, sent from Boston by Mr. George E. Lane, treasurer of Rockingham county, asking him to be at the Eastern railroad station on the arrival of the three o'clock train. At the station he was met by Mr. Lane, and on the way to Col. Kent's house the treasurer confessed that he was a defaulter to the county. The county commissioners, who were in session in this city, were notified, and had an interview with Mr. Lane, at which he laid before them the state of affairs as far as possible at the time, he estimating the shortage in the county funds at about $20,000. He was brought before Justice Batchelder on Friday, pleaded not guilty to a charge of embezzlement, and was held in $10,000 for his appearance on Saturday, April 8th.

The news of Mr. Lane's fall is a sad surprise to all who have known him; he has been popular with men of all parties, highly respected as a citizen, was regarded as a cautious and prudent man, and was one of the last persons who would have been suspected of wrongdoing. It is no doubt the old story, often told and as often disregarded, of a small sum of trust funds at first "borrowed," with intention of prompt repayment, then ill luck and more "borrowing," and finally disgrace and ruin. That the first false step was taken with any criminal intent will not be believed by those who know Mr. Lane best, but it was that step which surely led to the final wreck of reputation and happiness.

District No. Two — Minot Beacham, Mabel Bennett, Willie Berry, Alice Brewster, Hattie Cobbett, James Kane, George Keyes, John Killian, John G. Kinsbury, Harry Marvin, Henry T. Moulton, Willie Nellins, Albion Parker, Kittie Rand, Mabel Rand, Kate Stearns, Stanley Thompson, Annie Wingate.

District No. Three — Chester Curtis, Clarence Parmenter, Josie Hunt, Lizzie Stewart, Charles Stewart, Austin Trefethen, Lottie Peirce, Edward Sherman, Charles Kehoe, Horace Randall, Cora Smart, Ralph Trefethen, Charles Martin, Emma Kimball, Charles Pierce, Willie Sanborn.

Several of the pupils mentioned as not having been absent or tardy during two terms, did not remain in the district schools any longer, passing into the high school at the end of their second term; hence their record here appears for only two terms, though it may have been equally creditable for the entire year.

A MONSTROUS SCHEME.

Will the citizens of Portsmouth wake up to the fact that a foreign railroad corporation has surveyed a route for a railroad through the very centre of our city; that the proposed track crosses Middle street but a few rods from Haymarket square, at the present grade of that beautiful thoroughfare; that it crosses State street near Summer street by a tunnel, which will probably cause such an elevation of the street as to amount to a serious injury; that it crosses Islington street near the end of Summer street, at the present grade; and that the locomotive, if the road is built, will run through some of the finest gardens and near some of the finest residences in the city? It is idle to say that there is no danger of the road being built. There is danger—imminent danger of it, and when it shall be finally located it will be too late to protest. Cannot the city government, or the prominent and influential citizens, do something to prevent this enormity? This foreign railroad company has got control of a charter, and will somehow raise the credit to build the road. What do they care for our beautiful town? We must look out for the engine, or we shall hear the bell ring when it is too late.

A PORTSMOUTH LADY.

THE WAR-PREMIUM CLAIMS.

The persons in this city and vicinity who have claims against the Geneva award fund on account of extra premiums paid marine insurance companies during the war for insuring ship property, will be interested to know that the democrats in Congress are opposing the bill which provides for the refunding of the war premiums, and evidently endeavoring to kill the bill by delay. Why the democrats in Congress should be so opposed to the bill we cannot tell; the money paid by the United Kingdom to the United States under the finding of the Geneva tribunal was to reimburse citizens of the United States for losses occasioned by certain rebel cruisers, and whoever it may belong to, it certainly does *not* belong to the national government; and the war premiums were a direct result of the acts of the rebel cruisers, and as absolute a loss (with no resulting equivalent whatever) to those who paid them, as were the burned ships to their owners. Some of the largest war-premium claims held in this vicinity are held by democrats; but what politics can or should have to do with the payment of these just demands is beyond our comprehension.

OSGOOD LODGE SOCIABLE.

The last and best of the popular sociables of Osgood Lodge, I. O. O. F., took place Thursday evening, March 23d, there being present on the occasion over four hundred people. The combined efforts of the efficient committee, with the intelligent and earnest co-operation of the lady assistants, made this closing entertainment of the season a complete success,—and we must say the entire committee deserve the praise that words cannot always express.

The company having spent an hour in the banquet hall at the well spread table, felt the need of some digestive influence, and therefore retired to the lower hall, where they were highly entertained by recitations and speech making. Miss Sadie Paul's reading was of that style and ease that can be attained only by careful study. The remarks by Rev. Mr. Jones of Rye, and Rev. Mr. Yoeman, were full of eloquence and spirit, combined with "Faith, Love, and Truth." Ex-Senator Philbrick's remarks were full of vehemence and adaptation from beginning to end, and we agree with him that it will be better to ride in a warm car than to be subjected to the necessity of "shovelling ourselves out of snow drifts" when we pay visits to our Rye brethren. The remarks of Bros. Shaw, Gardner and Leavitt were full of mirth and pathos.

The literary exercises having concluded we were invited to the upper hall, where we had the pleasure of witnessing the farce "Slasher and Crasher," which was produced by the "Osgood Dramatic Company" in an artistic manner. Bros Bryant and Batch are a "whole team," and deserve unlimited praise for their fine acting; and the entire company did remarkably well. The singing by Misses Fabyan, Perry and Brown, was exceedingly fine. The whole concluded with a pantomime in which Bros. Hatch and Bryant kept the entire audience in a continuous roar of laughter, by their funny doings, and sleight-of-hand performances.

During the evening Bros. Prime, Plummer, Neil and Merrill, and Mrs. Peterson, were each presented with a loaf of nice cake, in behalf of Osgood Lodge, for their interesting efforts in making these sociables enjoyable, attractive and successful.

C. H. C.

Mr. H. P. Copp, auctioneer, has been holding sales for several days in the store in Franklin block, corner of Congress and Fleet streets. To-day (Saturday) there will be auction sales forenoon, afternoon and evening. The stock is a varied and miscellaneous one, and the goods are claimed to be first-class.

The first annual ball of Osgood Lodge, I. O. O. F., will be given in Franklin hall on Thursday evening, April 6th—Fast eve. Dr. S. C. Whittier has been chosen to act as floor manager.

"The Mascot" will be performed in Music hall on Fast night, April 7th.

The schooner Herald, of this port, Capt. Ben. Frisbee of Kittery commanding, was on the 21st inst. reported as at anchor below Portland, Me., loaded with sawdust from Wiscasset for Boston, having been towed around to Wiscasset from Boston, and so far on her way back. She arrived at Boston on Friday, the 24th.

CHRIST CHURCH.

We are indebted to a full and interesting account of the new Christ church in the *Journal*, for the following:

The structure is rectangular in form, built of rough stone procured from one of the islands in our harbor, and some idea of the size of the building can be gleaned from the fact that it contains 154,000 square feet of stone wall and 8000 square feet of flooring. Its northern wing is 48 feet long; the southern 109 ft.; eastern 30 ft. and western 106 ft. 4 in.; width of main church, 61 ft. 6 inches. The building is surmounted by a handsomely proportioned tower, which, from ground foundation to its apex, is 127 ft.; from its fine broad openings charming views of the city are obtained. A cellar 8 feet in depth extends under the entire structure; its foundation is solid rock, about 5 feet thick, standing upon heavy bed rocks sunk some two feet below the surface. On each side of the cellars are piers measuring 4 feet square, which support the arcade wall above.

The main entrance door, which is of ash, four inches thick, opens into a broad vestibule, and from thence, passing into the body of the church, the visitor is at once struck with the solid elegance which greets the eye. The church has a nave roof, gracefully arched, every timber of which is finely finished and exposed, presenting a rich appearance. There are 28 stained cathedral glass windows in the church proper, 9 of which are double and no two alike in pattern; each is of exquisite design, the combination and effect of colors and shadings being very beautiful. It may here be well to state that 2500 square feet of stained glass has been set in the entire edifice. At the rear of the church and some distance above the floor is a Rose window of cathedral glass, which from its cost, $1000 exclusive of the setting, gives some idea of its intrinsic worth and beauty. It is a rich interlacing of designs, colors and shadings, and in it is represented God the Father, God the Son, God the Holy Ghost, One God, One Faith, One Baptism. With the single exception of a window lately placed in a church in New York city, this one is pronounced the most costly and beautiful in the United States. The effects of the sun through the windows is magical, the many colors being thrown with softening effects, "like halos around the throne."

The main entrance aisle, extending from east to west, is 61 ft. 6 in. long and 6 ft. 6 in. broad; the centre aisle runs north and south (the congregation facing the south) and is 80 ft. long and 5 ft. wide; there are also side aisles each 4 ft. 4 in. wide. Six elegant columns, three on a side, support as many heavy gothic arches, the capitals being of New Jersey ocean stone, the shafts of Ohio sand stone, and the base of English freestone. Each of the six capitals are handsomely carved, representing separately the Oak, the Maple, the Horse Chestnut, the Fern, the Geranium and the Grape.

The chancel has a depth of 29 feet and a width of 27 feet, and when completed will be rich in architectural design and finish. In the rear are three long and narrow windows, and at the apex, the centre being about 22 ft. in length, and the companion windows about 17 ft. each; these will contain figures representing the crucifixion of Christ, each of which are magnificent works of art. These three windows cost $1600, are imported from England and will soon arrive. On each side of the chancel are two stained glass windows of the richest colors, artistically combined, in the centre of each of which are medallions representing the four saints, Matthew, Mark, Luke and John. The altar is an elegant piece of carved workmanship of intricate design, while the lectern or reading desk, of lighter finish, is equally handsome. Both altar and lectern are tastefully inscribed with appropriate scripture passages in crimson and black text.

The font is to be of solid stone, carved in plain style and placed near the cloister porch entrance on a raised platform, at the right of the chancel and near the lectern.

The walls are to be frescoed, a goodly part of which will be in and around the chancel. Considering the richness of the general surroundings, and in order not to detract therefrom, the style employed will be a plain rather than an ornate facing, with colored border settings, and tracories at the openings. The frescoing has been contracted for at about $2000. The wood work of the church is of highly polished western and Canadian ash, heavily massed, and giving a grand idea of solidity. The pews are plain but substantial, and have a seating capacity for 650 persons.

The lighting of the church at night will be by chandeliers suspended from the Hammer beams of the nave roof, while along the sides there will be several jets. At the chancel entrance will be handsome fixtures rising from the stanchions, while inside there will be arrangements for a brilliant flood of light when desired. The entire church contains 1200 feet of gas piping.

On the left of the chancel, and descending from it down a short staircase, is the Rector's room, 12 by 15 ft., wherein are apartments for the keeping of the vestments of the church. Here, too, is a fireproof safe built into the solid masonry, for the reception of the holy communion service, and other valuables. Beyond this is the choir room, 21 by 28 feet, and adjoining is the Sunday school room 30 by 28 feet. These rooms contain large, old-fashioned fire places, handsomely set with pressed brick, each 4 feet long and 2 feet 4 inches deep in the openings, and with mantles each 9 feet long and 1 foot 2 inches wide. In the story above the last mentioned apartments is the Bible class room 20 by 30 feet, with a similar fireplace. All these rooms are substantially finished and furnished in ash, and have commodious cabinets with drawers.

The organ loft, which is built into the first stage of the tower, is 15 by 20 feet, from which the organ is to project about three feet, and to be played from the chancel below. It will cost $3000, made by Hook & Hastings of Boston, is ready to be placed in position, and will be superior to any organ in the State. The choir are to be seated in the chancel, liberal provisions having been made for their accommodations.

Above this loft are the bell and tower rooms, each 16 feet square, both of which are of solid masonry and giants in appearance. There are eight louver windows in the bell tower, each 14 feet long and 3 feet 4 inches wide; and four windows in the tower each 8 feet long and 2 feet wide. A chime of nine bells, costing $2500 has been contracted for with well-known makers in Baltimore, who will soon have them ready to hang. One of the heaviest of these bells will be used as the regular church service bell.

Three large furnaces are set in the cellar, two of which heat the main building and the other the school rooms. The acoustics and ventilation of the church have been carefully looked after, and the most satisfactory results are attained.

The dedication has been set for St. John's day, June 24th, on which occasion there will probably be imposing masonic rites, combined with the impressive ceremonials of the church.

A GOOD DIVIDEND PAYING INVESTMENT.

The Gifford Compo Shoe Machine Co.

CAPITAL $100,000. 2000 SHARES.
PAR VALUE $100.

Thomas J. Gifford, President;
Aug. J. Archer, Treasurer;
Wallace Hackett, Secretary.

Organized and Incorporated for the purpose of manufacturing and leasing their Patent Hydraulic Compo Shoe Press.

This is the most perfect machine yet invented for attaching soles to Boots and Shoes by the Compo process. The shoes made on them are as easy and pliable as a glove, inasmuch as they have a perfectly smooth and flexible sole of solid leather, having no nails, pegs or objectionable fastenings, attached by a process which renders it strong and durable, and impervious to dampness.

The capacity of the machine is fifteen cases per day. More than 2,000,000 pairs Misses' and Children's Shoes were made on these machines the past year, and we are now supplying machines for making Men's and Women's Boots and Shoes, which pay larger royalties. Its success is assured; and as the machines multiply, largely increased earnings and dividends will be realized.

Dividends are paid quarterly from Royalties collected on every pair of Boots or Shoes made on the machine.

We confidently offer the stock as not only a safe, but profitable investment, promising larger returns in the near future.

A few shares paying 8 per cent. per annum are offered for sale at par.

TO GRATIFY HIS WIFE.

An Interesting Story—A Hopeless Case Cured. A Good Reason for Happiness.

Statement of Mr. Washington Monroe, of Catskill, Green County, New York.

"For many years I had suffered from a complaint which the physicians called gravel. I had employed some of the most noted doctors without obtaining any permanent relief, and for a long time my case was regarded as hopeless. All who knew the circumstances said I must die. Finally, my wife induced me to try a bottle of Dr. Kennedy's 'Favorite Remedy' which she had somewhere heard of or seen advertised. Without the slightest faith in it, but solely to gratify her, I bought a bottle of a druggist in our village. I used that and two or three bottles more, and—to make a long story short—I am now as healthy a man as there is in the country.

Since then I have recommended 'Favorite Remedy' to others whom I knew to have suffered from Kidney and Liver complaints; and I assure the public that the 'Favorite Remedy' has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

DR. BULL'S COUGH SYRUP

Naval Affairs.

Secretary Hunt has received a cablegram from Lieutenant Giles Harber, of the Jeannette search party at Nischnendinsk, Russia, as follows: "Despatch to take charge of the Lena received. I meet Danenhower here. Will report after further conversation." His five men are essential to conduct the search in the Lena. No other seamen can be obtained. They are in splendid condition, and are very anxious to return with me. They earnestly request me to take them. Answer here direct." Secretary Hunt telegraphed to Lieutenant Harber that Danenhower's men could accompany him if they were able and willing.

Rear Admiral James H. Spotts, commanding the South Atlantic squadron, died at Port Stanley, Falkland Islands, March 9th, of apoplexy, and was buried there. He was born in North Carolina, March 11th, 1822, and appointed to the navy from Kentucky, August 2d, 1837. His total sea service was over twenty-two years. His last previous cruise expired in October, 1872. His death makes the following promotions: Commodore Pierce Crosby to be rear admiral; Capt. A. A. Semmes to be commodore; Commander G. H. Perkins to be captain; Lieut. Commander Chas. V. Gridley to be commander; Lieut. John Bryce to be lieut. commander.

Rear Admiral John C. Febiger has been ordered to hold himself in readiness to command the South Atlantic station.

Oil upon Troubled Waters.

The completest demonstration ever made that the soothing effect of oil on troubled waters can be put to practical use, was made by Mr. John Shields of Perth, England, on March 1st. Having chosen Peterhead (one of the most exposed points on the British coast, the entrance being frequently rendered impassable by the waves sweeping in from the North sea) as the most suitable place for his experiment, Mr. Shields caused iron and lead pipes to be laid from the beach into the sea in front of the entrance to the harbor. A force-pump was attached to the land end of the piping, and near it was placed a barrel containing 100 gallons of oil. On March 1st, Mr. Shields, having been informed by the Meteorological Office that the sea was rough at Peterhead, went thither from Perth. When the white-crested waves were rising to a height of tea to twenty feet at the harbor entrance, the oil pump was put in motion, causing the oil to spread in the bottom of the sea, and on its gradually rising to the surface the white foam entirely disappeared, and, although the swell continued, the sea's surface was perfectly smooth, so that a ship or a small boat could have entered the dock without the slightest danger—an impossibility before the oil was distributed in the water. The experiments fully satisfied the shipmasters, pilots and harbor-masters who witnessed them. Mr. Shields is willing to give any harbor the benefit of his invention, and render assistance in carrying it out.

A predicament; 2 o'clock in the morning—sleet on the sidewalk,—baby got the croup, and no Dr. Bull's Cough Syrup in the house.

The revenue districts of this state will probably be reformed. Of the $350,000 of revenue taxes paid in this state, the sum of $320,000 is said to be paid in Portsmouth, Manchester and Walpole, by brewers and distillers. The six breweries in the state turn out about 231,000 barrels of beer and lager a year, and the rum distillery 1,000 barrels. Jones' brewery turns out about 128,000 barrels. There are seven cigar manufactories in Merrimack county, and New Ipswich is the largest cigar manufacturing place in the state.

Mother Died of Salt Rheum.

J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicines on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relieved or cured until I used the Cuticura Remedies."

Diphtheria.

A cold or sore throat may not seem to amount to much, and if promptly attended to can easily be cured; but neglect is often followed by consumption or diphtheria. No medicine has ever been discovered which acts so quickly and surely in such cases as PERRY DAVIS' PAIN KILLER. The prompt use of this *invaluable remedy* has saved thousands of lives.

PERRY DAVIS' PAIN KILLER is not an experiment. It has been before the public for forty years, and is most valued where it is best known.

A few extracts from voluntary testimonials read as follows:

PAIN KILLER has been my household remedy for colds for the past twenty-seven years, and have never known it to fail in effecting a cure.—L. S. CROCKER, Williamsville, N. Y.

For thirty years I have used PAIN KILLER, and found it a never-failing remedy for colds and sore throat.—BARTON SEAMAN.

Have received immediate relief from colds and sore throat, and consider your PAIN KILLER an invaluable remedy.—GEO. S. EVERETT, Dickinson, N. Y.

I have just recovered from a very severe cold, which I have had for some time; I could get no relief until I tried your PAIN KILLER, which relieved me immediately. I will never again be without it.—W. O. FOWLE, Lowell, Ohio.

Have used PAIN KILLER in my family for forty years, and have never known it to fail.—BARNOM Lewis, Waynesboro, Ga.

I heard using PAIN KILLER in my family twenty-five years ago and have used it ever since, and have found no medicine to take its place.—B. W. DYER, Druggist, Oneida, N. Y.

For whooping-cough and croup it is the best preparation made. We would not be without it.—A. P. HOPKINS, Liberty Mills, Va.

For twenty-five years I have used PAIN KILLER for colds and chapped hands, and consider it the best medicine ever offered.—GEO. HOOPER, Wilmington, N. C.

I was suffering severely with bronchitis, and my throat was so inflamed I could scarcely swallow any food. I was advised to try your PAIN KILLER, and after taking a few doses was completely cured.—T. WILL, Inspector, Chicago.

Dr. WALTON writes from Cochocton: YOUR PAIN KILLER cures diphtheria and sore throat, so alarmingly prevalent here, and has not been known to fail in a single instance. This fact you should make known to the world.

Mrs. ELLEN B. MASON writes: My son was taken violently sick with diphtheria, high fever, and cold chills. So many children have died here, I was afraid to call a physician, and tried your PAIN KILLER. He was taken on Sunday, and on Wednesday his throat was so sore that it was a painful cure, and I wish it could be known to the poor mothers who are losing so many children.

For Chills and Fever PAIN KILLER has no equal. It cures when everything else fails.

Delays are often dangerous in sore throat, so many of PAIN KILLER'S in the house is a safeguard that no family should be without.

All druggists sell it at 25c., 50c., and $1.00 per bottle.

CatarrH

Hay-FeveR

DIRECTIONS.

For Catarrh, Hay Fever, Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS. Apply a particle into the ear, rubbing in thoroughly.

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

Back Ache

POSITIVELY CURED BY

Benson's Capcine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.

Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination which acts with increased rubefacient, stimulating, sedative and counter irritant effects.

Second.

Because they are a genuine pharmaceutical preparation, and so recognized by the profession.

Third.

Because they are the only plasters that relieve pain at once.

Fourth.

Because they will positively cure diseases which other remedies will only even relieve.

Fifth.

Because over 1000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use.

Sixth.

Because the manufacturers have received the only medals ever given for porous plasters.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880.
For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. E. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

WHEAT BITTERS.

THE BEST AND The Richest BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriments with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, *not by fermentation* but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

THE INTERNAL REVENUE.

Mr. B. M. Putney, the newly confirmed collector of internal revenue, thus gives us some information as to his appointment and what his duties are to be:

In this state during the war period there were three collection districts, but when most of the taxes were taken off these were consolidated in one, and one collector, Col. Andrew H. Young of Dover, has had charge of the whole. He has had as assistants five deputies; one at Portsmouth, for the division composed of Rockingham, Strafford, Carroll and Belknap counties; one at Manchester, for Hillsborough; one at Concord, for Merrimack; one at Lebanon, for Grafton and Coos; and one at Cornish, for Cheshire and Sullivan. These collected last year the handsome sum of $849,484.31.

Mr. Young has recently resigned, and Henry M. Putney of Manchester, who was recommended by nearly every prominent republican in the state, including the delegation in Congress, has been appointed to succeed him, and will enter upon his duties April 1st. This is liable to lead to a reorganization of the entire force, and a consolidation of several of the divisions, the changes in the law having taken away nearly all the work by which two of the deputies formerly earned their salaries.

Of the $350,000 collected in the state last year, more than $333,000 was paid at Portsmouth, Manchester, and in Cheshire county, where all the breweries, distilleries, and most of the cigar factories are located. Last month the entire collections in the Grafton and Coos division were less than $50, and in the Merrimack division only $111; and except in the month of May, when the special taxes are paid, a dozen men and firms in Portsmouth, Manchester and Walpole pay nearly all that is collected in the state. These are Frank Jones, (who pays more than a hundred thousand dollars a year,) William Ward, the distiller, the New England and Eldridge brewing companies, all at Portsmouth; the two breweries and dozen cigar factories at Manchester; and the brewery at Walpole. It is a curious fact that one man who makes cigars in an attic in Manchester pays more taxes than the whole city of Concord, and a man who runs a little brewery at Walpole nearly twice as much as the whole state north of a line drawn east and west through Manchester.

In brief, rum and tobacco pay the revenue taxes, and wherever these are manufactured there the collector reaps his harvest. There are six breweries in the state, which turn out annually about 185,000 barrels of ale and lager beer, and pay that number of dollars in taxes; one rum distillery, which makes more than a thousand barrels a year, and pays more than $40,000 in taxes; and forty cigar factories, which make about 2,500,000 cigars, and pay $15,000 for tax stamps.

Almost Killed.

I was almost killed by the doctors, who treated me for bleeding piles. It cost me over $100 without relief. I took Sulphur Bitters for two months, and now I am well.—*Gus Hall, Troy.*

Wallace Wilson, fourteen years old, employed by farmer Brown of Alburgh Springs, Vt., has decamped with $215 of the farmer's money. His father is a mill overseer in Holyoke, Mass., and the boy is described as unusually bright for his years.

How to Save.

All hard workers are subject to bilious attacks which may end in dangerous illness. Parker's Ginger Tonic will keep the kidneys and liver active, and by preventing the attack save much sickness, loss of time and expense. Delay at such times means danger.—*Detroit Press.* See other column.

Mrs. Charles Perry of Southport, Conn., aged seventy years, died in her carriage on the 22d inst., of heart disease.

Beauty Regained.

The beauty and color of the hair may be safely regained by using Parker's Hair Balsam, which is much admired for its perfume, cleanliness and dandruff eradicating properties.

Miss Lelia F. Robinson of Massachusetts, the "lady lawyer," is the granddaughter of Daniel Robinson of Gardiner, Maine, who for many years was editor of the "Old Farmers' Almanac."

Liver diseases, headache, and constipation, caused by bad digestion, quickly cured by Brown's Iron Bitters.

Frank Horn, who was arrested for illegally voting in Newmarket after having previously voted in South Newmarket on the same day, was held in $100 to answer at a higher court, and readily found bail. In retaliation for Horn's arrest the democrats caused the arrest of George T. Mellen, formerly an engineer for the Newmarket corporation, claiming that he had not been in Newmarket long enough to entitle him to vote, by two days, at the time of the late town meeting, at which he voted. He also was held in $100, bail being at once furnished.

The Inconsistency of Man.

Scheming, diverse, and manifold advertisements of worthless goods, will never attract profitable customers; only meritorious articles such as Swayne's Ointment for skin diseases, are recognized and sought after by the people. Real worth always receives its just merit. A man may profit for a while by imposing upon the public, but it is only a question of time when he will reach the end of his rope. Man has never dared to doubt the efficacy of this great vegetable Ointment.

Newmarket was considerably excited week before last over the performances of a fellow robed in a waterproof, who chased and insulted young girls and women o' nights, though he did not attempt any actual assaults. The waterproof-man was captured on Monday night of last week, and proved to be a stranger about fifty years old, who gave his name as Edward Boughten, and his residence as New York city. On Tuesday, the 21st inst., he was taken before a police justice, and sentenced to thirty days in Exeter jail.

"Rough on Rats."

The thing desired found at last. Ask druggist for Rough on Rats. It clears out rats, mice, roaches, flies, bedbugs; 15 cts. boxes.

Skinny Men.

Wells' Health Renewer. Absolute cure for nervous debility and weakness of the general functions; $1 at druggists. Depot at J. H. Thacher.

Mrs. Tufts of Dover, wife of George Tufts, a respectable citizen, recently decamped with Al. Wooster, a worthless bummer, leaving a bright little boy with her husband. Wooster is said to have two wives living.

That rheumatism is indiginous to the climate of our section of the globe, we admit, but this does not confine it within our limit or insure an attack to foreigners by special cultivation only, therefore we advise all who are in the least exposed to dampness or marshy districts to use St. Jacobs Oil, the great rheumatic cure, liberally, as did Professor F. Bellois, who resides at 1,117 Callowhill street, Philadelphia, and has been for more than two years the cornet-soloist of McClurg's Band. He was formerly first-violin of Theodore Thomas' renowned orchestra, and for several years was a prominent orchestra leader in Europe. He is a graduate of one of the best musical schools in Germany. Mr. Bellois stated that he had suffered severely from rheumatic attacks since he had been in the United States, and never found any substantial relief until he commenced using St. Jacobs Oil, at the request of Prof. McClurg. He had had attacks in the limbs and joints, and never found any other remedy to do him any good. He always keeps the Oil on hand.

In Cornish, at the late town meeting, Martha W. Day was elected superintending school committee.

Are you ill? Dr. Russell prescribed Wheat Bitters for me and I never felt better. Try it at once.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

NEW HAMPSHIRE GAZETTE

Contains more orignal matter Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Grafton has a proud financial record. With no obligations and $1430 in the treasury, she was not required to raise any money at her recent election. The income from deposits in savings banks nearly pays her state tax. It is considered a healthy town, but the agent in 1881 sold $1,200 worth of liquors "for sickness only." It was voted to sell the two barrels of spirits on hand, and close the dispensary.

Why We Have So Few Good Riders.

It has frequently been the subject of remark as to the cause of the scarcity of good jockeys. To be sure we have some excellent riders—Barrett, Evans, Hughes, Barbee, Feakes, and probably half a dozen others, but not more. The secret is explained in the fact that unless a jockey takes great care of himself, constant exercise in the saddle will superinduce piles of the most aggravating character, that itch intensely, particularly after gettingwarm in bed, and thus render him unfit for service on the track. However, if Swayne's Ointment were used, the worst case of itching piles would be speedily cured.

Portsmouth Chronicle.

MONDAY, MARCH 27. 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Naval Affairs.

The United States training ship Saratoga sailed from Boston for Newport, R. I., on Thursday last, but returned to the compass ground in the harbor on Friday. Several cases of sickness broke out among the boys after leaving the navy yard, which are said to be scarlet fever. Four of the boys were removed to the Marine hospital in Chelsea for treatment, one of whom died after an illness of only eight hours. Cadet Midshipman Spooner was sent, on Friday afternoon, to the same hospital, and is said to be suffering with the same disease.

News and Notes.

The fishing vessels on Georges bank were roughly handled during the gale which commenced on Friday, the 17th inst., and continued through Saturday night. The schooner Flash dragged her anchor fifteen miles, had her deck swept, and lost anchor and cable. The Margaret and the Polar Wave also lost anchors and cables, and had their decks swept. The Smuggler lost six dories, and one of her crew, named Michael Savage, was washed overboard, but was rescued. The S. R. Lane lost her gurry-pens. The Adelia Hartwell, Frank A. Williams, Carl W. Baxter, David M. Hilton, Finance and E. P. Starr, all lost anchors and cables. The Elizabeth M. Smith, of Portland, took the gale on La Have bank, had her decks swept, losing dories, trawls, etc., and had two men washed overboard, though they were rescued. It is feared that some of the vessels on Georges went down during the gale.

The assailant in the horrible affray in the Katahdin Iron works, Bangor, Me., was John Bailey. Frank Robinson, the victim of the assault, is still alive, although quite low. It appears now that Robinson struck Bailey first, and that the latter responded by seizing a shovel and smashing in Robinson's skull. Bailey has not been arrested.

A young girl named Dora Forbes died at Rutland, Vt., on the 16th inst., and before her death accused Rev. W. L. Smith, pastor of the Methodist church at Brunswick, N. Y., a married man with a family of children, with having accomplished her ruin. The presiding elder of the district has investigated the matter, and reports that he is absolutely convinced that the clergyman was wrongfully accused.

David J. Pratt of Kent, Conn., charged with bigamy, has been discharged.

Mary J. Henderson, aged sixteen years, of Greenville, Conn., married Charles Heller clandestinely and against her father's will, in consequence of which she has been turned out of home. Mr. Henderson is now seeking Heller with a gun and pistol alternately.

AROUND HOME.

The annual examinations of the third district schools occur this week, the appointments being as follows: Tuesday forenoon, the schools taught by Misses Shackley and Rothwell; Tuesday afternoon, Miss Ham's and Miss Rand's; Thursday forenoon, Miss Smart's and Miss Prescott's; Thursday afternoon, Miss Clark's; Friday forenoon, Mr. Perkins'. Parents of pupils, and friends of education in general, are cordially invited to attend any or all these examinations.

The county treasurer has for the great amount of work he performs, and the care of a large amount of money, a salary of three hundred dollars. The remainder of the pay for his services he obtains from the use of the money. The commissioners examine his accounts once a year, or oftener if they choose. He should balance his cash-book daily, and a frequent statement of the conditions of his finances should be required. We think we can safely assert that this office might be made one of responsibility rather than a reward for political zeal. The county treasurer has a great chance to afford to be honest.

The April term of the supreme court will be held in Exeter, commencing on the 11th; Hon. Alonzo P. Carpenter will preside. The docket has been growing smaller with every term of late years, through the working of the referee system, and the cases upon the docket for the coming term number but 223, as follows: Civil actions, 168; equity cases, forty-eight; state actions and appeals, three; cases in sessions, four.

The Boston *Herald* of the 26th inst. says: "Manager Hazlett, of the Marine Bicycle company, and C. A. Jackson of the South Boston *Inquirer*, will start from Salem this forenoon for City Point on marine bicycles. They are expected to arrive at their destination about three o'clock P. M."

The tug Ann, hauled out on the marine railway at Kittery last week, has had some fancy painting done to her.

Mr. Charles G. Emmons, assistant manager of the Wentworth hotel, is to visit New York about the middle of April, and will be at the Fifth Avenue hotel, where he will show plans of the house and name figures for rooms, etc.

The town meeting in Rye will be held on Thursday, 30th inst.

The Concord *Monitor* says that "James M. French, recently of the Phenix hotel, is going to the Rockingham house at Portsmouth with Mr. Thompson next month, for the season."

One of Gen. Lane's bondsmen occupied a similar position on the bond of N. A. Shute, the defaulting cashier of the Granite State bank at Exeter.

Wm. T. Frye shipped one hundred barrels of alewives to Boston on the 25th inst., by steamer Acushnet.

The steamer Three Brothers, owned by a Mr. Upton of Salem, Mass., which was hauled out at South Newmarket last autumn, has during the winter received a new boiler and a new propeller, had her deck-room increased, and received a thorough overhaul generally. She will be used for towing and carrying passengers, with headquarters up the river.

Mr. Lars Nelson came in from the Shoals on Saturday in a wherry, with 1250 pounds of fish. The wherry was covered with ice on arriving, showing that the weather outside was what Mr. Nelson said it was, anything but comfortable.

The schooners Emily A. Staples, Coleman master, D K Ham, Garland master, and Triton, Freeman master, arrived from Boston on Saturday, bound to Eliot for bricks. The Triton has made one trip between Eliot and Boston this season; the other two schoopers are on their first trip, both having wintered in Boston.

There was a sale at Gerrish's island, Kittery, on Friday last, of the wreck stuff saved from the schooner E. A. Elliott. The spars and ground tackle were the principal articles saved, and the spars were pretty well scarred up.

A photograph of the last of the four panels of the Washington monument shaft has been sent to Washington. The panel represents G. W. resigning his commission as commander-in-chief. What this part of the county wants to behold as a rare work of art is a photograph of Andrew H. Young resigning *his* commission as collector of internal revenue. Every one wants to know if it looks natural.

Kittery town meeting occurs to-day.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the SIX years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policyholders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral estate is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountains over 2000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00—*non assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. THE COUNTY DEFALCATION.

Gov. Bell was in town on Saturday. The governor was not one of the sureties on Gen. Lane's bond as county treasurer, as has been stated by the Boston papers; governors are not apt to be sureties for other officials.

The accounts of the Lane affair sent to the Boston dailies contained many other inaccuracies, one of them being the statement that Lane is a member of the Second Congregational church of Exeter; he has attended that church—in fact is one of the assessors, an office created by the original charter of the church when granted over a century ago, and ever since kept up, but referring entirely to the business affairs of the church—but he is not a member.

Nor is it true that the Union Five Cents savings bank has been doing a general banking business until recently. The internal revenue bureau some years since brought a suit against the bank, to tax its deposits subject to check, and this branch of the business, previously carried on, was then given up.

It is quite probable that Mr. Lane's friends may make up the deficiency in the county funds. The sum will be ascertained at a meeting of the county commissioners, the county auditors and Gen. Lane's sureties, to be held in Exeter on Tuesday.

The unsuccessful operator is a nephew of Hon Daniel Clark. He was born in Stratham, and learned the book business with his uncle, Deacon E. J. Lane of Dover, who is probably the oldest bookseller in the state.

The Boston papers' statement as to the relative deficits is incorrect, the county sum being about $20,000, and the private bank deposits about $25,000, short.

Lane thinks his losses, gone beyond recovery, will amount to $63,000. How much knowledge the Boston brokers may have had of the coming crash, or the sources of supply for his margins, is an interesting conjecture; certainly some of them knew it all.

The following statement is made by one of the county commissioners: "The accounts are closed up and audited on the first day of May of each year. The last auditors were Josiah B. Wiggin and George W. Libby, who found Mr. Lane's books and papers correctly cast and properly vouched. We keep our bills paid up closely, and are accustomed to draw for funds upon the treasurer whenever necessary. At the beginning of the fiscal year there was in the treasury $9000, which was sufficient for ordinary expenses until the county tax of $83,000 became due on August 1st. Out of that tax, Lane paid $29,600 on matured bonds, also $4,000 in interest, besides some other outlays that would have left in Lane's hands nearly $50,000. Then came the winter term of the supreme court, and other expenses. Lane has handed to us a deposit book on the Rockingham national bank which has a credit in favor of the county of $2382. Lane said that was all the funds of the county which he had in his possession. Rockingham county has a debt of only $40,000, and the credit of the county stands high. All bills will continue to be paid promptly, as usual."

WEEKLY FISH REPORT.

The receipts of fish at this port for the week ending March 25th were very light, sixteen vessels and market boats bringing in 35,650 pounds, against twenty-seven arrivals the week previous with 85,600 pounds. Most of the supplies were forwarded to Boston, one firm sending 13,800, for which $4 per hundred was realized. The demand for fish of all kinds has exceeded the receipts. About 400 lbs. of salmon was brought in, being the first of the season, all of which was immediately sent off, realizing fancy figures, with standing offers for all future receipts. The winter fleet out of this port is fast drawing off to prepare for fishing on the Grand banks, also for mackerel and lobster catching.

POLICE COURT.

SATURDAY, Mch. 25; *Batchelder, J.*

Joseph Bolter, for insult, was ordered to pay $2 fine and $5.76 costs, and did so. The evidence shew that the defendant, who had probably been firing up on benzine, was moved by the spirit to grossly insult one of the best officers on the force; he has found out that such fun is not profitable.

The court had another paying customer, in the person of George Baker, who handed over $9.90 for a case of simple drunk.

ANOTHER WOMAN SPEAKS.

Mr. Editor: I am thankful that at last *one* woman has had the courage to call attention to the our proposition of the English bondholders of the Eastern railroad, to despoil our best localities with their wretched railway system. If the men will do nothing, (and pray are *all* the men in Portsmouth in a state of Rip Van Winkle repose?) let us women arise and assert our rights as residents and property holders. Our property is taxed; shall we have no voice in its protection? If we have, my voice is still for war on the senseless programme to built an expensive road to the sea shore, when a route of less cost, if we must have such a luxury, could be as well selected. Let us pledge ourselves to go to Boston by the steamboat or the Boston & Maine railroad, rather than patronize a corporation whose managers have so little regard for the interests of Portsmouth as to be willing to deface its beauties. ANOTHER LADY.

P. S. My husband advises me not to make a fool of myself. Is not that just like the men? A woman never advances to right a wrong, but the opposite sex are seized with the severest shock to their propriety.

P. S. No. 2. Of course this last is not to appear in the paper.

[*Note.* Our correspondent does so well in giving vent to her feelings that we think justice demands the appearance of the whole epistle.—*Ed.*]

THE PUBLIC LIBRARY.

The great crowd eager for books at the Public Library on Saturday nights shows that there is a general desire for reading when the opportunity exists. We visited the rooms on Saturday evening last, but could not get to the desks. There were at least fifty persons waiting to be served, and on our way from the rooms we met many others going in with books to be exchanged. If any person has doubts that a large free library is needed in Portsmouth, or that the present affair is doing much good, or that it needs extended accommodations and more books, a visit to the rooms on a Saturday night will convince him (or her) to the contrary, and that the generous gift of Ex-Mayor Jones should have been followed up by his successors and others liberally inclined,—and we doubt not that when Mr. Jones wants to do a liberal act again, instead of tying up the sum intended to be bestowed he will give it outright, and have the pleasure of witnessing the immediate effects of his benevolence.

A RAP AT SOMEBODY.

Mr. Editor: I see by a communication in your paper that there is indignation because the proposed Rye Beach branch of the Eastern railroad, if built, "will run through some of the finest gardens and near some of the finest residences in the city." This indignation is but just, and the remonstrance against the outrage but natural; yet when the same railroad some months ago proposed to run a public highway (far more destructive to privacy than a railroad track) through a fine garden and near an ancient residence in another quarter of the city, the proprietors of the property were told that instead of opposing the scheme of the railroad they should be thankful for it, as the new street would make the property more valuable to cut up into house lots! Perhaps the "finest gardens in the city" will also be more valuable to cut up into house-lots, after the railroad runs through them and destroys their value as residences for their present occupants. GROWLER.

The arrivals of fish on Sunday, were the schooner Flora Temple with 2300 lbs.; the Fannie T., with 1800; the Grace Choate, 1200; the Young Selim, 500; the Lydia A. Davis, 700. From the Shoals, in small boats, Ingerbretson 700 lbs., E. H. Downs 1200 lbs. The schooner Joseph O. Proctor arrived in the lower harbor on Sunday morning.

A Washington correspondent insists that Postmaster Pierce and Collector Howard have visited Washington in the interest of Senator Rollins, to enter a stalwart protest against Wm. E. Chandler being appointed secretary of the navy,—a result which, it is hinted, would give the votes of the Portsmouth representatives in caucus to Mr. Chandler for senator, instead of to Mr. Rollins, who claims them. The men who recently subscribed to the *Statesman* on the premise that as the owner of a majority of its stock was soon to be secretary it would be well to be on the list, are getting impatient at the delay.

The Cleveland, *Press* of Jan. 17th said: "The large audience at the Opera house were agreeably surprised last night by the excellence of the entertainment furnished by Baird's Minstrels, as the popular idea has been that Haverly, and Barlow, Wilson, Primrose & West had monopolized all the talent. Charles Howard is unsurpassed as a delineator of the aged contraband. Goodyear is a rising comedian. West is an artist in the banjo line, and the four invincibles have never been equalled in this city." This company will perform in Music hall on Thursday evening next.

Tenney is at work on a portrait of Ex-Gov. Smythe, to be presented to the Phillips academy at Andover, Mass.

A GOOD DIVIDEND PAYING INVESTMENT.

The Gifford Compo Shoe Machine Co.

CAPITAL $100,000. 1000 SHARES.
PAR VALUE $100.

Thomas J. Gifford, President;
Aug. J. Archer, Treasurer;
Wallace Hackett, Secretary.

Organized and incorporated for the purpose of manufacturing and leasing their Patent Hydraulic Compo Shoe Press.

This is the most perfect machine yet invented for attaching soles to Boots and Shoes by the Compo process. The shoes made on them are as easy and pliable as a glove, inasmuch as they have a perfectly smooth and flexible sole of solid leather, having no nails, pegs or objectionable fastenings, attached by a process which renders it strong and durable, and impervious to dampness.

The capacity of the machine is fifteen cases per day. More than 2,000,000 pairs Misses' and Children's shoes were made on these machines the past year, and we are now supplying machines for making Men's and Women's Boots and Shoes, which pay larger royalties. Its success is assured; and as the machines multiply, largely increased earnings and dividends will be realized.

Dividends are paid quarterly from Royalties collected on every pair of Boots or Shoes made on the machine.

We confidently offer the stock as not only a safe, but profitable investment, promising larger returns in the near future.

A few shares paying 8 per cent. per annum are offered for sale at par.

KNOW THYSELF, or Self-Preservation. A Great Medical Treatise on Manhood; the Cause and Cure of Exhausted Vitality, Nervous and Physical Debility, also on Untold Miseries arising from the Excesses of Maturer Years. 300 pages. Royal 8mo. The very finest steel engravings. 125 invaluable Prescriptions, for all acute and chronic diseases. Bound in beautiful French Muslin, embossed, full gilt. Price only $1.25, by mail. New Edition.

ILLUSTRATED SAMPLE 6 CENTS. SEND NOW.

The Science of Life, or Self-Preservation, is the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single of either sex can either require or wish to know, but what is fully explained. In short, the book is invaluable to all who wish for good health.—*Toronto Globe.*

The book for young and middle aged men to read just now is the Science of Life, or Self-Preservation. It is worth many times its weight in gold.—*Medical Times.*

The author of the Science of Life is a noble benefactor. He reaches the very roots and vitals of disease, and is enabled to apply thorough remedies. The book already is read upon both continents by millions.—*London Lancet.*

The Gold and Jewelled Medal awarded the author of the Science of Life was fairly won and worthily bestowed.—*Massachusetts Ploughman.*

Thousands of extracts similar to the above could be taken from the leading journals—literary, political, religious and scientific—throughout the land.

The Book is guaranteed to be a better medical work, in every sense, than can be obtained elsewhere for double the price, or the money will be refunded in every instance.

Thousands of Copies are sent by mail, securely sealed and post-paid, to all parts of the world, every month, upon receipt of price, $1.25. Address

TO GRATIFY HIS WIFE.

An Interesting Story—A Hopeless Case Cured. A Good Reason for Happiness.

Statement of Mr. Washington Monroe, of Catskill, Green County, New York.

"For many years I had suffered from a complaint which the physicians called gravel. I had employed some of the most noted doctors without obtaining any permanent relief, and for a long time my case was regarded as hopeless. All who knew the circumstances said I must die. Finally, my wife induced me to try a bottle of Dr. Kennedy's 'Favorite Remedy' which she had somewhere heard of or seen advertised. Without the slightest faith in it, but solely to gratify her, I bought a bottle of a druggist in our village. I used that and two or three bottles more, and—to make a long story short—I am now as healthy a man as there is in the country.

Since then I have recommended 'Favorite Remedy' to others whom I knew to have suffered from Kidney and Liver complaints; and I assure the public that the 'Favorite Remedy' has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

DR. BULL'S COUGH SYRUP

A Bold Bigamist.

Frederick M. Bailey, who was arrested in New Haven, Conn., last Thursday, for bigamy, has lived, until recently, in New York. He married his second wife, Mary Rourke by name, in that city, the day before last Thanksgiving. For some time after his second marriage Bailey would spend two or three days with each wife, and so cleverly did he conduct himself that neither had any thought that anything was wrong. About three months ago he told wife No. 1 that he had got into a gambling scrape, and would have to leave the city for a time. With wife No. 2 he went to Bridgeport, and about a month ago, to New Haven. It was a bold move, for not only has he relatives in New Haven, but his first wife, who was Carrie Brailey of Springfield, Mass., also has relatives in the city. As was to be expected, it was soon known to the wife left in New York of Bailey's whereabouts, and of the woman he lived with as his wife. The result was Bailey's arrest. In court wife No. 1 was sad and silent, while No. 2 cried aloud and continuously. Both are young and good looking women; Bailey is about thirty years old.

The April "Atlantic" maintains well the high standard of varied excellence and interest which recent numbers have reached. Besides two additional chapters of Mr. Bishop's serial, "The House of a Merchant Prince," and the conclusion of Mr. Lathrop's serial, "An Echo of Passion," Miss Elizabeth Stuart Phelps begins in this number a new serial story entitled "Dr. Zay," which cannot fail to attract very general attention. The author of "The Gates Ajar" and "The Story of Avis" is sure of a host of readers for whatever she writes. John Fiske contributes a popular scientific article of great interest entitled "Europe before the Arrival of Man." Mr. Charles Wood writes an excellent appreciative article, "A Hindu Reformer," giving an account of the life and religious views of Chunder Sen. Readers of short stories will be attracted by Miss Woolson's "In Venice," and Mr. Deming's account of "Jacob's Insurance." "Shakespearean Operas" are discussed by A. E. Barr; Eugene W. Hilgard has an interesting paper on "Progress in Agriculture by Education and Government Aid;" Edward Farrer contributes a very engaging article on the "Folk Lore of Lower Canada." There are several poems, one a choice gem by Albert Laighton, reviews of many of the more important recent books, and a diversified Contributors' Club, completing a very interesting number of this sterling magazine. Houghton, Mifflin & Co., Boston.

—The asthete does not admire the American onion. It so closely resembles the bulb of his dear lily that it brings tears to his eyes.

—In his experiments with the strength of insects, Floteau, the French naturalist, has ascertained that in proportion to its size a June bug is as powerful as a locomotive.

The way to produce a smile on the face of a man, suffering with a racking cough, is to make him a present of a bottle of Dr. Bull's Cough Syrup.—Just try it and you will be astonished at the result.

Money for a Rainy Day.

"For six years my daughter was sick from kidney and other disorders. We had used up our savings on doctors, when our dominie advised us to try Parker's Ginger Tonic. Four bottles effected a cure, and as a dollar's worth has kept our family well over a year, we have been able to lay by money again for a rainy day."—A poor man's wife.

The Distinguishing Charm.

A delightful fragrance of freshly gathered flowers and spices is the distinguishing charm of Floreston Cologne.

Andover has, we believe, the best financial showing of any place in the state. Her net surplus over incidental liabilities is $9908.40.

Try a bottle to-day of the invalid's friend, "Wheat Bitters." It may save your life; it has saved thousands. Your druggist has it.

THE GREAT CURE FOR **ITCHING PILES**

Symptoms are moisture, stinging, itching, worse at night; seems as if pin-worms were crawling about the rectum; the private parts are also affected. An pleasant, economical and positive cure, SWAYNE'S OINTMENT is superior to any article in the market. Had by druggists, or send free for it. Price 50 cts., $1.25. Address, DR. SWAYNE & SON, Phila., Pa.

Diphtheria.

A **cold** or **sore throat** may not seem to amount to much, and if promptly attended to can readily be cured; but neglect is often followed by **consumption** or **diphtheria.** No medicine has ever been discovered which acts so **quickly** and **surely** in such cases as **PERRY DAVIS' PAIN KILLER.** The prompt use of this **peerless remedy** has saved thousands of lives.

PERRY DAVIS' PAIN KILLER is **not an experiment.** It has been before the public for **forty years,** and is most valued where it is best known.

A few extracts from voluntary testimonials read as follows:

PAIN KILLER has been my household remedy for colds for the past twenty years, and have never known it to fail in effecting a cure.—R. S. CROCKER, Williamsburg, N. Y.

For thirty years I have used PAIN KILLER, and found it a never-failing remedy for colds and sore throat.—BARTON SEAMAN.

Have received immediate relief from colds and sore throat, and consider your PAIN KILLER an invaluable remedy.—GEO. B. EVERETT, Dickinson, N. Y.

I have just recovered from a very severe cold, which I have had for some time. I could get no relief until I tried your PAIN KILLER, which relieved me immediately. I will never again be without it.—C. O. FORCE, Lowndes, Ga.

Have used PAIN KILLER in my family for forty years, and have never known it to fail.—RANSOM LAWTON, Waynesboro, Ga.

I began using PAIN KILLER in my family twenty-five years ago, and have used it ever since, and have found no medicine to take its place.—B. W. DYER, Druggist, Oneida, N. Y.

For whooping-cough and croup it is the best preparation with which I am acquainted.—A. P. ROUTH, Liberty Mills, Va.

For twenty-five years I have used PAIN KILLER for colds and chapped lips, and consider it the best medicine ever offered.—GEO. HOOPER, Wilmington, N. C.

I was suffering severely with bronchitis, and my throat was so inflamed I could scarcely swallow any food. I was advised to try your PAIN KILLER, and after taking it for a few days was completely cured.—T. WILKINSON.

Dr. WILKOX writes from Coshocton: Your PAIN KILLER cures diphtheria and sore throat, so alarmingly prevalent here, and has proved known to fail in a single instance. This fact you should make known to the world.

Mrs. ELIZA B. MASON writes: My son was taken violently sick with diphtheria, high fever, and cold chills. So many children have died here, I was afraid to call a physician, and tried your PAIN KILLER. It was taken on Sunday, and on Wednesday his throat was clear. It was a wonderful cure, and I wish it could be known to the poor mothers who are losing so many children.

For Chills and Fever **PAIN KILLER** has no equal. It cures them everything else fails.

Delays are often dangerous. A bottle of PAIN KILLER in the house is a safeguard that no family should be without.

All druggists sell it at **25c., 50c., and $1.00** per bottle.

Back Ache

POSITIVELY CURED BY

Benson's Capcine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.

Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination which acts with increased rubefacient, stimulating, sedative and counter irritant effects.

Second.

Because they are a genuine pharmaceutical preparation, and so recognized by the profession.

Third.

Because they are the only plasters that relieve pain at once.

Fourth.

Because they will positively cure diseases which other remedies will not even relieve.

Fifth.

Because over 5000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use.

Sixth.

Because the manufacturers have received the only medals ever given for porous plasters.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880.
For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was troubled very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. B. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time by the use of this wise and use the great blood purifier.

SULPHUR BITTERS. Why suffer with Headaches and Biliousness? Why lose your appetite? Why be troubled with Indigestion? Why have that tired feeling? Why have that miserable Dyspepsia? Why have that loss on the bowels? Why have that nervous feeling and need a gentle yet thorough stimulant? Why have that weary feeling and want to lie in bed? Why have that feeling of pain with dizziness? Why have that feeling of nervousness and want to be left alone? Why have that feeling of sadness? Why have that feeling of want of energy? Why have that feeling of want of appetite? Why have that feeling of want of flesh? Why have that feeling of want of sleep? Why have that feeling of want of strength? Why have that feeling of want of life? Why have that feeling of want of hope? Why have that feeling of want of ambition? Why have that feeling of want of anything? Why have that feeling of want of everything? Why have that feeling of want of nothing? Why have that feeling of want of something? Why have that feeling of want of something to make you feel like you want to feel? Why have that feeling of want of something to make you feel like you want to feel? Why have that feeling of want of something to make you feel like you want to feel

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

News and Notes.

Crow Dog, the Sioux chief who killed Spotted Tail, has been found guilty of murder. The case will be carried to the supreme court of the United States, to decide the many knotty points of law involved.

An explosion of gas took place in the Laurel Run mines of the Delaware & Hudson Coal company at Paysons, Saturday night. Five men were in the pit at the time. It is thought they are all dead.

The body of a Mrs. Bickford, who was eighty-three years old and a resident of Monmouth, Me., was found two miles from her home, Saturday, scantily clothed. She probably died from exposure.

At South Bethlehem, Pa., Saturday, one case of smallpox was reported in a family not previously infected, and six cases in families where the disease had already prevailed.

Col. A. N. Fryer, who during the rebellion was in command of a New York regiment, was found dead in bed Saturday at Milwaukee, Wis. It is supposed he committed suicide.

The proprietors of the pipe foundries at Burlington and Florence, N. J., have raised the wages of their employes ten per cent.

Four colored men were drowned at Laytons, Pa., Sunday, by the sinking of an old boat in which they were going down the river.

F. M. Golberg, an attorney of Milwaukee, Wis., is accused of extorting money, embezzling, and keeping a gambling house.

The "Army & Navy Register," published every Saturday at Washington, D. C., at $3 per year, or twenty-five cents per month for any less period, displays commendable enterprise in securing the latest news concerning the army and navy up to the date of publication, and much care in publishing such news correctly. For persons in either branch of the service, or having friends there, no paper issued is better to take, the information being full and reliable, and matters of interest intelligently discussed editorially.

AROUND HOME.

The *Army & Navy Register*, of Washington, D. C., says: "Chief Naval Constructor T. D. Wilson, U. S. N., who has been staying at the McPherson house, will take quarters on April 1st at Mrs. Grant's, corner of Fourteenth and K streets. His family will remain until next autumn at Portsmouth, N. H."

Capt. Charles W. Drown is getting his schooner yacht, the Wm. H. Russell, in readiness for the summer's business. She has been greatly improved since last season, both in looks and passenger accommodations.

The fish arrivals on Monday were the schooner Albert Woodbury with 5500 lbs., the Storm King with 1200 lbs., and the Flying Eagle with 400 lbs.

A large flock of wild geese passed over this city on their northward flight, Sunday evening. Their passage indicates a more temperate degree of weather.

James W. Odlin, one of Lane's sureties and one of Sheriff Kent's deputies, expects soon to be appointed postmaster at Exeter.

Hon. John Wentworth of Chicago (Elongatus Johannes) recently gave at Chicago his lecture upon his recollections of John Quincy Adams, Calhoun, Clay, Webster and Benton, to an immense audience. Mr. Wentworth is known to every well informed inhabitant of New Hampshire as a native of Sandwich, a resident of Chicago in winter, and a sojourner at the Rockingham house in this city in summer. He began his congressional career Dec. 4th, 1843, and was then the youngest member of the House of Representatives, and never had seen a legislative body in session. His lecture is interesting to the smallest detail. He freely speaks his mind, and being a man of much sense and practical wisdom, who has seen much of the world, we enjoy the perusal of his discourse, which is reported at length in the Chicago *Times*. It would be a good idea to invite Mr. Wentworth to bring his manuscript along when he visits Portsmouth next summer, and read his lecture for the benefit of the Public Library.

The schooner Wm. B. Keen, Becker master, which came in last week from Eastport, Me., with 40,000 frozen herring, sold her cargo to E. S. Newton & Co. This is probably the last arrival of frozen herring at this port for the season.

The U. S. S. Marion, now on the South Atlantic station, has been ordered to this navy yard, where her crew will be paid off and the vessel be put out of commission.

The schooner Little Kate, purchased by Howell C. Russell at the recent sale of fishing gear owned by C. Morris Tredick, is being refitted for the fishing business, and will be sailed by Capt. David Slaney. Mr. Charles Gray is making her a new set of spars, from sticks cut at Dow's woods, Rye.

Mr. Wm. Dixon, of Kittery, is building a large whale-boat for Mr. Charles H. Wallace of Portsmouth, to be used for fishing by Mr. Wallace and Mr. John L. Harvey. Mr. Harvey launched his fishing boat, which had been hauled up during the winter, on Friday of last week.

Mr. Lewis Holmes of this city is at South Berwick, building a gondola for parties in that town.

The school in district nine, Kittery, taught during the late term by Mr. Horace Mitchell, closed on Friday last with an exhibition, which was so largely attended by the parents and friends of the pupils that the latter were obliged to clamber over the desks to reach their seats, the aisles being blocked with visitors. A series of exercises,—declamations, readings, dialogues, etc.,—on Lincoln's birthday, was given, and highly appreciated. At the close of the exercises the teacher presented Bertha Norton with a beautifully-bound books of poems for having maintained the highest rank in general scholarship, and to Fred Dixon a copy of the "Life of Garfield," for special proficiency in spelling. Following this, Mr. Rowell, late principal of the Kittery high school, on behalf of Mr. Mitchell's pupils presented him with a heavy napkin ring of solid silver, suitably engraved —a proceeding which is strongly commended by the parents in the district, who say their school has never been better conducted, as to the discipline maintained and the advancement of the scholars in their studies, than during the recent term.

MAKE THE BEST OF IT.

Mr. Editor: Of what use is it for your correspondents to talk of individuals, or the city government, opposing the running of a railroad line through the heart of the city and across the streets, if the Eastern railroad has decided or shall decide to run it there? Has that road ever yet proposed to do anything in this city that has not been done,—and on the railroad's own terms?

When the railroad asked permission to put an extra line of rails across Vaughan street the city councils refused to grant it, and instructed the mayor to prevent the laying of the rails; result, the rails were laid immediately. The councils then instructed the mayor to cause the prompt removal of the illegally-laid rails; result, they are there yet.

The city wanted gates put up at a dangerous street crossing; the railroad objected to putting them up, and they are not yet put up, though it is not impossible that at some time they may be, as the place for them still exists.

The railroad wanted a new street made; the city refused to make it, but it has been made, and the city has had to foot the bills.

The road wanted Russell alley blocked up, and proceeded to block it and build a fence across the end. The city ordered the obstructions removed, with the result that they have not been, and never will be.

The railroad wanted more land, and proceeded to make it by filling up the north pond, which it has not the slightest legal right to do, although it owns (or at least claims to own) the flowage of the pond. Nothing more effective than a newspaper correspondent's protest was made to this proceeding; and I see by the *Times* report of the aldermen meeting that "It was also thought that that part of the pond above the round-house, where the mud is several feet deep, should be filled up, and the same committee was appointed to see what could be done for gravel with which to fill in with, and to make a report at the next meeting." In other words, it is proposed that the city government shall not only legalize, so far as it can, the railroad's action in filling the pond, but that the shall pay the railroad for making land for the road's use.

A struggle against the inevitable is neither dignified nor wise, and instead of spending time in urging on the city or citizens to an opposition which must prove futile, it were better for aggrieved parties to make the best of it, and demand of the road such damages as will heal their wounded feelings. A MAN.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*non assessable*. This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

OUT ON BAIL.

Ex-County Treasurer George E. Lane was on Monday forenoon released on $10,000 bail, six sureties qualifying, as follows: Ezra Barker, of Stratham; Bradbury L. Cilley, William Burlingame, Eben Folsom, Edward H. Gilman, of Exeter; Edmund B. Lane, of Dover. Mr. Lane left for Exeter with his friends immediately after his release.

It is denied that his trouble was occasioned by dealing in "margins," the statement being made that he "never bought or sold a share of stock on 'margins' in his life, but has always bought his stocks and paid for them outright. In 1879 he purchased largely, and on one Monday in November of that year he went to Boston, taking with him every share of stock he owned, with the full determination to sell all, and cancel all orders to buy. Accidentally hearing a prominent broker say that stocks were going higher, he determined to hold on a while longer. That change in his plans was the step that led to the fatal result; then he could have sold out and had several thousand dollars profit. The next Friday was the day every broker will recollect as the dark day of that year, on which many fortunes were wiped out. Since that time he has been vainly struggling to recover, until at last he had to succumb, having been obliged to dispose of all his investments of stock at a great sacrifice to meet his depositors' drafts upon him."

MORE FACTS ABOUT INTERNAL REVENUE.

The sales of the six breweries doing business in New Hampshire last year amounted to 231,594 barrels, divided as follows:

The three breweries in Portsmouth sold 197,894 barels; Manchester's two breweries, 16,855; Walpole's one brewery, 16,845 barrels.

The general government received as revenue on the above, and from the manufacture of distilled spirits in the state for the year ending Dec. 31st, 1881, about $260,000, of which the Portsmouth brewers and distillers paid $225,000, Manchester $15,000, and Walpole $15,000. It will be seen by these figures that Portsmouth contributes to the internal revenue of the country *fifteen times* as much as Manchester, or seven and a half times as much as all the rest of the state, on the manufacture of fermented and distilled spirits.

Of the $850,000 collected from all sources of internal revenue in the state last year, Portsmouth paid nearly $240,000, or more than two-thirds of the entire amount collected.

KITTERY TOWN MEETING.

The annual town meeting of Kittery, Me., was held on Monday of this week; Calvin L. Hayes was chosen moderator, and the following-named persons were elected to serve for the ensuing year:

Town clerk, Dennis M. Shapleigh;

Selectmen, assessors and overseers of the poor, James R. Philbrick, Frank H. Bond and William A. Fernald;

Treasurer, Jesse Frisbee;

Agent, Elroy C. Cottle;

Superintending school committee, Jas. H. Rowell, Harriet H. Shapleigh and Calvin L. Hayes;

Auditors, John Wentworth and E. F. Safford;

Health officer, Dr. M. F. Wentworth;

Collector of taxes, Nicholas E. Spinney;

Constables, Daniel H. Nason, Nicholas E. Spinney, Luthey P. Foye, Cedric Laighton and A. L. Spinney.

With the exception of collector and town agent, the officers are the same as last year. The democrats made no contest.

It was voted to raise $2700 for district schools, and $500 (in addition to the state allowance) for the high school; for support of the poor, $1000; town debt and interest, $1000; contingent, $2000; repairs of highways, (labor tax,) $3600, of which $2400 is for the summer expenses.

ELIOT TOWN MEETING.

The town meeting of Eliot, Me., was held on Monday, the 27th. Alexander Junkins was chosen moderator, and officers for the ensuing year were elected as follows:

Town clerk, George E. Ireland;

Selectmen, assessors and overseers of poor, Ichabod Cole, Sylvester Bartlett and Simon Emery;

Treasurer, Flavius J. Paul;

Agent, John R. Hanscom;

Supervisor of schools, J. L. M. Willis;

Collector, Samuel Clark;

Constable, James M. Raitt;

Auditors, Moses Goodwin and Leonard P. Foster.

There were four tickets in the field, viz.: Straight democratic, split democratic, republican, and greenback. All the candidates elected are democrats, excepting Sylvester Bartlett, second selectman, who is a republican. The majorities were small in every case. Notwithstanding the bad weather the attendance was quite large.

Eliot spent for the support of schools for the year ending March 10th, 1882, $2979.50 for the education of 499 scholars. District No. 7, Eliot Neck, received $648.48, for 133 scholars. The estimate for the year 1882 is as follows:

Support of poor,	$ 500.
Contingent expenses,	1200.
Schools,	1800
Interest,	600
Repair of roads and bridges	1500
Reduction of town debt	1200
Total,	$6,800

The town debt is $6029.75.

The young people of the Universalist society will give a Japanese kettledrum and character reception in the vestry of their church on Wednesday and Thursday evenings of this week; an interesting stage entertainment will also be presented each evening. The Universalist young folks have a happy knack of always giving pleasure to all who attend their entertainments, and they expect to do better this time than ever before.

Manager Baird always gives us a good show and always gives it to a crowded house, too. This season the company is twice as large as ever before, and we may expect an entertainment enjoyable in proportion. Charlie Howard, the first performer who ever impersonated an aged darkey on the minstrel stage, and the originator of old man songs and dances, Frank West, the artist banjo player, Charley Goodyear, the Four Invincibles, Harry C. Horton, the male soprano, Major Thomas, the lightning drillist, and his eight Zouave Cadets, George Leslie, the bone grotesque, the London Quintette, the Midget Four, who do a wonderful dance upon each others heads, and a host of popular artists will appear, and the best minstrel performance of the season may be looked for.—*Newburyport Herald.*

The Washington correspondent of the Boston *Sunday Herald*, under date of March 25th says: "Col. E. G. Pierce of Portsmouth, N. H., is here in the interests of the mechanics of that city and the Kittery navy yard, in opposition to the bill before Congress in relation to the building of the new war vessels by contract. He favors the building of one-half of the vessels at the navy yards, the other half by contract, and keeping an account at the navy yards of the complete cost of each vessel built there, and comparing them with the contract vessels."

The late David D. Badger, of Newington, with a prudent thoughtfulness some years since effected an insurance on his life, the result of which will be a timely payment to his widow.

Under orders from Gen. Thom, United States engineer in charge of this district, Mr. Carl Berrer, of the engineer force, on Saturday last inspected the lower narrows of the Cocheco river, with regard to furnishing a plan of needed improvements at that point, and estimates of the cost. The excavating company, with the dredging machine and three scows, last week commenced work at deepening the water in front of the Cocheco Co.'s wharf at Dover.

The "Knights of St. Anselmo," of Dover, will give their first grand bal masque in that city on the evening of Easter Monday, April 10th, in the city hall, Edney & French's orchestra, of Haverhill, furnishing the music. No one will be admitted to the floor to dance unless costumed and masked, until after the intermission. A costumer from Boston will be at the rooms of the Dover city council at noon on Saturday, April 8th, with a large variety of fancy dresses for ladies and gentlemen.

Miss Sarah Orne Jewett it is said will visit Europe this summer with Mr. James T. Fields. So much the better for Europe.

From the annual reports of the selectmen and treasurer of Rye, it appear that the receipts last year were $12,277.64, and the expenses $11,613.83, as follows: State tax, $1416; county tax, $2116.71; highways and bridges, $1547.79; town hall expenses, $107.90; notes and interest, $1132.69; support of the poor, $217.15; county paupers, $207.64; support of schools, $1323.20; bounty on hawks and crows, $15.70; abatement of taxes, $25.21; miscellaneous expenses, $516.49. The town debt is $8024.88; the debt was increased $187.40 the past year. The amount of town tax raised is $5129.28; the savings bank tax amounts to $2025.15; literary fund, $87.72; railroad tax, $79.65; the receipts from the town hall were $56.83; amount of cash on hand, $633.81.

A Cough, Cold or Sore Throat
Should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. A GOOD DIVIDEND PAYING INVESTMENT.

The Gifford Compo Shoe Machine Co.

CAPITAL $100,000. 1000 SHARES.
PAR VALUE $100.

Thomas J. Gifford, President;
Aug. J. Archer, Treasurer;
Wallace Hackett, Secretary.

Organized and incorporated for the purpose of manufacturing and leasing their Patent Hydraulic Compo Shoe Press.

This is the most perfect machine yet invented for attaching soles to Boots and Shoes by the Compo process. The shoes made on them are as easy and pliable as a glove, inasmuch as they have a perfectly smooth and flexible sole of solid leather, having no nails, pegs or objectionable fastenings, attached by a process which renders it strong and durable, and impervious to dampness.

The capacity of the machine is fifteen cases per day. More than 2,000,000 pairs Misses' and Children's shoes were made on these machines the past year, and we are now supplying machines for making Men's and Women's Boots and Shoes, which pay larger royalties. Its success is assured; and as the machines multiply, largely increased earnings and dividends will be realized.

Dividends are paid quarterly from Royalties collected on every pair of Boots or Shoes made on the machine.

We confidently offer the stock as not only a safe, but profitable investment, promising larger returns in the near future.

A few shares paying 2 per cent. per annum are offered for sale at par.

TO GRATIFY HIS WIFE.

An Interesting Story—A Hopeless Case Cured. A Good Reason for Happiness.

Statement of Mr. Washington Monroe, of Catskill, Green County, New York.

"For many years I had suffered from a complaint which the physicians called gravel. I had employed some of the most noted doctors without obtaining any permanent relief, and for a long time my case was regarded as hopeless. All who knew the circumstances said I must die. Finally, my wife induced me to try a bottle of Dr. Kennedy's 'Favorite Remedy' which she had somewhere heard of or seen advertised. Without the slightest faith in it, but solely to gratify her, I bought a bottle of a druggist in our village. I used that and two or three bottles more, and—to make a long story short—I am now as healthy a man as there is in the country.

Since then I have recommended 'Favorite Remedy' to others whom I knew to have suffered from Kidney and Liver complaints; and I assure the public that the 'Favorite Remedy' has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

DR BULL'S COUGH SYRUP

For the Cure of Coughs, Colds, Hoarseness, Croup, Asthma, Bronchitis, Whooping Cough, Incipient Consumption and for the relief of consumptive persons in advanced stages of the Disease. For Sale by all Druggists.—Price, 25 cents.

Hunt has issued a general order as follows: "An office of intelligence is hereby established in the bureau of navigation for the purpose of collecting and recording such naval information as may be useful to the department in time of war as well as in peace. To facilitate this work the department library will be combined with the office of intelligence, and placed under the direction of the chief of the bureau of navigation, and officers commanding and all other officers are directed to avail themselves of all opportunities which may arise to collect and forward to the office of intelligence professional matter likely to serve the object in view."

Not Cod-Fish.

A Washington despatch of the 25th inst. says:

The problem as to the mysterious fish which so many vessels have recently reported as seeing floating dead in the north Atlantic, over an area of many hundreds of square miles, has been solved by the receipts of specimens at the Smithsonian Institute from Knight & Co., Philadelphia, and which Prof. Baird pronounced to be the "tile fish," a new species found by the United States fish commission in incredible quantities along the western edge of the gulf stream in from seventy-five to 700 fathoms of water. The professor thinks they have been killed by the terrific storm which has lately raged along the south coast of New England, especially off the Georges and Nantucket shoals. All those who have tasted these fish, taken under the circumstances mentioned, pronounced them excellent.

Hon. Harry Bingham of Littleton was last week on motion of Hon. Ossian Ray admitted to the bar of the supreme court of the United States.

A citizen of the Quaker City, Mr. F. Freed, living at 122 Vine street, recently spoke as follows: "Being afflicted with a distressing cough, Dr. Bull's Cough Syrup was recommended to me for relief. I am happy to say that a few doses not only gave me instant relief, but effected a complete cure."

Rear Adm. Gustavus H. Scott, retired, died in Washington, D. C., on the 24th inst. He entered the service in 1828.

Of one fact I am convinced, and that is St. Jacobs Oil does cure rheumatism. For years I suffered with rheumatism in my left shoulder and right arm, and last fall I was incapable of attending to my duties, and lay many a night unable to sleep on account of terrible pains. A few weeks ago a severe attack of this trouble struck me, and this time I concluded to try the St. Jacobs Oil, I must acknowledge, with but little confidence in its merits. I freely confess that the result completely astonished me. The first application relieved the pain very materially, and the continued use of only two bottles has completely cured me of this chronic evil, and that after the most eminent physicians and their prescriptions had been of no avail. I therefore consider it a duty to publish the above for the benefit of all sufferers with rheumatism and kindred complaints. G. A. HEILMAN, Editor *Republican*, Pittsburgh, Pa.

The United States court of claims has rendered judgment in favor of Commander A. G. Kellogg for $339, for mileage from Shanghai to San Francisco. The suit was brought in 1878 for mileage due in 1873 under the law of 1835.

The Inconsistency of Man.

Scheming, diverse, and manifold advertisements of worthless goods, will never attract profitable customers; only meritorious articles such as Swayne's Ointment for skin diseases, are recognized and sought after by the people. Real worth always receives its just merit. A man may profit for a while by imposing upon the public, but it is only a question of time when he will reach the end of his rope. Man has never dared to doubt the efficacy of this great vegetable Ointment.

Secretary Hunt on the 25th inst. received a despatch from Irkutsk, Russia, announcing the safe arrival there of Lieut. Harber and Master Scheutze.

Not a drink, not sold in bar-rooms, but a reliable non-alcoholic tonic medicine, useful at all times, and in all seasons, is Brown's Iron Bitters.

Diphtheria.

A **cold** or **sore throat** may not seem to amount to much, and, if promptly attended, to can easily be cured; but neglect is often followed by consumption or **diphtheria.** No medicine has ever been discovered which acts so **quickly** and **surely** in such cases as **PERRY DAVIS' PAIN KILLER.** The prompt use of this *invaluable remedy* has saved thousands of lives.

PERRY DAVIS' PAIN KILLER is not an experiment. It has been before the public for **forty years,** and is most valued where it is best known.

A few extracts from voluntary testimonials read as follows:

PAIN KILLER has been my household remedy for colds for the past twenty-seven years, and have never known it to fail in effecting a cure.—L. S. CROCKER, Williamsville, N. Y.

For thirty years I have used PAIN KILLER, and found it a never-failing remedy for colds and sore throat.—BARTON SEAMAN.

Have received immediate relief from colds and sore throat, and consider your PAIN KILLER an invaluable remedy.—GEO. E. EVERETT, Dickinson, N. Y.

I have just recovered from a very severe cold, which I have had for some time. I could get no relief until I tried your PAIN KILLER, which relieved me immediately. I will never again be without it.—D. O. FOWLE, Lowndes, Ga.

Have used PAIN KILLER in my family for forty years, and have never known it to fail.—BENJAMIN LEWIS, Waynesboro, Ga.

I began using PAIN KILLER in my family twenty-five years ago, and have used it ever since, and have found no medicine to take its place.—B. W. DYER, Druggist, Oneida, N. Y.

For whooping-cough and croup it is the best preparation made. We would not be without it.—J. P. BOYER, Liberty Mills, Va.

For twenty-five years I have used PAIN KILLER for colds and chapped lips, and consider it the best medicine ever offered.—GEO. ADDICKS, Wilmington, N. C.

I was suffering severely with bronchitis, and my throat was so inflamed I could scarcely swallow my food. I was advised to try your PAIN KILLER, and after taking a few doses was completely cured.—T. WILKINSON.

Dr. WALTON writes from Coshocton: YOUR PAIN KILLER is the best medicine in my place.—B. W. DYER, Druggist, Oneida, N. Y.

For whooping-cough and croup it is the best preparation made. We would not be without it.—J. P. BOYER, Liberty Mills, Va.

For twenty-five years I have used PAIN KILLER for colds and chapped lips, and consider it the best medicine ever offered.—GEO. ADDICKS, Wilmington, N. C.

For Chills and Fever **PAIN KILLER** has no equal. It cures when everything else fails.

Dealers are often dangerous. A bottle of PAIN KILLER in the house is a safeguard that no family should be without.

All druggists sell it at **25c., 50c., and $1.00** per bottle.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880.

For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. B. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Boils? Why are you troubled with Eruptions? Why have you a Foul Breath? Why are you so pale and languid? Why have you no appetite? Why do you feel dull and drowsy? Why have you Nervous Headaches? Why are you troubled with Dizziness? Why are you troubled with Costiveness? Why are you troubled with Dyspepsia? Why are you troubled with Sick Headache? Why are you troubled with Rheumatism? Why are you troubled with Kidney Complaint? Why are you troubled with Female Weakness? Why are you troubled with Nervous Debility? Why are you troubled with Low Spirits? Why are you troubled with Want of Appetite? Why are you troubled with Want of Sleep? Why are you troubled with Want of Strength? Why are you troubled with Want of Energy? Why are you troubled with Want of Ambition? Why are you troubled with Want of Vitality? Why are you troubled with Want of Life? Why are you troubled with Want of Anything? Why are you troubled with Want of Everything? Why are you troubled with Want of Nothing? Because your blood is impure, your system is out of order, your liver is torpid, your nerves are all unstrung, your digestive organs are all deranged, your kidneys are all out of order, your bowels are all out of order, your skin is all out of order, your complexion is all out of order, your breath is all out of order, your disease is all out of order, your friends are all out of order, your business is all out of order, your everything is all out of order, your nothing is all out of order, your everything is all out of order, your nothing is all out of order, your everything is all out of order, your nothing

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Wm. Gurnett, of Manchester, was sent for six months to the house of correction, at Lowell, Monday, for embezzlement, while acting as soliciting agent for the Lowell *Times*, some months ago.

Mother Died of Salt Rheum.

J. W. Adams, Newark, Ohio, says: "Cuticura Remedies are the greatest medicines on earth. Had the worst case salt rheum in this county. My mother had it twenty years, and in fact died from it. I believe Cuticura would have saved her life. My arms, breast and head were covered for three years, which nothing relieved or cured until I used the Cuticura Remedies."

By the decision of the supreme court in the suit of the Manchester & Keene railroad against the city of Keene, Messrs. W. P. Frye and J. Y. Scruton of Lewiston, Me., will each gain $25,000.

Are you ill? Dr. Russell prescribed Wheat Bitters for me and I never felt better. Try it at once.

It was exceptionally cold in the north part of the state for the season, Saturday moning. Thermometer eight degrees below.

Nervous debility, the curse of the American people, immediately yields to the action of Brown's Iron Bitters.

The French Spoliations Claims.

There is a bill before the present Congress to indemnify numerous citizens of the United States for certain acts of spoliation to American shipping committed by the French prior to July 31, 1801. These claims have appeared before Congress from time to time, and have been the subject of a succession of able reports, upwards of forty in number. Of these only three have been adverse; the others have recommended the passage of the bill, and two several times—once under President Polk and again under President Pierce—both houses of Congress concurred in an act for the relief of these claimants, but this tardy justice was arrested by presidential veto. Among the eminent men whose reports as chairmen of the committee on foreign relations have been favorable to these claimants, are Edward Livingston, Edward Everett, Daniel Webster, Caleb Cushing, John M. Clayton, Rufus Choate and Charles Sumner. As to the character of these claims, Mr. Sumner in his report to the senate, submitted in January, 1870, said:

Of all claims in our history these are most associated with great events and great sacrifices. First in time, they are also first in character, for they spring from the very cradle of the republic and the trials of its infancy. Here were individual losses, felt at the time most keenly and constituting an unanswerable claim upon France, which were employed by our government at a critical moment, like a credit or cash in hand, to purchase release from outstanding national obligations, so that the whole country became at once the trustee of these sufferers, bound, of course, to gratitude for the means thus contributed, but bound also to indemnify them against these losses.

These claims have been pressed with greater or less vigor since they first accrued. Resolutions in favor of them by the thirteen states which originally declared independence, have been presented to Congress. Pressing demands for immediate legislation have frequently crowded them out of place, and prevented their consideration; but now an effort is being made, by the committees of Congress, as well as by the claimants, to have the matter properly considered and finally disposed of.

Many of the vessels which suffered by the depredations which gave rise to these claims were owned in Portsmouth by merchants of that period, and there are believed to be many descendants of the original claimants in this vicinity, in whom now vest any rights which may arise in the premises. Several of those having the largest interests, in Boston and other cities, have combined to expedite matters if possible, and it is desirable that the owners in this vicinity should unite for the same object. For this purpose petitions, etc., may be found at the office of Wallace Hackett, Esq., of this city, for a more particular description of which reference may be had to a notice in our advertising columns.

N. Y. & N. E. Railroad Bonds.

The first mortgage bonds of the New York & New England R. R. are finding public favor. Upon this property, which cost over $30,000,000, there is a mortgage of only $10,000,000, consisting of $6,000,000 at seven per cent and $4,000,000 at six per cent. This mortgage is absolutely a first lien upon the present property of the company, and all that is ever acquired, so that whatever property is added in the future will increase the strength of these bonds. The company has a capital stock of $20,000,000, worth at present market price nearly $10,000,000.

The following table is interesting as showing the net interest now obtainable on investments in the securities in the home roads:

	Due	Sell at		Per cent.
Boston & Albany	7s, 1892,	127,	and net only	3 3-4
" "	6s, 1895,	120,	" " "	4
Old Colony	7s, 1894,	127,	" " "	4 1-8
"	6s, 1898,	117,	" " "	4 5-8

Fitchburg "	7s, 1894,	127,	" " "	4 1-8
"	5s, 1901,	113,	" " "	4 1-2

Yet N. Y. & N. E. 7s, due in 1905, are selling at about 114, while they would pay five per cent at 127 and should sell at 142 1-2 to pay 4 1-8, as most of the bonds above named pay. The 6s, also due in 1905, are selling for about 104. They would pay five per cent at 114 and to pay 4 1-8 per cent they should sell at 128. —*Boston Journal, March 28th.*

News and Notes.

The Hudson river steamer Thomas Cornell went ashore on the rocks at Dausskammer point, ten miles south of Newberg, on the night of the 27th inst., while on the trip from Rondout to New York, and became a total wreck, Passengers and crew saved. The loss on the boat alone is over $225,000.

The British coasting steamer Pelton has foundered in the Bristol channel, and eighteen persons were drowned.

A despatch from Big Springs, Texas, says: "Ten days since six negro convicts escaped from a gang working on the Texas Pacific railroad. After killing one guard, they robbed a railroad camp, secured arms, rations and civilian clothing. Two made their way safely to Mexico. The other four travelled east along the road, pursued by Capt. McMurray's Rangers. They broke into several section-houses for rations. On Saturday a sergeant came upon them lying in the bush near Medway. He ordered them to surrender. They ran, and two were killed and the other two captured."

At Hollowell, Me., last Friday afternoon, a man by the name of Frank Harvey, in the employ of the Hallowell Granite company, committed suicide by shooting. No particular cause is assigned for the deed, except that he had become discouraged by some little business difficulties.

Mayor Libbey of Portland, Me., on Monday afternoon addressed the assembled police on their duties, and significantly remarked that they would be expected to enforce every law impartially, including the liquor law.

John T. Randall, a prosperous shoe manufacturer of Auburn, Me., committed suicide by hanging, Friday night last. About a year ago he married his second wife, a Boston lady. Ill health is said to have led to the suicide.

The trial of Ellis, the tramp evangelist, for adultery, was assigned for Monday in the court at Rockland, Me. He was in Rockland on Friday, and expressed his intention of standing trial and engaging counsel. He has left the city, leaving his bondsmen in the lurch for $500. There are sixteen or eighteen persons on the bond, so the proportion will be light. It is supposed that Ellis left the city on a Boston steamer, Friday evening.

John Sherburn died in Wheelock, Vt., a few days ago, after having been confined to his bed forty-three years by an injured spine.

By an explosion at the Vulcan Powder Co.'s works, opposite San Francisco, Monday, five white men and six Chinamen were killed, and four white men wounded.

Congressman Jonathan Chace, of the second Rhode Island district, is a member of the Society of Friends, and adheres so closely to the non-combatant doctrines of his sect that he declines to nominate a cadet to West Point. Mr. Chace has perhaps heard of the temperance reformer who was so thorough that he actually declined to bathe in the Brandywine river.

SUDDEN DEATHS IN HAMPTON.

Mr. Nathaniel Bachelder of Hampton was found in an unconscious condition on the 20th inst. by one of his family who happened to go to the room where it was supposed he was at work. He died on the 24th, and was buried Sunday, the 26th. He was seventy-four years old, and highly respected.

On the 25th inst. Mrs. Knowles, living in the same neighborhood, was found dead by her family. She started for the barn to collect eggs, and not returning she was looked for, and found on the ground near the barn, dead. She was seventy-eight years old, and much esteemed by all who knew her.

Both the bereaved families will severely feel their loss.

At the third attempt to elect a mayor for Biddeford, on Monday last, Hon. Elish E. Clark was re-elected by a majority of twenty-seven over the democratic and "citizens'" candidates, the vote being as follows: Clark 1059, Staples (democrat) 989, Hanson (citizen) forty-three. At the two previous trials Mr. Clark had a plurality, but a majority was required to elect; on the third attempt, when a plurality would have elected, Mr. Clark had a clean majority, the total vote being heavier than was cast at either of the former trials.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2500 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $5.00,—*non assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. QUERIES

Mr. Editor: Noticing several articles in the newspapers lately upon a subject I am much interested in, the Chase Home for destitute, homeless children, and that a subscription is being circulated to raise funds for repairing the house donated by Mr. Sheafe for that purpose, I have inquired into the matter somewhat, but have so far failed to discover certain points, which I trust the intelligent CHRONICLE can put me right upon.

I understand that near eleven hundred dollars have been raised by subscriptions, and contributions. By the latter some seven hundred dollars have been paid in —where? I cannot find as yet who holds the money in trust.

Also how much the estimate for requisite repairs will amount to? What sum will be sufficient for this work? What is necessary to be done? How many children can the building accomodate, when prepared for their occupancy? when will the work be begun? will children of all religious creeds, irrespective of sect, be admitted? Do I understand, as I hope will be the case, that the work will be executed under the will and superintendence of the board of management named? Finally—after the transfer of children from their present limited quarters to their new home, what action, and when, will be taken of making a hospital of the Billbruck gift—the house on Court street where the children now are?

Being a townsman and friendly to the object, for my own information as for that of the community at large, I should be glad if you would answer these few questions. Yours truly, ENQUIRER.

[*Note.*—We should be glad to answer all the questions in "Enquirer's" note—which, by the way, bears date of March 13th, and has been for some time mislaid —but are unable to, as we know nothing of the matter save what has appeared in the papers. Mr. Jos. Hiller Foster is treasurer, and makes public acknowledgment of all contributions, unless requested otherwise, when private acknowledgment is given; and the "Home" receives children irrespective of creed. This is all we can tell, but perhaps some person fully conversant with the matter will reply to the rest of the queries.—Ed.]

REPORT OF THE ANTI-CRUELTY SOCIETY.

The recently published report of the President, Secretary and Treasurer of the Anti-Cruelty Society, has been distributed among the members of the society and its patrons throughout the State. The vigor, persistence and success of the society in the prosecution of its humane work is remarkable, when the limited means at its disposal are taken into consideration. Its operations cover an extensive field, and its agents are called to attend to cases of cruelty in the remotest sections of the country. From the Secretary's report, we learn that 1053 animals were relieved by the agents of the Society during the year ending Nov. 31, 1881. Of whom 91 were overdriven, 96 cruelly beaten, 64 overloaded, 28 overloaded and beaten, 17 cruelly killed, 171 neglected or starving, 535 old, lame and disabled, and 51 exposed to cold.

The address of the President did not contain a dull or prosy sentence, but was full of indignant denunciations of the cowardly ill treatment to which horses and cattle are subjected by ignorant teamsters and drivers. The President used some forcile language in describing a few of the more revolting cases of cruelty and depravity which came to the knowledge of the Society during the year. From a perusal of the book one learns that it is necessary to be careful in the selection of meat, fowl and milk, in order to avoid eating diseased and poisoned food. Some instances, almost surpasing belief, are given, showing that even the most fastidious and particular people buy and eat unhealthy food. The Society deserves the success it is achieving.

A large number of counterfeit dollars, pretending to be of the honest eighty-eight cent variety, but having a somewhat jaundiced look and being of light weight, though ringing very fairly, were passed around in this city on Tuesday—or if previously passed, were discovered on Tuesday, in the cash-drawers of a number of our storekeepers. The counterfeit is easily detected by its lack of the requisite weight, being much lighter than the genuine. Since the foregoing was written we have been informed that other towns in this immediate vicinity have had their currency similarly inflated.

Since 1870 there has been borne on the city's record of bonded indebtedness the sum of $2700 which fell due in 1869, the bonds never having been presented for payment. On Tuesday the mayor received a letter from the administrator of an estate in Boston, announcing that among the papers belonging to the estate were bonds of the city of Portsmouth to the amount of $2700, due in 1869, and asking the mayor if the bonds were worth anything! The estate it is said was settled up long since, the owner of the bonds having died thirteen years ago; and it was in rummaging over some old papers that the bonds were accidentally hit upon.

Mr. E. H. Hall has resigned his position as clerk of the National Mechanics & Traders' bank.

Rev. C. A. Holbrook, rector of St. John's church, is probably now on his way home from the Western islands, as the barque Sarah, in which he went out, was to have sailed from Fayal for Boston on the 16th inst.

Mr. C. Hiram Hayes, who has just returned from Baltimore, whither he went to close up his produce-shipping business of last fall, on Tuesday started for Canada to attend an extensive sale of choice imported stock, announced to take place on Wednesday not far from Montreal.

Strawberry Bank Lodge, No. 54, I. O. G. T., had a pound party on Tuesday evening of this week, which was largely attended and enjoyed by all present.

Two new shifting engines, numbered respectively 103 and 104, arrived at the Eastern railroad station in this city on Tuesday from Manchester, where they were built, and are now at the roundhouse having their smoke-stacks put on, and receiving some finishing touches. They are very powerful, and have deep-sounding bells of good tone. When ready for service one of them will go to Portland, the other remaining to do shifting duty in the yard here.

When the officials of the Rockingham bank attempted to enter the building, Tuesday afternoon, they found that the lock on the outer door would not work, and they had to wait until Mr. Shillaber, who was sent for, arrived and climbed in through a window, and unlocked the door from the inside.

Naval Constructor Steele, recently detached from the Pensacola navy yard and ordered to this yard, to take the place of Chief Naval Constructor Wilson, arrived in this city on Tuesday, and went to the Rockingham house. Mr. Steele is said to be not only a skillful builder of wooden vessels, but to be especially well versed in the construction of ships of iron or steel.

The schooner Sylph, with 1000 lbs. of cod, came in on Tuesday—the only arrival of fish that day.

The schooner Joseph O. Proctor sailed for the Western banks on Tuesday. The Christie Campbell went east for bait on Tuesday, and the Storm King and Grace Choate will follow her to-day.

Mr. John Stavers was on Tuesday evening reported to be seriously ill.

A man calling himself James Bailey is in jail at Exeter, charged with picking pockets. He took a wallet from the pocket of a young lady named Louisa Riley, on board a Concord railroad train. Assisted by another girl, Miss Riley closed the doors of the car and gave an alarm that led to the arrest.

Mr. Lucius Tuttle, the general passenger agent of the Eastern railroad, has been elected vice president of the National Association of General Passenger and Ticket Agents, and no better selection could be made. Mr. Tuttle has shown by results that he is a close student of the wants of the travelling public, and the interests of stockholders.

In Kittery, during the school year just ended, the following named pupils attended the high school all three terms without losing a half-day: Carrie Fernald, Mabel Jenkins, Emma Hayes and Augusta Pettigrew. And the following-named pupils of the district schools attended three terms without losing any time: Katie Pinkham, Charles Chase, George Fernald, Howard L. Gerry, Ralph J. Gerry, Walter Jackson, Everett H. Keen and John E. Lutts.

The Japanese kettledrum, character reception and stage entertainment by the young people of the Universalist church will be given in the vestry this evening. All who attend will enjoy themselves.

A supper and entertainment will be given this (Wednesday) evening at 7:30 o'clock, at G. A. R. hall, by Storer Post. At the conclusion of the entertainment a Ladies' Relief Corps will be formed. All members of the post are earnestly requested to be present.

The thanks of the official board of the M. E. Church are due, and are hereby unanimously tendered to the chorister and organist, and all others who helped to make the cantata given in the Methodist church a success—and especially to those outside of our church who contributed their time and talents.

A show that performed in Kittery last week, advertised that a small fee would be taken at the door, instead of which the doorkeeper invited the people in, and just before the performance opened one of the men went around among the audience and demanded twenty-five cents, or leg bail. There was a slight scattering among the audience.

The house of James Rankin, in Wells, was partially consumed on Thursday evening of last week, the attic and roof being burnt out, damaging the house to the amount of about $300, and the furniture, carpets, etc., to the amount of about $100; house insured $600 in the Wells Mutual Co.; no insurance on furniture. The fire is supposed to have caught from a defective chimney.

Mr. H. M. Perkins, proprietor of the Sea View house at Long sands, York beach, is putting a French roof on the hotel.

Piles! Piles! Piles!

A Sure Cure Found at Last! No One need Suffer!

A sure cure for blind, bleeding, itching and ulcerated Piles has been discovered by Dr. William, (an Indian remedy,) called Dr. William's Indian Ointment. A single box has cured the worst chronic cases of 25 or 30 years standing. No one need suffer five minutes after supplying this wonderful soothing medicine. Lotions, instruments and electuaries do more harm than good. William's Ointment absorbs the tumors, allays the intense itching, (particularly at night after getting warm in bed,) acts as a poultice, gives instant and painless relief, and is prepared only for Piles, itching of the private parts, and for nothing else.

Read what the Hon. J. M. Coffinberry, of Cleveland, says about Dr. William's Indian Pile Ointment: "I have used scores of pile cures, and it affords me pleasure to say that I have never found anything which gave such immediate and permanent relief as Dr. William's Indian Ointment."

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. eod&wtjan22

A GOOD DIVIDEND PAYING INVESTMENT.

The Gifford Compo Shoe Machine Co.

CAPITAL $100,000. 1000 SHARES.
PAR VALUE $100.

Thomas J. Gifford, President;
Aug. J. Archer, Treasurer;
Wallace Hackett, Secretary.

Organized and incorporated for the purpose of manufacturing and leasing their Patent Hydraulic Compo Shoe Press.

This is the most perfect machine yet invented for attaching soles to Boots and Shoes by the Compo process. The shoes made on them are as easy and pliable as a glove, inasmuch as they have a perfectly smooth and flexible sole of solid leather, having no nails, pegs or objectionable fastenings, attached by a process which renders it strong and durable, and impervious to dampness.

The capacity of the machine is fifteen cases per day. More than 3,000,000 pairs Misses' and Children's Shoes were made on these machines the past year, and we are now supplying machines for making Men's and Women's Boots and Shoes, which pay larger royalties. Its success is assured; and as the machines multiply, largely increased earnings and dividends will be realized.

Dividends are paid quarterly from Royalties collected on every pair of Boots or Shoes made on the machine.

We confidently offer the stock as not only a safe, but profitable investment, promising larger returns in the near future.

A few shares paying 8 per cent. per annum are offered for sale at par.

TO GRATIFY HIS WIFE.

An Interesting Story--A Hopeless Case Cured. A Good Reason for Happiness.

Statement of Mr. Washington Monroe, of Catskill, Green County, New York.

"For many years I had suffered from a complaint which the physicians called gravel. I had employed some of the most noted doctors without obtaining any permanent relief, and for a long time my case was regarded as hopeless. All who knew the circumstances said I must die. Finally, my wife induced me to try a bottle of Dr. Kennedy's 'Favorite Remedy' which she had somewhere heard of or seen advertised. Without the slightest faith in it, but solely to gratify her, I bought a bottle of a druggist in our village. I used that and two or three bottles more, and—to make a long story short—I am now as healthy a man as there is in the country.

Since then I have recommended 'Favorite Remedy' to others whom I knew to have suffered from Kidney and Liver complaints; and I assure the public that the 'Favorite Remedy' has done its work with a similar promptness in every other instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

DR. BULL'S COUGH SYRUP

Messrs. Houghton, Mifflin & Co., have recently issued a catalogue of the books which they have published. It comprises all the publications of this widely-known house except law, medical and school books, of which special catalogues are furnished upon application. The prices given are the retail prices. Those marked with an asterisk are sold at wholesale at special account. Any book named in the catalogue will be sent post paid by the publishers to any address in the United States, Canada, or any country included in the Universal Postal Union, on receipt of price. The catalogue is embellished with likenesses of many of the authors of works whose publications are embraced therein.

The number of "Our Confident" for last week contains a finely illustrated history of a plaque, artistically sketched by Wm. P. Hooper. The number for this week will have a poem by Albert Laighton, called "Through night to light."

"The United Service" for April is at hand, as usual filled with reading matter of which all is of interest and some of special value to persons in the service. Among these articles are "Reminiscences of the old navy," by Commodore Phelps, in which he speaks of the once-famous sloops-of-war Jamestown and Portsmouth; "Ropes on Gainsville," in which Capt. Charles King, U. S. A., defends the memory of Gen. Rufus King; "Necessity for a system of national defence," "National defences of England," etc., with the usual editorial notes and reviews of "service literature." L. R. Hamersly & Co., Philadelphia, publishers; $5 per year; single numbers fifty cents each.

Naval Affairs.

Representative Morse of Massachusetts on the 27th inst. introduced in the house a bill providing for the sale of the Charlestown navy yard, and all such fixtures as cannot advantageously be removed to other yards. It is believed the house committee on naval affairs will report favorably on the bill.

The training-ship Saratoga, Commander H. C. Taylor, arrived at Newport, R. I., on Sunday night, from Boston, and joined the training fleet at that place.

The naval board appointed to consider the claims of Ensign L. K. Reynolds for advancement over thirty members in the service for gallant conduct, under the provision of section 1,506 of the revised statutes, has made a report that while his conduct has been highly meritorious, it did not in their opinion entitle him to the desired advancement.

Mrs. Mackay, the bonanza person, is preparing to entertain two hundred guests at a costume assembly in Paris. A large tent will be erected for the occasion in a garden over-looking the Arc de Triomphe.

He had just returned from his summer vacation, and describing the beauties of mountain scenery to a lady friend, he asked: "Have you ever seen the Catskill-mountains?" and she answered: "No! but I have seen the Bulls-cough-syrup!"

The President

Of the bank of Waverly, Iowa, says: Sulphur Bitters saved my life. For ten years I suffered from catarrh and liver complaint; I lost forty-five pounds and was growing worse rapidly. I had lost all faith in medicine, but hearing your Bitters so well recommended, I gave them a trial. Six bottles cured me.—*Smith P. Hunt, Waverly, Iowa.*

Death to rats, mice, roaches and ants; Parsons' Exterminator. Barns, granaries and households cleared in a single night. No fear of bad smells. Best and cheapest vermin killer in the world. Sold everywhere.

The house bill granting pensions to Mrs. Garfield, Mrs. Tyler and Mrs. Polk, widows of former presidents, has passed the senate.

It is useless to deny that the brightest and fairest fall easy victims to consumption, and equally fruitless to ignore the fact that decline has its origin in many cases in neglected catarrh. Sanford's Radical Cure is a pure, sweet, balsamic specific.

The colored voters of Petersburg, Va., have nominated one of their own number for mayor, and the white citizens are greatly excited, as the blacks outnumber the whites.

The Inconsistency of Man.

Scheming, diverse, and manifold advertisements of worthless goods, will never attract profitable customers; only meritorious articles such as Swayne's Ointment for skin diseases, are recognized and sought after by the people. Real worth always receives its just merit. A man may profit for a while by imposing upon the public, but it is only a question of time when he will reach the end of his rope. Man has never dared to doubt the efficacy of this great vegetable Ointment.

An unknown three-masted schooner is sunk off Long Branch, only her topmasts showing above water.

Ladies and sickly girls requiring a non-alcoholic, gentle stimulant, will find Brown's Iron Bitters beneficial.

Diphtheria.

A **cold or sore throat** may not seem to amount to much, and if promptly attended to can easily be cured; but neglect is often followed by **consumption** or **diphtheria.** No medicine has ever been discovered which acts so **quickly** and **surely** in such cases as **PERRY DAVIS' PAIN KILLER.** The prompt use of this **wonderful remedy** has saved thousands of lives.

PERRY DAVIS' PAIN KILLER is **not an experiment.** It has been before the public for **forty years,** and is most valued where it is best known.

A few extracts from voluntary testimonials read as follows:

PAIN KILLER has been my household remedy for colds for the past twenty-seven years, and have never known it to fail in effecting a cure.—L. S. CROCKER, Williamsville, N. Y.

For thirty years I have used PAIN KILLER, and found it a never failing remedy for colds and sore throat.—BARTON SEAMAN.

Have received immediate relief from colds and sore throat, and consider your PAIN KILLER an invaluable remedy.—GEO. E. EVERETT, Dickinson, N. Y.

I have just recovered from a very severe cold, which I have had for some time. I could get no relief until I tried your PAIN KILLER, which relieved me immediately. I will never again be without it.—D. O. JONES, Lowndes, Ga.

Have used PAIN KILLER in my family for forty years, and have never known it to fail.—RANSOM LEWIS, Waynesboro, Ga.

I began using PAIN KILLER in my family twenty-two years ago and have used it ever since, and have found no medicine to take its place.—B. W. DYER, Druggist, Oneida, N. Y.

For whooping-cough and croup it is the best preparation made. We would not be without it.—A. P. ROUTH, Liberty Mills, Va.

For twenty-five years I have used PAIN KILLER for colds and chapped lips, and consider it the best medicine ever offered.—GEO. HOOPER, Wilmington, N. C.

I was suffering severely with bronchitis, and my throat was so inflamed I could scarcely swallow any food. I was advised to try your PAIN KILLER, and after taking a few doses was completely cured.—T. WILKINSON.

Dr. W. CLINGY writes from Coshocton: Your PAIN KILLER cures diphtheria and sore throat, so alarmingly prevalent here, and has not been known to fail in a single instance. This fact you should make known to the world.

Mrs. ELLEN B. MASON writes: My son was taken violently sick with diphtheria, high fever, and cold chills. So many deaths have died here, I was afraid to call a physician, and tried your PAIN KILLER. He was taken on Sunday, and on Wednesday his throat was clear. It was a wonderful cure, and I wish it could be known to the poor mothers who are losing so many children.

For Chills and Fever **PAIN KILLER** has no equal. It cures when everything else fails.

Delays are often dangerous. A bottle of PAIN KILLER in the house is a safeguard that no family should be without.

All druggists sell it at **25c., 50c., and $1.00** per bottle.

Back Ache

POSITIVELY CURED BY

Benson's Capcine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.

Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination which acts with increased vigor as a stimulating, sedative and counter irritant effects.

Second.

Because they are a genuine pharmaceutical preparation, and so recognized by the profession.

Third.

Because they are the only plasters that relieve pain at once.

Fourth.

Because they will positively cure diseases which other remedies will not even relieve.

Fifth.

Because over 5000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use.

Sixth.

Because the manufacturers have received the only medals ever given for porous plasters.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880.
For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. R. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Ugly Pimples and Blotches* which mar your beauty are caused by Impure blood, and can be removed in a short time, if you are wise and use the great blood purifier, SULPHUR BITTERS. Why suffer with Rheumatism? Why suffer with Dyspepsia? Why suffer with Kidney Complaint? Why suffer with Nervous Debility? Why suffer with Female Complaints? Why suffer with Costiveness? Why suffer with Dizziness and such a general feeling of pain? Why suffer with Neuralgia? Why suffer with Fever and Ague? Why suffer with Chills? Why suffer with Malaria? Why suffer with Liver Complaint? Why suffer with Boils? Why suffer with Erysipelas? Why suffer with Tetter? Why suffer with Ringworm? Why suffer with Scrofula? Why suffer with Salt Rheum? Why suffer with Sick Headache? Why suffer with Nervous Prostration? Why suffer with Nervous Headache? Why suffer with Neuralgia? Why suffer with Dyspepsia? Why suffer with Kidney Complaint? A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

News and Notes.

The Washington *Republican* insists that the rumors of changes in the cabinet are made by correspondents who have no sort of knowledge of the president's intentions.

General Newton, U. S. A., on examination of the East River bridge, between Brooklyn and New York, finds the conditions imposed by the war department not strictly complied with, but thinks the bridge will bear the strain of ordinary traffic.

A man in Knox county, Maine, who wanted to vote against a projected high school, wrote on his ballot, "Know."

A tailor at Chicopee, Mass., puts the accounts of his delinquent customers conspicuously in his window, placarded, "These bills for sale."

There is a druggist in Biddeford whose servant girl outweighs his entire family of three persons. The gentle gazelle brings down the steelyards at 200 pounds.

On Monday night of this week, in one of the worst localities in Lynn, Mass., called the "brickyard," the dead body of a man was found on the track of the Eastern railroad. At first suspicions of foul play were entertained, as the body was not so mutilated as it would have been if the man had been struck by a locomotive, but it is now thought he jumped from a train, having taken the wrong one, and was killed. He had on his person, when found, over $100 in money and a gold watch. He has been identified as J. B. Brown of Saugus.

Wm. H. Chase of Pawtucket, R. I., met a sudden death while moving a safe weighing four tons from the Central hotel. The safe was supported by jackscrews and blocking. By a misplaced blow one of the jacks was knocked out, and the safe fell on his head and shoulders, crushing them fearfully. He died in a few minutes. He was sixty-three years old, and leaves a wife and five children.

F. L. Roach, for three years past collector of the town of Plainville, Conn., has disappeared.

There is much excitement in Sackett's Harbor, N. Y., over the sudden death of the wife of William Stokes, who is believed to have been poisoned. A coroner's jury is investigating the case.

Samuel Coykendall, half owner of the wrecked Hudson river steamer Thomas Cornell, lays the blame entirely upon the pilots, who, he says, disobeyed a long standing and peremptory order never to attempt to run the boat in a fog.

John J. Killalea, for eighteen years clerk of the board of education of New York city, lately employed as a longshoreman in San Francisco, Cal., killed his wife Monday night, the 27th inst., by cutting and stabbing her.

While milking a cow, Tuesday morning, 28th inst., Maggie Howe of Napanee, Ont., had her head split open with an axe by a discarded lover named Michael Lee. The murderer was pursued and captured on the railroad track, and endeavored to commit suicide by dashing his head against the tracks.

AROUND HOME.

The annual inspection of Co. C, 1st Reg't N. H. N. G., will be held this evening. The hall (Rechabite hall, on Market street) has been very handsomely and tastefully decorated, and will be open for inspection by ladies and others all the afternoon after one o'clock.

This evening, at Music hall, Baird's Mammoth Minstrels will give the best minstrel show of the season, unless the entertainment they offer has been grossly flattered by the press of other cities in which they have appeared. The company has worked into the front rank of minstrel troupes in a few years, and Manager Baird this season introduces several innovations and novelties, which, in addition to his always strong company, guarantees an entertainment which all can enjoy.

Ward, Wambold & Pierce's Mammoth Dime Show will give entertainments in Franklin theatre all next week, the first show taking place Monday evening. Admission, one dime; for reserved seats, twenty-five or thirty-five cents, according to location. Friday, "Amateur night."

Ladies will do well to inspect the admirably-selected stock of gloves, laces, velvets, ribbons, flowers, millinery goods, hats, hosiery, small wares and fancy goods generally, offered by William S. Butler & Co., 90 Tremont street, Boston, at their grand openings this week. This firm has won an enviable reputation for the excellence of its goods, its courteous attendance and the moderation of its prices.

The *Times* cannot see that a railroad crossing the principal streets of the city at grade is any more dangerous than a lot of telegraph poles placed in the streets.

The Washington *Republican* says that Mrs. Wilson, wife of Chief Constructor Wilson, is to spend a month of the spring in Washington, and return to Portsmouth for the summer.

The alarm of fire shortly after eight o'clock on Wednesday evening, the 29th inst., was occasioned by the burning out of the chimney of a house on Russell street. The first arrivals at the scene of the conflagration found a man astride of the ridgepole with a brick in each hand, holding the bricks over the chimney in an attempt to prevent the sparks from escaping. The fire department turned out in good form, but the man with the bricks was all that was required.

Naval Constructor Steele reported for duty at this navy yard on the 29th inst.

The sloop belonging to the contractors for the removal of Gangway rock was on Wednesday of this week hauled out from the berth at Kittery occupied by her during the winter, and made fast to a buoy off the navy yard. The "band-stand" was across her deck, indicating a prompt commencement of work on the rock.

The *Times* advocates the cutting down of the fire department, and thinks a railroad to cross two or three streets at grade a mere trifle; but it "can't abide" the telegraph poles in the streets.

Reports are rife that the bond given by Lane to the county of Rockingham as its treasurer are not valid, owing to some irregularity in the drawing of the bond, and that as it reads the county cannot legally recover from the sureties. It is also stated, on what appears to be good authority, that the loss thus occasioned by Lane's speculations do not affect the county, but fall entirely upon the depositors in his private banking institution, for whom it is claimed he has for years acted as broker in the purchasing of stocks.—*Dover Republican.*

In addition to the two new shifting engines received in this city from Manchester this week, the Eastern railroad has another large one for use in the yard at Boston nearly finished, and also a locomotive intended for hauling the Pullman train, and expected to develop great power and high speed. A number of new coal cars, of the improved pattern introduced by the Concord railroad last year, were received by the Eastern road on the 28th inst.; and on the same date one of the new shifting engines was running up and down the tracks in the freight yard, getting her joints limbered up preparatory to commencing regular duty.

Mr. G. A. Garland intends selling his milk-route if he can find a purchaser who will give what it is worth.

"Spud Says Dry Up!"

The following, it is said, relates to a Lewistonian, an alumnus of Bowdoin college, now residing in Chicago: Almost every Bowdoin student bears some odd name, such as he never received at his christening. Each professor, too, is known by some nickname, (and invariably called by it,—except to his face.) Old Prof. Packard used to be called "Kaigar," and the late Prof. Smyth's soubriquet was "Ferox." A few years ago, one of the students bore the euphonious title of "Spud." He was a fine scholar, and after graduation was chosen as an instructor in the college. Of course his student name still clings to him. He knew it, and didn't like it. He was very dignified, and his professional chair did not diminish the gravity of his demeanor. One day some boys who were playing ball near the door of a recitation room in which Spud was conducting a Latin exercise, annoyed this expounder of subjunctives and the intricacies of indirect discourse, and calling a cheeky Soph to him, he said: "Please go to the door, Mr. A—, and say to those players that they are disturbing the recitation, and that I desire them to cease their play or make less noise." A— went to the door, stuck his head out, and shouted in stentorian tones: "Here, you fellows! Spud says dry up!" Mr. A— was never again intrusted with Spud's confidential messages.

Sugar for a Balky Horse.

One of the horses that draws engine five of the Jersey City fire department has a habit of balking. It has been found that the animal would go to the fire without stopping, once the firemen succeeded in starting him. They had to trust to the fates to get back again after their work was over; but what they minded most was their liability to be caught endeavoring to quit the door of the engine house by the other companies returning from a big fire that had entailed extended services. On a recent occasion the horse evinced a lack of interest in the affairs of the department at the moment the engine should have been plunging through the streets. Everything short of exploding the boiler behind him had been tried, and the men despaired of assisting at the fire unless it should burn its way to the engine house. It happened that a fireman had a piece of sugar in his pocket. He held it in front of the horse, and the horse went for it, got it, and had not determined to balk again when the fire was reached. Since then the members of the company keep their overcoat pockets loaded with lump sugar.

—The "Charge of the Heavy Brigade" was two guineas a line—certainly a heavy charge.

—"John," said a teacher, "I'm very sorry to have to punish you." "Then don't; I'll let you off this time," responded John.

—"Isn't that a beautiful color?" said the fish-dealer, as he cut into a large salmon. "Yes," said Flotsom; "I suppose he is blushing at the extravagant price he is getting for himself."

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountains over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00.—*non assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. MORE RAILROAD ROUTES.

Some of our correspondents may growl at the Eastern railroad, but they are generous with their tenders of advice as to the best route within the city limits for the proposed Rye beach branch. Here are a couple more:

Mr. Editor: The surveys locating the route for the "Sea-side railroad" from Hampton to Portsmouth causes much anxiety and discussion among people in the west and south parts of this city; please allow me to decide what I call the best route, so far as the Portsmouth end of the line is concerned.

Commencing at the Wentworth station, just south of the Wentworth bridge, run along the south bank of Sagamore creek, crossing Sagamore road at the southern end of Sagamore bridge and keeping along the southern bank of the creek, crossing Lafayette road just south of the bridge this side of Gravel-pit hill, over the flats west of the latter bridge and through the low and level land to near Portsmouth plains, where a gentle curve to the eastward will carry the line—still through low land—to the Islington road, which would be crossed in the valley west of Powder-house hill, and the main track reached near where the Emery house formerly stood.

By this route a nearly level grade would be secured, and the land damages would not be more than *one-fifth* as much as by any other route mentioned. The expense of bridging Sagamore creek would be saved, and the ride on the cars would be a picturesque and beautiful one.

J. P. M.

Mr. Editor. For a route through the city, for the Rye beach railroad, let me suggest what I think the most practical. After reaching the northwest cemetery, or the north eastern corner, if it comes in on that side, keep on past the skating rink, down "Knight's boulevard" to the low land just below the Dr. Burrough's estate, thence along the low land to the famed watering-place called Puddle dock, and thence along the head of the wharves—capturing on the way the large amount of freight landed from the shipping in the harbor—to the main track. * *

REVILO.

REDUCING THE CITY EXPENSES.

The committee on fire department are discussing plans for the reduction of the running expenses of the fire department. We are very glad to see that the city government is awakening to the necessity of reducing the running expenses of the city. We understand that the amount saved by this proposed reduction of the fire department has been estimated at from $1500 to $1800 per year. This is certainly a good beginning. The plans that have been proposed are two in number: the first provides for the reduction of the yearly salary of the men to $30, letting the number of men remain the same as at present; the other plan reduces the number of men in each of the three engine companies, and the hook and ladder company, from twenty-one men to fourteen men, and the abolishment of one extinguisher company. The latter plan will, we are told, be recommended by the committee as the most feasible. How it is to be decided which men in each company are to be discharged, we have not learned.—*Times.*

Every tax-paying citizen would be pleased with a reduction in the expenditures, but the question naturally arises, "Is the fire department the point at which to commence retrenchment?" That retrenchment is necessary wherever retrenchment can be accomplished without impairing efficiency, all will allow; but that a retrenchment which will reduce the efficiency of the fire department is wise, will not meet with so ready an approval.

For one, I fail to see the advisability of reducing the number of men on the three engines in active service, or reducing their pay. Even supposing (what I do not believe that experience has proved or will prove) that horses will get the hose carriages to fires as quick or quicker than men,—the horses cannot run out nor shift hose, and it is of the utmost importance to have men enough to handle long strings of hose quickly in this city, where the sources of water supply are so few and far apart. As to the firemen's pay, it is none too much now; the duties required of them at fires are arduous, and they supply their own clothing, which is not infrequently ruined in the execution of their duty; and if they have "earned their money easily" during the past year, it has not always been so, nor can we hope it always will be in the future.

To me this particular move for retrenchment seems penny wise and pound foolish. No scheme which involves a possible deterioration of the efficiency of our fire department can be carried out, without the amount primarily saved by it, and many times more, being "found in the bills" which the property owners will have to pay the insurance companies, which latter will promptly and generously raise their rates in accordance with the reduction of the city's fire-extinguishing facilities.

Fully admitting the absolute necessity of such economy in the conduct of the city's affairs as has not obtained of late years, I still think that the retrenchment process has not been commenced at just the right spot, and that the thousands wasted in other directions should be looked after first, and the cheese-paring policy in regard to this important department be left to the last. EX-FIREMAN.

PISCATAQUA COMMANDERY.

Nearly one-half the members of Portsmouth Commandery, United Order of the Golden Cross, including all the officers, started from this city in barges on Tuesday evening of this week, to accompany to South Eliot, Me., Deputy Supreme Commander Pressey, who was bound for that town to institute a new commandery of the order. The visitors were met at South Eliot by members of Rising Star Commandery of Kittery Point, and the party repaired to Brooks' hall, where the officers of Portsmouth Commandery assisted the deputy supreme commander in instituting the new organization, and installing officers as follows:

Post Noble Commander, T. Frank Staples;

Noble Commander, Joseph, H. Foss;

Vice Noble Commander, Mrs. William Shapleigh;

Prelate, William Shapleigh;

Herald, W. H. Staples;

Keeper of Records, J. L. M. Willis;

Financial Keeper of Records, Frank J. Paul;

Treasurer, Andrew Brooks;

W. I. G.; Mrs. Elizabeth Dixon;

W. O. G.; George Gibbs;

Medical Examiner, Dr. J. L. M. Willis.

The list of charter members contains twenty-two names, and a dispensation was granted by the deputy supreme commander for the admission of about twenty-five more applicants at charter rates, they having applied previous to the instituting of the commandery. The new organization voted to take the name of Piscataqua Commandery.

Following the official proceedings were remarks by several gentlemen, the passage of a vote of thanks to Portsmouth Commandery, and the homeward drive of the visitors about one o'clock.

OFFICERS INSTALLED.

At the regular meeting of Star of Hope Degree Temple, No. 6., I. O. G. T., on Tuesday evening, March 28th, the following officers were installed by District Deputy Charles T. Wiggin:

D. T., James Janvrin;
D. V. T., Georgianna Laskey;
D. S., Francis E. Hall;
D. C., Charles E. Pinder;
D. M., Amanda S. Holbrook;
D. G., Rebecca Grant;
D. Sent., Annie Rowland.

THE LANE DEFALCATION.

The following statement of the condition of the accounts of George E. Lane as treasurer of Rockingham county, was furnished to the press on the evening of March 29th:

EXETER, N. H., March 29th, 1882.

We, the undersigned, auditors of the County of Rockingham, have this day carefully examined the books and vouchers of George E. Lane, county treasurer, and find a balance due from him to the county of $20,976.51.

JOHN HATCH, W. N. DOW, } Auditors.

The commissioners state that there are assets in the Rockingham and Granite State banks and in their own possession to the amount of $3341.97, which will be paid over to a new treasurer when appointed by the court, which will leave the sum of $17,634.54 for which Mr. Lane's bondsmen are liable.

J. C. BURLEY, WELLS C. UNDERHILL, NEWTON JOHNSTON, } Co. Com.

The trustees of the Union Five Cents savings bank, of Exeter, having examined its condition since the recent defalcation, made the following report on Wednesday morning, the 29th inst.: Due depositors, $408,903.16; surplus, $17,099,16; making the total liabilities $426,002.32. The assets amounting to that total include $7500 bonds now in possession of Richardson, Hill & Co., of Boston, which the bank commissioner and committee of the trustees state may be claimed by that firm to the extent of their claim on George E. Lane. Should these bonds be a total loss to the bank, still its surplus will be nearly $10,000. The bank will be opened for business at an early day.

(For other local matter see second page.)

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. cod&wtjan82

The Gifford Compo Shoe Machine Co.

CAPITAL $100,000. 1000 SHARES.
PAR VALUE $100.

Thomas J. Gifford, President;
Aug. J. Archer, Treasurer;
Wallace Hackett, Secretary.

Organized and Incorporated for the purpose of manufacturing and leasing their Patent Hydraulic Compo Shoe Press.

This is the most perfect machine yet invented for attaching soles to Boots and Shoes by the Compo process. The shoes made on them are as easy and pliable as a glove, inasmuch as they have a perfectly smooth and flexible sole of solid leather, having no nails, pegs or objectionable fastenings, attached by a process which renders it strong and durable, and impervious to dampness.

The capacity of the machine is fifteen cases per day. More than 2,000,000 pairs Misses' and Children's Shoes were made on these machines the past year, and we are now supplying machines for making Men's and Women's Boots and Shoes, which pay larger royalties. Its success is assured; and as the machines multiply, largely increased earnings and dividends will be realized.

Dividends are paid quarterly from Royalties collected on every pair of Boots or Shoes made on the machine.

We confidently offer the stock as not only a safe, but profitable investment, promising larger returns in the near future.

A few shares paying 8 per cent. per annum are offered for sale at par.

The Science of Life, or Self-Preservation, is the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single at either sex can either require or wish to know, but what is fully explained. In short, the book is invaluable to all who wish for good health.—*Toronto Globe.*

The book for young and middle aged men to read just now is the Science of Life, or Self-Preservation. It is worth many times its weight in gold.—*Medical Times.*

The author of the Science of Life is a noble benefactor. He reaches the very roots and vitals of disease, and is enabled to apply thorough remedies. The book already is read upon both continents by millions.—*Lo-lon Lancet.*

The Gold and Jewelled Medal awarded the author of the Science of Life was fairly won and worthily bestowed.—*Massachusetts Plowshare.*

Thousands of extracts similar to the above could be taken from the leading journals—literary, political, religious and scientific—throughout the land.

The Book is guaranteed to be a better medical work, in every sense, than can be obtained elsewhere for double the price, or the money will be refunded in every instance.

TO GRATIFY HIS WIFE.

An Interesting Story—A Hopeless Case Cured. A Good Reason for Happiness.

Statement of Mr. Washington Monroe, of Catskill, Green County, New York.

"For many years I had suffered from a complaint which the physicians called gravel. I had employed some of the most noted doctors without obtaining any permanent relief, and for a long time my case was regarded as hopeless. All who knew the circumstances said I must die. Finally, my wife induced me to try a bottle of Dr. Kennedy's 'Favorite Remedy' which she had somewhere heard of or seen advertised. Without the slightest faith in it, but solely to gratify her, I bought a bottle of a druggist in our village. I used that and two or three bottles more, and—to make a long story short—I am now as healthy a man as there is in the country.

Since then I have recommended 'Favorite Remedy' to others whom I knew to have suffered from Kidney and Liver complaints; and I assure the public that the 'Favorite Remedy' has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

Dr BULL'S COUGH SYRUP

For the Cure of Coughs, Colds, Hoarseness, Croup, Asthma, Bronchitis, Whooping Cough, Incipient Consumption and for the relief of consumptive persons in advanced stages of the Disease. For Sale by all Druggists.—Price, 25 cents.

New Hampshire Items.

The Dover *Democrat* talks of the "exploded doctrine" of "the sovereignty of this great Nation" in opposition to State Sovereignty—with a big "S" for State and another for Sovereignty. Several years ago there was a war, of which Bro. Foster seems never to have heard, in which one "sovereignty" doctrine was not only exploded but pulverized; the general impression, since then, has been that it was sovereignty of the state variety which received the damage.

New Hampshire is entitled to four clerkships in the pension office. If no one in the state desires the positions, there will be found calling on the senators and representatives plenty of full-blooded New Hampshire born men who will seek the appointment.

Buffalo Bill only had a half-filled house at Dover, where the "Prairie Wolf" was performed on the evening of the 27th inst.

The near, not remote, sequence of the erection of a costly national building in Concord will be the concentration of every national officer there with the exception of the local postmasters. The argument of convenience, which recently carried the United States court from Exeter to Concord, will carry the offices of the judge and the clerk of the United States district court, and the office of internal revenue collector, now at Manchester, to Concord, where everything of a federal character in the state, with the exception of the Portsmouth navy yard, will be concentrated in one locality and can be wielded as a "one-man-power" in the politics of the state by designing and conscienceless men.—*Nashua Telegraph.*

Mrs. Judge Potter, of New Hampshire, who is now visiting the city of Washington for the first time since she so gracefully assisted her uncle, President Pierce, in dispensing the hospitalities of the White House, is the granddaughter of Sir John McNeil, noted in the war of 1812.

There lives a man in Meredith, who has passed sixty summers without ever riding on a railway train, steamboat or stage, never having gone twenty-five miles from home.

Deacon Imla Wright of Antrim died a few days ago, aged eighty-two years. He went to Antrim in 1828, and built a cotton mill, there being at that time no other house in sight. He retired from manufacturing several years ago.

H. W. Ring remains as principal of the Newmarket high school for another year.

Rev. D. P. Cilley of Farmington, chaplain of the 8th Reg't N. H. Vols. during the rebellion, has been granted a pension with arrears amounting to $2000.

At a meeting of citizens of Concord, March 28th, it was voted to hold a large exhibition there early next fall, provided sufficient encouragement is given, and to offer premiums of $3,000 or $4,000 for agricultural, stock and mechanical exhibits. It was proposed to continue the fair through two or three days.

The express freight train bound south from Plymouth, on the night of the 27th inst., met with a serious accident near Meredith by the breaking of a car truck. Thirteen car loads of lumber were thrown from the track, the cars were badly smashed, and the track was torn up for quite a distance. No one was injured. A wrecking train was summoned from Lake Village. The track was cleared after about ten hours' delay to the other trains.

"Fear brings disgrace, bravery brings honor, cowardice saves no man from his fate," says the Caliph Omar; but Dr. Bull's Cough Syrup has saved millions from an awful fate.

A naval board, consisting of Capt. A. A. Semmes, Capt. P. C. Johnson, Chief Engineer G. H. Loring, Commander H. L. Howison and Naval Constructor Philip Hichborn, has been appointed to consider the merits of the plans and models of Mr. William Coppin of London, in connection with the construction of vessels of war.

Ladies and sickly girls requiring a non-alcoholic, gentle stimulant, will find Brown's Iron Bitters beneficial.

Orders have been sent to the Charlestown navy yard to get the frigate Hartford ready for sea by June 1st. The Hartford was Farragut's flagship.

The Inconsistency of Man.

Scheming, diverse, and manifold advertisements of worthless goods, will never attract profitable customers; only meritorious articles such as Swayne's Ointment for skin diseases, are recognized and sought after by the people. Real worth always receives its just merit. A man may profit for a while by imposing upon the public, but it is only a question of time when he will reach the end of his rope. Man has never dared to doubt the efficacy of this great vegetable Ointment.

Diphtheria.

A cold or sore throat may not seem to amount to much, and if promptly attended to can easily be cured; but neglect is often followed by **consumption** or **diphtheria.** No medicine has ever been discovered which acts so **quickly** and **surely** in such cases as **PERRY DAVIS' PAIN KILLER.** The prompt use of this *invaluable remedy* has saved thousands of lives.

PERRY DAVIS' PAIN KILLER is **not an experiment,** it has been before the public for **forty years,** and is most valued where it is best known.

A few extracts from voluntary testimonials read as follows:

PAIN KILLER has been my household remedy for colds for the past twenty-seven years, and have never known it to fail in effecting a cure.—L. S. CROCKER, Williamsville, N. Y.

For thirty years I have used PAIN KILLER, and found it a never-failing remedy for colds and sore throat.—BARTON SEAMAN.

Have received immediate relief from colds and sore throat, and consider your PAIN KILLER an invaluable remedy.—GEO. B. EVERETT, Dickinson, N. Y.

I have not recovered from a very severe cold, which I have had for some time. I could get no relief until I tried your PAIN KILLER, which relieved me immediately. I will never again be without it.—J. O. FOWLER, Lowndes, Ga.

Have used PAIN KILLER in my family for forty years, and have never known it to fail.—HARMON LEWIS, Waynesboro, Ga.

I began using PAIN KILLER in my family twenty-five years ago and have used it ever since, and have found no medicine to take its place.—B. W. DYER, Druggist, Oneida, N. Y.

For whooping-cough and croup it is the best preparation made. We could not be without it.—A. P. ROUTS, Liberty Mills, Va.

For twenty-five years I have used PAIN KILLER for colds and chapped lips, and consider it the best medicine ever offered.—GEO. HOOPER, Wilmington, N. C.

I was suffering severely with bronchitis, and my throat was so inflamed I could scarcely swallow any food. I was advised to try your PAIN KILLER, and after taking a few doses my throat was completely cured.—T. WILKINSON.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880.
For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. B. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier.

SULPHUR BITTERS. Why suffer with Boils? Why are you afflicted with Scrofula? Why have Blotches, Pimples and Pain? Why are you troubled with Rheumatism? Why do you suffer with Nervous Headaches? Why are all these and many other evils incident to humanity? Why make you so miserable? Why suffer with indigestion, and need a gentle soothing tonic to assist nature to repair the damage which your excesses have caused? *Sulphur Bitters* is such a tonic. It is a pure, old, whole-some stimulant, which will not intoxicate, but will give strength to the weak, and will make the blood pure, rich and healthy. It is composed of the purest and most valuable medicinal ingredients, such as Sulphur, Dandelion, Burdock and Juniper, combined with the choicest TRACT OF SULPHUR, which is such a great favorite with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

SULPHUR BITTERS

The Dose is small—only a Wineglass or Teaspoonful. It is the *best and cheapest* medicine. Try it, and you will be satisfied. Get it of your druggist. DON'T WAIT. GET IT AT ONCE.

Sole Proprietors for U. S. & Canadas.

SULPHUR PLASTERS cure pain in the side. KAUFMANN'S PILLS do not gripe. 25 cents.

WHEAT BITTERS.

THE BEST AND The Richest BLOOD, BRAIN and NERVE -F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, *not by Fermentation*, but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

Daily Chronicle.

No Accounting for Tastes.

"You had better get rid of that stove-pipe hat; you'll be livelier without it," said a powerful but redfaced young truck driver the other day, as he nearly drove over a delicate-looking gentleman on Park Row, New York. The pedestrian had to skip in a very undignified manner to escape.

"You want your neck wrung very bad," he said, as he gained the sidewalk and looked after the truck.

The driver heard him, and pulled up his horse at once.

"Will you wring it?" he asked in gruff tones.

The gentleman took a few seconds to consider the question. Then he said:

"No, I'll leave that job for the hangman; but I'll flatten your nose, if that will suit you."

It appeared that the proposal suited the driver, for in thirty seconds he stood before his fragile-looking man.

"Now flatten my nose," he said definitly. It was done before the words were well out of his mouth; and as he lay on his back in the gutter the expression on his blood-bespattered countenance was that of mingled pain and amazement.

"What did you strike that man for?" asked a policeman, hurrying up, and seizing the gentleman by the arm.

"Because he asked me to hit him, you know," was the reply; "and as he looked like an honest, good-natured young fellow, I didn't like to disoblige him."

The policeman looked at the truckman, who rose slowly, and without making any complaint mounted the seat of his wagon and drove off.

"Well," said the policeman, impressively, as he walked away, "there's no accounting for tastes."

A Mop-Wringer Swindler.

A lady in Lewiston, Me., purchased for her son, a short time since, from a stranger then staying at a Lewiston hotel, the right to sell in Lewiston and Auburn a patent mop-wringer. This was an ingenious little contrivance, made of a coiled spring, to be attached to the side of the pail supposed to be used in mopping. The young man had secured a quantity of the wringers and had begun to sell them in the two cities, when along came a second stranger who claimed that the patent was his, the first stranger had no interest in it, and his sale of any rights was fraudulent. He agreed, however, to relinquish his claim for $25 or some such sum; otherwise, he would prosecute for the infringement. The Lewiston parties refused to make any trade with him, but stopped selling the wringers, and very properly placed the case in the hands of an attorney, who is investigating. There is an invoice of wringers for them, at a Lewiston station, but they decline to take the goods until the case is settled. A gentleman in Leeds, Me., has been served in a similar way.

A Michigan boy ate a bar of soap, drank a lot of soda water and went to bed to cure his cold. The doctor had a hard time to pull him through, but the boy now says the next time he catches a cold he will use Dr. Bull's Cough Syrup.

—Last year it cost the lord mayor of London $100,000 above his $50,000 allowance to pull through the civic year. That mayor makes the money go.

Are you ill? Dr. Russell prescribed Wheat Bitters for me and I never felt better. Try it at once.

—Imagine the indignation of an American boy in a French school who in a history class is told how Lafayette, the great French general, triumphed in the Revolution, "assisted by one Washington."

How to Save.

All hard workers are subject to bilious attacks which may end in dangerous illness. Parker's Ginger Tonic will keep the kidneys and liver active, and by preventing the attack save much sickness, loss of time and expense. Delay at such times means danger.—*Detroit Press.* See other column.

—The champion mean man will walk six squares and sit an hour on the head of a barrel in a grocery store to read the morning paper, all because he cannot afford to take a paper of his own. He will also spend thirty cents a day on liquor for the purpose of influencing his health.

Beauty Regained.

The beauty and color of the hair may be safely regained by using Parker's Hair Balsam, which is much admired for its perfume, cleanliness and dandruff eradicating properties.

—Captain Percival, a Cape Cod mariner of the old school, was once awakened in his bunk by a shipmate with the announcement that the vessel was going to eternity. "Well," replied the captain, "I've got ten friends over there to one in this world; let her go." And he turned over and went to sleep again.

The President

Of the bank of Waverly, Iowa, says: Sulphur Bitters saved my life. For ten years I suffered from catarrh and liver complaint; I lost forty-five pounds and was growing worse rapidly. I had lost all faith in medicine, but hearing your Bitters so well recommended, I gave them a trial. Six bottles cured me.—*Smith P. Hunt, Waverly, Iowa.*

—Candid: Counsel—"Why are you so very precise in your statement? Are you afraid of telling an untruth?" Witness (promptly) "No, sir!"

Interesting to every one is the case lately referred to by the Brooklyn *Eagle*. It was cold by Mr. W. A. Davenport, connected with the house of Messrs. Butler, Pitkin & Co., 476 Broadway, New York, and concerned the marvelous cure of Mr. Ezra D. Clarkson, near Newark, N. J., of a terrible case of rheumatism, which other remedies had failed even to alleviate. He was on his way to a hospital when Mr. Davenport met him and induced him to try St. Jacobs Oil, with the result named.

—Canon Knox-Little is threatened with the knocks not little of a prosecution for ritualism. The great Knox went, as history tells us, quite the other way from that in which travels Knox-Little.

Terrible Loss of Life.

Millions of rats, mice, cats, bed-bugs, roaches, lose their lives by collision with "Rough on Rats." Sold by druggists, 15cts.

Catarrh of the Bladder.

Stinging, smarting, irritation of the urinary passages, diseased discharges, cured by Buchupaiba. Druggists. Depot at Thacher's.

—It is calculated that in London a child is born every five minutes.—*Exchange.* A child that is born every five minutes must be a world of trouble and expense to its parents.—*Rochester Herald.*

Nervous debility, the curse of the American people, immediately yields to the action of Brown's Iron Bitters.

—Rather embarrassing—(Master Tom has been trying on the doctor's silk hat, and his nose has caught in the lining.) Billy and Susie (in chorus.) "Oh, Tom, hurry up! hurry up! here comes the doctor! Oh, won't he be mad at you!"

Why We Have So Few Good Riders.

It has frequently been the subject of remark as to the cause of the scarcity of good jockeys. To be sure we have some excellent riders—Barrett, Evans, Hughes, Barbee, Feakes, and probably half a dozen others, but not more. The secret is explained in the fact that unless a jockey takes great care of himself, constant exercise in the saddle will superinduce piles of the most aggravating character, that itch intensely, particularly after getting warm in bed, and thus render him unfit for service on the track. However, if Swayne's Ointment were used, the worst case of itching piles would be speedily cured.

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y. cod&wtyeo

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

FRIDAY, MARCH 31, 1882.

(Entered at the Post-Office at Portsmouth, N. H. as second-class matter.)

Pension Rates.

Senator Platt, from the committee on pensions, has reported to the senate an act fixing the rate of pensions in certain cases. It provides that on and after its passage all soldiers and sailors who, since the 16th of July 1880, have been pensioned or rated at $50 per month for total or permanent disability requiring the regular personal attendance of another person, shall receive in lieu of such pension $72 per month, and shall be paid the difference between said sums monthly from the date of such pension or rating to the time of the passage of the bill. It also provides that hereafter the rate of pensions for such disability shall in all cases be $72 per month.

Secretary Hunt to Retire.

The Washington *Star* of March 28th said:

Secretary Hunt to-day, for the first time, admitted that the President had told him that he would nominate a successor to him in the navy department. The President told him this very recently and said that his successor would be nominated shortly. Many of Secretary Hunt's friends wished to intercede with the President in his behalf, but Mr. Hunt did not desire it. The President has offered him the choice of three good positions, but he has not made a selection.

It is generally conceded that Mr. Chandler is to be the successor of Secretary Hunt,—at least such is the prevailing opinion in Washington.

News and Notes.

The steamer Golden City was burned at Memphis, Tenn., on the 30th inst., and thirty-five lives were lost. Twenty-one of the lost were women.

Alexander C. Wingate of Lexington, Ky., was shot and killed March 29th on the Ohio & Mississippi train between Sparksville and Medoua, Ind. His assassin was an unknown man crazed by drink, who had no provocation for the shooting. After the tragedy the maniac jumped from the train, landed safely, walked half a mile to a creek, stripped naked and jumped into the stream, where his dead body was found next morning. His clothes were found hanging on the bridge, and contained $90 in cash, a gold watch, an express receipt for $400, sent from El Paso, Tex., to New Salem, Ohio, and a quart bottle of ginger brandy about half full.

The editor of the *Pioneer*, of Sherbrook, Ont., was publicly horsewhipped by J. A. Symms a day or two since. The assailant was fined $18.

Joseph Smith, ten years old, was drowned in a canal at Lowell, Mass., March 29th, and George Cook and Thomas Glynn, the elder of whom is but nine years old, are under arrest on a charge of having caused his death. The Cook boy was found hiding in the attic of his father's house. Deceased refused to give the other boys some trifle he had found, and they pushed him into the water.

At Pine Bluff, Ark., March 29th, Mrs. Ballard had trouble with her husband, broke the necks of two of her children, aged seven and four years, threw them into a pond, and then with her infant jumped into the pond and was drowned. All four of the bodies have been recovered.

Benjamin G. Hodgkins, a brakeman, was run over and horribly mangled about 6:30 o'clock in the evening on March 29th, at Newburyport, and lived but two hours. He was a brave soldier on the Union side during the war of secession, and was trusted and respected by his employers and associates. He was thirty-nine years old, and leaves a wife and four children.

J. R. Bowman, late county judge of Phelps county, Mo., fired a load of buckshot into the body of Alfred Hayes on the night of March 28th as he was walking the street in the little town of St. James. It was a regular assassination, Hayes being taken entirely unawares.

At Washington, D. C., March 29th, Jacob W. Ker, a well-known citizen and until recently paying teller of the Bank of the Republic, committed suicide by shooting himself through the breast with a shot-gun in his room at his residence. A note was found in his pocket addressed to his brother, which read as follows: "Realizing that I have expended money belonging to others to an extent that I can never repay, I have sought this relief from dishonor, sorrow and disgrace." It is believed that the money alluded to in this note was lost in stock speculations.

A body which was found on the shore at Amesbury, Mass., March 29th, was identified as that of Michael Carr of Merrimac, from which place he has been missing since Dec. 31st, 1881. He probably committed suicide on account of being afflicted with an incurable cancer.

A fire Tuesday night, the 28th inst., in a portion of the Biddeford city building, occupied by Mrs. William Cook for a millinery and fancy goods store, damaged the building $200. The stock of goods, which was valued at $4,000 and insured $3,200, was damaged about $2,000.

AROUND HOME.

Collector Howard and Ex-Collector Young arrived home from Washington on Thursday morning of this week. Collector Howard has great confidence that the navy department will be enabled to establish works for iron-ship building at this navy yard. Col. Young is hopeful that the excavations in the Cocheco, which in company with Representative Hall he asked the congressional committee to provide for will be allowed. The committee at Washington, however, believe that Gangway rock and Badger's island ledge are obstacles which should be removed from our harbor, and both of these have to be passed before vessels can safely ascend the Cocheco.

Capt. Haven W. Fernald, of Kittery, has left the schooner Daniel C. Baker, and goes to Dorchester, Mass., to act as pilot of the yacht Mist during the summer. A new skipper will take charge of the Daniel C. Baker.

Mr. Wm. Philbrick, who lives on the Newington road and has run a milk-cart for the past nine years, it is reported is to give up that business to take charge of Hon. F. Jones' farm.

"The Professor," which is to be presented here shortly, will be produced with the same cast and with the same original scenery with which it was given at the Madison Square theatre in New York for one hundred and fifty consecutive nights. The play has lately drawn immense houses in Boston, Brooklyn, Chicago and elsewhere, and the well known reputation of the Madison Square theatre is a guarantee of the excellent dramatic treat that is in store. "The Professor" is a jolly farce-comedy, in which there is laughter from the rising to the falling of the curtain. One of the effects of the scenery is that of a dashing brook with running water, in the White mountain scene.

The Eastern railroad is handling an immense amount of freight, and the demands upon its transportation resources are constantly increasing. The westward bound day freight train on the 29th inst. consisted of forty heavily-laden cars, drawn by two engines, when it left this city; and the night shifters employed in the yard at the Portsmouth station say that many of the night trains, drawn by single engines, are nearly as heavy, taxing to the utmost the power of the locomotives and the skill of the engineers.

The Boston *Transcript*, in commenting on the performance of Othello at the Boston Museum on the occasion of Mr. Haworth's benefit, says: "The friends of Miss Bartlett should be gratified with the firm footing she is getting upon the stage, after seeing how good a conception she has of Desdemona and how well she can express her idea of the part in acting it."

Hon. Charles Levi Woodbury was in town on Wednesday of this week.

On Thursday of this week the steamer Mystic, Capt. "Rashe" Trefethen, was taken off the route between this city and Kittery, to receive a general overhaul after having been successfully run for over two years. She will be kept off long enough to put her in the best possible condition, Mr. Theodore Keen's steamer, the James Sampson, taking her place as long as is required. The Mystic will go on the marine railway at Kittery to have her bottom cleaned and her hull painted; and her machinery, boiler and other gear will be put in first-class condition for the summer's work before she is again put on the line.

A couple of ladies, names unknown, ascended to the roof of C. E. Walker & Co.'s new coal-pocket at the foot of State street on Friday evening, the 24th inst., and after a brief stay descended. They were the first of the sex to mount to that position.

Lieut. Nathan E. Niles, U. S. N., left on Thursday for Mare Island naval station, California, where he will join on the 10th of April the U. S. S. Iroquois.

Ms. Richard H. Beacham is to re-occupy the stable on Fleet street, his former quarters. Mr. Henry F. Stoddard returns to Vaughan street, and will keep the "Rockingham" stable at his former old stand.

Capt. John H. Yeaton, who was foreman of the carpenter's gang employed by Jeans & Taylor, the contractors for building Christ church, will go to Pennsylvania in the same capacity and in the employ of the same firm, they having two contracts for building churches in that state.

Baird's minstrels delighted the small boys and girls, and some bigger ones, by their street parade on Thursday last, the band being escorted by a detachment of zouaves, and a drum-major who flourished a musket with fixed bayonet instead of the regulation baton. Quite a big crowd followed the march. A large gathering attended the show in the evening at Music hall, and the performances gave much satisfaction. The jokes were mostly fresh and bright, the singing was really good, the clog-dancing of the "Four Invincibles" was excellent, the banjo solos and songs by Frank West were entirely satisfactory to the audience, and the "Midget Four" danced on each others' heads, as promised in the bills. A laughable farce concluded the entertainment, which throughout was an excellent one of the kind. Mr. Baird's company is a strong one.

The gross earnings of the Eastern railroad for the month of February, 1882, were $206,218.24, against $102,164.98 for the corresponding month in 1881, an increase of $14,053.26. For the five months ending Feb. 28th, 1882, they aggregated $1,259,792.54, or $133,247.35 more than for the corresponding five months last year.

Congressman Ray has succeeded in getting the bill to pension Mrs. Sally Hall of South Newmarket to pass the house of representatives.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millions of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00.—*non assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening, March 30th, Mayor Size in the chair:

Present, the full board.

The records of last meeting were read and approved.

Dennis Shea was granted leave to open Daniel street to lay a drain.

Simon R. Marston declined to accept the appointment to take the vital statistics in ward two. Moses H. Tilton was appointed in his stead.

Ald. Martin asked why the street commissioner was going around meddling with trees on private property, while matters pertaining to his department,—gates at railroad crossings, obstructions to streets, etc.,—were not attended to.

The mayor said a new counsel, Mr. Frink, had been appointed, (he did not say by whom,) and would at once attend to these matters.

Ald. Hartshorn reported that trees had been cut down on Washington street, and said something should be done to stop such proceedings; and on motion of Ald. Martin the city marshal was directed to investigate the matter.

A proposed reduction in the fire department, to save $1685 per year, was discussed, the chief engineer being present and participating. Ald. Martin moved that the pay of the department be reduced twenty-five per cent. After debate, Ald. Green moved that the question be submitted to the members of the department, whether they would submit to the reduction, or a decrease in number of members; the yeas and nays were called, the vote being as follows: Yes, Noyes, Slater, Vaughan, Call, Hartshorn and Green, six; no, Stavers, Martin and Caswell, three.

The committee on claims recommended the payment of the crow claim.

A message was received from the Common Council, announcing the passage of an amendment to the ordinance relating to the fire department. Laid on the table for one week.

Adjourned.

MILITARY INSPECTIONS.

The annual inspection of the Portsmouth Cavalry was held at their armory on South street, Thursday evening, 30th inst., Inspector General Wheeler and Adjutant General Ayling being present. The company made a most creditable, soldiery appearance; the uniforms and equipments, although in use for several years, shew that they had had the best of care. Although the drilling was perhaps not up to the West Point standard, most of the evolutions were well executed. Capt. Coffin and his command may justly feel proud of the appearance they made. Major Newell and Quartermaster Hastings, of the First Regiment, were present at the drill.

After the Cavalry inspection was over, the inspection officers repaired to the armory of the City Guards, which company turned out thirty-five men under command of 1st Lieut. Wm. E. Grogan, Capt. Ford being confined by illness. The manual of arms and marching were well performed, and the company seems to be composed of material capable of taking a rank second to none in the state. The armory was handsomely decorated, the ceiling being covered with red, white and blue tissue paper, set off with silver stars, and the walls festooned with flags and streamers, and ornamented with numerous pictures. After the military exercises a choice collation was served for all present at the drill, including the invited guests. Col. Hall, commanding the 1st Reg't, Major Newell and Quartermaster Hastings were present at the inspection.

CIVIL WAR.

Considerable excitement was occasioned in the vicinity of the north millbridge, last Thursday morning, by an incipient civil war, which happily was ended without bloodshed. The occasion of the trouble was the proposed removal, by the street commissioner and his men, of a tree standing on private property near the Vaughan street extension.

The property belongs to an undivided estate, and just as the street commissioner's men were getting their ladders, ropes, etc., in position for going to work, a lady appeared and demanded to know what was going on. She was told that the tree was going to be removed, and in answer to her further indignant questions, was told that the mayor had authorized the tree's removal!

The lady immediately disappeared, and in a few moments a new element of discord appeared on the scene, in the shape of a gentleman clothed mainly with wrath and a big club, with which latter he promised to brain the first ruffian who attempted to put an axe in the tree. Things were beginning to look serious, and as every passer-by stopped to investigate matters, a goodly crowd was by this time collected.

At this juncture one of the aldermen appeared on the scene, and asked the street commissioner "what in (something) he was trying to do?" The badgered commissioner replied that he had been ordered by the mayor to remove the tree, to which the alderman retorted, "Well, you have been ordered by the board of aldermen to remove the obstructions from the foot of Russell alley; why in the devil don't you do that, instead of meddling with matters that don't concern you nor the city?"

The commissioner concluded to defer the removal of the tree to some more convenient season, and so announced; and the crowd then dispersed. The workmen commenced to gather up their gear, but had not finished the job when another man happened along, and learning what had occurred suggested that "it was a pretty exhibition of cheek on the part of the mayor, ordering the destruction of private property without process of law," and asked, "if he is so anxious to have all obstructions cleared from Vaughan street, why don't he order you fellows to remove the old Wilson house, which still stands half-way across the street although the city months ago paid $75 for its removal?" No explanation was vouchsafed, but the city workmen departed and the tree still stands.

"UNWARRANTED OPPOSITION."

Under the above heading our neighbor, the *Times*, has the following to say:

The CHRONICLE has of late been allowing correspondents to tell of the injuries that will arise from the proposed branch of the Eastern railroad, and to protest against its being built. We cannot see that this railroad near the outskirts of the city is any more detrimental to the looks of the city, or more dangerous, than a lot of telegraph poles placed in the streets of the business portion of the city—which the CHRONICLE was decidedly in favor of. Perhaps if the proposed new branch road was to come into the city along the water front, through Water street, the CHRONICLE would not say a word in opposition, or about destroying the beauty of the gardens in that part of the city.

Josh Billings says "It is better not to know so much, than to know so many things that aint so"—a proverb which we commend to the prayerful consideration of our brother of the *Times*. Not one of the CHRONICLE's correspondents has protested against the building of the proposed branch; all they ask is that it may go by some other fellow's house. And the CHRONICLE has not said a word in opposition to or in favor of the branch road, or "about destroying the beauty of the gardens" in one part of the city or another.

G. A. R.

The members of Storer Post, No. 1, G. A. R., with ladies, to the number of one hundred and twenty-five, had a social entertainment on Wednesday evening of this week in Grand Army hall. After attending to a collation—which by the way was a good one, as is usual for the G. A. R. boys to furnish—amusements were in order, among them being an exhibition of club swinging by Mr. Frank Warren, singing by ladies and the G. A. R. quartette, and a new song entitled "Billy Barlow," rendered by City Marshal Entwistle in a manner to win thunders of applause.

The object of the gathering was the formation of a G. A. R. Ladies' Relief Association, and at the close of the entertainment a paper was circulated and received the signatures of upward of fifty of the ladies present. A charter has been applied for, and in the near future the association will be formally organized, and the officers installed by the constituted authorities.

Storer Post is now in a flourishing condition, having increased in membership during the past year more than any other post in the state; and from the indications at the outset, the Ladies' Relief Association connected with the post will soon equal in numbers any other within the department of New Hampshire.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfect safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. cod&wtjan82

A GOOD DIVIDEND PAYING INVESTMENT.

The Gifford Compo Shoe Machine Co.

CAPITAL $100,000. 1000 SHARES.
PAR VALUE $100.

Thomas J. Gifford, President;
Aug. J. Archer, Treasurer;
Wallace Hackett, Secretary.

Organized and Incorporated for the purpose of manufacturing and leasing their Patent Hydraulic Compo Shoe Press.

This is the most perfect machine yet invented for attaching soles to Boots and Shoes by the Compo process. The shoes made on them are as easy and pliable as a glove, inasmuch as they have a perfectly smooth and flexible sole of solid leather, having no nails, pegs or objectionable fastenings, attached by a process which renders it strong and durable, and impervious to dampness.

The capacity of the machine is fifteen cases per day. More than 2,000,000 pairs Misses' and Children's Shoes were made on these machines the past year, and we are now supplying machines for making Men's and Women's Boots and Shoes, which pay larger royalties. Its success is assured; and as the machines multiply, largely increased earnings and dividends will be realized.

Dividends are paid quarterly from Royalties collected on every pair of Boots or Shoes made on the machine.

We confidently offer the stock as not only a safe, but profitable investment, promising larger returns in the near future.

A few shares paying 8 per cent. per annum are offered for sale at par.

TO GRATIFY HIS WIFE.

An Interesting Story—A Hopeless Case Cured. A Good Reason for Happiness.

Statement of Mr. Washington Monroe, of Catskill, Green County, New York.

"For many years I had suffered from a complaint which the physicians called gravel. I had employed some of the most noted doctors without obtaining any permanent relief, and for a long time my case was regarded as hopeless. All who knew the circumstances said I must die. Finally, my wife induced me to try a bottle of Dr. Kennedy's 'Favorite Remedy' which she had somewhere heard of or seen advertised. Without the slightest faith in it, but solely to gratify her, I bought a bottle of a druggist at our village. I used this and two or three bottles more, and—to make a long story short—I am now as healthy a man as there is in the country.

Since then I have recommended 'Favorite Remedy' to others whom I know to have suffered from Kidney and Liver complaints; and I assure the public that the 'Favorite Remedy' has done its work with a similar completeness in every single instance, and I truly recommend it to every sufferer as the best medicine I know of for all and try the 'Favorite Remedy' as I did."

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

DR. BULL'S COUGH SYRUP

The Science of Life, or Self-Preservation, is the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single of either sex can either require or wish to know, but what is fully explained. In short, the book is invaluable to all who wish for good health.—*Toronto Globe.*

The book for young and middle aged men to read just now is the Science of Life, or Self-Preservation. It is worth many times its weight in gold.—*Medical Times.*

The author of the Science of Life is a noble benefactor. He reaches the very roots and vitals of disease, and is enabled to apply thorough remedies. The book already is read upon both continents by millions.—*London Lancet.*

The Gold and Jeweled Medal awarded the author of the Science of Life was fairly won and worthily bestowed.—*Massachusetts Ploughman.*

Thousands of extracts similar to the above could be taken from the leading journals—literary, political, religious and scientific—throughout the land.

The Book is guaranteed to be a better medical work, in every sense, than can be obtained elsewhere for double the price, or the money will be refunded in every instance.

Thousands of Copies are sent by mail, securely sealed and post-paid, to all parts of the world, every month, upon receipt of price, $1.25. Address

New Hampshire Items.

Alvah H. Rowe, the brakeman who was killed at Winchester, Mass., March 27th, was a native of Plymouth, N. H., and was buried there with masonic honors.

An unknown man was killed by a freight train on the Boston & Maine railroad, near Rollinsford junction, March 29th. It is supposed he was intoxicated.

Ex-Governor Harriman and Wm. D. Chandler, son of Hon. Wm. E. Chandler, sailed from Boston for Liverpool in the steamer Marathon on Thursday last.

A. T. Pierce, one of the proprietors of the American house at Dover, has opened the Narragansett house at Falt River, Mass., which became that a good hotel will be kept at that place.

Mr. Blair has submitted, and had read by the secretary of the senate, the resolutions of the New Hampshire legislature expressing the sympathy of the people of this state for the people of Ireland in their struggle for more liberty and for deliverance from oppressive land laws. The resolutions recite that the legislature deeply sympathizes "with those unfortunate Irish patriots now suffering imprisonment without trial for their efforts to repeal oppressive land laws and to secure ownership of the soil to the men who cultivate it." Referred to the committee on foreign relations.

The Denver, Col., *Tribune* tells a romantic story of one Charles H. Miller, a native of Massachusetts, who has for some years been masquerading in female attire in various towns in the west, and who during that time made love to and won the heart and hand of Miss Nettie M. Presby, a native of Lyman, N. H. The girl is twenty-five years old, and a member of the Methodist church; the man is aged twenty-six, and is a Roman Catholic.

Alexander H. Palmer, who was at one time a clerk in the Fifth Avenue hotel, afterward a part proprietor of the Albemarle hotel, and later a keeper of several boarding houses in New York, has suddenly left his wife, and it is not known where he is. After running in debt to several large stores, and mortgaging his furniture, he had several checks cashed by his friends, and then left his home, it is said with a woman from Utica. Mrs. Palmer, with her only child, aged four, has returned to her parents in New Hampshire. The extent of Palmer's indebtedness is not fully known, but it is probably more than $20,000.

It is understood that the president will sustain the decision of Judge Advocate General Swaim in the Mason case.

Some wretch kindled a fire on the stairs of a New Haven, Conn., tenement house on the night of March 27th, evidently with the diabolical intention of destroying the ten families whose home the building is. Prompt discovery thwarted his nefarious design.

At a recent art sale in London a square celadon-green vase, with fine Louis XV. ormolu mounting, brought the extraordinary price of 2,300 guineas, about $11,500.

A Blessing.

If you are troubled with piles you should use Sulphur Bitters. They cured me when all other medicine failed.—*Daily Eagle.*

Agnes Brown, of Dover, fifty-five years old, has been missing since March 23d.

Try a bottle to-day of the invalid's friend, "Wheat Bitters." It may save your life; it has saved thousands. Your druggist has it.

By a recent "blizzard" in Dakota twenty-five or thirty persons were frozen to death.

The Distinguishing Charm.

A delightful fragrance of freshly gathered flowers and spices is the distinguishing charm of Floreston Cologne.

By the bursting of a circular saw in the mill of Joseph Varney, at Bath, Me., Joseph Dubuois of Brunswick was instantly killed.

Money for a Rainy Day.

"For six years my daughter was sick from kidney and other disorders. We had used up our savings on doctors, when our dominie advised us to try Parker's Ginger Tonic. Four bottles effected a cure, and as a dollar's worth has kept our family well over a year, we have been able to lay by money again for a rainy day."—A poor man's wife.

At Denver, Col., on the 29th inst., Crow Dog, convicted of the murder of Spotted Tail, was sentenced to be hanged on the 11th of May.

Ladies and sickly girls requiring a non-alcoholic, gentle stimulant, will find Brown's Iron Bitters beneficial.

By the destruction of a cotton-gin house near lake St. John, Tensas parish, La., 120 colored people who had taken refuge there from the flood, were drowned.

The Inconsistency of Man.

Scheming, diverse, and manifold advertisements of worthless goods, will never attract profitable customers; only meritorious articles such as Swayne's Ointment for skin diseases, are recognized and sought after by the people. Real worth always receives its just merit. A man may profit for a while by imposing upon the public, but it is only a question of time when he will reach the end of his rope. Man has never dared to doubt the efficacy of this great vegetable Ointment.

Diphtheria.

A cold or sore throat may not seem to amount to much, and if promptly attended to can easily be cured; but neglect is often followed by consumption or diphtheria. No medicine has ever been discovered which acts so quickly and surely in such cases as PERRY DAVIS' PAIN KILLER. The prompt use of this *invaluable remedy* has saved thousands of lives.

PERRY DAVIS' PAIN KILLER is not an experiment. It has been before the public for forty years, and is most valued where it is best known.

A few extracts from voluntary testimonials read as follows:

PAIN KILLER has been my household remedy for colds for the past twenty-five years, and have never known it to fail in affording a cure.—R. S. CHICKEN, Williamsburg, Va.

For thirty years I have used PAIN KILLER, and found it a never-failing remedy for colds and sore throat.—BARNUM SEARS, N. Y.

Have received immediate relief from colds and sore throat, and consider PERRY DAVIS' PAIN KILLER an invaluable remedy.—GEO. B. EVERETT, Dickinson, N. Y.

I have just recovered from a very severe cold, which I have had for some days. I could get no relief until I tried your PAIN KILLER, which relieved me immediately. I will never again be without it.—C. O. FORCE, Lowndes, Ga.

Have used PAIN KILLER in my family for forty years, and have never known it to fail.—RANSOM Lewis, Waynesboro, Ga.

I began using PAIN KILLER in my family twenty-five years ago and have used it ever since, and have found no medicine to take its place.—B. W. DYER, Dresden, Oneida, N. Y.

For whooping-cough and croup it is the best preparation made. We would not be without it.—A. P. ROBERTS, Liberty Mills, Va.

For twenty-five years I have used PAIN KILLER for colds and cholera, and I consider it the best medicine ever offered.—GEO. HOOPER, Wilmington, N. C.

I was suffering severely with bronchitis, and my throat was so inflamed I could scarcely swallow any food. I was advised to try your PAIN KILLER, and after taking a few doses was completely cured.—T. WILKINSON.

Dr. WALTON writes from Coshocton: Your PAIN KILLER cures diphtheria and sore throat, so alarmingly prevalent here, and has not been known to fail in a single instance. The fact you should make known to the world.

Mrs. TILLEY B. MASON writes: My son was taken violently sick with diphtheria, high fever, and cold chills. So many children have died here, I was afraid to call a physician, and tried your PAIN KILLER. His throat was taken Sunday, and on Wednesday his throat was clear. It was a wonderful cure, and I wish it could be known to the poor mothers who are losing so many children.

For Chills and Fever PAIN KILLER has no equal. It cures when everything else fails.

Delays are often dangerous. A bottle of PAIN KILLER in the house is a safeguard that no family should be without.

All druggists sell it at 25c., 50c., and $1.00 per bottle.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Logansport, Ind. Dec. 1, 1880.
For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight. O. B. SARGENT.

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clean and smooth. *Those Pimples and Blotches* which mar your beauty and contact by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS.

Why suffer with Rheumatism? Why suffer with Dyspepsia? Why suffer with Dreadful Nightmare? Why suffer with that horrible Headache? Why suffer with Dizziness? Why suffer with Dreadful Dreams? Why suffer with Nervous Debility? Why suffer with Sleeplessness? Why suffer with Nervousness? Why suffer with Dreadful Dreams? Why suffer with Dreadful Dreams? Why suffer with Dreadful Dreams

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

The Chinese Question.

Thurlow Weed thus gives his views, in a communication to the New York *Tribune* upon the Chinese question:

There are two sides to the Chinese question. Calm thinkers are greatly perplexed. In our national infancy we commenced housekeeping by opening our doors to guests from all portions of the Old World. It has been our boast for a hundred years that America would welcome strangers from every clime. But China is taxing our hospitality too severely. In the Pacific states the Chinamen deprive our industrious classes of employment; they work cheaper, do their work better, and are far less troublesome than the laborers and domestics with whom they come in contact, and it is alleged and feared that Chinese immigration will crowd those states with an incongruous element—an element which does not and will not assimilate to or fraternize with our institutions or people. In the Atlantic states, the Chinese, comparatively few in numbers, are industrious, frugal, quiet, sober and inoffensive.

The question is further embarrassed by diplomatic and treaty relations. Will not the passage of a law closing our ports against the inhabitants of a friendly power not only disrupt the relations but provoke retaliation? Without entering upon this or other features of the question, I must be permitted to express my regret that Congress did not limit the operation of this law to five years. That would have given time for negotiations which might have resulted in an amicable adjustment of the question. In view of its importance and the difficulties by which it is surrounded, would it not be wise for the President to return the bill, with a suggestion of modifications which would make it not only acceptable to him but to fair-minded men of all parties?

The Bethlehem branch of the New Hampshire Society for the Prevention of Cruelty to Animal was permanently organized last Monday evening in the Golden Cross Hall. The following are the officers: Pre-ident, F. L. Kelley; vice-presidents, Mrs. J. H. Sargent, Mrs. F. L. Kelley; secretary, Mrs. J. H. Sargent, treasurer, Dr. H. A. Hildreth; directors, Benjamin Tucker, H. C. Clark, F. L. Kelley, G. C. Coburn, E. B. Thompson, H. P. Smith, G. L. Gilmore, W. P. Lovejoy, C. J. Parcher, J. H. Clark, A. W. Blandin; agent, J. H. Sargent. The society has started off with a better outlook by far than could be expected. The dues are only one dollar a year. The directors meet the first Monday of each month. Success to the society, they all say.—*Grafton County Democrat.*

Mrs. Josiah Quincy, of Rumney, and Mrs. J. J. Pickering, of Portsmouth, have been made honorary members of the Bethlehem branch.

News and Notes.

In an exchange a widow advertises for "a situation as housekeeper in a widower's family; no objection to children." This objection usually is not made till after the widow becomes master of the "situation."

The Newburyport *Herald* relates an incident of a young man who received a navy yard appointment, who had been accustomed to work in a Newburyport shipyard. The first day he worked faithfully, but was told by the boss if all the men in the yard worked as he did there would not be employment for a quarter part of them, and that he must find less to do or he would lose his situation. It says other Newburyporters have had a similar experience.

A runner for a glass and crockery house in Boston got on a drunk at Bangor, Me., a few days ago, and at a late hour was picked up by the police. It has since transpired that while in a saloon he was robbed of his money, watch, and all his order sheets.

The *Telegraph and Messenger*, of Macon, Ga., a democratic paper, makes the following exhibition of gross ingratitude: "The democratic party in Congress is going through the biennial farce of appointing a congressional campaign committee to hire clerks to mail speeches during the summer that are never read after they leave the proof-reader's hands."

On February 3d, 1783, the ship Bedford, Capt. Moore, of Nantucket, bore the first "flag of the Union" into the British Channel. She was loaded with oil, and was not allowed to enter the Downs until a consultation had been held between the custom house officials, "on account of the several acts of Parliament still in force against the rebels in America." A London paper said: "The Bedford is American built, manned wholly by American seamen, wears the rebel colors and belongs to the island of Nautucket, in Massachusetts. This is the first vessel to display the thirteen rebellious stripes in any British port."

There is a family named Sargent in Sedgwick, Me., of eleven brothers and sisters—the full number—now living, the youngest fifty-one and the oldest seventy-one years of age.

There is a new process of raising fish where the eggs are placed in large glass jars which are constantly fed with streams of fresh water, conveyed through rubber tubes. By this method it is estimated that ninety-five per cent of the eggs can be hatched. In two hatcheries at Toledo and Sandusky, Ohio, 50,000,000 white fish fry have been raised this season.

Two large British steamships loaded with Chinese passengers have sailed from Hong Kong for Victoria, V. I. About 4000 more are coming this season, all wanted on the railway works. Labor of all kinds continues higher, and steadily advancing. Men are scarce, and workshops are declining orders.

Glynn and Cook, the boys arrested in Lowell, Mass., for pushing the Smith boy into the canal, were examined before the police court, and owing to their tender age and the absence of any malice shown, the justice concluded to consider the drowning the accidental result of rough playing, and discharging the prisoners.

The spring herring schools have struck in; the fishermen at Rockport, Mass., took 25,000 on the night of the 25th ult., and nearly 50,000 on the night of the 27th.

The monument erected to Andre, the British spy, at Tappan, N. Y., was blown to pieces by dynamite on the night of the 30th ult., although guarded by watchers paid by Cyrus W. Field.

A prominent manufacturing firm in Massachusetts has recently subscribed for more than three hundred copies of "St. Nicholas," to be sent the children of its employes. They were paid for from a fund which had been set aside for educational purposes. The May number of this magazine will have some special features in the way of illustrations which will surpass anything that St. Nicholas has done heretofore. There will be eleven full-page engravings in the number, one of them from a recent picture by W. M. Chase of a New York boot-black, accompanying an article on "Wolf-reared Children," by Charles L. Brace, secretary of the Children's Aid Society. Nineteen other illustrations add their attractions to this one paper. Mrs. Clement will deal with Correggio, in her series on "Art and Artists," giving an opportunity to reproduce some of the great master's choicest work.

AROUND HOME.

Referring to the recent pigeon shooting contest at Eliot by a club from Boston, the Biddeford *Union and Journal* says: "Massachusetts has a stringent law prohibiting pigeon shoots, and to escape it, sporting Bostonians come to Maine to indulge in this cruel sport. At the last session of the legislature, Mr. Staples of Eliot introduced a bill to prevent pigeon shoots, or any game wherein live birds are used as a target. If it had become a law, as it should, the citizens of Eliot would be able to put a stop to this barbarous practice, or punish the offenders."

"The Professor," which is to be performed in this city soon by the Madison Square Theatre Co., of New York, was on Monday evening of this week presented in Philadelphia for the 300th time.

Mr. Albert Rowe, for many years steward at the Rockingham house, retires from that position to-day.

The city government is now going to ask the members of the fire department to determine by vote which of the two methods of reducing the expenses of the department they would rather have the city government adopt. We should not suppose the department would be so foolish as to vote on the question at all. If the city fathers are not able to decide such questions, some schoolboy should be called in to do it for them.—*Times.*

Mrs. Henry W. Blair, Mrs. Ray, Mrs. Earl English and Mrs. Tullock, were among the ladies who met at the Ebbitt house in Washington on Wednesday, 29th ult., to organize a national board of managers for the erection of a Garfield Memorial Hospital at Washington. Mrs. Blair was chosen corresponding secretary.

H. M. Putney, Esq., of Manchester, arrived at the Rockingham on Friday evening, and is to begin to-day his duties as collector of internal revenue. Candidates for the position of deputy are expected to preserve order in making their calls, and not to crowd on the stairs approaching the office.

Chief Engineer Ezra J. Whittaker has reported for duty at the navy yard.

Mrs. Lucy A. Hickey, who died on Thursday last at her home in this city, was the widow of Capt. Joshua W. Hickey, who sailed from Boston for Calcutta about seventeen years ago in the clipper ship Eagle Wing, and never returned. The ship was supposed to have gone down with all hands in the terrific gale which prevailed soon after her sailing day, though nothing certain as to her fate will ever be known. Another Portsmouth man, Mr. Augustus Melcher, was mate of the ill-fated ship.

The Bougainvillea is in its glory at the greenhouse of Mrs. Pearson, corner of Broad and Spring streets, and will well repay a visit. We understand that her plants are in fine condition and will yield a splendid Easter display of flowers, for which she is receiving orders.—*Journal.*

"Ex-Congressman F. Jones of New Hampshire" is reported among the prominent arrivals at the Fifth Avenue hotel in New York recently. That is where the reporter made a mistake. It is three X.

A Toilet Luxury.

SOZODONT is a luxury as well as a necessity. Placed where it should always be upon the toilet, it adorns it, and gratifies the taste and give pleasure and health to its users.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjan28

Cuticura

Geo. W. Brown, 48 Marshall St., Providence, R. I., cured by Cuticura Resolvent (blood purifier) and Cuticura and Cuticura Soap (the great skin cures) of a Ringworm Humor got at the barber's which spread all over his ears, neck and face, and for six years resisted all kinds of treatment.

SKIN HUMOR,

F. H. Drake, Esq., agent for Harper & Bros., Detroit, Mich., gives an astonishing account of his case (eczema rodens), which had been treated by a consultation of physicians without benefit, and which specifically yielded to the Cuticura Resolvent (blood purifier) internally and Cuticura and Cuticura Soap (the great skin cures) externally.

SCALD HEAD.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*now assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. FIRE IN DOVER.

The house and barn of Mr. E. J. Deland, on Franklin street, at the foot of Garrison hill, Dover, were destroyed by fire on Friday morning. The fire began about four o'clock, having been set in the barn, probably by a tramp. The barn was totally consumed, and only a corner of the house was saved. Mr. Deland occupied the premises, and lost most of his furniture.

MRS. MERRILL'S WILL.

John E. Parsons appeared this week in behalf of George Merrill before Surrogate Rollins of New York, for the purpose of proving the will of the late Caroline A. Merrill. Mrs. Merrill and her husband in 1856 executed mutual wills, according to which George Merrill was to succeed to their property upon their death. After Mr. Merrill's death Mrs. Merrill made another will, to which she afterward added a codicil, in which she made Cardinal McCloskey her residuary legatee. After her death this later will and codicil were offered for probate. The probate was contested by George Merrill, and Surrogate Calvin decided that the instruments were void on account of the insanity of the testatrix. In the meantime George Merrill had begun a suit in the supreme court of New York to have the will of 1856 declared valid, which was opposed by other heirs at law, some of whom belong in this city. A judgment in this suit was entered a short time ago, in favor of Mr. Merrill, the opposition to the suit having been withdrawn, it is said, on account of a compromise entered into by the members of the Merrill family. The will presented by Mr. Parsons for probate is the will established by the supreme court. No opposition was made to the probate of the will, and the proceedings will be merely formal. Mrs. Merrill, *nee* Tebbetts, was a native of this city.

MARINE BICYCLING.

The Newburyport *Herald* of the 31st ult. has the following:

Those of our readers who saw, last summer, the marine bicycle which Major Urch of Portsmouth rode from that city to Newburyport and from here to Haverhill, will perhaps be interested in the progress of the idea. As soon as the fact of its utility was demonstrated it was taken in hand by C. A. Hazlett of Portsmouth, an enthusiastic bicycler, and a prominent member of the League of American Wheelmen, who contracted with A. J. Philbrick of Salem, a bicycle manufacturer, to furnish a number of the peculiar craft. Some of them are completed, and last Sunday Mr. Hazlett, together with Charles Jackson of Salem, started from that city for Boston on two of the machines. When off Egg rock they encountered a snow squall and put into Lynn harbor, hauling up at the Lynn yacht club wharf, where they attracted considerable attention. They came in with the wind, and though there was a rough sea on they made about ten knots an hour. The machines rode the waves splendidly, and the riders are enthusiastic in their praise. The price of one of these marine bicycles is about the same as of a bicycle, and ere long we shall see them skipping around the river as plenty as their namesakes on terra firma.

Mr. Joseph Boss, who lives on Gosling road near the Newington line, planted peas on the 30th of March. This is the first out-of-doors planting reported to us as being done in this vicinity this year.

Mr. Charles W. Hart, the efficient and careful engineer of the steamer Fearless, of Keen's line between this city and Kittery Point, is a man of small stature, and appears younger than he really is; and though born in Portsmouth, and of Caucasian descent, is quite swarthy of complexion. A season or two ago he had charge of the engine of the Pinafore, plying between Appledore and Star islands at the Shoals, and one day Capt. Rand, of the steamer Appledore, was crossing in the Pinafore in company with a gentleman from the west, when the latter, after looking for some time with evident interest at the quietly confident manner in which the engineer was performing his duties, enquired earnestly of Capt. Rand, in a suppressed tone, "Can that little nigger boy run this boat alone?" to which Capt. Rand, without changing a muscle of his countenance or enlightening the enquirer as to his mistake, replied, "Oh yes; he's entirely competent." The gentleman from the west, unaware that his question had been overheard, was at a loss to account for the exuberant mirth suddenly developed by the engineer, and which lasted until the trip was ended.

Mr. Dennis Shea has lately suspended the manufacture of drain-pipe in this city, and will not commence again until some time in July. The firm of Shea & Trefethen, of Dover, (of which firm Mr. Dennis Shea is senior partner,) have commenced work in that city, where it has been suspended during the winter, the Portsmouth manufactory affording better advantages during cold weather.

James W. Odlin has resigned his position as deputy sheriff of Rockingham county, being requested to give a new bond. Mr. Odlin is one of the bondsmen of George E. Lane. He is also an applicant for the Exeter post office.

John S. H. Frink, Esq., has been appointed counsel of the Eastern railroad, *vice* Hon. Albert R. Hatch, deceased.

Mr. William T. Perkins of Lewiston, Me., succeeds Mr. Charles M. Green, who has long been the popular clerk of the Rockingham house in this city.

Audran's favorite comic opera, "The Mascotte," will be given in Music hall on Friday evening (Fast night) by the Boston English Opera Co. The list of performers contains the names of a number of popular favorites.

The Rye election last Thursday resulted as follows: Moderator, Joseph W. Garland; selectmen, Nathaniel Marden, Irving Seavey, Albert C. Locke; town clerk, George Walker; superintending school committee, Charles J. Brown; auditors, Emery C. Jenness, Howard Rand. The amount of money which it was voted to raise for town expenses the ensuing year was $8000.

A GOOD DIVIDEND PAYING INVESTMENT.

The Gifford Compo Shoe Machine Co.

CAPITAL $100,000. 1000 SHARES.
PAR VALUE $100.

Thomas J. Gifford, President;
Aug. J. Archer, Treasurer;
Wallace Hackett, Secretary.

Organized and Incorporated for the purpose of manufacturing and leasing their Patent Hydraulic Compo Shoe Press.

This is the most perfect machine yet invented for attaching soles to Boots and Shoes by the Compo process. The shoes made on them are as easy and pliable as a glove, inasmuch as they have a perfectly smooth and flexible sole of solid leather, having no nails, pegs or objectionable fastenings, attached by a process which renders it strong and durable, and impervious to dampness.

The capacity of the machine is fifteen cases per day. More than 2,000,000 pairs Misses' and Children's Shoes were made on these machines the past year, and we are now supplying machines for making Men's and Women's Boots and Shoes, which pay larger royalties. Its success is assured; and as the machines multiply, largely increased earnings and dividends will be realized.

Dividends are paid quarterly from Royalties collected on every pair of Boots or Shoes made on the machine.

We confidently offer the stock as not only a safe, but profitable investment, promising larger returns in the near future.

A few shares paying 8 per cent. per annum are offered for sale at par.

The Science of Life, or Self-Preservation, is the most extraordinary work on Physology ever published. There is nothing whatever that the married or single of either sex can either require or wish to know, but what is fully explained. In short, the book is invaluable to all who wish for good health.—*Toronto Globe.*

The book for young and middle aged men to read just now is the Science of Life, or Self-Preservation. It is worth many times its weight in gold.—*Medical Times.*

The author of the Science of Life is a noble benefactor. He reaches the very roots and vitals of disease, and is enabled to apply thorough remedies. The book already is read upon both continents by millions.—*London Lancet.*

The Gold and Jewelled Medal awarded the author of the Science of Life was fairly won and worthily bestowed.—*Massachusetts Ploughman.*

Thousands of extracts similar to the above could be taken from the leading journals—literary, political, religious and scientific—throughout the land.

The Book is guaranteed to be a better medical work, in every sense, than can be obtained elsewhere for double the price, or the money will be refunded in every instance.

TO GRATIFY HIS WIFE.

An Interesting Story—A Hopeless Case Cured. A Good Reason for Happiness.

Statement of Mr. Washington Monroe, of Catskill, Green County, New York.

"For many years I had suffered from a complaint which the physicians called grayel. I had employed some of the most noted doctors without obtaining any permanent relief, and for a long time my case was regarded as hopeless. All who knew the circumstances said I must die. Finally, my wife induced me to try a bottle of Dr. Kennedy's 'Favorite Remedy' which she had somewhere heard of or seen advertised. Without the slightest faith in it, but solely to gratify her, I bought a bottle of a druggist in our village. I used that and two or three bottles more, and—to make a long story short—I am now as healthy a man as there is in the country.

Since then I have recommended 'Favorite Remedy' to others whom I knew to have suffered from Kidney and Liver complaints; and I assure the public that the 'Favorite Remedy' has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

The great superiority of DR. BULL'S COUGH SYRUP over all other cough remedies is attested by the immense popular demand for that old established remedy.

DR BULL'S COUGH SYRUP

For the Cure of Coughs, Colds, Hoarseness, Croup, Asthma, Bronchitis, Whooping Cough, Incipient Consumption and for the relief of consumptive persons in advanced stages of the Disease. For Sale by all Druggists.—Price, 25 cents.

The man who was cut to pieces near Rollinsford by a train on the Boston & Maine railroad on the evening of the 29th ult., was Samuel Corrig, who had been employed in Rollinsford for about two weeks. He was a native of Vermont, and a thief and hard character generally. He was drunk when killed.

The Chandler house, formerly the Haseltine house, Manchester, owned by a stock company, was sold at auction on the 30th ult., for $31,700. Ex-Governor James A. Weston was the purchaser.

The governor and council have appointed William H. Wilson of Manchester inspector of steamboats, under the new law, and Charles S. Whitehouse of Rochester auditor of the state treasurer's accounts.

The supreme court is in session in Laconia, Judge Isaac Smith presiding. The grand jury found three indictments. Joseph Bailey was indicted for burning Mr. Moses' barn in Sanbornton, and John P. Woodbury for burning the farm buildings belonging to James Cate of Belmont. There are but few jury cases, and none of any importance.

The annual town meeting in Plymouth was held on Thursday, the 30th ult. It was not held when the other towns voted, because the warrant was not attested. About three-fifths of the full vote was cast, and a majority of republican officers were elected. It was voted to pay $400 yearly to light the village with four electric lights of 12,000 candle power, from masts 200 feet high. Water power will be furnished from Livermore falls, over one mile distant, to generate the electricity.

Rev. Dr. Cummings, of Concord, has been pastor of the First Baptist church for fifty years.

The May "Century" is to have a brilliant list of contributors. Thomas Carlyle, James Russell Lowell, Edmund Clarence Stedman, W. D. Howells, Mrs. Frances Hodgson Burnett, Archibald Forbes, Constance Fenimore Woolson, John G. Saxe, Frank R. Stockton, Edward Everett Hale, Andrew Lang, Richard Grant White, "Uncle Remus," and H. C. Bunner, are names which are known in many fields of literature, and all these and more are to be represented in this notable number. Elihu Vedder furnishes the second of his cover-designs for special numbers, and the frontispiece portrait of James Russell Lowell is said to be an excellent likeness, as well as one of Mr. Kruell's best engravings.

—The Convers, Ga., *Weekly* relates the following: "For several months one of our citizens has been noticing that his butcher invariably let his hand rest on the meat when he weighed it, and he reweighed it at home and found it from a half pound to a pound short. He kept an account of these deficiencies, and when they aggregated 100 pounds he took out an attachment for the butcher's hand, claiming that it rightly belonged to him, he having more than paid for it."

Some sage has observed that "It was better to have lived and been old when the world was young than to live now, though young, when the world is old." Be that as it may, we would not care to live in either age without being insured against rheumatism, unless we had a supply of that never failing remedy, St. Jacobs Oil. Mr. Joseph Fihe, No. 230 Preston street, corner of Walnut, Louisville, Ky., says:—"I have used St. Jacobs Oil in my family for two years past, and have never found anything that it would not cure; there must, of course, be some limit to its powers, but I have not reached it yet, and I can say that I do not believe there are any muscular ailments, nervousness or inflammation that it will fail to cure. My boy Theodore fell down and sprained his foot; it swelled to two or three times its usual size. I applied St. Jacobs Oil and in half a day he was well as ever. It cured me of rheumatism and my wife of neuralgia.

Terrorist placards are again making their appearance on the walls of St. Petersburg, Russia. One, which is of the most violent character, declares that Alexander III is now condemned to death definitively and without appeal.

Try a bottle to-day of the invalid's friend, "Wheat Bitters." It may save your life; it has saved thousands. Your druggist has it.

It is rumored that after a recent domestic quarrel, caused it appears by the emperor's too pointed attention to a female circus-rider, the empress of Russia threatened to retire to Denmark with her children.

Ladies and sickly girls requiring a non-alcoholic, gentle stimulant, will find Brown's Iron Bitters beneficial.

Arthur Herbert, an active anti-leaguer at Dublin, Ireland, was shot dead while returning from the Castle Island petty session.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

SWAYNES OINTMENT

AN UNFAILING REMEDY FOR ALL SKIN DISEASES SUCH AS TETTER, ITCH, SORES, PIMPLES, ERYSIPELAS, RING WORM, BLOTCHES, &C.

THE GREAT CURE FOR

ITCHING PILES

Symptoms are moisture, itching, burning, stinging, worse at night; seems as if pinworms were crawling about the rectum; the private parts are often affected. An ointment, suppository and syringe in a box, SWAYNE'S OINTMENT is superior to any article in the market, sold by druggists, or send 50 cts. in 3-ct. Stamps. 3 boxes, $1.35. Address, Dr. SWAYNE & SON, Phila., Pa.

Diphtheria.

A **cold** or **sore throat** may not seem to amount to much, and it promptly attended, to can easily be cured; but neglect is often followed by **consumption** or **diphtheria.** No medicine has ever been discovered which acts so quickly on a cold or sore throat as **PERRY DAVIS' PAIN KILLER.** The prompt use of this *invaluable remedy* has saved thousands of lives.

PERRY DAVIS' PAIN KILLER is **not an experiment.** It has been before the public for **forty years,** and is most valued where it is best known.

A few extracts from voluntary testimonials read as follows:

PAIN KILLER has been my household remedy for colds for the past twenty years, and I have never known it to fail in effecting a cure.—L. S. CROSBY, Williamsville, N. Y.

For thirty years I have used PAIN KILLER, and found it a never-failing remedy for colds and sore throat.—BARTON SEAMAN.

Have received immediate relief from colds and sore throat, and consider your PAIN KILLER an invaluable remedy.—GEO. B. EVERETT, Dickinson, N. Y.

I have just recovered from a very severe cold, which I have had for some time. I could get no relief until I tried your PAIN KILLER, which relieved me immediately. I will never again be without it.—C. C. FORCE, Lowndes, Me.

Have used PAIN KILLER in my family for forty years, and have never known it to fail.—RANSOM LAYER, Waynesboro, Ga.

I began using PAIN KILLER in my family twenty-five years ago and have used it ever since, and have found no medicine to take its place.—B. W. DYER, Druggist, Oneida, N. Y.

For whooping-cough and croup it is the best preparation made. We would not be without it.—A. J. STORTS, Liberty Mills, Va.

For twenty-five years I have used PAIN KILLER for colds and chills, and cannot consider it the best medicine ever offered.—GEO. HOOPER, Wilmington, N. C.

I was suffering severely with bronchitis, and my throat was so hoarse that I could scarcely swallow any food. I was advised to try your PAIN KILLER, and after taking a few doses was completely cured.—T. WILKINSON.

Dr. WALTON WHITE, of Tyrone Coshocton: Your PAIN KILLER cures diphtheria and sore throat, so alarmingly prevalent here, and has not been known to fail in a single instance. This fact you should make known to the world.

Mrs. ELIZA B. MASON writes: My son was taken violently sick with diphtheria, high fever, and cold chills. So many children have died here, I was afraid to call a physician, and tried your PAIN KILLER. He was taken on Sunday, and on Wednesday his throat was clear. It was a wonderful cure, and I wish it could be known to the poor mothers who are losing so many children.

For Chills and Fever **PAIN KILLER** has no equal. It cures when everything else fails.

Delays are often dangerous. A bottle of PAIN KILLER in the house is a safeguard that no family should be without.

All druggists sell it at **25c., 50c., and $1.00** per bottle.

—A fair trial will convince the most skeptical—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A through treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

SUFFER

no longer from Dyspepsia, Indigestion, want of Appetite, loss of Strength lack of Energy, Malaria, Intermittent Fevers, &c. BROWN'S IRON BITTERS never fails to cure all these diseases.

Boston, November 26, 1881.
BROWN CHEMICAL CO.
Gentlemen:—For years I have been a great sufferer from Dyspepsia, and could get no relief (having tried everything which was recommended) until, acting on the advice of a friend, who had been benefited by BROWN'S IRON BITTERS, I tried a bottle, with most surprising results. Previous to taking BROWN'S IRON BITTERS, everything I ate distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking BROWN'S IRON BITTERS, all my troubles are at an end. Can cut say my time without any disagreeable results. I am practically another person. MRS. W. J. FLYNN,
30 Maverick St., E. Boston.

BROWN'S IRON BITTERS acts like a charm on the digestive organs, removing all dyspeptic symptoms, such as tasting the food, Belching, Heat in the Stomach, Heartburn, etc. The only Iron Preparation that will not blacken the teeth or give headache.

Sold by all Druggists.

Daily Chronicle.

The Sea Serpent.

The belief in the existence of the sea serpent refuses to be extinguished by all the ridicule that is poured upon it, and there are men who persist that the evidence which has been offered at various times by otherwise credible persons is not likely to be either all lies or errors. The latest defender of the possible existence of the sea serpent is the eminent Professor Baird, of the Smithsonian Institute, who has made ichtyology a special study, and cannot be snuffed out as ignorant or credulous. He bases his present argument on the multitudes of the dead "tile fish" recently found floating on the surface of the ocean off our northern coast, which were probably killed by being forced by some internal commotion from a warm to a cold current. He says that if a fish can exist in great multitudes near our shores without being known except by such an accident, it is not unreasonable to suppose that the depths of the ocean may conceal a monster like the sea serpent, which may occasionally, and by accident, be seen. The old sailors who have met the sperm whale and the cuttle fish are the least incredulous about the sea serpent, and those who are readiest to pronounce him a myth have never "been to sea in ships to see the wonders of the Lord." At any rate, if this a superstition it is amazingly hard to kill, and to denounce all the evidence as false is to bring a heavy indictment against human nature.

What Everybody Wants

Is a reliable medicine that never does any harm and that prevents and cures disease by keeping the stomach in order, the bowels regular, and the kidneys and liver active. Such a medicine is Parker's Ginger Tonic. It relieves every case, and has cured thousands. See other column.—*Tribune.*

At Lawrence, Mass., last week, a jury found in the sum of $10,000 for the plaintiff in the case of Wm. O'Connor against the Boston & Lowell railroad, for injuries occasioned to a child by a train of the defendant company.

A Valuable Addition.

Because it is beneficial to the scalp and adds to personal beauty by restoring color and lustre to gray or faded hair, is why Parker's Hair Balsam is such a popular dressing.

McMillen, who shot and killed Rev. Mr. McCarthy, the Roman Catholic priest of Greenfield, Mass., some months ago, was tried last week, and acquitted by the jury after being out all night. The defence contended that McMillen was justified in killing Father McCarthy, as the act was done in self-defence. There is much dissatisfaction among Father McCarthy's parishioners over the verdict.

A Blessing.

If you are troubled with piles you should use Sulphur Bitters. They cured me when all other medicine failed.—*Daily Eagle.*

Miss Eleanor Ewing, who was for two years a society belle in Washington, where she was noted for her beauty, wit and modesty, took the veil as a Sister of Mercy in Pittsburg, Pa., last Thursday. She is a daughter of Gen. Hugh Ewing, and a niece of Gen. Thomas Ewing and Gen. William T. Sherman.

Delay is dangerous. Do not longer cling to the old method of curing coughs and colds with rum and molasses, it is a dangerous remedy. Adamson's Botanic Balsam is a sure cure every time, pleasant to take and works like a charm.

In planting early peas and corn the quality of the future crop may be partly known by observing the degree of contraction in them. All peas and corn seeming shriveled up, with large indentations, will be tender in flesh and contain more sweetness and juice than the plumper kinds. If good table varieties are desired, it is advisable then to select the wrinkled kinds.

Nervous debility, the curse of the American people, immediately yields to the action of Brown's Iron Bitters.

George L. Gates, a baggage-master on the Providence & Worcester railway, was thrown from an open car-door of an express train while rounding a curve near Whitins station, R. I., last Friday morning, and died of concussion of the brain in ten minutes. He leaves a wife and two children.

"Rough on Rats."

Clears out rats, mice, roaches, flies, ants, bed-bugs, skunks, chipmunks, gophers. 15c. Druggists.

"Bachupalba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists. Depot. J. H. Thacher's.

Nelson Judd, nineteen years old, a medical student of Pittsfield, Mass., committed suicide on the 31st ult. by shooting himself twice in the left side. He was found dead, with a revolver in his hand, and by his side a memorandum book containing a message of farewell, but giving no reason for the act.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

At Cleveland, Ohio, Friday, Robert Bihen fatally shot his wife, then shot himself dead. Sickness probably drove him crazy.

Why waste time in bemoaning the hard fate that has rendered you a confirmed rheumatic when any druggist will sell you a bottle of St. Jacobs Oil? Mr. Wright, of Blair, Neb., connected with the Commercial house, a hostelrie, which the people of Blair justly consider one of the best in that part of the state, says the great German remedy, St Jacobs Oil, goes ahead of anything else as a pain reliever. Mr. Wright has frequently heard the good remedy praised by guests at the Commercial, and when the lumbago seized his back, it was the first thing he bought. Purchasing a bottle at one of the drug stores he just went for that pain without ceremony. To say that it benefitted him is not enough. The great German remedy just grappled with that pain and made it vacate the premises in two applications. He concludes his eloquent panegyric on the efficacy of St. Jacobs Oil by saying that he had only used one-fourth its contents and there was yet enough remaining to cure two more cases of lumbago.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

—THE—

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers. Address J. H. REEVES, 43 Chatham St., N. Y. cod&wtyu8

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

MONDAY, APRIL 3, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The Independent Movement in North Carolina.

At a convention of colored men assembled March 30th in Goldsboro', North Carolina, composed of three hundred delegates from all the heavy negro counties of the state, resolutions were adopted to the effect "that while we do not favor the abandonment of any of the principles of the republican party, and while we endorse the administration we hail with pleasure the unmistakable evidence of a liberal movement in North Carolina, and we will support such a liberal movement and will join hands with liberal men who have heretofore acted with the democratic party, and who are willing to bury the dead past in an earnest effort to build up the state and guarantee to all equal privileges."

New Hampshire Items.

Osman B. Warren has been confirmed as postmaster at Rochester.

The Holderness school for boys, half a mile from Plymouth village, was burned on the 31st ult. Loss $10,000; insurance $6000, in the New Hampshire company. The main building was the old Livermore mansion, built by Judge Livermore, first chief justice of New Hampshire, and owned by his heirs; an ell 100 feet by fifty was recently built.

Congressman Ray introduced Major Drew to President Arthur as his law partner, but a democrat. The President shook hands with him, and at the same time remarked: "Why, Mr. Drew, you don't look a mite like a democrat."—*Lancaster Republican.*

News and Notes.

The aldermen of New York city have "resolved" that Minister Lowell's conduct as to the release of state prisoners who have violated laws in Ireland has caused a blush of shame to mantle their cheek, or something akin to that. It is thought that if Minister Lowell has caused the cheek of a New York alderman to blush he has accomplished a great feat, and must be the right man in the right place.

A despatch of the 31st ult., from Odessa, Russia, says: "Gen. Strelnikoff, the public prosecutor of the Kieff military tribunal, was shot with a reuolver while sitting on the boulevard here. Gen. Strelnikoff died immediately. The two assassins were stopped while fleeing from the scene in a carriage, offered violent resistance, and with their revolvers and poignards wounded three persons. They were finally overpowered and conveyed to a police station. Gen. Strelnikoff came to Odessa to conduct the preliminary examinations in important political trials."

The poet Whittier has written for "Wide Awake" a poem commemorative of the children's love for Longfellow, and of Longfellow's death. It will appear in the May number, together with a fine frontispiece portrait of Longfellow, engraved by Closson.

Among the persons who perished by the burning of the Mississippi river steamer Golden City at Memphis last week, was Mrs. Anna Smith of Springfield, Mass., who was returning home from a visit to relatives in New Orleans. Emi T. Crockett of Newburyport was also a passenger on the ill-fated steamer, and was at first reported to be lost, but his father has received a telegram that he is all right.

Edward A. Freeman, the English historian, said at Cincinnati: "I never heard of Oscar Wilde until I reached Boston. He may have been a great swell in England, but I never heard of him there." Either Mr. Freeman told a most appalling no-such-thing, or he don't take the papers. Where there is one person in this country who ever heard of Edward A. Freeman, there are hundreds who heard of Oscar Wilde long before he thought of coming to this country.

Commodore Vanderbilt's widow it is said will marry Dr. Nathan Rozeman, a surgeon of New York city, after the end of Lent.

Mr. Daniel Deshon died in Portland, Me., last week, at the age of 104 years.

First Lieutenant Thomas H. Bradley of the Twenty-first United States Infantry, who has just been ordered to join his company in Washington territory, has had nineteen years of service in Washington, and has never seen the regiment in which he is an officer.

Chaplain Clark, of the United States training ship Portsmouth, will have a story in the "Wide Awake" entitled "Lost in Pompeii," giving a young midshipman's adventures among the sewers and yet buried mansions of Pompeii.

AROUND HOME.

The attorney for the Boston & Maine railroad is given as authority for the statement that Deputy Sheriff Goodwin, of York, received $180 on account of the injuries sustained by him when the train went through the bridge at Cole's Corner, Wells; Oliver L. Bracy of York received $40, and George W. Currier $25. The railroad offered Oliver Winn $800, but he declined to settle on such terms. Thomas Hilton, another of the sufferers, demands $15,000 as compensation for his injuries.

The Newburyport *Herald* says that Dr. W. W. Hebard, well known in Portsmouth from the courses of medical lectures delivered by him in the old Temple years ago, and from incidents which occurred in his practice in this city, is to give a course of lectures in Newburyport next month.

The schooner Loella, Capt. Amee, on Saturday afternoon arrived at Portsmouth bridge on her way to Dover with seventeen tons of fire-brick, about fifty-six tons of phosphate, and small quantities of cement, kaolin, etc., for Converse & Hobbs. The Loella arrived from Boston early last week, but remained below to put out a lot of stuff for Choate Burnham, Esq., of Boston, including a deck load of lumber, to be used for building a new barn at Mr. Burnham's summer residence on Gerrish's island, Kittery. This barn will be a big one,—eighty feet by forty on the ground, with twenty-four feet posts, and a wing twenty-six feet by eighteen, for a tool-house. Other items of freight on Mr. Burnham's account were three barrels of paint oil, 1000 lbs. of zinc paint, 2500 lbs. of white lead, a ton of nails, and other articles of builder's supplies.

"Mary Whitcher's Shaker Housekeeper." In order to introduce the new cook book, the publishers will this week distribute free, through local retail druggists, the entire first edition. Among its novel features may be mentioned dinners for every day of the week, how to cook and how to serve them, a chapter on etiquette, scores of cherished family receipts, contributed by prominent New England ladies, selections from noted *chefs*, some choice collections of Shaker receipts, such as for making apple sauce, brown bread, etc., the whole making over two hundred of the most valuable receipts ever published in one book. To be had free of charge at any of our drug stores.

The following are among the recent transfers of real estate in this vicinity, as left for record in the office of the register of deeds:

Portsmouth—Charles H. Mendum to J. V. Hanscom, land and buildings $1; Thomas Tredick to George Scott, land and buildings on Water street, $1030; Sarah E. Gray to Sarah A. Hersey et als., of South Boston, Mass., real estate, $1; Andrew L. Haskell, of Chelsea, Mass., et al., to Hartley W. Mason, land and buildings, $600.

Newcastle—Henry N. Caswell to Morris M. Emery, land and buildings, $103; Henry N. Caswell to Thomas H. Barber, land and buildings, $193.

Rye—Willis G. C. Kimball of Concord, to John H. Hutchinson, of Portsmouth, land and buildings, $1200.

Greenland — Annie R. Bryant, of Manchester, to Mary A. Weeks, land and buildings, $1; Helen A. Drake, of Rye, to Mary A. Weeks, land and buildings, $1.

Stratham—Mary A. Davis, et al., of Boston, Mass., to Jerome S. Daniels, of Somerville, Mass., land and buildings, $2000.

The Original Gerrymander.

Now that half a dozen state legislatures are showing violent partisanship in reorganizing congressional districts, it is interesting to recall the history of "gerrymandering." It began in Massachusetts, and this was the way of it:

In 1811, when the party feeling ran high and the voters in the state were very evenly divided, the republican-democrats for the first time in a number of years elected the governor and a majority of both branches of the general court, and to preserve their power they re-arranged the senatorial districts and made them of irregular shape, so as to give themselves a majority in as many as possible. Nothing of the kind had ever been done before.

The move excited bitter opposition among the federalists, and Elbridge Gerry, then governor and for years a leading democrat, came in for a great share of the denunciation. One district was made of a line of towns on the westerly and northerly sides of Essex county, forming something like an irregular letter "P." The Boston *Centinel* was the leading federalist paper, and Russell, its editor, to show plainly what was being done, took a map of the county, colored the towns on it in the peculiar district, and hung it up in his office. One day Gilbert Stuart happened to see it, and saying that it resembled some monstrous animal, took a pencil, and with a few strokes indicated upon it head, wings and claws, so that the new district looked like some kind of a strange dragon. "There," said he, "that will do for a salamander."

"Salamander!" exclaimed Russell; "call it a Gerrymander!" And so the new proceeding found a name.

A Toilet Luxury.

SOZODONT is a luxury as well as a necessity. Placed where it should always be upon the toilet, it adorns it, and gratifies the taste and give pleasure and health to its users.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. To the Hon. Judge of Probate for the County of Rockingham.

RESPECTFULLY REPRESENTS Kate E. Miller, Executrix of the last will of Frank W. Miller late of Portsmouth in said County, deceased, that the Personal Estate of said deceased is not sufficient to pay the just demands against his estate by the sum of Six Thousand Dollars. That the said deceased at the time of his death was seized and possessed of a certain estate situated in said Portsmouth on the west side of Union street, bounded south by land of B. F. Webster, 155 feet; north by Lincoln Avenue, 155 feet; east on Union street, 112 1-2 feet; and west by land of Robert Shillaber 112 1-2 feet.

Also one other lot situated on the east side of Broad street. Bounded on Broad street, 200 feet; north by land of C. E. Myers, 150 feet; south by land of J Janvrin, 132 feet; and east by land of J. Miller, 200 feet.

Also said deceased was seized at his death of the right of redeeming the following described real estate, situated in said Portsmouth, being his homestead place, bounded south on South street, north by land of Portsmouth Savings Bank, east by land of said Savings Bank, and west by the western line of Willow lane, the same being subject to a mortgage of J. W. F. Hobbs.

WHEREFORE she prays that she may be licensed to sell at public auction said two first described parcels of land, and the right of redeeming said last described land, or so much of the said real estate of said deceased as may be sufficient for the payment of said demands.

The 31st day of March, A. D. 1882.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountains over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 1500 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. AN APRIL FOOL.

Several of the Boston morning papers on Saturday had long accounts of an almost certain collision between the new comet and the sun, which was to take place at about three o'clock, Boston time. It was not positively asserted that the heat generated by the collision would instantly evaporate the earth, but it was darkly hinted that such a result was more than possible, and many people were made uneasy in consequence. We cannot see what business it is to ordinary people, whether a comet hits the sun or not; the only persons on the earth responsible for the running of the sun and comets are astromomers, (whose duty it is to enlighten us in regard to the too utterly unknowable,) and the United States signal service; and if they can't save the whole concern from being burned up, it might as well go. Notwithstanding this, and that Saturday was the first of April, a number of real estate owners in this city were so much exercised over the "scientific" reports of the Boston papers that they hastened to take out extra insurance on their buildings, being bound to make something out of the conflagration if it did come.

MOVE THAT TRAIN.

Mr. Editor: I ask the use of your columns to call the attention of the officers of the Eastern railroad—and of the city government, if the railroad officials will not heed—to an abuse which is not ofily outrageous but needless. I refer to the obstructing of Vaughan street by freight trains. It often happens of an evening that a train will stop on the crossing in such manner that it is impossible for people to get past, and remain there from one minute to ten, or even longer, while a quantity of freight is removed from a car or cars, and piled up in the depot,—after which the public are graciously permitted to pass.

If this annoyance was a necessary one, it could be borne without complaint; but it is not. It comes either from the laziness of the railroad employes or the contempt of the managers for the rights of the public, and should be stopped; and if nothing else will abate the nuisance, the city government should secure from the supreme court an order—which would certainly be granted on application—restraining the railroad from further trespass in this matter.

Let me mention a case in point: Last Friday evening, at about three minutes past seven o'clock, I arrived at the Vaughan street crossing just as a train stopped on it; the rear of the train was too far down the track toward Noble's island (for the train had come in from the eastward) for me to go around, and even had it been close at hand I should have had no right to pass around it, the tracks not being a public highway; so I waited, with several other persons, two of them ladies, for the opening of the passageway at the railroad's good pleasure. Several gentlemen (Mr. Charles A. Shannon was one) coming from the direction of Christian Shore were not so patient over the interruption to their progress, and crawled under the cars; and in about five minutes the train started up again, without any warning or ringing of the locomotive bell that I heard, and the irritated people were allowed to pass along about their business.

Mr. Editor, this is not an isolated case. This interruption to public travel is constantly occurring, and it is only when forbearance has ceased to be a virtue that I have spoken. I have myself been held at that crossing by freight trains scores of times, on several occasions as much as ten minutes; and a lady friend of mine has suffered in health for months, through a violent cold contracted while standing in the snow at that point waiting for a freight train to move, on one of coldest nights last winter. Is it too much to hope for, that the city government will take measures to demonstrate that citizens have some rights which even the Eastern railroad is bound to respect?

THE DIME SHOW.

Ward, Wambold & Pierce's Dime Show, which opened a season of one week in Huntington hall last evening, jumped at once into popular favor. There was a large audience, and it was evident from their demonstrative applause that they were greatly and agreeably disappointed in the character of the performance. There have been few variety shows that have exhibited here that have been distinguished by the general excellence of the Dime Show. There is no one great star, but all are good, and a great many of them bid fair to become favorites. Chalet, the ventriloquist, is undoubtedly the best in his line that has ever appeared in Lowell, and his truly wonderful performances elicited the most manifest evidences of wonderment and appreciation. All the other acts were cleverly executed, the magic cabinet of Miss Arnott and the singing of Miss Wambold being particularly noticeable. The performance contains nothing objectionable, and it affords a large amount of wholesome enjoyment at a very small outlay.—*Lowell Times, March 27th.*

This show opens this (Monday) evening at Franklin theatre, and will continue throughout the week. See advertisement.

WEEKLY FISH REPORT.

During the week ending April 1st seventeen fishing vessels and market boats landed at this port 21,580 pounds of cod and haddock, against sixteen arrivals the week before with 35,650 pounds. There was no receipt of frozen herring, the season for which is now considered ended, but netters have landed about 12,000 spring herring, schools of which struck in during the week. Light lots of salmon have been brought in, finding quick sales. Prices generally have ruled low, considering the generally small receipts.

The summary of fares received during the month which closed on Saturday, April 1st, gives a total of 665,480 pounds, against 440,178 pounds in February, and 145,700 pounds in January. The total receipts for the first quarter of the year foot up 1,251,358 pounds. The highest wholesale price realized in that time was $5 per hundred.

Two boys from this city attended the boys' school at Holderness, the main buildings of which were destroyed on Friday last,—one a son of Rev. C. A. Holbrook, the other a son of Paymaster Charles F. Guild, U. S. N. Young Guild is one of the editors of a newspaper issued by the schoolboys, and with journalistic enterprise while the fire was burning telegraphed the news to his father, with the assurance that he was "all right."

On Thursday evening of last week the Red Men of Newichewannock Tribe had a social gathering in Pythian hall, and a very pleasant time it was, singing, dancing and feasting occupying the hours until the time to part. About a hundred persons were present. The supper was an excellent one, some of the more substantial viands being furnished by Mr. Jere. Towle.

The fishing schooners Storm King and Flying Cloud arrived at Harpswell, Me., from Rockport, Mass., on Thursday afternoon of last week, encountering without damage a heavy squall on entering the harbor. They found no fresh herring at Harpswell, so both vessels baited up with clams, which they procured at $3.50 per barrel, about half the price paid in Portsmouth.

Out of a lot of kerosene received in this city from Boston last week by various persons, a considerable quantity was found to be below the standard, nineteen barrels out of twenty-four tested by the inspector being rejected by him.

The Appledore landing stage is being thoroughly overhauled and repaired by Mr. Warren Keen, preparatory to being towed to the Shoals when the proper time arrives. A new brow is to be constructed, to connect the stage with the permanent wharf.

Mr. G. Ralph Laighton, who went to Nashua recently to take a position in the office of the Nashua Iron & Steel Co., will return to this city and take the place in the Mechanics & Traders' bank made vacant by the retirement of Mr. E. H. Hall.

The north and south ponds were both free of ice on Friday last, but on Saturday morning both were skimmed with ice.

A salute of minute guns was fired at the navy yard on Saturday at noon, as a mark of respect to the memory of the late Rear Admiral Scott.

Mr. Daniel Murphy, driver for Mrs. J. M. Tredick, was crossing the south millbridge on Saturday when the horse shied from some unknown cause, throwing out Mr. Murphy and a young girl, (the only occupants of the carriage,) and whirling the vehicle against the railing of the bridge with such force as to wreck it. Mr. Murphy's right leg was badly broken between the knee and ankle. The girl escaped with but slight injury.

The president has referred the petition of the employes of the navy yards for a strict enforcement of the eight-hour law, to Attorney General Brewster, for an opinion as to the president's powers and duties in the premises.

The Maine *Sentinel*, the new democratic paper of Biddeford, in its issue of March 29th, under the heading of "Kittery," has the following: "U. S. Steamer Plymouth was towed into the harbor by the Leyden last Wednesday. The Plymouth has been below the narrows for three years cleansing from small-pox.—H. W. Wait, of Dover, N. H., went on Neal's railway for repairs last Wednesday."

Mr. Warren Keen is now making, at C. E. Walker's wharf, five new spars for the schooner yacht Una, from sticks supplied by Mr. Albion Parsons of York, Me. The spars comprise a mainboom fifty-five feet long, main gaff twenty-eight feet, two topmasts about thirty-four feet each, and a jibboom thirty-two feet. A new suit of sails is being made for the yacht, to fit the new spars.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, elected to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

The Needed Evidence Found.

A new impulse has lately been given our cause in this state, [New Hampshire.] It has long had faithful friends there. Nowhere are there better workers than Mrs. Pickering, Pres. Marvin, Mrs. Quincy, and Mrs. Tobey. An incident in a recent case there we venture to publish from a private letter. Where men can be found to enforce the law, as zealous and experienced as in this case, a new terror will seize evildoers.

"It was long after dark before I could get the case sufficiently well in hand to proceed. Then I started alone on a twenty miles ride. Early the following morning I found the place where the man lived, but no one would tell where the dead horse had been taken to. By making a circuit of the barn, I discovered a trail leading across the fields. Although buried under more than a foot of recent snow, the outline and direction of the trail could be traced. I followed the scarcely perceptible furrow until it ceased at the edge of a ravine, at the bottom of which the snow indicated that I had reached my objective point. Descending the declivity, and removing the shroud of snow, the body of the abused horse was discovered. Fortunately my pocket-knife was sharp, and, although the flesh was frozen, I succeeded in getting off the skin from one side. Then the nature of the abuse stood revealed. The poor creature's hide was like the perforated cardboard which ladies make bookmarks of. The flesh on the ribs and loins was *black* with coagulated blood. I also discovered the wound which was the immediate cause of death, and could thrust my finger through it into the vital organs of the horse. The brutal owner had driven an ox goad through the lungs of the poor creature, in his frantic rage because the horse and a yoke of oxen could not draw a sled loaded with tan-bark up a very steep, long hill, from which the wind had swept the snow. I hastened back to where the offender was arraigned. The testimony of my dumb witness was conclusive. The accused paid the maximum fine and costs of a justice trial. The criminal thought he had hidden the proof of his guilt from all but the crows and foxes of the hill. He dragged the body two miles, and felt safe!"—*Our Dumb Animals.*

—A Dublin newspaper contained the following: "I hereby warn all persons from trusting my wife, Ellen Flanagan, on my account, as I am not married to her."

—The name Socrates being mentioned during a recent entertainment in Springfield, Mass., one woman was overheard to whisper to another, "Who was Socrates?" "Oh, I believe he was a Roman god," was the ready reply.

—Asa Briggs died a few days ago in Shutesbury, Conn. Conscious of his approaching end, he desired that a certain minister living in a neighboring town should attend his burial services, giving as a reason: "They say he's a good hand at a funeral, and I'd like to hear him just once."

—A sensation was created in Westfield, Mass., a few days ago, by a rumor that a family which has been living in somewhat straightened circumstances had inherited $100,000 through the death of a Californian uncle, but the father, after spending a day to investigate the matter, concluded that the report was either exaggerated or unfounded, and sensibly returned to work.

The President

Of the bank of Waverly, Iowa, says: Sulphur Bitters saved my life. For ten years I suffered from catarrh and liver complaint; I lost forty-five pounds and was growing worse rapidly. I had lost all faith in medicine, but hearing your Bitters so well recommended, I gave them a trial. Six bottles cured me.—*Smith P. Hunt, Waverly, Iowa.*

The president has approved the act granting a pension to Mrs. Lucretia R. Garfield, Mrs. S. C. Polk and Mrs. Julia G. Tyler.

Worth Remembering.

Now that good times are again upon us, it is worth remembering that no one can enjoy the pleasant surroundings if in bad health. There are hundreds of miserable people going about to-day with disordered stomach, liver or kidneys, when a bottle of Parker's Ginger Tonic would do them more good than all the medicines they have ever tried.

The annual boat race between the British universities came off on the Thames river on Saturday, the Oxford crew winning by six lengths, beating the Cambridge men pretty much as they pleased.

A Delightful Novelty.

Ladies prefer Floreston Cologne because they find this lasting combination of exquisite perfumes a delightful novelty.

Two cattle thieves were taken from jail at Pueblo, Col., on the night of the 30th ult., and hanged by a mob.

Ladies and sickly girls requiring a non-alcoholic, gentle stimulant, will find Brown's Iron Bitters beneficial.

General George Thom, colonel of United States engineers, who has been confined to his house in Portland, Me., was slightly indisposed on Friday. His physician gave a prescription, and the druggist's clerk, by mistake, put up the wrong medicine, which nearly proved fatal. Antidotes were promptly administered, and on Friday night he was quite comfortable.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In flesh wounds, aches, pains, sores, etc., it is the most *effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpe, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From E. W. Adams, Saco, Me.:
It gave me immediate relief.

E. Lewis says:
In forty years' use it never has failed me.

W. W. Linn, Sichoville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest are its best friends.

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines, it is perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

no longer from Dyspepsia, Indigestion, want of Appetite, loss of Strength lack of Energy, Malaria, Intermittent Fevers, &c. BROWN'S IRON BITTERS never fails to cure all these diseases.

Boston, November 26, 1881.
Brown Chemical Co.
Gentlemen:—For years I have been a great sufferer from Dyspepsia, and could get no relief (having tried everything which was recommended) until, acting on the advice of a friend, who had been benefited by BROWN'S IRON BITTERS, I tried a bottle, with most surprising results. Previous to taking BROWN'S IRON BITTERS, everything I ate distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking Brown's IRON BITTERS, all my troubles are at an end. Can eat any time without any disagreeable results. I am practically another person. Mrs. W J. FLYNN, 30 Maverick St., E. Boston.

BROWN'S IRON BITTERS acts like a charm on the digestive organs, removing all dyspeptic symptoms, such as tasting the food, Belching, Heat in the Stomach, Heartburn, etc. The only Iron Preparation that will not blacken the teeth or give headache.

Daily Chronicle.

The Bashful Young Man.

He deserves pity, but he is universally laughed at. He is painfully conscious of existence wherever he goes, and it would, doubtless, be a great mercy to him if he could cease existing now and then, long enough to recover his composure. His feet and hands are always wonderfully in the way, and a large portion of his time is passed in the melancholy task of measuring his two thumbs, as if he were not altogether certain whether they were mates or not. He contemplates the toes of his boots for hours together, with a face as grave and sage as if those same toes were the "vague mysterious future" of which we hear so much, and he was seeking to penetrate its secrets.

He cannot walk across the room without turning the corner of all the rugs in his pathway, and if he does not trip over the ottomans, and sweep the ornaments off the consoles with his coat tails, he may esteem himself fortunate. When he is introduced to a lady he blushes like a criminal, and bows with a jerk, and stammers, and feels in his pockets, and pulls his whiskers, if he has any, and flirts with his watch-chain, and plants one foot on the lady's dress, and calls her Mrs. if she is a Miss, and vice versa—and makes himself miserable generally. When he calls on an acquaintance he never knows what to say. He talks about the weather until the subject will bear no more; and then he will fall into a dead silence, and roll his despairing eyes about from one corner of the room to the other, in the vain hope that they may discover something about which a remark can be made. He never knows when to go away; and when he has made up his mind that it is time to be going, he is afraid to make a move.

His boots creak—bashful men's boots always do creak—and there will be several ladies between him and the door, and if he doesn't remember where he left his hat the perspiration bursts out on his forehead, and he most devoutly wishes that such a thing as visiting anybody was unknown. If he hears a girl giggle anywhere, he feels sure that he is the cause of it, and it makes him creep all over. He instinctively feels his collar to see if it is all right, and wishes the women had all perished in the deluge!

Well, there are so few bashful young men now-a-days that people should not laugh at them, for bashfulness is one of the ancient virtues which in this age of "brass" is fast becoming obsolete.

Milton Hamblin, seventeen years old, of Sandwich, Mass., was found dead in the woods last Friday under his loaded cart, which had overturned upon him.

John Laud, in jail at Independence, Mo., has confessed that he was one of the gang who robbed the train at Glendale. He states that Jesse James was the leader and the others were James' brother, and Miller, Little, Bugler, Cummings, Mat Armstrong and Creed Chapman.

A Cure at Last.

Specifics without number for the cure of catarrh have been extensively advertised, and doubtless there is some virtue in them all, but the evidence is overwhelming that Ely's Cream Balm goes more directly than any other to the seat of the disease, and though it is a comparatively new discovery, it has resulted in more cures within the range of our observation than all the others put together. Wilkesbarre, Pa. *Union Leader*, Dec. 19, 1879.

It is no exaggeration to say that Ely's Cream Balm is a cure for catarrh, hay fever, etc., for many cures have been made among my customers. Cream Balm should be resorted to by every one thus afflicted. With me no other remedy has ever equaled the Balm either in good results or sales. A. J. ODENWELDER, Druggists, Easton, Pa. Oct. 2, 1880.

Price fifty cents.

About eight years ago Mr. Thomas Bailey Aldrich wrote a sketch entitled "The Little Violinist," showing the sad end of a precocious musical pupil who performed in one of the Boston theatres. The sketch was reprinted with the author's permission, and sold at the fair of the Massachusetts Society for the Prevention of Cruelty to Children. The incident is touchingly told by the writer, who compares the lot of the little musician with that of his own two sons. The little story is sold by A. Williams & Co., at the Old Corner Bookstore in Boston, and the lovers of Mr. Aldrich's writings are reading it with no small degree of interest.

The unhappy mortal whose food does not digest and assimilate perfectly will find immediate relief in "Wheat Bitters."

At Burlington, Vt., Saturday, the police arrested Geo. Painter, Edward Lamoreaux, Louis Pariseau, Delia Lamoreaux and Mary Almond, members of a gang of thieves, and a large number of stolen articles were found in their residences, and a set of burglars' tools. Saturday night the police arrested three more of the gang, making eight in all. Those last arrested are Clifford Lamay, Mary Lamay and Mary Lovely. A large additional quantity of stolen goods was also recovered.

Nervous debility, the curse of the American people, immediately yields to the action of Brown's Iron Bitters.

The murderers of Gen. Strelnikoff, at Odessa, Russia, were tried and condemned on the 1st inst.; the council met at nine o'clock in the evening, and the assassins were all under sentence of death before midnight.

When druggists, lawyers and doctors, and even preachers occasionally, besides many others of various professions too numerous to mention, manifest a special interest in any one article we very naturally conclude it has some healthy bearing on their lives, or they would scarcely lift their voices with one accord to extol its virtues and place it before those going through life burdened with rheumatism. Filled with rapture over immediate relief, the sufferer ever after refers to St. Jacobs Oil, the great German remedy, as the most surprisingly efficacious of all remedial agents. We recently observed in a New Jersey exchange the following item in support of the above: Mr. Isaac Correy, manager Salem, N. J., Glass works, remarks: I am pleased to say that I have used the great remedy, St. Jacobs Oil, for rheumatism with excellent results; other members of my family have also been greatly benefited by it.

A little girl at Winslow, Me., was struck by a snowball while playing, and, as a result, is totally blind. One day, recently, she attempted suicide by taking laudanum, but an over-dose was her salvation.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

THE

New Hampshire Gazette !

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or collected by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

— THE —

NEW HAMPSHIRE GAZETTE

Contains more original matter

Than any other paper of its size in the State, the editors working more with their pens than with their scissors.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a week'y invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. THE GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in local cities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

R. H. EDDY, Solicitor of Patents.

Testimonials.

I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHARLES MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1876.

R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1866, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple self cure, which he will send FREE to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y.

eod&wtyes

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

TUESDAY, APRIL 4, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Steamship Disaster.

The Spanish steamship Yrurac Bat and the British steamship Douro were sunk by collision off Cape Finisterre, Spain, last Saturday night. Another steamer rescued seventeen persons from the Douro and sixty-seven from the Yrurac Bat; how many were lost is not stated, though it is said the captain, pilot and thirty of the crew of the Spanish steamer perished.

A London despatch of the 3d inst. says the Douro had on board £58,000 in specie. Her captain, four mates and two engineers, were drowned. There are thirty-two persons missing from the Douro, and nineteen from the Yrurac Bat.

A Murderous Arrangement.

It is stated that 2800 persons were killed in this country by freight trains during the year 1881, a great majority of them being brakemen who were crushed to death or run over while engaged in the perilous occupation of coupling cars. The man who invents an automatic coupler for freight cars which shall prove effective and not extravagant as to cost, will not only make a fortune but be a public benefactor. We have no doubt such an invention will at some time be made, for it is not possible that the primitive and murderous link-and-pin arrangement is perfection in that line.

Important Improvement.

Wm. W. Jacques, of Newburyport, Mass., chief electrician of the Bell Telephone Co., has discovered a method by which the volume of tone from the instrument is enormously increased, so that instead of the voice of the person at the other end of the line sounding like the squeak of a mouse in the bottom of a barrel of shavings, the words can be heard all over a large room. This is considered the most important improvement yet made in the telephone.

News and Notes.

Cornelius J. Vanderbilt, son of Commodore Vanderbilt and brother of Wm. H. Vanderbilt, blew his brains out on Sunday afternoon at two o'clock, in his room at the Glenham hotel in New York city.

Patrick O'Hara, a farmer of Fairfield, Conn., was called to the door of his house last Friday morning by a man named Chris. Logan, and shot dead. The murderer, who is under arrest, formerly worked for O'Hara, and was enraged at being discharged.

Gen. Hurlburt, minister to Peru, died of heart disease at Lima on the 28th ult.

There was a strike in Fall River, Mass., Monday, the spinners of the Sagamore mill refusing to go to work.

A building was blown down near Reading, Pa., on Sunday, killing three persons and fatally wounding another. Much other damage was done by the squall.

In South Bethlehem, Pa., are still 125 cases of small-pox. There were three deaths on Sunday, bringing the total up to sixty-one. Vaccination is not so unpopular in that town as it once was.

B. Halloran, of Newport, R. I., assignee to T. S. Nowell, trustee, has been granted letters patent for a stand hose pipe, packing for pump piston, and hose pipe.

Albert Lunt, of Rowley, Mass., killed six foxes on Wednesday of last week, making his total eighteen since last fall.

A shocking murder occurred on Wednesday evening of last week three miles east of Bloomfield, Nelson county, Ky., in the killing of Joseph Holt, a school teacher, by Babe Hunter. Holt, who boarded at the residence of Hunter, interfered while the latter was whipping his wife. Subsequently Hunter waylaid Holt while coming from his school house, and shot him dead. Hunter fled, but has since been captured.

After lynching two cattle thieves at Pueblo, Col., Thursday night of last week, a mob rode about ten miles out of town to where two Chastin brothers and Frank Orsby were stopping. The trio were captured, marched into a grove and hanged, thus making five men lynched for cattle stealing within a distance of ten miles.

At Wickliffe, Ballard county, Ky., on the 30th ult., a Mr. Parker, agent of the Mississippi Central railroad, shot and killed Henry Henderson, with whom he had quarrelled the night before while gambling. This was the fifth murder committed in that county within six months.

Elijah Dixon, aged seventy-eight years, of Block Island, R. I., on Friday last attempted to drown a dog in a pond, but fell in and was himself drowned.

At an isolated ranch, near the Vera Cruz line in the state of Oaxaca, Mexico, a rancher, his wife and four children were brutally murdered at midnight, Friday night. The object of the crime was money supposed to have been concealed there. The perpetrators have been captured, and will be speedily dealt with by the authorities.

Ex-Mayor Hackett of Bismark, Dak., who left home several weeks ago to visit Turtle mountain and Moose river, is now overdue two weeks. It is feared that his party was caught in the blizzard. A search party has started from Fort Stevenson in quest of the explorers.

The mill operatives in Biddeford on Saturday last formed a union to furnish aid to the strikers in Lawrence, Mass.

AROUND HOME.

In another column Messrs. W. J. Sampson & Co., practical painters, announce their readiness to do anything in their line.—painting, paper hanging, glazing, gilding, etc.,—all work being done under their own supervision, and in a manner warranted to give satisfaction; also to make estimates, supply painters' materials of the best quality and in any quantity, and to fill any orders within to the legitimate scope of their business.

The sale of reserved seat tickets to the performance of "The Mascotte" at Music hall on Friday evening by the Boston English Opera Co., commences this morning at Preston's.

All work in the department of steam engineering at the navy yard is suspended, owing to lack of appropriations for continuing it.

The schooners Storm King and Flying Cloud arrived from Cundy's harbor, Harpswell, Me., on Monday, having been unable to procure bait of any kind in sufficient quantity.

The model boat of the Marine Bicycle Co., made by Mr. John A. Haraden of this city, will be photographed this afternoon on the turf mound at the northern end of the custom house, by Davis brothers. The novel pleasure craft will be on exhibition for the remainder of the day, and on Wednesday will be shipped to Boston by the steamer Acushnet, and will be one of the attractions at the Institute building during the bicycle tournament which opens there on the 6th inst.; at the close of the tournament the boat (a splendid specimen of Mr. Haraden's workmanship) will be sent to Washington, D. C.

The schooner Grace Choate has hauled up for a few days, to prepare for salt fishing, which she will engage in during the spring.

A fleet of forty vessels, nearly all coasters, was anchored in the lower harbor on Monday.

Harvey W. Putney, the affable and gentlemanly clerk in charge of the internal revenue office in this city for a year past, has been appointed deputy collector of internal revenue, to succeed Aaron Young. Mr. Putney entered upon his duties on the third instant.

The schooner H. Prescott, which wintered at Kittery Point, has been ready for sea for some days past, but has delayed sailing on account of the illness of her commander, Capt. Dorr of Kittery.

Many of the passengers into Boston over the Eastern railroad on Saturday were "sold" in the station at that city, through trying to pick up an old and highly respectable looking pocket book of generous dimensions, which was securely tacked to the floor.

A horse attached to an express wagon took fright from the blowing off of steam by a locomotive in the yard of the Eastern railroad station, Monday, and for a few moments made things lively in that vicinity, but was soon stopped by James McCarthy, who caught the hind part of the wagon, climbed in, and jumped from the wagon to the horse's back, moving quicker than a cat.

The trustees of the public library have engaged two rooms in Franklin block, and the books will be removed to the new quarters at once.

The tug Naumkeag went to South Newmarket on Monday, to have some repairs made to her machinery.

A little son of Mr. Christopher Gilligan fell through a hole in a wharf near the north end stone yard on Monday, and would have been drowned but for Capt. Seaward of Kittery Point, master of the schooner Cocheco, who jumped overboard and pulled him out. The child was nearly dead when rescued.

Mosquitoes were around on Monday, in sunny nooks. They were not very numerous, though sufficiently so for all practical purposes; neither were they very lively, so that it was not only a pleasure to kill them, but a possibility.

The "band-stand" was put in place over Gangway rock on Sunday, the contractors' men having been waiting a chance for several days.

The lower masts were taken out of the U. S. S. Plymouth on Monday.

Audran's deservedly popular comic opera, "The Mascotte," will be presented in Music hall on Friday evening, April 7th, by the Boston English Opera Co. A number of the members of this company we recognize by name as being popular favorites — superior as singers, and as actors and actresses. The organization has recently been travelling through New York state and the British provinces, and giving the utmost satisfaction to large audiences, if the press reports are anything near the truth.

Capt. G. F. Towle, 19th Infantry, has been assigned to duty as A. D. C. to Gen. Terry, in addition to Captain Myrick, which now gives the general as personal staff Captains Hughes, Myrick and Towle, three valuable officers.—*Army & Navy Journal.*

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $5.00,—*not assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. FIRE COMPANY ELECTIONS.

The annual meetings of the several companies of the fire department were held on Monday evening, April 3d, and officers elected as follows:

Hook and Ladder—George W. Green, foreman; George P. Abbott, 1st assistant; Charles A. Neal, clerk.

Sagamore, No. 1—Walter S. Gray, foreman; John S. Cutts, clerk.

Col. Sise, No. 2—George Tripp, foreman; Albert Junkins, 1st assistant; Willard M. Gray, clerk; Daniel N. Cox, steward.

Kearsarge, No. 3—Willard J. Sampson, foreman; Frank S. Hayes, 1st assistant; Frank H. Seavey, 2d ass't.; William S. Hazel, treasurer; James H. Hurd, clerk; Lewis B. Marden, steward.

Moses H. Goodrich, No. 4—John S. Banks, foreman; Charles H. Foote, 1st assistant; Thomas Wardwell, 2d assistant; Warren Holmes, clerk;

The question referred to the companies by the board of aldermen, as to whether the firemen would prefer to have their pay reduced rather than their numbers, was by the Sagamore, Kearsarge and Moses H. Goodrich companies referred back to the city councils, and by the Col. Sise company laid on the table.

The result of the election by the extinguisher companies we did not get.

"UNRELIBLE" REPORTS.

The *Times* of Monday evening, referring to the fishing business at this port during the season just ended, says:

The reports which have been periodically made by other papers have generally been incorrect and often very much exaggerated, having been gathered from unreliable and varied sources.

In the same column, a few inches below, it has the following item:

Messrs. Randall & Caswell are preparing for the spring lobster business. The schooner Addie & Hattie will start for the eastward in the course of a week.

The schooner Addie & Hattie sailed from this port for the eastward after lobsters on Wednesday, March 29th.

THE BEACH RAILROAD.

Mr. Editor: Since it is an established fact that the branch to Newcastle, Rye, Hampton, etc., is to be built, let us submit to the inevitable and devote our efforts to having it located as will be for the best interest of our city. There have been various routes suggested through your paper, all of which have their advantages and disadvantages.

The locating of the road lies in the hands of the railroad commissioners, and surely if they are not unduly influenced by the Eastern railroad managers they will not disregard the wishes of our citizens, if properly laid before them,—and to do this, some steps towards deciding what will be the best location, and to organize for a united effort, ought to be taken. To this end let some of our influential citizens call a meeting of taxpayers and have the subject thoroughly discussed, and the sense of the majority taken. Then let a committee be appointed to circulate a petition addressed to the railroad commissioners through the city for the signatures of tax-payers, expressive of their wishes.

If the railroad commissioners disregard this petition the citizens will then know that *their* interests are considered subordinate to the wishes of the foreign corporation. NON-VOTING TAX-PAYER.

RETRENCHMENT AND REFORM.

Mr. Editor: "Ex-Fireman," in the CHRONICLE of March 30th, would have the reduction of city expenses commence almost anywhere except in the fire department. I presume it is but nature asserting herself, for we all feel better to have our friends saved, even if it is necessary to hit some other man's friend. I see no reason why a reduction of expenses should not commence in the fire department as well as elsewhere; and I am one who believes not only in the proposed reduction of men in the department, but that the proposed arrangement, while it reduces the expenses, also makes the department more efficient. It cannot be denied that our steamer companies are larger than in other cities, comprising as they do twenty-one men, while the plan pursued elsewhere and found to be satisfactory, provides for only fourteen men.

Ex-Fireman must bear in mind that the proposed reduction does not do away with any leading hosemen; consequently what he says about horses laying hose has no bearing in the case at issue. It is only proposed, as I understand the case, to do away with what are termed suction hosemen, whose duties are to furnish the engines with fresh water for steam purposes, and instead thereof to utilize the horses which haul the hose carriages to the fire, by sending them back to the engine house for fresh water, which is to be constantly on hand in barrels prepared for that purpose. The number of suction hosemen on each steamer is six, and on three steamers eighteen, which being multiplied by forty, the annual salary, makes a total of seven hundred and twenty dollars. Horses are proposed for the hose carriages, which to me seems an excellent idea. It was my misfortune when a member of the department to live a long distance from the engine house, and on many occasions I was compelled to run to the engine house directly away from the fire, for the purpose of hauling the hose carriage, and arrived at the fire wholly unfit for service, many of the members being in a like condition. Under the proposed arrangement members could repair immediately to the fire, and be fresh and vigorous. I understand that the common council has already passed the necessary measures to make the reduction, and that the subject is on the table in the board of aldermen.

There are more things which could be done to make the fire department more efficient and less expensive, should the city government mean retrenchment in earnest. I agree that the fire department is not the only place to reduce, but a beginning must be made somewhere. It is a little unpopular to say anything against the wishes of the fire department, for in times past, when the department consisted of several hundred men, they wielded a powerful influence in party caucuses, and many rising and ambitious statesmen had their hopes and aspirations nipped in the bud by the chilling blasts of the fire laddies.

I would not deprive the firemen of any of the glory attached to the career of a fireman, but it is useless to deny that the organization of our department is defective, and that it should be organized on a plan similar to those in other cities, which have been tried and found to be satifactory.

THE GOLDEN CROSS.

The United Order of the Golden Cross appears to be flourishing like a green bay tree,—so to speak, for we don't know exactly what a green bay tree is. We recently reported the instituting of a commandery of the order in Eliot, Me., and now have to record still another new commandery on the other side of the river.

On Saturday evening, April 1st, Dep. Sup. Comdr. Pressey, assisted by Rising Star Commandery of Kittery Point, instituted Agamenticus Commandery of York, officers as follows being installed:

P. N. C., Dr. J. C. Stewart;
N. C., Dr. W. M. Hawkes;
U. N. C., Mrs. Laura Hawkes;
Prelate, J. L. Norwood;
K. of R., A. W. Moulton;
F. K. of R., Nathaniel Freeman;
Treasurer, Mrs. Ellen Norwood;
Herald, Wm. Mozart;
W. I. G., C. M. H. Young;
W. O. G., C. H. Young;
Medical Examiners, Dr. J. C. Stewart and Dr. W. M. Hawkes.

DOVER'S APPROPRIATIONS.

The city councils of Dover last week passed the appropriation bill for 1882. The bill foots up $60,148.50, as follows:

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup." It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. cod&wtjan82

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. Freeman.)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and disease of the blood. One dollar a bottle. Your druggist has it.

KNOW THYSELF. The Science of Life, or Self-Preservation, is the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single of either sex can either require or wish to know, but what is fully explained. In a word, the book is invaluable to all who wish for good health.—*Toronto Globe.*

The book for young and middle aged men to read just now is the Science of Life, or Self-Preservation,, it is worth many times its weight in gold.—*Medical Times.*

The author of the Science of Life is a noble benefactor. He reaches the very roots and vitals of disease, and is enabled to apply thorough remedies. The book already is read upon both continents by millions.—*Lo Ann Journal.*

The Gold and Jewelled Medal awarded the author of the Science of Life was fairly won and worthily bestowed.—*Massachusetts Ploughman.*

Thousands of extracts similar to the above could be taken from the leading Journals—literary, political, religious and scientific—throughout the land.

The Book is guaranteed to be a better medical work, in every sense, than can be obtained elsewhere for double the price, or the money will be refunded in every instance.

Thousands of Copies are sent by mail, securely sealed and post-paid, to all parts of the world, every month, upon receipt of price, $1.25. Address

A Shrewd Plan Failed.

Sheriff William Estes of Stokes county, N. C., was shot on the 30th ult., while robbing his own office. He left home to be absent some days, and directed his wife not to allow anyone to stay all night, and at the same time gave her the safe key. About dark one of the neighbors came to the house, and Mrs. Estes having raised no objection, he went out to a room to spend the night. After he had retired two other men came to the house and asked leave to stay, and Mrs. Estes objected. They however, went in and demanded the safe key, threatening to kill her if she refused it. She ran up stairs and informed her guest, and was told by him to go down, deliver the key and say nothing of his presence. The men then proceeded to rob the safe, and while thus engaged Mrs. Estes' friend came down and killed both of the men. Upon an examination it was found that one of the men was the sheriff, who had disguised himself, and the other was one of his neighbors.

Naval Affairs.

The flag-ship Tennessee sailed from New Orleans for Hampton roads March 29th.

Commander O. A. Batcheller has been relieved as inspector of ordnance at the South Boston iron works by Commander Nicoll Ludlow, and has been ordered to command the Galena on the European station.

Chief Engr. John W. Moore is ordered to special duty at Providence, R. I.

The *Army & Navy Journal* of April 1st says: "Commodore Ed. Y. McCauley was in Washington this week, for the purpose, it is said, of securing a revocation of his orders to command the navy yard at Pensacola. That station does not seem to be sought after."

The Galena has arrived at Malta from Palermo.

Rear Admiral Taylor, U. S. N., and family, have arrived at the Hygeia hotel, Fortress Monroe, from Florida.

The natives of tropical countries exhibit a passionate foundness for all that is bright, soft, and luxurious; the songs of birds, the soothing cadence of fountains, the breath of flowers. Their ardent senses are skilled in selecting those colors and sounds and perfumes which impress most agreeably, and dwell most fondly in the memory. Hence the favor with which the genuine Murray & Lanman Florida Water is received among them, no other perfume being at all able to rival it in the affections of these "children of the sun."

When the muscles lack firmness and the system is deficient in stamina, use "Wheat Bitters."

Mrs. Evans, wife of Franklin Evans, a well-known merchant of Concord, was found dead at her home early Sunday morning. When she retired on Saturday night she was in her usual health, and her death is supposed to have resulted from heart disease. She was about sixty-five years of age.

Ladies and sickly girls requiring a non-alcoholic, gentle stimulant, will find Brown's Iron Bitters beneficial.

Geo. F. Case of Claremont has received a patent for a core-lifter for annular rock-drills. B. Prescott Kinsman and J. Merrill, of Great Falls, have a patent granted for a carriage-wrench. David Hambleton of Nashua has a patent for a bobbin, and Henry F. Campbell has a patent for "mechanism for and method of forming hoop-splints."

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Foltz, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpor, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Linn, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.*

Its success is *entirely* because of its merit. Since the Pain killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills may *often be saved* by prompt application of the Pain Killer. Unlike most *medicines,* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

no longer from Dyspepsia, Indigestion, want of Appetite, loss of Strength lack of Energy, Malaria, Intermittent Fevers, &c. BROWN'S IRON BITTERS never fails to cure all these diseases.

Boston, November 26, 1881.
BROWN CHEMICAL CO.
Gentlemen:—For years I have been a great sufferer from Dyspepsia, and could get no relief (having tried everything which was recommended) until, acting on the advice of a friend, who had been benefited by BROWN'S IRON BITTERS, I tried a bottle, with most surprising results. Previous to taking BROWN'S IRON BITTERS, everything I ate distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking BROWN'S IRON BITTERS, all my troubles are at an end. Can eat at any time without any disagreeable results. I am practically another person. Mrs. W. J. FLYNN,
30 Maverick St., E. Boston.

BROWN'S IRON BITTERS acts like a charm on the digestive organs, removing all dyspeptic symptoms, such as tasting the food, Belching, Heat in the Stomach, Heartburn, etc. The only Iron Preparation that will not blacken the teeth or give headache.

The Raymond California Excursion.

The California excursion parties which are being organized by Messrs. Raymond and Whitcomb are even more popular this year than the last. There are to be three different parties, all of which will follow precisely the same programme. The first party, which is to leave Boston April 6th, is filled already, while there is a large number of persons desirous of going into the place of any who may withdraw. The second and third parties are also increasing in numbers daily. The dates of departure of the second and third parties are April 13th and 27th.

The Gloucester fishing schooner Nellie N. Rowe arrived at New York on the 1st inst. with 140 barrels of mackerel, the first arrival of this season; the fish sold for twelve cents each. The first arrival last year was on March 23d, at New York.

What Everybody Wants

Is a reliable medicine that never does any harm and that prevents and cures disease by keeping the stomach in order, the bowels regular, and the kidneys and liver active. Such a medicine is Parker's Ginger Tonic. It relieves every case, and has cured thousands. See other column.—*Tribune.*

At Hopkinton, Mass., Tuesday morning, an incendiary fire destroyed Claflin, Coburn & Co.'s large boot factory, a church, hotel, thirteen dwellings and a number of stores. Loss $350,000.

A Valuable Addition.

Because it is beneficial to the scalp and adds to personal beauty by restoring color and lustre to gray or faded hair, is why Parker's Hair Balsam is such a popular dressing.

The New York cotton exchange investigation disproves the charge of fraud in packing cotton in this country, made in Liverpool to the American consul.

A Blessing.

If you are troubled with piles you should use Sulphur Bitters. They cured me when all other medicine failed.—*Daily Eagle.*

The richest Chinaman in New York is Tom Lee of Mott street. He is the agent of the six companies, and is a deputy sheriff, a Roman Catholic, a republican, an importer and tea grower.

Food for Young and Old.

Food and medicine for young and old, prepared without fermentation, from Canadian barley malt, hops, quinine, bark, etc. Malt Bitters are warranted more nourishing, strengthening, vitalizing and purifying, by reason of their richness in bone and muscle producing material, than all other forms of malt or medicine, while free from the objections urged against malt liquors.

Gov. D. W. Meriwether, ex-governor of New Mexico, and now a member of the legislature of Kentucky for his fourteenth term, lately said to a reporter in Frankfort, Ky.: "I have used St. Jacobs Oil with splendid results for neuralgia and rheumatic pains. It always works well, and gives entire satisfaction. It is, indeed, a great remedy."

A riot between whites and blacks at Rocheport, Mo., resulted in promiscuous shooting, and the arrest of ten negroes.

The unhappy mortal whose food does not digest and assimilate perfectly will find immediate relief in "Wheat Bitters."

The store of Daniel Luut, at Oldtown, Newburyport, was burned on Tuesday morning, with a barn and storehouse, cow, farm utensils, etc. Loss $4000; insurance $2900. Incendiary.

When your wife's health is bad, when your children are sickly, when you feel worn out, use Brown's Iron Bitters.

Gorham D. Abbott, son of the late Rev. Rev. J. S. C. Abbott, the noted author, was married to Miss Ella J. Soper, at Lowell, Mass., on Saturday. The groom and bride are both deaf mutes, and the service was accordingly somewhat peculiar.

Conspicuous among the influential men of the dominion is Mr. J. H. Metcalf, member of parliament from the city of Kingston, Canada. Coming to a personal matter, we would mention that Mr. Metcalf was formerly subject to extreme soreness of the chest, for which, as he himself says, "I could find no remedy but St. Jacobs Oil, the great German remedy. I would not be without it for ten times its selling price."

Maryland has passed a law that wife-beaters shall receive forty lashes or a year's imprisonment, or both, at the discreation of the court.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and kainlence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Albee, the Winchester defaulter, will be tried in Hillsborough county, at the May court.

"When I publicly testified that I had been cured of a terrible skin humor by Cuticura Remedies, I did so that others might be cured, and do not regret the time given to answering inquiries."—Hon. Wm. Taylor, Boston.

At the recent town meeting at Londonderry Miss Martha J. Boyd was elected superintending school committee for the coming year, which is quite an innovation upon the time honored custom in that place of having a minister perform the duties of that office.

Catarrh.

Relief in five minutes in every case; gratifying, wholesome relief beyond a money value. Cure begins from first application, and is rapid, radical and permanent. Ask for Sanford's Radical Cure. Complete for $1.

A memorial hall to cost not less than $6,000 will be built the coming summer and fall in Lebanon, and dedicated with impressive ceremonies, May 30th, 1883.

Remarkable for overcoming diseases caused by impure water, decaying vegetation, etc., is Brown's Iron Bitters.

Portsmouth Chronicle.

WEDNESDAY, APRIL 5, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Our New York Fashion Letter.

WRAPS.

Winter wraps will be exchanged for short, circular mantillas, with long ends in front, and from such leading type there are a variety of gradations where the smaller are no more really than capes. In wool we find camel's hair or cashmere trimmed with fringe or lace; dressier styles are of satin, brocade, etc., or newer yet of Spanish net laid upon satin, while for midsummer, small coverings are of silk or wool Spanish net that is a feature in dress goods and shown in all colors. In every material, however, black leads for wraps, although jackets are chiefly in cheviot mixtures.

A LA MILITAIRE.

What with buttons and braids and braids and buttons, our ladies will carry on a warfare that will cause to quake the most military heart. Small bullet-shaped buttons are very fashionable, and an instinct of nature points to a combination with braids which are run in rows around edges, up the fronts of costumes, and in epaulets on shoulders. Again, these pretty pointings (for indeed such stylish buttons are little more,) are bestowed in military rows, illumining outfits of plain goods and forming substitutes for brocade. Metal is in high favor for buttons of all kinds, and is colored in contrast or to match. Other buttons are of medium size, but fashion has taken a wide leap from the very large ones; they are dead, if not forgotton, and a great rush is made for their diminutive successors. Fringes are brought out to suit new fabrics, both silken and of jet. Shirring is extremely fashionable, and plaitings still live. In ways of making, however, there is a marked absence of novelty. Nothing is really new in design, and, as formerly, we shall have basques, trimmed skirts, overskirts, and of polonaises quite a tribe. Not a few

NEW WOOLS

Are covered with small sized birds' or animals' heads. In France, and elsewhere on the other side the entirety is portrayed, but here, as yet, the homely phiz of poor Tray, the pensive countenance of an owl, or the classic profile of a chanticleer suffice. Other wools show very large iwrought floral patterns, set very far apart, while a change is given by moons, intersecting rings or mathematical bodies, colors being either quite pronounced or reverse. Pretty outfits in wrath fabrics are checked or striped, and here Cash embroideries woven in colored stripes or chequer-board designs, are chosen as a finish. The colors are perfectly fast, and a fine cord on one side is made to draw up, so that they are easily sewn on. Perhaps, too, this may be the reason that the white frillings are again being used on underclothing. Cash's woven initial letters for marking have also proved a great success. No wonder, since they relieve us from that dreadful old ink bottle; the price, furthermore, being so low as to come within everybody's means. This year they are brought out in navy blue as well as Turkey red. Both wash perfectly; and so popular has this style of marking become, that ladies frequently have the entire name made to order.

PARASOLS.

As a sign of the prevalence of shirring, we notice the new parasols provided with a shirred ruffle that is often ended by lace. From eight to ten ribs are seen, and materials, of course, follow dress goods, for the parasol of late years has steadily risen in importance, and is a notable part of the outfit. Then too, as flowers are extremely fashionable, behold a finish given the coming parasol, by an artificial bouquet set in a silken bow at the top. This, of course, can be removed if one should think it too gay, but ladies in general will find no little amusement in changing these flowers at will. Sun umbrellas are strikingly attractive, because made of doubled-faced satin, where frequently effective contrasts are noticeable.

THE NEW BONNET

Will usually be trimmed with ribbon rather than silk. Indeed, this is a season of ribbons, and so they appear in great variety. Many are wrought in open work, almost seeming to be silken laces. Striped or plaided ribbons are imported, because both are a feature in dress goods, and in richer styles intermixtures of plush appear. But plain ribbons have a high position, and are often preferred by people satiated with fancy novelties. Here the new "Satin Royal" ribbon is sought for because it is so soft in texture, while showing the satiny surfaced rep that is driving out satin proper. Laces of all kinds are in ordinary demand, and are being lavishly combined with flowers, where, from masses of small ones up to large sizes, we find everything fashionable. Belles will be veritable flower girls, with flowers on their parasols, flowers on their hats, and huge bouquets of flowers on their corsages. 'Tis funny enough now at the opera to see them coming in, each one wearing a more enormous bunch than her predecessor. Not even a bud in the hair, but often four and twenty roses just below their pretty noses.

LUCY CARTER.

AROUND HOME.

The train from the eastward due in this city at three o'clock in the afternoon, Tuesday, was twenty minutes late on arrival. It consisted of eleven cars, including the directors' car, and two emigrant cars loaded with emigrants from the British provinces. These emigrants were evidently of a very superior class, and were said to be mostly descendants of the men who left this region for the provinces at the close of the revolutionary war, on account of their having remained loyal to the mother country during the contest, and being unwilling to live under a government which they regarded as having been established by a wicked rebellion.

The schooner Mary S. Hontvet arrived in Boston on Monday morning, with 30,000 lbs. of fish.

Services at St. John's Episcopal church on Good Friday at ten o'clock A. M., conducted by Rev. Mr. Gardner, of the Church of the Advent, Boston.

The windmill at Hon. Frank Jones' residence, used for pumping the large quantity of water used there, was disabled by the blow of Sunday afternoon. Mr. Jones had four horses from Canada arrive this week.

The schooner Christie Campbell, with 13,000 lbs. of fish, the schooner Young Selim, with 1800 lbs., Wm. Brooks, with 400 lbs., and Joseph Caswell with 545 lbs., (the latter two in small boats,) were the fishing arrivals on Tuesday. E. S. Newton & Co. purchased the fares. This firm on Friday last sent to Boston two boxes (500 lbs. each) of cusk, and fifty boxes of cat-fish; the latter fish, though but little used in this vicinity, is quickly snapped up in Boston under the name of "rock salmon."

One of the pupils in the Woodbury school at Gravelly ridge last week picked up a leaf ten inches long and 11 1-4 inches broad.

Police Officer Besselievre on Tuesday resigned his position on the force. Mr. Besselievre has been an excellent officer, always attentive to his duty and never making any needless fuss about it.

The master of the fishing schooner Howard, at Gloucester on the 3d inst., reports that in passing over Georges bank in about twelve fathoms of water he saw the topmasts of a sunken vessel just above the surface. Fish continue to be reported as very scarce on Georges since the great gale of Friday, March 17th.

Two lighters are now engaged in the work at Gangway rock, and also a larger gang of men than were employed last year.

Capt. Edwin Robinson, of the schooner Grace Choate, has shown us a "bile fish" —one of the lot reported as being recently seen floating on the surface of the water on Georges banks, and many miles south and west. The fish was procured from a Gloucester fishing vessel lying in Portland harbor; the flesh is similar to that of the cusk, and the skin is spotted and in color resembles the cat-fish. It is said to be excellent eating.

Civil engineers were at work on Monday and Tuesday, surveying the ledge off the westerly end of Badger's island which it is proposed by the government to remove. It was reported that the survey was being made for contractors who propose to bid for the work, and wish to know what they are bidding for.

The schooner Triton, one of the "brickers," Freeman master, which sailed for Boston on the 31st ult. with a cargo from Eliot, was at Portsmouth bridge on the 4th inst., bound up, as was also the Chilion, Card master. The Emily A. Staples, Coleman master, and the D. K. Ham, Garland master, were lying at the bridge with cargoes from the Eliot brickyards, bound for Boston; and the G. W. Raitt was reported as being neaped on the flats off Pinkham's brickyard at Dover point.

A Toilet Luxury.

SOZODONT is a luxury as well as a necessity. Placed where it should always be upon the toilet, it adorns it, and gratifies the taste and give pleasure and health to its users.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an Incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjan82

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Adsuito-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at eight angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00.—*not assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. NOTICE TO MARINERS.

Notice is given by the light house board that on or about May 1st proximo, a whistling buoy will be moored near Boon island ledge, in place of the first-class nun buoy now there. The new buoy will be painted red and black, in horizontal stripes, with the letters "B I L" in white on the middle black band. It will be surmounted by a whistle operated by the motion of the waves, and giving blasts at short intervals, its shrieks, howls and yells, and other noises, if there are any more, increasing in volume with the increasing violence of the sea. It will be a boon indeed to the mariner.

MARINE DISASTER.

The schooner Laura T. Chester, of Camden, Me., S. W. Kent master, in attempting to leave the lower harbor at about one o'clock on Tuesday morning was carried by the tide upon Hicks' rocks, off Kittery point, striking her stern and then swinging broadside on, there being no wind at the time, and the tide at ebb.

The schooner registers 69.46 tons, is about sixteen years old, valued at $2800, and uninsured; owners, Carleton, Norwood & Co., of Camden. She filled with water on the flood tide, ruining her cargo, which consisted of seven hundred barrels of cement from Rondout, N. Y., consigned to Thurston & Coleman of Newburyport; cargo insured. The extent of her injuries is not yet known, though she is probably bilged and otherwise badly damaged; the cargo will be thrown overboard, and the vessel raised by lighters.

On Saturday afternoon last at two o'clock the schooner was off Newburyport bar, and signalled for a pilot, but a thick snow storm prevailed at the time and the signal was not seen, so the schooner made for this port. On Sunday an attempt was made to get out, but failed. A Newburyport pilot was sent for, and arrived on Monday evening; and on Tuesday morning another start was made, with the result stated above.

APPOINTMENTS.

At a meeting of the board of engineers, Tuesday evening, the following appointments were made for the several steam fire engines:

Sagamore, No. 1—Charles Manent engineer;

Col. Sise, No. 2—William H. Gardner engineer, M. H. Gregg fireman;

Kearsarge, No. 3—George N. Jones engineer, Alvah Jellison fireman;

THE LANE DEFALCATION.

A despatch from Exeter, dated April 3d, says that "quite a number of the depositors in the bank of George E. Lane met by themselves this evening, to see what action they can take toward obtaining a part of their money, and seeing justice done. They appointed a committee to wait upon Mr. Lane, and ascertain all the facts possible, and report at a full meeting of the depositors to be held on Wednesday evening, the 5th inst." The despatch adds:

The cause of the meeting is the fact that two days after Mr. Lane gave himself up to the sheriff, he made over to one of his bondsmen all the notes he had in his possession, which the creditors had been trusteeing, thereby giving them no chance whatever to recover any of their losses. Some of these notes have already become due, and the national bank has them in its hands for collection. They also complain that Lane returned checks and money placed on deposit the day *before*, while quite a large sum which was deposited *after* he had given him-elf up cannot be touched. It is expected that there will be a large meeting Wednesday evening. The depositors are generally men of ordinary means, and the loss falls heavily upon them.

THE DIME SHOW.

The Dime Show had a good-sized audience on Monday evening, and a larger one on Tuesday evening. The entertainment offered is better than is afforded by some companies charging fifty or seventy-five cents admission, and the patronage will no doubt increase with each performance through the week.

THE RAILROAD BLOCKADE.

Ed. Chronicle: I am glad that at last something is being done, even though it be only talk, to do away with the closing of Vaughan street by freight trains stopping on the crossing. As a resident of "The Shore," I have for years suffered, with hundreds of others, from this contemptuous disregard of public rights by the corporation. One of your correspondents has given "a case in point;" allow me to give another:

On one of the coldest and most blustery nights of the winter of 1881-82, I arrived at the Vaughan street crossing in company with a gentleman who was conveying me home, but we were prevented from proceeding by a stationary freight train, neither end of which we could see. My companion desired to await the moving of the obstruction, but as he was driving a "clipped" horse, and the biting wind was hurling clouds of dry snow through the air, I insisted upon his turning back, and he reluctantly did so.

After waiting in the snow and wind until I thought my extremities would freeze I attempted to pass around the front end of the train, and went the whole length of the depot for that purpose; some men were taking goods from a car in the far end of the depot, but the train extended too far out in the darkness for me to venture around, and I retraced my steps to Vaughan street and beyond, in an equally vain attempt to get around that end of the train, and finally sheltered myself as best I could by the side of a building, waiting for the train to start, which it did a few minutes later, having detained me certainly for ten or fifteen minutes, which seemed at least an hour.

This was the worst experience I ever had there, though I have often been delayed. It is but a few evenings since that as I was on my way down town in company with another lady, both of us being especially desirious of making haste, that we had the "pleasure" of waiting at this crossing for what seemed an interminable time, several persons (among them two young girls) crawling under the cars while we awaited.

It cannot be that a railroad corporation can at will abolish public streets, by blocking them with freight trains; and if a permanent blockade is illegal, then a temporary one that is needless must also be. The city government has already been appealed to by one of your correspondents, to take the proper steps to make Vaughan street a *public highway*, and I beg leave to support the appeal.

Yours truly, E.

OAK HALL AGENCY.

Messrs. G. W. Simmons & Son, of Oak Hall, Boston, have established an agency for this city and vicinity for the sale of their custom and ready-made men's and boys' clothing at No. 33 Market street, where anything contained at Oak Hall, Boston, can also be procured, at the same prices as in Boston. It is confidently claimed that several dollars can be saved by buying your own and your children's clothing at the Oak Hall Agency, as they sell at the lowest prices in New England.

Three distinct claps of thunder—not very good thunder, though quite fair for the season—were heard on Tuesday afternoon.

At the annual meetings of the several fire companies, Monday evening, liberal subscriptions were made to aid in procuring an artificial leg for Mr. Walter L. Chesley, who was a member of Extinguisher Co. No. 6 at the time he was so terribly injured on the Eastern railroad last winter.

The regulation salute of minute guns was fired at the navy yard on Tuesday at noon, in memory of Rear Admiral Spotts, who died at Port Stanley, Falkland islands, on the 9th of March, while in command of the South Atlantic squadron.

Of the "Mascotte," as presented by the Boston English Opera Co. the Seneca Falls *Courier* says "it was by far the best entertainment of its class that has been given in Seneca Falls. The singing both in solos and choruses was of a high order, the dramatic skill shown was exceedingly artistic, the costumes were varied and elegant, and the appointments throughout such as could not be criticised. A more thoroughly enjoyable play and a more enjoying audience we have never witnessed." At Music hall on Friday evening.

The supply of cattle brought in from the west has been lighter this week than it was one week ago. Prices have been advancing at Chicago, and the cattle offered on the market for sale this week cost 1-4c per lb higher at the west than they did the previous week. Trade opened active, and nearly all the western cattle sold before noon on Tuesday at an advance of 1-4 to 3-8c per lb live weight over those obtained last week. Quite a large number of the cattle which came in on Sunday and Monday were intended for the English markets to be shipped per steamers this week.

Working oxen have been in good demand and a fair supply in market. We note sale of 1 pr, girth 6 ft 10 in, live weight 2:00 lbs, at $150; 1 pr, girth 6 ft 7 in, live weight 2600 lbs, at $117; 1 pr, girth 6 ft 8 in, live weight 2700 lbs, at $122; 1 pr, girth 7 ft 3 in, live weight 3300 lbs, at $186; 1 pr, 7 ft girth, live weight 3600 lbs, at $150; 1 pr, girth 7 ft 3 in, weight 3800 lbs, at $215.

Milch Cows, Springers, etc.—We note sales of 2 Jersey new milch cows at $60 each; 3 cows and calves at $55 each; 4 new milch cows at $135 the lot; 5 springers at $30 to $40 each; 1 extra cow $65; 4 new milch cows at $60 each; 2 new milch cows for $115; 5 new milch cows for $190 the lot.

Veal Calves sell quick 4 to 7c per lb live weight.

Sheep and Lambs—Those from the west were mostly owned by butchers. Western lambs cost, landed at Brighton, from 7 3-4 to 8c, Sheep 6 1-2 to 7 1-2c per lb live weight.

Swine—Store pigs brought in from the immediate vicinity sell mostly by head at prices ranging from $4 to $12 each, or from 6 to 8c per lb live weight; suckling pigs at $2 50 to $3 50 each. Fat Hogs—Those from the west cost landed here from 7 to 7 3-4c per lb live weight.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take either, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now feels and rejoices in her great recovery.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

The Science of Life, or Self-Preservation, is the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single of either sex can either require or wish to know, but what is fully explained. In short, the book is invaluable to all who wish for good health.—*Toronto Globe.*

The book for young and middle aged men to read just now is the Science of Life, or Self-Preservation. It is worth many times its weight in gold.—*Medical Times.*

The author of the Science of Life is a noble benefactor. He reaches the very roots and vitals of disease, and is enabled to apply thorough remedies. The book already is read upon both continents by millions.—*London Lancet.*

The Gold and Jewelled Medal awarded the author of the Science of Life was fairly won and worthily bestowed.—*Massachusetts Ploughman.*

Thousands of extracts similar to the above could be taken from the leading journals—literary, political, religious and scientific—throughout the land.

The Book is guaranteed to be a better medical work, in every sense, than can be obtained elsewhere for double the price, or the money will be refunded in every instance.

Thousands of Copies are sent by mail, securely sealed and post-paid, to all parts of the world, every month, upon receipt of price, $1.25. Address

Treating a Cow like a Lady.

A man came into the office on Tuesday with a black eye, a strip of court plaster across his cheek, one arm in a sling, and as he leaned on a crutch and wiped the perspiration away from around a lump on his forehead with a red cotton handkerchief he asked if the editor was in. Being answered in the affirmative he said:

"Well, I want to stop my paper," and he sat down on the edge of a chair as though it might hurt it. "Scratch my name right off. You are responsible for my condition."

"Can it be possible?" we inquired.

"Yes," said he, "I'm a farmer and keep cows. I recently read an article in your paper about a dairymen's convention, where one of the mottoes over the door was, 'Treat your cow as you would a lady,' and the article said it was contended by our best dairymen that a cow treated in a polite, gentlemanly manner, as though she was a companion, would give twice as much milk. The plan seemed feasible to me. I had been a hard man with my stock, and thought maybe that was one reason my cows always dried up when butter was forty cents a pound, and gave plenty of milk when butter was only worth fifteen cents a pound. I decided to adopt your plan, and treat a cow as I would a lady. I had a brindle cow that never had been very much mashed on me, and I decided to commence on her, and the next morning after I read your devilish paper I put on my Sunday suit and a white plug hat that I bought the year Greeley ran for President, and went to the barn to milk. I noticed the old cow seemed to be bashful and frightened, but, taking off my hat and bowing politely, I said: 'Madam, excuse the seeming impropriety of the request, but will you do me the favor to hoist?' At the same time I tapped her gently on the flank with my plug hat; putting the tin pail under her, I sat down on the milking stool."

"Did she hoist?" said we, rather anxious to know how the advice of President Smith, of Sheboygan, the great dairyman, had worked.

"I did she hoist! Well, look at me and see if you think she hoisted. The cow raised right up and kicked me with all four feet, switched me with her tail and hooked me with both horns all at once, and when I got up out of the bedding in the stall, and dug my hat out of the manger, and the milking stool out from under me, and began to mash that cow, I forgot all about the treatment of horned cattle. Why, she fairly galloped over me, and I never want to read your old paper again."

We tried to explain to him that the advice did not apply to brindle cows at all, but he hobbled out the maddest man that ever asked a cow to hoist in diplomatic language.—*Chicago Tribune.*

The President

Of the bank of Waverly, Iowa, says: Sulphur Bitters saved my life. For ten years I suffered from catarrh and liver complaint; I lost forty-five pounds and was growing worse rapidly. I had lost all faith in medicine, but hearing your Bitters so well recommended, I gave them a trial. Six bottles cured me.—*Smith P. Hunt, Waverly, Iowa.*

Alexander Van Volkenburg of Dalton, Mass., shot himself accidentally in the leg Sunday night, and died Monday.

Worth Remembering.

Now that good times are again upon us, it is worth remembering that no one can enjoy the pleasant surroundings if in bad health. There are hundreds of miserable people going about to-day with disordered stomach, liver or kidneys, when a bottle of Parker's Ginger Tonic would do them more good than all the medicines they have ever tried.

Bert Cate of Lawrence, Mass., aged sixteen, was accidentally shot by Bert Jones on Monday, and dangerously wounded.

A Delightful Novelty.

Ladies prefer Floreston Cologne because they find this lasting combination of exquisite perfumes a delightful novelty.

Jim Elliott, a somewhat noted pugilist, has been arrested in New York for counterfeiting.

When the muscles lack firmness and the system is deficient in stamina, use "Wheat Bitters."

Mayor Green of Boston on Monday notified the three police commissioners of the city of their removal, and nominated their successors. There is great indignation in the democratic camp over this action.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, aches, pains, sores, etc., it is the most effectual remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and know it to be a good article.

From I. S. Polzer, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpe, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieved* cuts and sorenes, and *heals* wounds like magic.

J. W. Doe says:
It *cures* scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.*

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

SUFFER

no longer from Dyspepsia, Indigestion, want of Appetite, loss of Strength lack of Energy, Malaria, Intermittent Fevers, &c. BROWN'S IRON BITTERS never fails to cure all these diseases.

Boston, November 26, 1881.
BROWN CHEMICAL CO.
Gentlemen:—For years I have been a great sufferer from Dyspepsia, and could get no relief (having tried everything which was recommended) until, acting on the advice of a friend, who had been benefited by BROWN'S IRON BITTERS, I tried a bottle, with most surprising results. Previous to taking BROWN'S IRON BITTERS, everything I ate distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking BROWN'S IRON BITTERS, all my troubles are at an end. Can est any time without any disagreeable results. I am practically another person. Mrs. W. J. FLYNN,
30 Maverick St., E. Boston.

BROWN'S IRON BITTERS acts like a charm on the digestive organs, removing all dyspeptic symptoms, such as tasting the food, Belching, Heat in the Stomach, Heartburn, etc. The only Iron Preparation that will not blacken the teeth or give headache.

Sold by all Druggists.

The Chinese Bill.

The President on Tuesday, the 4th inst., sent a message to the senate vetoing the Chinese bill.

The Hanlan—Boyd Race.

In the race between Hanlan and Boyd at Newcastle-on-Tyne on Tuesday, the 4th inst., Hanlan won easily in twenty-one minutes and six seconds. He made the first mile in five minutes and 45 seconds, the fastest time on record on the Tyne.

Naval Affairs.

The Tennessee arrived at Port Royal, S. C., on the 3d inst., from New Orleans.

The Essex arrived at Porto Grande on the 1st of March.

A Valuable Nautical Contrivance.

An extremely simple but invaluable aid to navigation has recently been proposed by an experienced British master mariner, by which he is confident the largest steamship in an ocean gale can be hove to with safety. His contrivance, as described in the London *Shipping Gazette*, is on the drogue system, and the advantages he has experienced from it in emergency are "too great to express." His sea anchor or drogue is made of stout canvas in the shape of a bag, with a strong wire hoop at the top to which the lanyard is fastened—the latter being shackled to a spar thirty feet long. The spar, fitted with three iron bands, is kept square by two wire guys, and fastened to a riding hawser made of wire or manila. The drogue, when in use, is about four fathoms beneath the surface of the agitated sea, thus escaping its force, and when full of water proves a great resistance, keeping the ship's head to the sea when driving to leeward in a heavy gale. This simple cheap, and quickly improvised contrivance would undoubtedly be useful to vessels thrown on their beam-ends, or experiencing that oftimes fatal accident—shifting of the cargo in the presence of a severe storm. It would also, in many cases, by enabling a disabled steamer to avoid drifting out of her course, or helping her to keep out of the central path of an advancing cyclone, prove a timely safeguard to life and property at sea.

—We are a nation of grit. Even the cotton we ship is full of "sand."

—"Let 'em go," said a New York politician, while standing in front of his bar; "they are no good. Never see one of the yellow-legged pigtails patronizing this institution."

—An accommodating conductor stopped his train long enough at Marysville, Ill., for a village clergyman to pronounce a hasty marriage ceremony for two eloping passengers.

—The time of year is coming when Dr. Glyde's recipe for the preparation of cucumbers will be needed. "Peel the cucumber," he says, "with great care; then cut it into very thin slices, put on pepper and salt at discretion, and then—throw it away."

By far the best remedy for the treatment of catarrh and its kindred diseases is Ely's Cream Balm, which is having the largest sales with us of any preparation now offered. The reports are all favorable, and we do not hesitate to endorse it as superior to any and all other articles in the market. The Balm is pleasant and easy to use. CYRUS LAWALL & SON, Druggists, Easton, Pa.

We have heard only words of praise for Ely's Cream Balm from many who are using it. One of our customers who has had catarrh for over forty years, says it has helped him more than anything he has ever used—after trying everything else. We can recommend it for catarrh, hay fever, etc., knowing that the results produced will be satisfactory. CHRISTINE & BODINE, Druggists, Trenton, N. J. Feb. 28, 1881.

Price fifty cents.

The annual meeting the New Hampshire Fish & Game League was held in Manchester on the 4th inst. The following officers were elected: President, John B. Clarke; secretary, Charles L. Richardson; treasurer, Frederick Smythe, all of Manchester; vice presidents, Marcellus Eldredge of Portsmouth, Luther Hayes of Milton, L. B. Hodge of Plymouth, W. W. Fletcher of Concord, V. C. Gilman, W. L. Shurtleff of Colebrook, John Clement of Troy, M. A. Haynes of Lake Village, G. P. Whitman of Manchester. The annual address was given by Rev. A. H. Quint of Dover.

Gov. D. W. Meriwether, ex-governor of New Mexico, and now a member of the legislature of Kentucky for his fourteenth term, lately said to a reporter in Frankfort, Ky.: "I have used St. Jacobs Oil with splendid results for neuralgia and rheumatic pains. It always works well, and gives entire satisfaction. It is, indeed, a great remedy."

The quarterly receipts of the post office in Rochester, in 1823, were about $18. To send a letter at that time required 6 1-4 cents for short distances, such as between Dover and Portsmouth, 18 3-4 cents to Boston, and 25 cents to all places beyond Boston, the postage being payable by the receiver of the letter. The government now receives a net profit yearly of more than $3,000 from the Rochester post-office.

Remarkable for overcoming diseases caused by impure water, decaying vegetation, etc., is Brown's Iron Bitters.

James Hurd, of Rochester, has in good running order an eight day clock, which was made by John Foss of Barrington 112 years ago.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

The Anti-Chinese-Bill Veto.

President Arthur's message to Congress vetoing the anti-Chinese bill is a long and comprehensive document, ably reviewing the relations between the United States and China. The President shows (what everybody knew before) that the passage of the act would be a breach of national faith and treaty obligations, and says that the proposed system of registration and passports is undemocratic and unjust. The bill passed the house of representatives by more than a two-thirds vote, and the senate by only one less than two-thirds; but it cannot be passed over the veto.

News and Notes.

Fast in Massachusetts to-day.

A new Chinese bill was introduced in Congress on the 5th inst., less objectionable than the vetoed one.

The amount of adjusted lossess already paid on occount of the late fire at Haverhill, Mass., reaches the sum of two million dollars.

Jesse James, the notorious murderer, train robber and leader of the infamous "James gang," was shot dead in St. Joseph, Mo., on the 3d inst., by two brothers named Ford, formerly members of the James gang, and participants in the Winston and Blue Cut train robberies in Missouri.

Sarah Bernhardt was married in London on the 4th inst. to a Greek named Damala.

Frank Larkin, a young man of South Windham, Mass., fatally shot himself a few days ago because a school girl did not reciprocate his affections.

Richard Long was hanged by a mob at Kakomo, Ind., on the night of the 3d inst., for a diabolical crime on a girl three years old.

Rufus Bessey, an aged citizen of Albion, Me., was recently gored to death by a bull.

Dr. Oren Murch, of Portland, Me., has been committed to jail on a charge of murder for criminal malpractice which resulted fatally.

Mrs. Samuels, the mother of Jesse James, and the latter's wife, identified the dead body of the slain ruffian before the coroner's jury at St. Joseph, Mo., and called down all manner of curses on the head of Dick Little, one of the former members of the James gang, who assisted Bob Ford in killing their former leader.

James Chute, a former school teacher of Toronto, Canada, now in prison for an infamous assault on one of his girl pupils, was on the 4th inst. flogged with twenty lashes on the bare back. He is to have twenty more at the end of three months.

AROUND HOME.

Osgood Lodge, I. O. O. F., gives its first annual ball to-night in Franklin hall.

The *News* of Salem, Mass., says a gentleman of that city is reported to have made the passage from Lynn to "the Willows" in Salem in about two hours, on a marine bicycle, and that "the manipulator did not receive the least wetting, although there was quite a heavy sea and considerable head wind a portion of the distance."

While one of the police officers was taking a prisoner to the station on the afternoon of the 5th inst., the fellow slipped out of his coat and gave leg bail, leaving the garment in the hands of the officer. The latter was determined to arrest something, so he carried the coat to the station, where the owner can procure his abandoned property.

A Newburyport paper, commenting on the statement by our neighbor, the *Times*, that "a four-year-old boy, son of Christopher Gilligan, while playing on a wharf near the stone yard at the north end fell through a rat hole-in the wharf," expresses the opinion that "Portsmouth must produce very big rats or very small boys."

The steamer Mystic came off the marine railway at Kittery on the afternoon of Wednesday, the 5th, inst. While on the ways her machinery has been overhauled and put in good order by Messrs. George Manent, Charles Chickering and Wm. Oda of Kittery; and she has been otherwise put in the best condition possible. She is expected to be in running order to-day.

The schooner Loella, Amee master, was towed up the river to Dover on the 3d inst., and cleared of her cargo next day; she then took on board a quantity of bones for Camden, Me., and will return to Dover with a load of plaster from that port.

The Newburyport *Herald* says that "Conductor Dame, of the Eastern railroad, drew a $1000 prize at the Lynn Ode Fellows' fair which closed on Monday night." the 3d inst.

C. E. Walker & Co.'s hoisting engine is being put in complete order for the summer's work.

The *Naval Register* places Kittery Point in Massachusetts,—a few points too far to the westward.

Mr. Gayton O. Reynolds, of Derry, was on the 5th, inst. appointed by the county commissioners to be superintendent of the county farm at Brentwood, as the successor of the late Haven L. Scott.

Mr. George S. Manson, a native of Portsmouth, but who for the past twenty years has lived in the west, returned to this city on Wednesday of this week. He has been engaged in the clothing business in Minneapolis, Minn., and has relinquished it to engage in trade in Portsmouth.

Six hundred large, hard-shelled lobsters were brought in from the Shoals on Wednesday, the 5th inst., to C. Sullivan & Co., who received them alive, and boiled them in their own establishment. This firm will now be in constant receipt of fresh lobsters while the season lasts.

Mr. J. Albert Walker has sent to Miss Hooper, treasurer of the Children's Home, the sum of $50, for the general expenses of the home.

There are more farms for sale in Greenland at the present time, it is said, than ever before within the memory of the oldest inhabitant. But in most of the cases fancy prices are demanded.

Mr. Moses Yeaton was badly injured by a fall at his home a few days ago, having several ribs started and being hurt internally. We are glad to be able to add that he is reported as rapidly improving.

Charles A. Garland, of Newington road, has sold his milk route to C. Hiram Hayes.

The naval board of inspection will examine the condition of the U. S. S. Plymouth on Tuesday, the 11th inst.

At the annual meeting of the New Hampshire Fish & Game League, held in Manchester on the 4th inst., Hon. Marcellus Eldredge of this city was elected a vice president.

Work at the Charlestown navy yard is brisk, incident to the fitting for sea of the U. S. S. Hartford. One of the foremen at the navy yard near this city has visited the Charlestown navy yard, to see if he could obtain employment there for some of the Portsmouth and Kittery mehanics while the lack of funds prevented their employment here but for a portion of the time.

The stevedores employed on the coal wharves at the north end say their season of active employment has commenced a month earlier this year than last; also that their late winter season of inactivity has been the shortest within their memory, they having been kept at work later than usual last fall.

The large building covering the wood-preserving works of the Eastern railroad on Noble's island is finished, and the first batch of ties for this season has been put under treatment in the huge vats. Operations at that place are to be much more extensive this year than the last, and will probably continue right on through next winter. A large amount of material for treatment is already on the ground, several schooner-loads of ties having been landed there from the British provinces within a short time; and it is said that 40,000 ties will arrive from the port of Liverpool, N. S., alone, before the season ends.

A fire was set in some bushes about thirty rods from the house of Jeremiah Burley in Fremont, on Monday, the 3d inst., at ten o'clock in the forenoon. Mr. Burley was alone in his house, and went for assistance to fight the fire. While he was gone some one entered the window of his house on the side opposite the fire, breaking the glass and pulling the fastening that held the lower sash, went up stairs, obtained a chisel and returned down stairs, and pried open a desk, taking therefrom a wallet containing three twenty dollar bills and one five, also a box containing about twenty dollars in silver. Sheriff Kept was telegraphed for, and went there on the 5th. Several persons are suspected, but the sheriff has little faith in capturing the thief and incendiary. The house was well situated for the job. Loss on lumber about $200. Mr. Burley is wealthy and peculiar.

Mr. James H. Coleman, of Eliot, was "surprised" on Tuesday evening of last week by about sixty of his friends and neighbors, who presented him with a cake basket, gold ring and other tokens of their esteem.

Mr. Charles Staples was elected agent of school district seven, South Eliot, on the 1st inst. A correspondent says Mr. Staples is known in Eliot as the gentleman who "wintered a duck nine months," and the people of the district expect the school to be kept for nine months next winter—the same length of time as the agent wintered the duck.

The United States revenue cutter Dallas, Capt. Hodgsdon, has since the beginning of her winter cruise, Dec. 22d, steamed 4900 miles and boarded 565 vessels, and relieved three vessels found in distress.

PORT OF PORTSMOUTH.

SAILED April 5th.

Stmr Acushnet, Bird, Boston.

Schs Emily A Staples and D K Ham remained at Portsmouth bridge throughout the day on Wednesday, 5th inst., the captains not caring with the deckloads to tempt the heavy swell outside.

In the lower harbor were at sunset about fifteen sail of vessels bound west. Several started to go to sea in the morning, but returned, as from the recent heavy blow a strong sea was running, which in all probability would have taken off the deckloads of some of the lumber-laden crafts.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*non assessable*. This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. For further particulars enquire of

THE BEACH RAILROAD.

PORTSMOUTH, April 4th.

As an enlightened cicerone on all subjects connected with the public weal, I turn to the CHRONICLE to put before its numerous subscribers and still more numerous readers, the details and particulars of the charter of the Eastern railroad by which they are empowered to carry into effect the building of the branch road which is to connect our town with Rye, surveys for which have recently been made.

That the contemplated road, if consummated, will prove unpalatable to Portsmouth taste, injurious to the popularity of the beach hotels, and productive of small profit to the railroad itself, there can be little doubt. The first, assured, will soon take practical illustration in a call at the mayor's direction for a public meeting of our citizens, to protest, and to appoint a committee to confer with the Eastern railroad toward its abandonment of such project. The first step in the matter is to lay before the public an intelligent understanding of what right the railroad company has in the premises,—the forms and privileges of their charter granted by the recent legislature of the state; this, the important and essential motor for decided action ahead, is asked the CHRONICLE should attend to, and publish the special provisions of the *act covering the interests at stake.

PROTEST.

*In compliance with this request, we shall to-morrow publish the original act authorizing the building of the road.—*Ed. Chronicle.*

ONLY A FAILURE IN BUSINESS.

Mr. Editor: I am told that the creditors of Geo. E. Lane, "banker," will lose the amount of their deposits; but that Geo. E. Lane, ex-county treasurer, will if possible negotiate a loan and repay the trifling balance due the county, and also that he has not been a defaulter, but his balance as county treasurer was on deposit with "G. E. Lane, banker," who suspended payment, and consequently the sum was not available. That what he said to Sheriff Kent, which might be construed into an admission of his guilt, was uttered under a momentary excitement, and is not to be used against him; but that his friends will raise the amount of the deficit, pay the county, and Mr. Lane will be set down as having failed in business. If this is to be the result, it will be encouraging for those who speculate. The only wonder is that if Mr. Lane has so many friends, why a fund cannot also be raised to help the poor depositors, so that we may, with confidence restored, feel as well as his other creditors. STRATHAM HILL.

RETRENCHMENT.

Mr. Editor: "An Old Fireman," in his communication of the 4th inst., says that "Ex-Fireman" would have the reduction of the city expenses commence anywhere rather than in the fire department. We agree with him, and think in so doing that we are sustained by a large majority of the heavy tax-payers; if any one branch of city service should be efficient and well paid for, it certainly is the fire department.

"Old Fireman" says that while the proposed reduction cuts down the expenses it makes the department more efficient, and says that fire companies in other cities have less men than ours. That we admit; but in such cities are not the sources of water supply for fire purposes nearer together, and more easily reached, than in this city? He says that horses will be furnished to haul the hose carriages; that would be advisable if the carriages would thereby reach the fires sooner, but our experience is that the hose would reach the fire and be laid ready for use in less time under the present arrangement, than if drawn by horses.

He says it is proposed to do away with the suction hosemen. Would that be advisable? Would not the other firemen, after running to the fire and laying the leading hose, be fatigued to a certain extent, and perhaps in placing the suction hose lose a few of the moments sometimes so precious at the commencement of a fire?

Would it be advisable for all the members to repair directly to the fire, on hearing the alarm? Suppose that from some accident the horses should fail to reach the engine house to haul the hose carriage—such things have occurred before now—what could the firemen do but stand around with their hands in their pockets and look at the fire burning? We believe that the present system is the best, and certainly the most safe.

The action taken by the firemen at their several meetings on the 3d inst. shows that they are possessed of more common sense than the originators of the scheme for reducing the expenses. If the city government are really in favor of retrenchment, let them commence at the head, by reducing the salaries of the mayor, city clerk, collector and some other officials, after which there will be more show of reason in reducing the numbers or the pay of the firemen.

ANOTHER OLD FIREMAN.

THE KITTERY PUBLIC LIBRARY.

KITTERY, ME., April 5th.

Editor of Portsmouth Gazette: The trustees of the Free Public Library in this town have directed that the subscriptions to all newspapers heretofore taken, shall cease, but publishers may supply their papers gratuitously. This seems a step backward. The newspaper, as the periodical of to-day, is the means of disseminating information to the public. The reading room everywhere has been found, by careful observation, to have in a great degree diminished the attendance at the saloons. If our young people are expected to read books, let them acquire the taste by having an opportunity to read the newspapers and magazines, and it was doubtless the intention of the liberal donor of the Rice fund that Kittery people should have the same reading-room privileges which are enjoyed by inhabitants of other towns where free public libraries are found. The trustees doubtless acted from a sense of duty, but it would seem that (according to the published account) if the income of the fund was over $1700 each year, that less than a hundred dollars expended for books and less than fifty dollars paid for papers and periodicals, or hardly ten per cent of the income, is not allowing the inhabitants a full enjoyment of what was intended by the lady whose generosity founded the library. I think the welfare of our youth would be promoted by an increase of attractiveness in the reading room, as is I am told the result in larger places where free reading rooms are maintained. PEPPERELL.

POOR SHOOTING.

PORTSMOUTH, April 5th.

Mr. Editor: I wish to say a few words in the cause of humanity to those whom it may concern. Tuesday evening, between nine and ten o'clock, the feelings of the public in the vicinity of the police station were outraged by the cries of a poor dog, shot at seven or eight times before death put a relief to his sufferings,—his only crime being probably that his master had failed to protect him according to the law. Now if the animal's nonexistence was necessary for the protection of the town of Portsmouth, let me suggest that there are easy ways of killing him by the administration either of chloroform or poison, without brutally murdering him by inches. STRANGER.

POLICE COURT.

WEDNESDAY, Apr. 5; *Batchelder, J.*

Michael Sullivan, for drunkenness, was required to hand over $9.90, fine and costs, and did so.

John McDonald, for drunkenness, was required to hand over $9.90, fine and costs, and didn't do so. Consequence, Brentwood.

A NAVAL WAR.

A board of officers was convened at the navy yard on Wednesday, the 5th inst., to listen to certain charges brought by Civil Engineer Craven against Supt. of Fire Department E. C. Nealley. This is the second occurrence of a similar character between these persons within a short time; the last instance is stated to have grown out of the fact that Nealley applied for a mason to make some slight repairs, the necessity for which had not previously been reported to the civil engineer. In the general repose which seems to rule at the navy yard, disturbed only by the periodical march to the pay office of a goodly crowd of officers and a small number of workmen, such an episode as the renewal of the case of Craven (C. E.) vs. Neally (Supt. F. D.) was regarded nearly all over the island as a godsend, while by seriously inclined persons it was considered a most trifling affair, which should never have come to the surface of official recognition.

To-morrow is Fast day, and the asceticism practised during the daylight hours can be compensated for in the evening, when the Boston English Opera Co., will sing "the Mascotte" at Music hall. This is one of the most pleasing among the swarm of modern comic operas, and the company is a superior one.

In accordance with a request made by several leading clergymen and philanthropists to all the ministers in New England to preach upon "Divorce," on Fast Day, there will be services at the South Parish on Good Friday at the usual hour of morning worship, 10:30 o'clock, with a sermon by the pastor on that subject. All are welcome.

[*For other local matter see second page.*]

Oak Hall Agency in Portsmouth,

Messrs. G. W. Simmons & Son, of Oak Hall, Boston, have established an agency for this city and vicinity for the sale of their custom and ready made men's and boys' clothing, at No. 23 Market street, Portsmouth, where anything contained at Oak Hall, Boston, can be procured, at the same prices as in Boston. Several dollars can be saved by buying your own and your children's clothing at the Oak Hall Agency, as they sell at the lowest prices in New England.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer im mediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. eod&wtjan22

A Ten Strike.

A young German-American, Hermann D. Hartjen, left his old grandparents in Germany to escape the military duty of the Faderland and to better his fortunes. He was only twenty-one, and found a place to work at the Ten-pin Alley of H. Billenberg, a compatriot who enjoys a high repute, at No. 100 Raymond St. Brooklyn. He was a saving young man, and invested one dollar in the February drawing of the Louisiana State Lottery (he was not sure of the stability of the savings institutions,) and he received $15,000. He is now a popular leader of youth in the city of churches. He is about to return to superintend the removal of his grandparents here. He will invest in the next drawing which takes place April 11th before he leaves and you can learn anything about it by writing to M. A. Dauphan, New Orleans, La.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS THE Great LIQUID FOOD FOR BLOOD, BRAIN AND NERVES.

IS A SUPERIOR NUTRITIVE MEDICINE, RICH IN PHOSPHATES AND NOT A CHEAP, ALCOHOLIC DRINK. Highly recommended by Chemists and Physicians as

A POSITIVE TONIC, ALWAYS ACCEPTABLE AND RELIABLE,

as it does not stimulate the brain or irritate the system and leaves deleterious effects. On the contrary, it furnishes just that which is necessary to the brain, strengthens and quiets the nerves, purifies the heart's blood, and thereby makes only the best flesh, bone and muscle. It works wonders, curing NERVOUS and GENERAL DEBILITY, MALARIA, DYSPEPSIA, INSOMNIA. Produces a healthy action of the Liver and Kidneys, fortifying the system against the miasmatic influences, and will be found invaluable in all pulmonary and bronchial difficulties. DELICATE FEMALES, NURSING MOTHERS and WEAKLY CHILDREN can find no remedy equal to this healthful blood and nerve food tonic. For sale by all Druggists. $1.00 per bottle. Prepared only by WHEAT BITTERS CO., Office 19 Park Place, New York City.

Scarce Mormons.

President Taylor of the Mormon church, and some of the apostles who had their polygamous wives living in one house with them at Salt Lake City, have scattered them out for fear of arrest under section three of the Edmunds bill, which makes cohabitation with more than one woman a misdemeanor. Taylor turned out all his wives, saying if he could not have all he would not have any of them, but they still live in houses provided by him, and it is not seen how he has helped himself much. This third section is just beginning to be understood in Utah, and it promises to trouble the polygamists much more than disfranchisement.

"President Garfield's Works." The publication of the authorized edition of the works of President Garfield has been entrusted to Messrs. James R. Osgood & Co., of Boston. It will be carefully prepared and edited by President B. A. Hinsdale of Hiram college, Ohio, the lifelong friend of Gen. Garfield, who was thoroughly familiar with the late President's habits and method of thought. The work will be in two octavo volumes, from new and clear type, printed in the best style of the University Press of Cambridge, and handsomely and substantially bound. It will contain new portraits of President Garfield. The work is expected to be ready for publication in November next.

Hon. Mark Dennett, of Kittery, traces the genealogy of his family for 800 years, and thinks they are all descendants of Hugh d'Anet, a Norman knight, who came to England with William the Conqueror in 1066, who was an officer of high rank in the Norman army, and on whom large estates were conferred. Many of Sir Hugh's descendants now live in England. John Leighton Dennett of Sussex, England, is lord of the manor, and holds the title deeds of the estate of the Dennetts for 600 years. Alexander and John Dennett came to this country in 1670, and it is believed that from these two the many Dennetts in this country have all sprung.

It is not in this city alone that complaint is made of the obstruction of streets by the Eastern railroad freight trains. The Newburyport *Herald* of the 3d inst, says: "At certain, or rather uncertain times of day and night, Washington street becomes no thoroughfare by reason of the freight trains, which obstruct the passage for some considerable time, to the great inconvenience of those who have occasion to pass through that street. In most countries, and in some states of our own, a railroad is not allowed to cross a common highway at grade, and it is in the nature of a nuisance that ordinary passengers should be made to wait for the convenience of a railway. The freight trains which stop there might unshackle and leave room for passers when the trains have occasion to wait at the station longer than a minute or so. As it is at present, it is a serious inconvenience."

—William Sindram, a New York murderer, who is to be hanged this month, is at work in his cell inventing a fire-escape. He is such a hardened criminal that it is safe to say that all the fire-escapes ever invented will avail him nothing, even if he could take them along.

—Hoge, on trial for his life at Bellefontaine, Ohio, was a handsome fellow, and women of the place made much of him, crowding round him in the court room, piling his table with flowers, and some of them though only slight acquaintances, kissing him when a verdict of acquittal was rendered.

When your wife's health is bad, when your children are sickly, when you feel worn out, use Brown's Iron Bitters.

The city government of Manchester on the 4th inst. unanimously resolved that the national government should make the Merrimac river navigable as far as Manchester.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, aches, pains, soreness, etc., It is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and know it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharper, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are the best friends.* Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines,* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

"PERRY DAVIS & SON, Proprietors, Providence, R. I."

SUFFER

no longer from Dyspepsia, Indigestion, want of Appetite, loss of Strength lack of Energy, Malaria, Intermittent Fevers, &c. BROWN'S IRON BITTERS never fails to cure all these diseases.

Boston, November 26, 1881.
BROWN CHEMICAL CO.
Gentlemen:—For years I have been a great sufferer from Dyspepsia, and could get no relief (having tried everything which was recommended) until, acting on the advice of a friend, who had been benefited by BROWN'S IRON BITTERS, I tried a bottle, with most surprising results. Previous to taking Brown's IRON BITTERS, everything I ate distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking Brown's IRON BITTERS, all my troubles are at an end. Can eat any time without any disagreeable results. I am practically another person. Mrs. W. J. FLYNN, 30 Maverick St., E. Boston.

BROWN'S IRON BITTERS acts like a charm on the digestive organs, removing all dyspeptic symptoms, such as tasting the food, Belching, Heat in the Stomach, Heartburn, etc. The only Iron Preparation that will not blacken the teeth or give headache.

Sold by all Druggists.

It is said that the secretary of war, in his report to the president on the case of Sergt. Mason, takes issue with the judge advocate general of the army on the question of the validity of the sentence of the court-martial.

Worth Remembering.

Now that good times are again upon us, it is worth remembering that no one can enjoy the pleasant surroundings if in bad health. There are hundreds of miserable people going about to-day with disordered stomach, liver or kidneys, when a bottle of Parker's Ginger Tonic would do them more good than all the medicines they have ever tried.

Rev. Jesse Leros, of Allentown, Pa., was arrested on the 5th inst. and lodged in jail, on a charge of criminally assaulting a girl thirteen years old. He is fifty years old, and has a family.

A Delightful Novelty.

Ladies prefer Floreston Cologne because they find this lasting combination of exquisite perfumes a delightful novelty.

Emma Henderson, seven years old, adopted daughter of James Henderson of Hopkinton, R. I., was burned to death in the burning of the house on the night of the 4th inst.

When the muscles lack firmness and the system is deficient in stamina, use "Wheat Bitters."

—"Can a woman keep a secret?" asks an exchange. She can. That is to say, she can keep telling it.

"When I publicly testified that I had been cured of a terrible skin humor by Cuticura Remedies, I did so that others might be cured, and do not regret the time given to answering inquiries."—Hon. Wm. Taylor, Boston.

—The oldest inhabitant is generally a man; not because he is given to lying so but because he commenced owning up to his age sooner.

Catarrh.

Relief in five minutes in every case; gratifying, wholesome relief beyond a money value. Cure begins from first application, and is rapid, radical and permanent. Ask for Sanford's Radical Cure. Complete for $1.

—Daniel Wester once good-naturedly wrote a letter for an ignorant servant, and when he asked him, "is there anything else you wish to say, Mike?" The man scratched his head and finally said, "Yes, if you please. Just say they must excuse the poor scholarship and want of sense the letter shows," and Daniel accepted the suggestion.

An Economical Floor Covering.

Linoleum, being composed of cork, is as elastic as a carpet; is neat, waterproof, accumulates no dirt, and will outwear the best oil-cloth three or four times. It is manufactured in handsome patterns, and sold by all first-class carpet dealers. None but the genuine article has the word "Linoleum" on the back of every square yard of cloth.

—Isn't it a little singular that Peter, who had been in the habit of going a fishing, should have been so staggered at the little lies told by Ananias and Sapphira?—*Somerville Journal.*

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells Health Renewer." $1. Depot, J. H. Thacher's.

—Oh, yes, there is such a thing as an exhausted receiver, but this phrase does not refer to the receiver of a defunct savings bank or insurance company.

Remarkable for overcoming diseases caused by impure water, decaying vegetation, etc., is Brown's Iron Bitters.

—A gentleman, viewing the St. Patrick procession in New York, overheard a footman say: "Bedad! the whiskey sellers roides the horses, but the whiskey drinkers goes a-fut."

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

—"How are you and your wife coming on?" asked a Galveston man of a colored man. "She's run me off, boss." "What's the matter?" "I is to blame, boss. I gave her a splendid white silk dress, and then she got so proud she had no use for me. She 'lowed I was too dark to match the dress."

By Universal Accord,

AYER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by physicians in their practice, and by all civilized nations, proves them the best and most effectual purgative Pill that medical science can devise. Being purely vegetable no harm can arise from their use, and being sugar-coated, they are pleasant to take. In intrinsic value and curative powers no other Pills can be compared with them; and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are especially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild but effectual cathartic is required.

For sale by all druggists.

It is not generally known that Samuel Seabury, a line officer in the navy, who was nominated for a constructor, was rejected by the senate several days ago by a very decided vote. At that time a motion to reconsider was entered. We understand, however, that this motion has been withdrawn. This, if it be true, is a victory for the staff.—*Journal.*

Rather a victory for common sense. A course of "study" at Annapolis may make a boy a better sailor than twenty years service on the ocean, but it certainly cannot make him a practical mechanic. There are several people in this country who can lead the german with ease and grace, yet who cannot build a ship, nor even sail her after she is built.

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poi-onous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

For a town of 4,000 inhabitants Laconia has the "boss" fire department. There are four engines and a ladder truck, well manned and equipped. There is also a fire alarm telegraph, with a circuit of six miles, and seventeen signal boxes, and forty-seven six-inch gongs in the houses of firemen in different parts of the town. Laconia likewise has had the reputation of being the "boss" town for fires.

In the Monte building, Larimer street, Denver, Col., is located the office of Mr. F. A. Park, exten-ively engaged in coal mining. In Mr. Park's opinion, St. Jacobs Oil is an exceedingly valuable article for rheumatism. His wife suffered with a very painful affection, which finally required the use of an external remedy. Deciding upon St. Jacobs Oil, she used it with such gratifying success that she would not be without it for anything, and considers it a household panacea.

Derry seems to be a good place from which to secure superintendents of poor farms, a Derry man having been recently engaged for the town farm in Acton, Maine.

The unhappy mortal whose food does not digest and assimilate perfectly will find immediate relief in "Wheat Bitters."

The town of Danbury has been indicted for keeping liquor for sale.

When your wife's health is bad, when your children are sickly, when you feel worn out, use Brown's Iron Bitters.

Portsmouth Chronicle.

FRIDAY, APRIL 7, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

The New Secretary of the Navy.

President Arthur seems to have acted with characteristic deliberation in selecting his last appointed cabinet minister, and we regard it as a fortunate accession to his administration that Mr. Chandler has been added to his list of advisers.

Mr. Chandler is known all over the country as a gentleman who has been a consistent advocate of the principles of the republican party, and who has quite largely contributed to the success of that party, as well throughout the union as in his own state.

But we have as well wishers for the success of the navy and a judicious conduct of our public affairs, a desire to look beyond the simple question of political orthodoxy, to the inherent qualifications of Mr. Chandler as a cabinet minister.

He is a well-read lawyer, having been for more than a quarter of a century a member of the bar of Merrimac county. He is familiar with many of the questions likely to come before the cabinet. He is of that vigorous element of which a successful administration ever greatly stands in need. As secretary of the navy, he will bring to the duties of the position many traits of character which will prove of great service to the country. He will investigate questions for himself, aided by his own shrewd sense, political experience, and legal knowledge.

Without having been in Congress, still Mr. Chandler has a very extensive acquaintance throughout the country, and his knowledge of men and measures is of the thorough kind. In positions he has filled in his own state, he has never disappointed his friends. As speaker of the house of representatives in the sessions of 1864, he especially shew a capacity, in the trying ordeal he then passed through, for the peculiarly exciting requirements of the position. He at one time served as an assistant secretary of the treasury of the United States, at a period when important legal questions involving large sums had to be determined, and then no one hazarded a doubt as to his qualifications for the position.

Mr. Chandler has a large constituency. He is a representative of progessive element of the country. He possesses in an abundant degree that vigor of mind which is much needed in the councils of the administration. In short, he is a source of additional strength to the cabinet.

New Hampshire has had no representative man in the cabinet since Governor Woodbury, who was appointed in May, 1831, as secretary of the navy, and served until June, 1834, when he became secretary of the treasury; and while our state pride has since often been gratified at the selection of men born within our borders, but whose appointments had been made after they had removed to other states, the present is the first cabinet appointment from the state for nearly half a century.

What is required of the head of the navy is, that the secretary should be a man of inherent ability, sound common sense, and a power to demonstrate to Congress and the people that the suggestions he puts forth are for the interests of the country. Mr. Chandler will be the *de facto* as well as the *de jure* secretary. He will be positive, clear and unmistakable in his method of conducting the affairs of his departments, and we have great confidence that his selection will secure to the country the services of an officer in every way abundantly qualified to properly conduct the busines of his department, and aiding in bringing our navy to the condition of efficiency which a government like ours ought ever to maintain.

A Good Selection.

We are glad to note the appointment of Roland G. Worthington as collector of customs at the port of Boston.

Mr. Worthington is known throughout New England not only as a judicious newspaper manager, but as a thorough business man. The merchants of New England who have business transactions at the Boston custom house will appreciate the excellent judgment the president has evinced in the selection for the most important public office in New England of a gentlemen so eminently qualified for the acceptable discharge of the duties of this position.

AROUND HOME.

We shall issue no paper from this office to-morrow.

Services to-day: Rev. Mr. McGinley will preach upon "The death of the Son of God;" at the Unitarian, Rev. Mr. De-Normandie will preach upon "Divorce;" at the Episcopal, Rev. Mr. Gardner, of the Church of the Advent, Boston, will conduct the services.

Post-office hours to-day will be as follows: General delivery, from 8:00 to 10:30 A. M. and from 6:00 to 6:30 P. M.; box-office open all day.

This evening, at Music hall, the Boston English Opera Co. will give the favorite comic opera "The Mascotte." The company is one of the best organizations travelling; and the opera is very amusing, and the music bright and sparkling.

There was a little vocal and instrumental concert in the new Christ church, last Thursday afternoon, as an informal test of the organ. Miss Hill, the organist at St. John's church, presided at the instrument, and several selections were sung by the St. John's choir. A few other ladies and gentlemen were present by special invitation.

The Dime Show, which has been playing in Franklin theatre during the week to good audiences, will give a matinee this afternoon, and a change of programme this evening; at the latter entertainment a number of local amateurs will appear.

The depositors in George E. Lane's private bank at Exeter had a second meeting an the evening of the 5th inst., and appointed a committee to investigate all facts in the matter, and to employ counsel to find out if the assignment of about $10,000 worth of notes by Mr. Lane to one of his bondsmen was legal, and report as soon as possible. There were about ninety depositors, the deposits aggregating in the neighborhood of $35,000.

Passenger train No. 11, due in this city from Boston at 10:20 o'clock A. M., on the 6th inst., was three-quarters of an hour behind time, owing to engine No. 102 having broken her eccentric near Ipswich, Mass. The train was brought to this city by a freight engine taken from a train at Ipswich.

The following-named citizens have been drawn to serve as jurymen from ward two: Albert A. Fernald, Horace A. Martin, Seth W. Trippe and Edward B. Wells.

Charles Brown, who was found dead beside the Eastern railroad track in Lynn, Mass., on the 3d inst., was some years ago a resident of Exeter, where his mother and his divorced wife now live. He has a daughter residing in Taunton, Mass.

The Portsmouth Shoe Co. has declared a semi-annual dividend of three per cent, payable April 8th at the National Mechanics & Traders' bank.

The gentlemen members of Portsmouth Commandry, United Order of the Golden Cross, on Thursday evening of this week gave a "surprise fruit supper" to the ladies of the order, in return for the "surprise farmers' supper" given the gentlemen by the ladies a few weeks ago.

The schooner Cocheco, Rackett master, which went up to Newmarket this week with coal for the Newmarket Manufacturing Co., was towed up by the tug Ann—the steamer's first tow after coming off the ways at Kittery.

The steamer Acushnet brought down from Boston on the 4th inst., for Mr. Lemuel B. Caswell, a large lot of supplies for his fishing station at Smuttynose island, Isles of Shoals; also two men from Gloucester, Mass., who will work at Smuttynose this season. The material was loaded on board Mr. Caswell's schooner "Lucy," and on the 6th she was ready to start for the islands at the first favorable opportunity. The fishing season of Smuttynose will commence immediately.

Mr. John W. Griffiths, an eminent shipbuilder, and a prolific writer on subjects in the line of his profession, died in Brooklyn, N. Y., March 30th, at the age of seventy-two years. Mr. Griffiths was the builder of the third rate sloop-of-war Enterprise, launched from the Franklin ship-house at Portsmouth navy yard some years ago, about the time the Essex was launched, the latter being built in the usual manner by the naval authorities, and the Enterprise by contract. Mr. Griffiths was the founder of the "American Ship" newspaper of New York, and successfully conducted it up to the time of his last sickness.

Mr. Charles M. Laighton of this city left Boston on Thursday last for Colorado, New Mexico and California, with the Raymond & Whitcomb excursion party.

It is announced that "Geo. E. Lane & Co., of Exeter, will pay in full all demands against the firm. Consequently creditors will receive every dollar due them, without the expense of prosecuting their claims." If the promises previously made hold good, the shortage in the county funds is to be made up without an official call upon the county treasurer's bondsmen, which will leave the depositors in Lane's private bank the only sufferers by his unfortunate speculations with other people's money.

Mr. Chas. B. Goodwin, formerly of the Kearsarge house in this city, is to have charge of the Rose Standish house at Downer's Landing, Boston harbor, during the coming season.

The Boston *Traveller* some time ago referred to the lectures of Miss Annie Jenness in the Empire state, and of several receptions tendered her by prominent people in that section A later issue quotes her as "still lecturing in New York state on Everybody's Business," and speaks of a new lecture that she is now preparing for the coming season. Miss Jenness is the daughter of Solomon Jenness, formerly of this city, now a resident of Amesbury, Mass.

THE

Mutual Life Insurance Co.
of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2500 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More profitable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—no assessments. This is no wild jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. FAST.

Friday, April 7th, is the day designated by the governor of this state to be observed as a day of fasting, humiliation and prayer.

The governor has taken a new departure in fixing upon the day succeeding that to be observed by our neighbors of Massachusetts; our business and social relations to the people of that commonwealth would have made it far more convenient to have had fast observed in both states on the same day, and we fear that the governor lost sight of the fact that two holidays coming in succession in the same week would be a material loss to many of our people. It has been the endeavor in times past to have the observance of such occasions held on the same day in Maine, Massachusetts and New Hampshire, but this year the day selected by the governor of each state is on a different date.

Good Friday, in England and Ireland, is a legal holiday, and by law all business is suspended; while in Scotland the day has no especial significance, except to members of the Episcopal and Roman Catholic churches. Its observance dates from a very remote period in the history of the Christian church. We are told that when Christianity was established, Constantine, as a politic statesman who had immense regard for all the forms and rites of religion, forbade the holding of law courts, markets and other public proceedings on this day. In the Roman Catholic church the service of this day is of especial significance. Instead of the ordinary mass, it consists of what is termed the "Mass of the Presanctified," and is followed by the adoration of the cross.

We are of course, not inclined to give up our old-fashioned, time-honored New England fast day, because it is a New England observance, and the great body of New England Protestants prefer to keep fast on the traditional Thursday, as did the fathers in the land, rather than the adoption of another day, which will in its solemnity become less and less regarded if it meets the approval only of those of one or two denominations.

THE RYE BEACH RAILROAD.

By request, we publish the "act incorporating the Rye Beach railroad," passed by the leglature in 1872, and approved June 26th of that year:

SECTION 1. Emmons B. Philbrick, Frank A. Philbrick, Frank Jones, Cyrus Eastman, David Jenness, John Batchelder, Job Jenness, Albert Batchelder, Gilman H. Jenness, Eben L. Seavey and William Walker, their associates, successors and assigns, are hereby made a corporation by the name of the Rye Beach railroad, with all the rights, powers and privileges, and subject to all the liabilities, duties and restrictions set forth in the general laws which now are or hereafter may be in force relating to railroad corporations.

SECT. 2. Said corporation is authorized and empowered to locate, construct and maintain a railroad not exceeding six rods in width, with necessary additions for excavations and embankments, from some convenient point on the Eastern railroad in Hampton, through the towns of North Hampton and Rye, to some convenient point upon said Eastern railroad, or the Concord & Portsmouth railroad in the city of Portsmouth, with the right to connect with the Eastern railroad in Hampton and Portsmouth, or with said Concord & Portsmouth railroad in said Portsmouth, and to lease its railroad to either of said corporations.

SECT. 3. The capital stock of this corporation shall consist of not more than ten thousand shares of one hundred dollars each.

SECT. 4. A toll is hereby granted to said corporation upon all persons and property which may be transported by said railroad, at such rates as may from time to time be determined by the directors; and all the powers herein granted to this corporation relating to the locating, constructing and maintaining said railroad are hereby vested in the directors of this corporation for the time being.

SECT. 5. The three persons first named in this act may call the first meeting of the grantees hereinbefore named, by publishing notice of the time and place of meeting in some newspaper published in the county of Rockingham, one week before the day named for such meeting.

SECT. 6. This act shall be void as to all that part of the railroad line herein named not constructed and completed within ten years from the passage hereof. This act shall take effect upon its passage.

By an act of the legislature passed in 1881, and approved July 29th, the first meeting of the grantees of the Rye Beach railroad was legalized, (there had probably been some informality, but we do not remember in what point,) and the corporation allowed ten years from that date for the construction and completion of the railroad.

MEMORIAL DAY COMMITTEES.

Commander M. M. Collis, of Storer Post, No. 1, G. A. R., has appointed the following committees to make the necessary arrangements for the proper observance of Memorial Day in this city and vicinity, to act in conjunction with such committees as the citizens of Portsmouth may select for that purpose:

On Invitations, Route, Procession, and selection of Chief Marshal—Adolph Nelson, George E. Hodgdon, Daniel J. Vaughan, William H. Smith, James E. Ford;

On Flowers—Robert E. Rich, James R. May, John H. Hutchinson, Meshach H. Bell, Abel Jackson, George L. Hersey, Samuel Taylor, Henry G. Whipple, Charles F. Goodwin;

On Decoration of Graves—for Portsmouth comrades, John H. Locke, Charles W. Shannon, William Y. Evans, Michael E. Long, Nelson Goodrich; for Newcastle comrades, E. D. Rand; for Kittery, Me., Charles Chickering, Calvin L. Hayes, Thomas J. Billings; for Rye comrades, Joseph W. Berry, Augustus Caswell, Joseph J. Seavey;

On Carriages—James R. Morrison, Joseph R. Curtis, John A. Rand;

On Finance — Thomas Entwistle, Charles A. C. Gray, J. Horace Kent;

On Evening Exercises—S. R. Marston, Albert S. Leslie, John W. Parsons, William Critchley, Jr., William H. Lovell;

On Printing—O. M. Knight, D. Webster Barnabee, Freeman F. Sanborn.

The post is steadily increasing in membership, and if the increase continues it will this year, as last, be the banner post in the state for additions to its numbers. At the meeting on Wednesday evening, the 5th inst., five new comrades were initiated, and five applications for membership were presented. It is the intention of the post, in conjunction with the citizens' committee, to make the Memorial observances more impressive this year than ever before.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening, April 6th, Mayor Sise in the chair:

Present, the full board, with the exception of Ald. Stavers.

The records of last meeting were read and approved.

Monthly bills to the amount of $2141.-12, were ordered paid.

Communication from H. W. Mason, relative to fence between his premises and the high school grounds, was referred.

The city treasurer gave notice of the receipt of letters from the executor of the estate of James H. Foster, late of Boston, relative to the payment of city bonds to the amount of $2700, due in 1869 but was not presented, with interest coupons attached. A joint resolution authorizing the mayor to raise money to pay the bonds was passed, and sent to the common council.

Resignation of Charles H. Besselievre as police officer was received and accepted. On a ballot, Michael E. Long was elected to fill the vacancy.

The Portsmouth Gas Co. gave notice that the general government refused to pay for the four street lights at the corners of the custom house. Referred to the committee on street lights.

Ald. Green offered a resolution instructing the city solicitor to draw up such amendments to the city ordinances as may be necessary to provide for the following reductions of salaries, in accordance with the suggestions of his honor the mayor in his special message on retrenchment and reform:

Mayor, from $500 to $400; city clerk, from $1000 to $800; police justice, from $600 to $500; city solicitor, abolish the office and employ counsel when required; city marshal, from $700 to $600; street commissioner, from $600 to $500; city messenger, from $600 to $250, messenger to be a minor; chief engineer, from $200 to $100; superintendent of almshouse, from $400 to $300; firemen, $35 each, number of men to remain as at present; collector's fees, not to exceed one-half of one per cent.

Laid over for one week.

A communication from the board of engineers, stating that it is preferable to reduce the number of men in the fire department rather than their pay, was accepted.

A joint resolution was received from the common council, authorizing the city treasurer to raise the money necessary to pay the past due bonds belonging to the Foster estate, in which the aldermen concurred.

The matter of the obstruction of Vaughan street by freight trains was brought up, and the mayor read the statute applying to the case, showing that for each obstruction a penalty of $20 is recoverable.

Ald. Hartshorn moved that a gun and suitable ammunition be provided for the police to kill dogs with. On a yea and nay vote the motion was lost; and afterward the city marshal was authorized to provide some method of killing any unlicensed dog all at once, instead of a little bit at a time.

Adjourned.

JOHN STAVERS.

Mr. John Stavers died on Thursday morning, the 6th inst., from typhoid pneumonia, in the 79th year of his age.

Mr. Stavers was born in this city, and spent his life here, with the exception of a brief period when he lived in Boston. He was engaged successively in the iron, grain, shoe, and grocery trades, but retired from active business many years ago. He has been a director of the First National bank since its organization, a trustee of the Portsmouth savings bank, and for twenty-five years treasurer of the Howard Benevolent society. He was one of the organizers and first stockholders of the Portsmouth Steam factory, and for several years a director in its successor, the Kearsarge mills. He served in several positions under the old town government, and as assessor under the city; but was never a politician, in the ordinary acceptation of the term. He was an active member of the North Parish, and years ago was a deacon of the church.

He leaves a widow, and two sons,—John W. Stavers, of Taunton, Mass., and Alfred Stavers of this city.

Oak Hall Agency in Portsmouth.

Messrs. G. W. Simmons & Son, of Oak Hall, Boston, have established an agency for this city and vicinity for the sale of their custom and ready made men's and boys' clothing, at No. 33 Market street, Portsmouth, where anything contained at Oak Hall, Boston, can be procured, at the same prices as in Boston. Several dollars can be saved by buying your own and your children's clothing at the Oak Hall Agency, as they sell at the lowest prices in New England.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

The Science of Life, or Self-Preservation, is the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single of either sex can either require or wish to know, but what is fully explained. In short, the book is invaluable to all who wish for good health.—*Toledo Globe.*

The book for young and middle aged men to read just now is the Science of Life, or Self-Preservation. It is worth many times its weight in gold.—*Rochester Times.*

The author of the Science of Life is a noble benefactor. He reaches the very roots and vitals of disease, and is enabled to apply thorough remedies. The book already is read upon both continents by millions.—*London Lancet.*

The Gold and Jewelled Medal awarded the author of the Science of Life was fairly won and worthily bestowed.—*Massachusetts Ploughman.*

Thousands of testimonials to the above could be taken from the leading journals—literary, political, religious and scientific—throughout the land.

The Book is guaranteed to be a better medical work, in every sense, than can be obtained elsewhere for double the price, or the money will be refunded in every instance.

Thousands of Copies are sent by mail, securely sealed and post paid, to all parts of the world, every month, upon receipt of price, $1.25. Address

Peabody Medical Institute or W. H. Parker, M. D,

No. 4 Bulfinch Street, Boston, Mass,

SUNDAY SERVICES.

Rev. D. T. Taylor will preach in the Advent church.

Rev. Mr. McGinley, at the North church, will preach on "The resurrection of Christ" in the morning.

Rev. John B. Richmond, of Dover, will preach in the Episcopal church.

At the Pearl street church, Sunday evening, Rev. J. Herbert Yeoman will deliver an illustrated lecture on "The Interpreter and his reward."

At the South Parish, there will be Easter services morning and evening; children's service in the afternoon.

Rev. E. A. Temple, of Somerville, Mass., will preach in the Universalist church.

Wm. E. Chandler Nominated.

President Arthur on the 6th inst. sent to the senate the nomination of Hon. Wm. E. Chandler of New Hampshire to be secretary of the navy.

Naval Affairs.

The Alaska and Lackawanna were reported at Valparaiso, and the Adams at Callao, at last advices.

The Pensacola, flag-ship, arrived at Coquimbo, Chili, Feb. 24th.

The Yantic arrived at Key West on the 5th inst., from Vera Cruz.

Lieut. Comdr. R. D. Hitchcock is ordered to the Monocacy, Asiatic station, as executive officer, relieving Lieut. O. W. Farenholt, who is ordered home.

Lieut. Adolf Marix is ordered from the receiving ship Colorado to the Brooklyn, on the South Atlantic stations.

The house naval committee it is said will favorably report Mr. Morse's bill for the sale of the Charlestown navy yard. There is practicably no objection to it. Mr. Morse estimates that from economies that would result from the abolition of the yard, and from the interest upon the price for which the land would sell, which he estimates at $7,000,000 at least, the government could build a ship annually.

—When a couple make up their minds to get married it may be called a tie vote.

—Though Cæsar passed the Rubicon, he never passed a trade dollar with a hole in it.

—An aged woman employed in the Bates Mills, Lewiston, Me., lost her forefinger in a curious manner recently. An iron weight weighing about 500 pounds ran up and down in a case. She put her finger in a knot-hole in this case, and the weight took it off short. It was a painful injury, and the woman refuses to give credence to any other theory than that a huge rat bit off and made a meal of her flesh and bone.

A Blessing.

If you are troubled with piles you should use Sulphur Bitters. They cured me when all other medicine failed.—*Daily Eagle.*

In a breach of promise case at Lawrence, Mass., Nora Hurd of Haverhill vs. Samuel D. Evans of Bradford, a verdict of $1,000 was rendered for plaintiff.

Food for Young and Old.

Food and medicine for young and old, prepared without fermentation, from Canadian barley malt, hops, quinine, bark, etc. Malt Bitters are warranted more nourishing, strengthening, vitalizing and purifying, by reason of their richness in bone and muscle producing material, than all other forms of malt or medicine, while free from the objections urged against malt liquors.

Jennie J. Putnam, aged twenty-one years, committed suicide on the 5th inst. at Worcester, Mass., with hydrocyanic acid. She left letters saying she was tired of life.

What Everybody Wants

Is a reliable medicine that never does any harm and that prevents and cures disease by keeping the stomach in order, the bowels regular, and the kidneys and liver active. Such a medicine is Parker's Ginger Tonic. It relieves every case, and has cured thousands. See other column.—*Tribune.*

A young married woman, named Lizzie Basop, was drowned on the 5th inst. at East Richford, Vt., while endeavoring to cross a river.

A Valuable Addition.

Because it is beneficial to the scalp and adds to personal beauty by restoring color and lustre to gray or faded hair, is why Parker's Hair Balsam is such a popular dressing.

Mrs. Obadiah Wilson, of Henniker, has in her possession a pewter plate that was once the property of Hannah Dustin, having her initials upon it. It descended through the Eaton family, of which Mrs. Dustin was a member.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In flesh wounds, aches, pains, sores, etc., it is the most effectual remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and know it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpe, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It relieves pain and soreness, and heals wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest are its best friends.

Its success is entirely because of its merit. Since the Pain Killer was first introduced, hundreds of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued than ever before. Every family should have a bottle ready for use. Much pain and heavy doctors' bills may often be saved by prompt application of the Pain Killer. Unlike most medicines, it is perfectly safe even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

Failing!

That is what a great many people are doing. They don't know just what is the matter, but they have a combination of pains and aches, and each month they grow worse.

The only sure remedy yet found is BROWN'S IRON BITTERS, and this by rapid and thorough assimilation with the blood purifies and enriches it, and rich, strong blood flowing to every part of the system repairs the wasted tissues, drives out disease and gives health and strength.

This is why BROWN'S IRON BITTERS will cure kidney and liver diseases, consumption, rheumatism, neuralgia, dyspepsia, malaria, intermittent fevers, &c.

203 S. Paca St., Baltimore. Nov. 28, 1881.

I was a great sufferer from Dyspepsia, and for several weeks could eat nothing and was growing weaker every day. I tried Brown's Iron Bitters, and am happy to say I now have a good appetite, and am getting stronger.
JOS. MCCAWLEY.

BROWN'S IRON BITTERS is *not* a drink and does not contain whiskey. It is the only preparation of Iron that causes no injurious effects. Get the genuine. Don't be imposed on with imitations.

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

The Boston & Maine railroad has built a station at Cummingsville in South Berwick. The road has for several years had no station in the town. South Berwick people affect to believe that the Boston & Maine will remove their round house from Exeter to South Berwick, but Dover people have an experience in this kind of intention. The Boston & Maine will, however, doubtless lengthen the runs of their locomotives, and ere long the round house at Exeter will be abandoned.

When your wife's health is bad, when your children are sickly, when you feel worn out, use Brown's Iron Bitters.

A Point Neglected.

The annual report of the Society for the Prevention of Cruelty to Animals neglected one point of vital importance to all who exercise any care in the selection of food for their tables, unless they are strictly and absolutely vegetarians.

The report probably intended only to give particulars in instances where cruelty had been exercised to dumb animals. Little or nothing was said in regard to the monstrous cruelty to human beings perpetrated by the traffickers in the flesh of animals killed while suffering from disease and injury brought on by long confinement and deprivation of food and drink while enduring the tedious journey in crowded stock cars from Texas to Brighton. [illegible] to death by the horns of a frantic fellow sufferer before half of the long journey is accomplished may be tolerated as food by a person of good digestion, and prove far less harmful than the meat of the fever-exhausted and nearly dead survivors, who reach the abattoirs more dead than alive, and with every fibre of their bodies tense with pain, or lax from approaching dissolution. Such food would taint the blood of the most vigorous man, and probably sow the seeds of death in the systems of weak persons and children. Let the society prevent such cruelty to human beings first, and then work in the interest of the dumb animals afterwards. Protect innocent men and women from abuses, and then give their attention to suffering brutes if they want to; but look out for the human first.

OBSERVANT.

News and Notes.

The verdict in the Haverhill, Mass., breach of promise case, Miss Lora Hurd vs. Samuel D. Evans, which was for plaintiff in $1,000, has been followed by a suit by Miss Hurd against Evans for defamation of character, with damages laid at $5000.

Daniel Betts, the lion tamer of Coup's circus, dropped dead from heart disease in Augusta, Ga., Saturday.

Congressman Thomas Allen, of Missouri, died on the 8th inst., at Washington.

At Gardiner, Me., April 8th, John C. Bartlett hung himself. He was sixty-two years old, a prominent business man and leaves a widow and four children.

Friday of last week was a bad day for treasurers. The ex-treasurer of Newark, N. J., was arrested for forgery; the treasurer of the College of Pharmacy in New York city was arrested for stealing between $6000 and $7000; and the ex-county treasurer at Reading, Penn., was discovered to be a defaulter to the amount of $30,000. The latter has disappeared until his friends can "amicably adjust" the little deficit.

A big torpedo exploded at Toulon, France, April 7th, as eleven sailors were about to throw it into the sea. Three of the sailors were killed, and the eight others were seriously wounded.

A despatch from Dublin, Ireland, reports that an important Fenian has escaped in an American vessel. He was closely pursued by the police, but they were unable to arrest him.

Mr. Charles Merrill of Pittsfield, Me., while sawing wood by horse power last Thursday afternoon, was killed by being caught in the fly wheel.

A man was arrested in St. Louis, Mo., on the 5th inst., who was supposed to be the monster John Bender, who kept a sort of hotel about eight years ago near the little town of Cherryville, Kansas, and used to murder travellers and bury them in his garden. He proved to be not the man.

Naval Affairs.

Commodore Peirce Crosby is ordered to command the South Atlantic squadron.

Capt. J. N. Miller is ordered to hold himself in readiness to command the Tennessee.

Comdr. Francis M. Bunce is ordered to hold himself in readiness to command the Wabash.

Lieut. W. W. Rhodes is ordered to Newport, R. I., for instruction in torpedo duty.

Comdr. Mortimer L. Johnson is detached from the Portsmouth navy yard April 30th, and ordered to torpedo instruction May 1st.

Naval Constructor Philip Hichborn has been detached from temporary duty as member of the board at Washington of which Capt. Semmes is president, and has returned to League island, Pa., and resumed his regular duties. Naval Constructor F. L. Fernald has been ordered as a member of the board, to examine the plans of Wm. Coppen of London for an ocean steamship.

New Hampshire Items.

Henry Maxham, conductor of a Pullman sleeping car which runs between Boston and Montreal, fell from the train on the night of the 6th inst., about a mile from Danbury, and was killed. The body was taken to Concord. Maxham leaves a widow and one child in Montreal; his wife was a daughter of F. A. Perry of Keene, master mechanic of the Cheshire railroad.

M. J. Noonan was arrested at Dover on Saturday by an officer from Lowell, Mass., and taken to the latter city to answer to a charge of forgery.

The New Hampshire club leaves Boston for Washington and Richmond this evening.

Henry Abbott of Swanzey has been missing since Wednesday of last week, when he was seen in Boston, and known to have several hundred dollars with him. His habits are correct, and foul play is feared.

Mr. Asa T. Barron has sold to his son, Oscar Barron, and Charles H. Merrill, one-half interest in three of the largest and most popular hotels in the White mountains—the [illegible] house, the Fabyan house and the Crawford house.

The chaplain of the Ninth New Hampshire regiment has just returned to the original owner, Dr. W. F. Johnston of Fredericksburg, Va., an Episcopal prayer book which fell into his hands when Fredericksburg was occupied in 1862.

John Gibbs of Epping heard parties in his barn last Thursday night about ten o'clock, and on going out found his horse harnessed and standing near the gate. He called out, when some person shot him through the arm with a pistol. Mrs. Gibbs went out and picked him up, when she was shot at but not hit. The criminals then made their escape. The doctors think that Gibbs' arm will have to be amputated.

Mrs. Sara McGown, wife of Rev. J. A. McGown, of the Congregational church at Claremont, died on Monday, April 3d, at the age of thirty-one years. A few months ago her little daughter died, and the mother wasted away under her grief.

FIRE.

The alarm of fire, about ten o'clock Sunday evening, was caused by the burning of a building at Noble's island occupied by Mr. John O'Brien as a barn and junk-storehouse. The building was destroyed, with its contents, and the structures on each side of it were somewhat damaged.

The examination of Ex-County Treasurer Lane on a charge of embezzlement will take place in the police court to-day.

Oak Hall Agency in Portsmouth.

Messrs. G. W. Simmons & Son, of Oak Hall, Boston, have established an agency for this city and vicinity for the sale of their custom and ready made men's and boys' clothing, at No. 33 Market street, Portsmouth, where anything contained at Oak Hall, Boston, can be procured, at the same prices as in Boston. Several dollars can be saved by buying your own and your children's clothing at the Oak Hall Agency, as they sell at the lowest prices in New England.

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of "Mrs. Winslow's Soothing Syrup. "It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. Twenty-five cents a bottle. eod&wtjan28

TRUSTEE'S SALE
— OF —
REAL ESTATE,
AT AUCTION.

UNDER license from the Court of Probate for this county, I shall sell at Public Auction on the Premises on

SATURDAY, the 22d day of April, at twelve o'clock noon,

The lot of land situate at the corner of Austin and Summer Streets with the three story dwelling house and stable thereon, being the former mansion house of the late Joseph W. Pickering.

The lot measures one hundred feet on each street. The land is high and well drained, and the situation one of the most pleasant and eligible at the west end of the city.

Three-quarters held on trust, and one-quarter on fee will be sold together, making a title to the entire estate. Further particulars of

WALLACE HACKETT,
Trustee under will of L. Pickering.

Portsmouth, April 7, 1882.

H. F. WENDELL, Auctioneer.

To the Hon. Judge of Probate for the County of Rockingham.

RESPECTFULLY REPRESENTS Kate E. Miller, Executrix of the last will of Frank W. Miller late of Portsmouth in said County, deceased, that the Personal Estate of said deceased is not sufficient to pay the just demands against his estate by the sum of Six Thousand Dollars. That the said deceased at the time of his death was seized of certain real estate situated in said Portsmouth on the west side of Union street, bounded south by land of R. F. Webster, 155 feet; north by Lincoln Avenue, 155 feet; east on Union street, 112 1-2 feet; and west by land of Robert Shillaber 112 1-2 feet.

Also one other lot situated on the east side of Broad street. Bounded on Broad street, 200 feet; north by land of C. E. Myers, 150 feet; south by land of J Janvrin, 123 feet; and east by land of J. Miller, 200 feet.

Also said deceased was seized at his death of the right of redeeming the following described real estate, situated in said Portsmouth, being his homestead place, bounded south on South street, north by land of Portsmouth Savings Bank, east by land of said Savings Bank, and west by the western line of Willow lane, the same being subject to a mortgage of J. W. F. Hobbs.

WHEREFORE she prays that she may be licensed to sell at public auction said two first described parcels of land, and the right of redeeming said last described land, or so much of the said real estate of said deceased as may be sufficient for the payment of said demands.

The 21st day of March, A. D. 1882.

THE
Mutual Life Insurance Co.
of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 25000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of more stock. Shares are now selling for a short time only, at $3.00.—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. WASHINGTON, D. C.
April 10, 12:00 A. M.

Probabilities for New England:—

Light rain or snow followed by clearing weather, with westerly winds, higher barometer lower temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 28 degrees above zero.

Cloudy.

A BIG SCHEME.

An old railway rumor is revived in Boston, to the effect that Jay Gould has secured control, or is about to secure control, of the Eastern, Maine Central and North American railroads, for the purpose of securing an independent line to Halifax, and there connecting with a fast line of steamers, making the voyage to Liverpool in four days. This or some other cause has led to a rise in Eastern stock in the last two or three days.

If this rumor is well founded, it is but the carrying out of the project which suggested the building of the European & North American railroad, and which one day will be the recognized route for European travel. Should the above-mentioned lines be secured by Mr. Gould, he will probably purchase the Boston & Maine road to side-track the freight cars as business accumulates on his through lines.

A SCARED SKIPPER.

A Nova Scotia skipper was brought up all standing at this port on Friday of last week. It seems that the schooner Lizzie S. Magee, of St. George, some days before arrived at Boston from the British provinces with a cargo of frozen herring, for which the captain was unable to find a market in Boston, so he cleared his vessel for Portland. Arriving at Portland he had no better luck, so without entering and clearing at the custom house there, he sailed away for this port, and while his craft was snugly riding at anchor in the lower harbor the United States revenue cutter George M. Dallas—vulgarly called "the old Dallas," with an implied contempt for "Polk & Dallas,"—came in, and the usual invitation to vessels was made by the cutter's officers, when our "blue-nose" friend was found in port with no clearance from his last port of departure. He was at once invited to report at the office of the collector of customs. Fast day notwithstanding, the collector and his deputy were at their desks, and the former heard the case. There is a penalty of $400 imposed upon a vessel which arrives within a collection district from a foreign port, and departs without properly entering at the custom house; but under certain circumstances, such as stress of weather, or other necessity, the penalty may not be incurred. The case in this instance appeared clearly to be that of a very small craft with a captain uninformed in regard to our revenue laws, going along the coast seeking a market. The facts were telegraphed to the treasury department at Washington in the morning, and before four o'clock in the afternoon an order was received allowing the vessel to proceed upon paying the expenses of keeper, telegraphing, etc.

WEEKLY FISH REPORT.

The receipts of fish for the week ending April 8th, was small, eleven vessels and small boats bringing in 18,310 pounds, against seventeen fares the week before with 21,530 pounds. The schooner Chistie Campbell was high line, reporting 13,000 pounds. About 1,200 pounds of cusk and 1,000 pounds of cat-fish were landed, most of which was sent to Boston. Prices generally for fish ruled low. The season for lobsters opened well, the total receipts for the week being 800, of extra size, one firm receiving 600 alive in a single day, boiling and shipping most of them. Some salmon of choice quality has been landed, which finds a ready market.

AN UNBELIEVER.

Col. John B. Clarke, of the Manchester *Mirror* expresses in the most reckless manner his disbelief in the statement which has been made that Albee, the Winchester bank defaulter, is to be tried at the May term of court in Cheshire county, and says "Trying defaulters is played out in New Hampshire." He cites the case of Storrs, the Concord savings bank thief, and Shute, who stole an Exeter bank eight or ten years ago, both of whom walked off, and adds:

Gen. Lane failed in business, held a reception of a few days duration at Portsmouth, and was escorted to his home by a procession of pitying friends, with the high sheriff of the county as chief marshal. The only question in his case appears to be, as to how many of his bondsmen can escape the poor house. In brief, we can recall no instance in which a New Hampshire bank defaulter has been tried within the last twenty years. Why poor Albee should be made an exception we don't know. He certainly is no more guilty than these other gilt-edged speculators, and if there is any reason why he should be punished while they go free, it must be because he has been so faint-hearted as to break down under his embarrassments. So far as appears he is the only one in the lot who has lost an hour's sleep or refused a meal of victuals.

POLICE COURT.

SATURDAY, Apr. 8; *Batchelder J.*

Peter Hennessey, of Attleboro', Mass., for drunkenness, was fined $3, costs $6.90. Brentwood in default of payment.

George E. Lane, for embezzlement, continued case, had his case further continued to the 10th inst., sureties as before being demanded.

AROUND HOME.

The first annual ball of Osgood Lodge, I. O. O. F., in Franklin hall on the night of Thursday, the 6th inst., was an entire success, the company being a choice one as to quality, and of just the right size—large enough to fill the floor with dancers, but not large enough to constitute a crowd. The affair was well conducted, of course, and the enjoyment lasted until a late hour on Friday morning.

A correspondent informs us that "a number of leading citizens and business men have expressed to Mr. Charles E. Walker, the prominent coal merchant, a desire that he accept a nomination for mayor on a citizens' ticket, and he has taken the matter under consideration. Should he consent to have his name used he would no doubt be triumphantly elected, and make a cautious and conservative officer, such as the city especially requires at the present time."

Next week will be a noted one for Portsmouth, in the amusement line. On Tuesday, the 18th inst., the "Banker's Daughter" will be presented; on Thursday, the Madison Square Theatre Co. will play the "Professor;" and on Saturday John T. Raymond will appear as "Fresh, the American." Maggie Mitchell is booked for May 8th.

The Eastern railroad station in Salem took fire in the baggage room at one o'clock last Friday morning, from the falling to the floor of a patent torch signal, which set fire to some oily wast. The walls of the building, being of stone and brick, remained standing, though ruined by fire and water; the interior woodwork, roof, and nearly everything combustible, were burned. Loss about $15,000. A new station will be built at once, the old one being past repair. The insurance was $11,000.

It is reported that the U. S. S. Vandalia is to be ordered to this navy yard, to pay off her crew and go out of commission. It is also stated that the proposed new naval hospital will be built here, provided a suitable site can be procured.

It is stated that the Eastern railroad will run a fast train between Portland and Boston for summer traffic. It is to make the trip between the two cities in three hours, stopping only at "know-nothing stations," and in this city. This train will probably have a close connection with a fast train over the Maine Central, thus materially reducing the running time between Boston and Bangor. What is desired is a shorter stop at Portland, where too much time is expended by through passengers.

The schooners Emily A. Staples, D. K. Ham, G. W. Raitt and Chilion, all for Boston with cargoes of bricks from the Eliot brickyards, sailed for their destination on Saturday after a delay of several days consequent on unfavorable weather.

The company which performed "the Mascotte" at Music hall on the evening of Fast day had a very fair audience—much larger than will usually attend an entertainment in this city on the evening of a holiday. Some of the members of the company shew themselves very good, both as actors and singers, and others were not so good in either capacity; as a whole the company is a fair one, and the performance gave very general satisfaction.

Fast day was observed in this city by a general closing of stores in the afternoon, some places of business not opening at all during the day. At the Unitarian church, in the forenoon, the pastor preached on "Divorce," and at the North church a sermon on the "Death of the Son of God" was delivered, both congregations being small. At the Church of the Immaculate Conception and St. John's church the prescribed observances of Good Friday were held. The general opinion in this city, so far as we have heard any opinion expressed, is that Gov. Bell "slopped over" in appointing Good Friday for the annual fast. That day is one of the utmost solemnity to adherents of the Episcopal and Roman Catholic churches, but other sects care little about it—in saying which we express no opinion as to what should be, merely stating a fact which exists; the Episcopalians and Catholics were but little pleased with the appointment of fast on their especial day of fasting, and the members of other denominations were generally displeased with it.

The appraisers of the stock of goods in the book store of George E. Lane of Exeter have valued it at $9,594.20, and the goods will be sold in one lot by the sheriff on Thursday, April 13th.

The county buildings at Brentwood caught fire on Friday afternoon, but the flames were extinguished by the employes and inmates of the establishment with buckets of water before any serious damage was done.

Jabez Dodge and Charles C. Jones have been drawn as jurymen from ward three, for the April term of the supreme court.

At the annual meeting of the state Grand Lodge, Knights of Honor, in Concord on the 5th inst., the grand officers for the ensuing year were installed, among them being the following Portsmouth gentlemen: R. H. Perkins, grand vice dictator; J. H. Gardiner, grand reporter; O. M. Knight, grand sentinel.

Mr. Stevens, proprietor of the Eureka bakery, in another column makes an announcement of interest to house-keepers.

Rev. Charles A. Holbrook, rector of St. John's church, arrived in Boston from the Western islands by the barque Sarah on Thursday, the 6th inst., and reached his home in this city the same evening. He appeared in the Good Friday services in the church with Rev. Mr. Gardner, of the Church of the Advent, Boston, to the no small surprise of most of the congregation, few of whom had previously heard of his arrival home.

Juvenile Dancing School.

MR. SAMUEL LAMPREY gives notice to the citizens of Portsmouth and vicinity, that he will commence his school for Young Ladies, Masters and Misses at Franklin Hall,

On Saturday, April 22d, at 3 o'clock p. m.

and continue on Wednesday and Saturday afternoons for a course of Twenty Lessons.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

Books, Magazines, Etc.

Now that a new investigation is to be had by the New York Metropolitan museum into the charges originally published in "The Art Amateur," alleging improper restorations in the Cesnola collection of Cypriote antiquities, that magazine in the April number discusses at length the new evidence in the case, and gives a supplement illustrating some of the startling transformations the statuary has undergone. The lover of fan-painting will find in the Art Amateur a double page of charming fan designs, together with fine illustrations of eight notable French fans, five of which were shown at the recent New York Fan exhibition. Other notable features of the number are a four-page screen panel design of hollyhocks for painting or embroidery; clever china painting design of cupids playing leap-frog over Minerva, and of little birds perched on a prodigious Easter egg; eight illustrations of the treasures of the Limoges Ceramic museum; some interesting pencil sketches by J. Carroll Beckwith; and articles on an æsthetic English village, Roman costumes, Italian enamels, bedroom embroidery, and instruction in carpet designing. Price, $4 a year; single numbers, thirty-five cents. Montague Marks, publisher, No 23 Union square, New York.

Frank W. Hale, agent of the Portsmouth company at South Berwick, is about to build a new house on the Edwin Lord place in Rollinsford, N. H.

Special services were held in the Roxbury (Boston Highlands, Mass.,) Universalist church on Sunday evening, the 2d inst., in memory of the poet Longfellow, at which a comprehensive and feeling address was delivered by Mrs. Jane L. Patterson, wife of the pastor, Rev. Dr. A. J. Patterson, formerly of this city.

Capt. John Fernald, of Kittery, master of the ship Columbia of Bath, Me., is making a visit to his brother, Mark Fernald, at the village. Capt. Fernald was formerly mate of the ship Rockingham, with Capt. Edwin A. Gerrish. The Columbia is now loading in New York for San Francisco.

The next convention of the Rockingham County Temperance association will be held in Newmarket on Thursday, May 4th, when Rev. James Thurston, of Epping, will deliver the principal address.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

The barque Ladoga, of 865.77 tons register, built at this port in 1854, and owned in New York, has been sold to go under the Norwegian flag, at $8500.

The great coffee house of Jewett, Sherman & Co., of Milwaukee, Wis., is represented in Denver, Col., by Mr. W. H. Dunlap, who says: "Put me down as a believer in St. Jacobs Oil. I had rheumatism and it cured me. You can just bet on it every time."

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, scalds, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and know it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharper, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.*

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines it is perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever, etc., insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment at directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

News and Notes.

A Gloucester (Mass.) dispatch of the 8th inst. says: "It is certain that twenty-two of our brave fishermen who sailed about six weeks ago in the schooners Victor and Northerner, for Georges bank, for codfish and halibut, are lost. The usual time of voyages to this locality does not much exceed three weeks, (the shoals of Georges banks being only about 135 miles east-southeast of Cape Ann,) and these two schooners have now been absent nearly double that time. It is thought the vessels were lost in the heavy gale of March 17th, which was particularly severe in that locality. The tides and currents run there from seven to nine miles an hour, making it almost impossible in a gale for the most experienced skipper to guard against the cross seas." A fishing schooner which arrived at a port in the British provinces in distress from Georges, in the latter part of March, reported having seen two schooners foundered during the gale for the 17th and 18th; and many vessels had their decks swept, losing dories, etc., in the same gale.

The papers tell of A. G. Bogert, who on the 28th of March attained the age of 101 years. He has good health, sees to read, has always taken his toddy in moderation, and until he was ninety-seven years old was an inveterate smoker. He has had one hundred and ninety-three descendants, including fifteen great-great-grand-children, and there is no estimating the immense amount of comfort he has taken in life.

A steamboat boiler exploded on Friday near Brownsville, Wis. Eight persons were killed and missing, and a number were badly wounded.

Warren Phillips, grand tyler of the Masonic grand bodies of Maine, died suddenly at Yarmouth, Me., Thursday, April 6th.

J. R. Galt, travelling agent from Boston, was shot at Lasalle, Ill., Thursday, it is believed fatally, by an insane man named Campbell.

The report of the investigation into the matter concludes that the cause of the foundering at sea of the steamship Bahama, on the 11th of February last, by which twenty lives were lost, was mismanagement of the officers and the "perils of the seas."

Silas Pratt, sixty-three years old, of Fitchburg, Mass., hung himself April 7th. Ill health was the cause.

Mrs. Anna S. Gleason, wife of a prominent merchant of Pittsfield, Mass., is under arrest for improper intimacy with Frank G. Harrison, a clerk nineteen years old.

The Concord city government is investigating the case of an alleged attempt at bribery of a city official by a prominent manufacturer of that city, for the introduction of a certain article for use in the fire department.

Rev. G. H. Scott, recently Congregational pastor in Plymouth and now at Andover, Mass., Theological seminary, has received a unanimous call to the Congregational church at Lawrence, Kansas the largest church in that state.

What Everybody Wants

Is a reliable medicine that never does any harm and that prevents and cures disease by keeping the stomach in order, the bowels regular, and the kidneys and liver active. Such a medicine is Parker's Ginger Tonic. It relieves every case, and has cured thousands. See other column.—*Tribune.*

A despatch from New Orleans, La., says Gen. Jack Wharton, United States marshal, died suddenly in Surveyor Pinchback's office, Friday evening, of apoplexy.

A Blessing.

If you are troubled with piles you should use Sulphur Bitters. They cured me when all other medicine failed.—*Daily Eagle.*

In Hopkinton, Mass., on the 7th inst., Patrick Shelly stepped up behind his fifteen-years-old son while the latter was at breakfast, and nearly severed his head from his body with one blow of an axe. Shelly is probably insane.

The Richmond (Va.) *Southern Planter and Farmer* says the success of St. Jacobs Oil in rheumatic affections throughout the world is without a parallel.

Henry M. Teller of Colorado has been nominated as secretary of the interior; Wm. H. Hunt of Louisiana as minister to Russia; John K. Knox of Minnesota as comptroller of the currency.

"Buchupaiba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists. Depot, J. H. Thacher's.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1. Depot, J. H. Thacher's.

Alfred Jenks, eighteen years old, was drowned at Mansonville, Vermont, on Wednesday of last week, by breaking through the ice while attempting to cross a river.

A Delightful Novelty.

Ladies prefer Floreston Cologne because they find this lasting combination of exquisite perfumes a delightful novelty.

Reed Nichols of Lewiston, Me., was fatally shot last Thursday, in passing through the woods with a loaded gun. The hammer caught, discharging the load in his hip.

Remarkable for overcoming diseases caused by impure water, decaying vegetation, etc., is Brown's Iron Bitters.

—A woman has sharper eyes than a man. Any little love passages that may be going on about her, a woman will detect in an instant. With a man it is different. He will not perceive a kiss even, unless it is brought right under his nose.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

THE

New Hampshire Gazette!

Established 1756.

The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

TO ADVERTISERS

THE N. H. GAZETTE

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all those who desire to reach patrons in Rockingham and York counties will find it an economical medium. The GAZETTE is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

STARTLING DISCOVERY!

LOST MANHOOD RESTORED.

[Concluded from 4th page.]

into our ears a mass of information, both pleasing and useful.

Presently he rose slowly from his easy-chair, and invited us to go out and see his imported stock.

As we followed his big straw hat, and brown linen blouse, down the lane-like interval between his very plain frame dwelling, and the far bigger and better barn, a young Berkshire pig, of good size and beauty, ran across his path.

"Hello, John," said Mr. Webster in his deep, sonorous voice, yet quietly, "How did that fellow get out?"

The man addressed—his farmer, the tall Wentworth, who was leaning against the sty—replied:

"He rooted out, sir."

"Umph!" grunted Webster.

"A radical, eh?" This joke at a small party, then trying to dig under and into notice, was too good to lose, and I put it into print. We had not supposed the great man so prompt at a happy turn. His imported Devon bull, and cows, some Ayrshire, were his pride, and certainly they were very noble specimens. In fine, our entertainment delighted us, and we parted with Mr. Webster very grateful for his condescension, and bound to regard him as our Olympian Jove forever. —"A. T. S.," in *New York observer.*

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

The Woman's Christian Temperance Union of Dover has presented sixty-six books to the reading rooms of the operatives of the Cocheco Manufacturing company of that city.

When your wife's health is bad, when your children are sickly, when you feel worn out, use Brown's Iron Bitters.

Rev. A. J. Bray, a Congregational minister of Montreal, is causing considerable excitement by a new departure in his expounding of the scriptures. He casts ridicule upon the doctrine of everlasting punishment, as well as upon the supernatural origin of the Christian religion.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

A despatch from Philadelphia says: "Christian K. Ross, father of the long lost Charlie, is again looking for his son. A boy has been found at Part's Road, Fla., who is said to be named Husted, and who is said to answer the description of Charlie."

The President

Of the bank of Waverly, Iowa, says: Sulphur Bitters saved my life. For ten years I suffered from catarrh and liver complaint; I lost forty-five pounds and was growing worse rapidly. I had lost all faith in medicine, but hearing your Bitters so well recommended, I gave them a trial. Six bottles cured me.—*Smith F. Hunt, Waverly, Iowa.*

Dandore, the missing county treasurer of Reading county, Pa., stole $50,000 before he went. He is believed to have carried off a considerable sum.

Worth Remembering.

Now that good times are again upon us, it is worth remembering that no one can enjoy the pleasant surroundings if in bad health. There are hundreds of miserable people going about to-day with disordered stomach, liver or kidneys, when a bottle of Parker's Ginger Tonic would do them more good than all the medicines they have ever tried.

One of our esteemed contemporaries went in heavy on fresh news for its edition of Sunday. It published, among other things, a remarkably full and graphic account of the crucifiction of the Saviour, and a very elaborate and readable sketch of the life of the late Capt. Kidd.—*Boston Post.*

A Valuable Addition.

Because it is beneficial to the scalp and adds to personal beauty by restoring color and lustre to gray or faded hair, is why Parker's Hair Balsam is such a popular dressing.

Books, Magazines, Etc.

A striking portrait of James Russell Lowell will be the frontispiece of "The Century Magazine" for May, which will also contain a masterly study, by Edmund Clarence Stedman, of the life and writings of the author of "The Biglow Papers." The same number of the magazine will offer also a recently written poem by Mr. Lowell, entitled "Estrangement;" Archibald Forbes, the famous war correspondent, will relate some of his most amusing experiences in "Lecturing in Two Hemispheres;" and Carlyle's posthumous work, "Reminiscences of my Irish Journey," will be begun in the May Century, and completed in June and July. Those who have had an access to the manuscript and advance sheets of the work, describe it as being as characteristic of the author as the famous "Reminiscences" which a year ago made such a sensation in literary circles.

"Bret Harte." The second volume of the new complete edition of the works of this author, contains the "Luck of Roaring Camp" and other stories, including earlier papers, Spanish and American Legends, Tales of the Argonauts, Bohemian Papers, and other admired writings in prose, making a book of nearly five hundred pages. The third volume, now going through the press, is to contain tales of the Argonauts and Eastern sketches, some of which have not before appeared in book form. The volume will be issued in a few weeks. The Luck of Roaring Camp, which though calculated for the meridian of San Francisco met with such a literary reception at the hands of Mr. Fields, who at the time of its appearance was one of the publishers of the "Atlantic Monthly," has been published in several editions, some of which have been expensively illustrated. The set of these works are being published by Messrs. Houghton, Mifflin & Co. of Boston, in five crown-octavo volumes at $2.00 each, and the firm has very extensive orders for them from every part of the country.

"European Breezes:" by Marie J. Pitman, (Margery Deane.) Boston; Lee & Shepard, publishers. For sale by Mercer Goodrich, No. 1 Market street.

This is not a book of travels, but a book evolved from newspaper articles and letters to friends written while the author made a tour in Europe, and spent a goodly portion of the time in Hungary. The book is not given to descriptions or statistics, but tells us the little personal incidents of every-day life in the most natural manner, even to "hooking" rolls at Andermott, and the Sabbath-breaking on the island near Buda-pest, as it is now called, but which we have always known as Pe-th. It is an unpretentious volume, full of timely hints for tourists, but its best side is the good-natured recital of happily-enjoyed incidents in the beaten paths, over which however much we have travelled in books or in diligence, we always re-enjoy at every recollection.

New Hampshire Items.

Eratus W. Morrill of Kingston was found dead on the bank of the river near Boston bridge in Epping on the 9th inst. Two rum bottles on his person told the story of his death. He was last seen two weeks before, and had probably been dead a week. Coroner Gould was summoned by the authorities, and pronounced his death the result of exposure. He was about thirty-six years old, and of intemperate habits.

In Philadelphia, Pa., on the 8th inst., three sisters, — Mrs. Sarah Watson, a widow aged fifty-two years, Mrs. Cynthia Winsmore, aged fifty-eight, and Mrs. Elizabeth Smith, aged fifty-six,—all died within a half-hour. Mrs. Winsmore and Mrs. Watson lived in the same house; Mrs. Watson fell to the floor, and died in ten minutes, and a few moments later Mrs. Winsmore died in a similar manner. The third sister was sent for, and on arriving at the house she also fell dead. The first two died of heart disease, and the third of apoplexy; there is no suspicion of foul play.

It will be two hundred and fifty years next summer since the first church edifice was built in Dover. The First Parish church will celebrate the anniversary in a becoming manner, and it is anticipated that the state association will join in the memorial service.

On Friday, March 31st, a thirteen-years-old child of Henry Wilkinson of Rochester died of diphtheria. Friday forenoon, April 7th, a child eleven years old died of the same disease, and a child five years old died that night; two other children, one four years old and the other an infant, were not expected to live.

H. W. McQuesten's farm-house at Litchfield was burned Sunday evening; loss $3500; insurance $1600.

AUCTION SALE
— OF —
REAL ESTATE
IN GREENLAND, N. H.

THE Undersigned, executor of the last will and testament of Moses Mann, late of Greenland, in County of Rockingham, deceased, by virtue of the power given to him in said will and testament, will sell at Public Auction on

Tuesday, April 25th,

At 11 o'clock in the forenoon, on the premises,

A certain lot of land with the dwelling house thereon, situated on the road leading from "Greenland Parade" to Hampton, nearly opposite the homestead of said Moses Mann, and containing about eighteen acres.

Three acres of said land are tillage, the remainder pasture land; the same will be sold with the buildings in one lot; or the buildings with the three acres of tillage land will be sold together, and the pasture land separately, as may best suit purchasers.

The house on said lot is a two-story building, measuring eighteen by thirty-six ft.

ALSO, AT 12:30 P. M.,

The subscriber will sell on the premises, one common and undivided half of a pasture situated on Winnecut Road in said Greenland, containing one hundred acres, more or less, and owned by said Mann, in common with Horace and Charles Whidden.

This tract of land has running water the entire year, and is regarded as the best and most valuable pasture in this vicinity.

The interest of the said Whiddens in said pasture will also be sold at the same time and place, if desired.

THE
Mutual Life Insurance Co.
of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2500 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. WOMAN'S TEMPERANCE LEAGUE.

At the regular meeting of the Woman's Temperance League, held on Thursday afternoon, April 6th, the following officers were elected for the ensuing quarter:

President, Mrs. D. H. Spinney;
Vice President, Mrs. A. W. Haven;
Recording Secretary, Mrs. R. D. Smart;
Treasurer, Miss H. Candage;
Ass't Treasurer, Mrs. S. J. Huse;
Chaplain, Mrs. S. Philbrick;
Cor. Sec'y, Mrs. S. M. Deverson.

POLICE COURT.

MONDAY, Apr. 10; *Batchelder, J.*

The hearing in the case of George E. Lane, late treasurer of Rockingham county, on a charge of embezzlement, (case continued from Saturday,) was heard in the forenoon.

Sheriff Kent testified that he received one day in March a telegram from Boston, asking him to meet Mr. Lane at the Eastern railroad station in this city at a specified hour; that he did so, and on the way from the station to the sheriff's residence Mr. Lane stated that he owed $63,000, had but $20,000 to pay it with, and that he owed the county $20,000. Mr. Lane asked to see the county commissioners, who were in session in Portsmouth on that day, and they were sent for.

Messrs. Burley and Underhill, of the board of county commissioners, testified that they had an interview at Sheriff Kent's house with Mr. Lane, who told them he owed the county $20,000, and if called upon that day to pay it he could not respond to the demand.

Winthrop N. Dow, one of the county auditors, (now treasurer, by appointment of the supreme court,) testified to examining the county accounts, and finding the amount due the county from Mr. Lane on the 29th of March to be $20,976.51, which sum had since been paid by Mr. Lane without a demand being made upon him for the payment.

There being no evidence to sustain the charge, the case was dismissed on its merits. County Solicitor Harriman for the state; Page of Portsmouth for Lane.

John Cummings, for drunkenness, was assessed $9.90, fine and costs, which he paid.

Patrick Quinland, for drunkenness, was fined $3, costs $6.90.

PARISH MEETING.

The annual meeting of St. John's (Episcopal) parish was held on Monday, and officers elected as follows:

Moderator, Lyman D. Spaulding;
Parish Clerk, Wm. C. Robinson;
Wardens, Lyman D. Spalding, David B. Macomb;
Vestrymen, Christopher C. Jackson, John Christie, W. Freeman, Daniel L. Stover, George B. French, A. O. Larkin, John H. Slater, James Cunningham;
Auditors, William R. Martin, James Cunningham;
Delegates to Diocesan Convention, John Hatch, C. C. Jackson, D. B. Macomb and John Christie.

The appropriations were continued the same as last year.

AROUND HOME.

The south pond has been receiving a good washing out for some weeks past, the tide being allowed to ebb and flow freely, the gates being lashed open. There has been no such trouble with the pond during the past winter as there was the winter before, when the water became so foul as to kill all the eels in the pond, the fumes from it turning to a dirty mud-color the paint on all the buildings and fences in its vicinity, and making sick the dwellers on the pond's borders, while the gates could not be opened on account of the "taking off" of the tides and the increased height of the water in the pond from the large inflow of rain water. This trouble can never occur again, as each of the flood gates last fall had a hole about two feet square cut through it, and fitted with a small gate raised or lowered by a screw, thus enabling the pond to be emptied at any time, even though the main gates should be firmly closed by ice.

Several teams were last week engaged in hauling ice (previously cut and stacked) from Foye's pond in Rye to the Eldredge brewery in this city, from which it appears that the crop from the brewery ice-pond last winter was insufficient for the needs of the establishment.

The farmers at Sandy beach, Rye, gathered large amounts of seaweed after the storms of last week and the week before.

Mr. John Hodgdon was stricken with paralysis while going to the fire on Sunday night; he was taken to his home in a carriage, and up to Monday evening had not recovered consciousness.

Col. Sise steamer, No. 2, although she promptly arrived at the fire on Sunday night, was unable to render any aid owing to an accident to the suction hose.

A Kittery gentleman last week reported that while riding past the Rogers cemetery in that town he saw a brown bear in the enclosure, and ladies have since been afraid to visit the cemetery.

Mr. Thomas S. Gay, who went to Japan in the ship Grandee in search of health, and at one time proposed returning by steamer, will come back in the ship. His health is greatly improved.

Trouble is reported in the Methodist Episcopal church of this city, but as we know nothing of the merits of the question on either side we decline to give the statements of either.

The statement of "Ex-Fireman" in a recent issue of this paper, that the hose carriages and hook and ladder truck would reach fires sooner if hauled by hand than by horses, was corroborated at the fire on Sunday evening, when the hook and ladder truck, which is dependant on a horse for motive power, did not cross Market square on the way to the fire until the North church bell had ceased ringing, between fifteen and twenty minutes after the alarm was first sounded; and did not get to the fire until the hose carriages, hauled by men, had been there long enough to lay the hose and let the engines play, which they had been doing some time before the ladder truck arrived. EX-FIREMAN.

South Berwick has an ancient house owned by W. P. Parsons. Papers have recently been found that show it to have been built by Judge Benjamin Hill in 1706, making it 176 years old. It was formerly a "garrison house," and the walls still show traces of the old loop-holes for musketry.

Adolph Girard, foreman of the making-room, and Louis Trask, foreman of the cutters at the Portsmouth Shoe factory, on Saturday, the 8th inst., tendered their resignations to Mr. Whitcomb, president of the company; they will go with Mr. Knights, late superintendent of the Portsmouth factory, to Lawrence's factory at Lynn, Mass., where Mr. Knights will have charge, as formerly. All these gentlemen are first-class workmen, and thoroughly reliable men, and the Lynn manufacturer is fortunate in securing their services.

The schooner Laura T. Chester, which went on Hicks' rocks, off Kittery Point, last week, having been relieved of her cargo and filled with empty barrels was hauled off the rocks and towed to Newcastle by a tug, and beached near Curtis' wharf.

A turkey buzzard measuring six feet from tip to tip of the wings is reported as having been shot in Hampton Falls a few days ago.

Conductor Dame of the Eastern railroad was born under a lucky planet, says the Salem *Gazette*. Besides the $1000 drawn at the Lynn fair, he had previously drawn a gold watch, a gold-mounted harness, a writing-desk and a lantern.

It is currently reported in Biddeford that the Old Orchard Junction railroad, which now runs from the beach to the line of the Eastern railroad, connecting with the latter road about three miles from the station in Biddeford, is to be extended up Saco river, touching at Bar Mills, Saimon Falls, Moderation, Nason's Mills and Limerick.

Conductor Weymouth, of the Boston & Maine railroad, who was injured in the bridge disaster at Cole's Corner, Wells, is still suffering from the effects of that accident.

The South Berwick correspondent of the Biddeford *Journal* says: "A paragraph has been going the rounds of the papers stating that Mr. Daniel A. Hatch of this town recently fell from the cars at Portsmouth, N. H., and broke one of his legs, and your correspondent has been appealed to for the truth of the report. Mr. Hatch is a veteran of the 16th Massachusetts regiment, and served during the war with great bravery. At the battle of Gettysburg he was shot in the leg, and the wound was so bad that amputation followed, and in due time a wooden leg was substituted for the natural one. It was this wooden leg that Mr. Hatch had the misfortune to break at Portsmouth."

Charles H. Swasey of South Berwick, for several years past station agent and telegraph operator for the Eastern railroad at Wells Depot, has resigned.

James Hilton of Wells is ninety-two years old, and is a wonderfully-preserved man. He reads fine newspaper print, and writes his name in a clear, plain hand, without the aid of glasses. Can take an eight-mile walk with ease; can get in and out of a carriage as nimbly as a man of forty; has been a user of tobacco about seventy-five years, and when remonstrated with for its use, says he has used it for a number of years and it has not killed him yet. He can hear readily, and has a good memory.—*Portland Argus.*

Oak Hall Agency in Portsmouth.

Messrs. G. W. Simmons & Son, of Oak Hall, Boston, have established an agency for this city and vicinity for the sale of their custom and ready made men's and boys' clothing, at No. 33 Market street, Portsmouth, where anything contained at Oak Hall, Boston, can be procured, at the same prices as in Boston. Several dollars can be saved by buying your own and your children's clothing at the Oak Hall Agency, as they sell at the lowest prices in New England.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjan82

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. Freeman.)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

Daniel Webster; a Personal Recollection.

It was a memorable day in Franklin—the return of Mr. Webster from his visit to Great Britain. It was to be made the occasion for a public holiday; his fellow-townspeople being anxious to welcome him to the scenes of his youth.

Charlie, his nephew and our friend, took us into his two-horse wagon, and, in great glee, we rolled out of Boscawen and into Franklin. On the route, and after our arrival, we saw hundreds of teams and vehicles coming in, and each with its load of well-dressed men and boys, and women and girls, in their best bibs and tuckers.

The place of gathering was an open grove of scrub-oaks, not much shaded, but very suitable for a picnic. Around its were the everlasting hills, and all it lacked was the beautiful lake or river. There were two long parallel rough pine tables, united at their heads by a short one extending across. These were covered with cheap new muslin, and, already, decked with plates, knives and flowers. In two or three booths close by, and at fires in the open air, the volunteer cooks were busy in their benevolent preparations, under the wide-open eyes and watering mouths of numerous girls and boys, already eager for the fry.

The salutations of the country people were good to see. Laboring hard, year in and year out, the men in farming and sheep-raising, and the women at housework and dairy care,—so hard, indeed, as to make them thin in flesh, and prematurely bent,—the holiday was a welcome respite. They rarely afforded themselves time to meet each other in a joyous, jovial way.

They were proud of the Websters. Ancesters of the family had lived in New Hampshire ever since 1637. Ezekiel Webster, the lion-hearted giant, father of Daniel, was fresh in the memory of the old folks—a man that all the people delighted to honor for his personal bravery and public services, although not an educated person, but a plain, hard-working farmer.

Of course, they all wanted to look once more upon his famous son, who had "growed right up among them, and ploughed, and sowed, and made hay like other farmers' boys," but was now the pride of the Universal Yankee Nation, and the honored friend of the lords and ladies of England, and even of royalty itself. Many of these farmers and their wives shook Mr. Webster's hand, almost reverentially, but the most of them were smiling and cordial. One very old dame addressed him simply, "Why, Daniel, haow dew ye dew?" She had known him when he was a baby. He was very respectful and kind to her, and all of the old people, but the young, rising generation seemed to delight him most. It was a right generous welcome all round.

It had been given out, I cannot say on what authority, that there was to be a fish-chowder, and Mr. Webster was to make it. Could it be possible that this demi-god, the arbiter between nations, and the "Defender of the Constitution," would consent to descend, like Jupiter from his empyrean, to make a chowder for them? The idea took the fancy of the assembled people, simple as it was, and many were quite jubilant thereat. It had come to be pretty well known throughout New England that on the seacoast of the Old Bay State he was skillful, not only at hauling in cod and haddock, but at cooking them during his excursions with his fisherman, Peterson; and chowder was his masterpiece, second only to his "Reply to Hayne of South Carolina."

When we were all seated at the tables, it was not much unlike a scene I once saw in Crawfordville, Georgia, a "barbecue," whereat "Bob Toombs" and Alex. H. Stephens were to "pitch into" the once notorious political firm of "Cooper, Colquit, and Black." At the head-table, crossing the others, sat Daniel Webster, Prof. Moses Stuart, and the selectmen. Stuart either presided, or was toastmaster, and, besides, he asked a very long blessing.

"Did *you* see Daniel Webster stir the chaowder?" I heard some one, near by me, inquire, in a low tone. "I did!" several young voices responded.

The brilliant attack on the well-laden tables having subsided into a mere guerrilla-skirmish, kept up by the boys who seemed to have been hollow away down to their knees, Prof. Stuart rapped on the board, and, stating that Mr. Webster's old Franklin and Boscawen friends and neighbors were delighted to see him, and very desirous to hear his views upon the political condition of the country, further delivered himself of an appropriate toast, and sat down. The distinguished guest accordingly rose slowly to the full majesty of his kingly presence, and spoke from forty to fifty minutes upon the political situation, including the tariff and finances. It was heavy and dull; the themes being well-worn, and his opinions a repetition of former utterances. What we had wanted to hear was a review of his recent visit to Great Britain, and his notes upon the agriculture and industries of England and Scotland, where he had passed six months or more, mainly among the farmers and large landed proprietors, several of whom were noble lords.

However, later on, we were more than compensated for this disappointment, Charlie taking us to his uncle's house.

We found the tired statesman sitting alone in a room on the lower floor, on the shady side of the house, inhaling the air and the scent of a flowering vine which adorned a trellis over the open doorway.

Our cicerone was a much greater favorite with his great kinsman than he would have been if a very proper youth, and our little party of four or five met with a kind reception. Still our hearts were in our throats, until in a few moments a colored boy with a tray, on which were some glasses of light wine, came in, and, at the invitation of the Defender of the Constitution, we helped ourselves and breathed more freely.

After some few words with his nephew about the folks at home, Mr. Webster gave his attention to us, and we succeeded in leading him to give a full statement of his impressions of England and Scotland. It was a treat, never to be forgotten. Evidently he enjoyed his audience. Had we been older and well-informed people, he would not have liked it half as well. We were lads, eager to learn, and manifestly his admirers, and he, whose catarrhal trouble often made him "grouty" to his equals in society, was glad to pour

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In flesh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpe, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.*

Its success is owing, not to fashion, but to its intrinsic merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. Unlike most *medicines,* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

Revolution in Hayti.

Advices from Cape Haytien, Hayti, state that a revolution broke out there against President Salomon on March 26th. When the German steamer Barussia left that harbor, forty-eight hours later, the insurgents had the upper hands. Gonaives responded to the movement on the 28th and Port au Prince on the 29th. Martial law had been proclaimed, and President Salomon was preparing to march to Cape Haytien with 3,000 men. Two war steamers had been sent to Cape Haytien and Gonaives.

Crowding the Mourners.

Such objections were raised to laying the body of the widow of a Wesleyan minister beside that of her husband in the consecrated portion of the parochial burial-ground at Helmsley, England, that the effort was finally abandoned. On the day of the funeral, as the mourners were about to enter the churchyard by the main gateway, they were warned away and ordered to use a meaner entrance. This order was given by the vicar because "the passing of nonconformist funerals over consecrated ground" might wound the feelings of church people. There is some satisfaction in knowing that the vicar of Helmsley will one day ascertain what the Almighty thinks of such bigotry.

The answer of the postmaster general to the house resolution enquiring why letters addressed to the Louisana Lottery company were not excluded from the mails, states that the evidence of the governor and all the state officers of Louisiana is that the lottery is a legally established institution, and as such is entitled to mail service.

"When I publicly testified that I had been cured of a terrible skin humor by Cuticura Remedies, I did so that others might be cured, and do not regret the time given to answering inquiries."—Hon. Wm. Taylor, Boston.

Rev. L. Hamilton of the Independent church at Oakland, California, died last Sunday morning in the pulpit during the sermon.

Catarrh.

Relief in five minutes in every case; gratifying, wholesome relief beyond a money value. Cure begins from first application, and is rapid, radical and permanent. Ask for Sanford's Radical Cure. Complete for $1.

—"When I came to town," said a rich broker, "I hadn't a penny of my own." "And have you now, sir?" asked a quiet-faced man in the far corner of the room. The broker didn't answer the question. Perhaps he didn't hear it. Possibly it was a pain in the stomach that drew his face down so suddenly.

This is indeed an enlightened age, and yet there are thousands of people ignorant of the fact that a slight cold neglected often terminates in consumption. Adamson's Botanic Balsam cures coughs and colds as by magic. Trial size, 10 cts. Larger bottles, 75 cts.

—A Scotch woman in humble life was asked one day on her way back from church whether she had understood the sermon, a stranger having preached. "Wud I hae the presumption!" was her simple and contented answer.

Persons recovering from wasting diseases, such as malaria, fevers, etc., will be greatly benefitted by the use of Brown's Iron Bitters, a true tonic.

Richard Grant White's third paper on "Opera in New York" will be one of the prominent illustrated articles of the May "Century," which will contain also a profusely illustrated paper on "The Canadian Mecca" (Ste. Anne de Beaupre) by W. G. Beers. Mrs. Mitchell's richly illustrated essay on "The Hellenic Age of Sculpture," and a paper on "George Inness," by Henry Eckford, illustrated by several of the finest engravings of landscape yet seen in the magazine.

By far the best remedy for the treatment of catarrh and its kindred diseases is Ely's Cream Balm, which is having the largest sales with us of any preparation now offered. The reports are all favorable, and we do not hesitate to endorse it as superior to any and all other articles in the market. The Balm is pleasant and easy to use. CYRUS LAWALL & SON, Druggists, Easton, Pa.

We have heard only words of praise for Ely's Cream Balm from many who are using it. One of our customers who has had catarrh for over forty years, says it has helped him more than anything he has ever used—after trying everything else. We can recommend it for catarrh, hay fever, etc., knowing that the results produced will be satisfactory. CHRISTINE & BODINE, Druggists, Trenton, N. J. Feb. 28, 1881.

Mr. Charles T. Libby of Scarboro, Me., has prepared and published an interesting and well arranged history of the Libby family in America, beginning at the birth, 1602, of John Libby, the pioneer immigrant of this family from England, and tracing the genealogy of his descendants in this country down to 1881.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Eleven mills and factories have been stopped at Janesville, Wis., by the breaking of the Rock river dam.

A Big Steal.

The house of Vogel & Co., of Hong Kong, has for some years done a large business in shipping hemp, silk and other costly mechandise to England, France and America, on the orders of merchants in those countries. Very recently the English and French consignees of the firm received several cargoes of cheap fourth-rate silks in place of first class goods which had been ordered and paid for. Hardly had an investigation been begun when the arrival of the ship Richard Robinson in New York on Saturday last, with a cargo from the same house, exposed an extensive fraud of the same nature. Several New York and Boston firms received consignments of hemp, as they supposed, by the vessel. They had sent letters of credit and purchased through banking houses, as is customary in the China trade, a large quantity of hemp, worth nearly $30 per bale. On opening the cargo on Saturday it was found to consist principally of Canton matting, worth less than $5 per bale. Meanwhile, steps to apprehend the head of the house at Hong Kong, by means of cable orders to arrest him, resulted in the receipt of a despatch saying that he had sailed on the last steamer, probably for France. Detectives in the latter country endeavored to find him at the time he was expected to arrive. But he has been traced, it is believed, to Italy. His capture is well nigh despaired of, although pursuit is being made as rapidly as possible. The entire amount of Vogel & Co.'s stealings is not yet known, but it is said to be more than $500,000, that amount being already reported.

News and Notes.

Commodore John Lenthall, ex-chief of the bureau of construction and repair of the navy, dropped dead in Washington on the 11th inst. He was retired in 1871.

Two Chinamen were baptised last Sunday by Rev. Dr. Grigg of the Reformed Presbyterian church in New York city.

The schooner Mystic, of Gloucester, Mass., has stocked $17,576.44 in the haddock fishery since Aug. 26th, 1881, her crew sharing $668.18 per man. This is said to be the best stock ever made in one season's haddocking.

The schooner Forest Maid, Post master, went into Newburyport harbor on Sunday evening, the 9th inst., with 11,200 pounds of cod, the result of twenty-four hours' fishing. The fare, which was by far the best one landed at that port this season, was sold at $2 per hundred weight.

The Chicago *Times*, which has had a special correspondent in Missouri to investigate the particulars of the Jesse James shooting, published a letter Monday containing interviews with a number of Missourians who knew James, and who all persist in the belief that it was not Jesse James who was killed.

At Washington, on the 10th inst., Judge Wylie decided that the indictments against Dorsey, Brady and others charged with star route frauds, were good, and the defendants were ordered to plead. W. A. Dorsey being absent his recognizance was declared forfeited, and a warrant was issued for his arrest.

The Central mill of the Pacific company at Lawrence, Mass., started up on Monday morning, but of the striking weavers only three went in. About 500 looms were in operation during the day. The strikers generally continued firm, but the mill managers expected to secure all the help wanted in a few days.

Mrs. Joseph Williams of West Newbury, Mass., fifty years old, died last Sunday from the effects of burns caused by attempting to extinguish a fire near her residence on Saturday forenoon, when her clothes caught fire.

Rev. Lorenzo Barber, who was killed by the accidental discharge of his gun at Riskayuna, N. Y., was known throughout the country as the "fighting chaplain" of Berdan's sharpshooters during the rebellion.

St. Stephen's church at Winooski, Vt., was struck by lightning during a shower on the 6th inst., and considerably damaged.

Mr. Parnell, the Land League leader, was released from the jail at Kilmainham, Ireland, on the evening of April 10th, and at once started for England. He was released on parole for one week, to enable him to attend the funeral of his nephew.

The democratic papers are using up a great deal of valuable space in endeavoring to show that Hon. Wm. E. Chandler does not amount to much.

A despatch from St. Petersburg, Russia, says that some whalers report seeing a boat containing dead bodies at Herald island, and loose objects with the name "Jeannette" upon them. This is probably only a renewal of a similar report made months ago, and subsequently shown to be unfounded.

Before the New York east conference at Waterbury, Conn., on Saturday, Rev. William F. Thomas, a superannuated clergyman of Middleton, Conn., was accused of keeping impure books in his circulating library, and of using indelicate language to young girls. The committee heard the case in secret session.

At Chicago, on the 10th inst., Mrs. Scoville filed in court a petition to be appointed conservator of the estate and person of Guiteau, and the question of his insanity will be tried there. The official document embraces 800 words.

A despatch from Eau Claire, Wis., says an unknown person fired a shot-gun through the window of the dwelling of Horace Jones, in the town of Union. The shot took effect on Jones, his wife and a domestic, probably fatally injuring them.

A Paris despatch says that an English nobleman, husband of an American lady, has eloped with the wife of a Spanish nobleman from that city.

AROUND HOME.

Mr. John Hodgdon, who was stricken with paralysis Sunday night, died about midnight on Tuesday.

One of the strange "tile fish" that were noticed in such numbers floating on the water off Georges banks recently, can be seen at C. Sullivan & Co.'s fish market, corner of Bow and Penhallow streets.

The schooner Hattie Lewis, Capt. Brewster, arrived at Portsmouth bridge on Tuesday, bound to Boston with a load of bricks from Abbott's brickyard in Eliot. The schooner Satellite, Adderton master, was also at the bridge, bound to Salem with a cargo from Pinkham's brickyard at Dover point; and the Mystery, for Boston with bricks from John Mathes' yard, Eliot.

There will be no preaching in the Methodist church until after the meeting of the conference, which will occur in Lawrence, Mass., on the 19th inst. The Sunday school and social meetings will be held as usual.

The Newington folk had a social gathering at the town hall on Friday evening, (Fast night,) there being a large number present. Supper was served at nine o'clock, after which all enjoyed themselves in dancing, etc., until midnight, when the assembly broke up. This was probably the last of a large number of such gatherings that have been held during the winter and spring, and have proved extremely popular and enjoyable; but it is possible another may come off this week.

The school house and town hall of Newington are receiving a fresh coat of paint, to the great improvement of their appearance.

The street sprinkler was around on Tuesday afternoon, for the first time this year.

John L. Laskey and Mark Jenkins have been drawn as jurors from ward four.

In the window of Montgomery's music and art store can be seen for a few days a large oil painting by Thomas Hill, the subject being the famous "Garden of the Gods" in Colorado. This picture was brought from California by E. H. Winchester, Esq., on his return from his recent visit to that state.

Gospel meetings will be held at Bow Mission hall, commencing Wednesday evening, April 12th, to be continued each evening as the Lord may direct. ***

Capt. Talpey, late of the schooner Clara E. Simpson, who has been very ill for some months at his home in Cape Neddick, York, is convalescing, but will not resume command of his vessel, at least for the present. Capt. Joseph Swett of Cape Neddick, formerly master of the schooner John Lenthall, will take charge of the Clara E. Simpson, relieving Capt. Eaton, formerly of the schooner Active, who has been in command of the Clara E. Simpson since Capt. Talpey was compelled to lie up.

Mr. Charles H. Cole, of Eliot, will leave for Wolfeborough immediately, to caulk the steamer Mayflower, which has been repaired during the past winter by mechanics from Lake Village.

Capt. U. Allen Sawyer of Kittery Point, formerly master of the schooner Jesse Williamson, Jr., has gone to New York to take charge of a schooner owned by the Rackett Brothers, owners of the schooner Cocheco.—*Times.*

Sheep and Lamb Skins $1 to $1 75 each.

The supply of cattle brought in from the west for the past week has been the highest of that of several months past. There were but a few brought in for shipment to foreign ports, most of them being bought up by butchers at an advance of fully 1-4c per lb over those paid one week ago, on account of the high prices butchers did not buy so freely as usual, many of them preferring to buy good northern and eastern beef cattle, of which there was a good supply brought into the Watertown market, some of them being very nice beeves, selling at 9 to 10c per lb dressed weight.

Working Oxen have been in fair demand for several weeks past. We notes sales of 1 pr, girth 7 ft 3 in, live weight 2700 lbs, at $170; 1 pr, girth 6 ft 4 in, live weight 2460 lbs, $125; 1 pr, girth 6 ft 7 in, live weight, 2760 lbs, $134; 1 pr, girth 7 ft live weight 3000 lbs, $155; 2 prs, girth 6 ft 8 in, live weight 2880 lbs, at $125 to $135.

Milch Cows—Extra $55 to $75; ordinary $30 to $50; springers $22 to $65 per head. We note sales of 4 springers at $36 each; 2 do at $28 each; 3 cows and calves at $30 each; 1 Jersey at $50; 2 new milch cows $40 each.

Veal Calves are in good demand at 4 to 6 1-2c per lb live weight.

Sheep and Lambs—Those from the west were owned by butchers and most of them were taken direct to the slaughter houses from the cars. Western sheep cost 1-4c higher than last week, costing, landed at Brighton, from 6 1-2 to 7 3-4c per lb live weight, lambs from 7 3-4 to 8 1-4c per lb live weight.

Swine—Prices for western fat hogs remain unchanged from those one week ago, all owned by butchers. Store pigs sell at 6 to 8c per lb live weight or from $5 to $5 50 per head for suckling pigs.

THE
Mutual Life Insurance Co.
of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2000 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00.—*not assessable.* This is a stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. BRILLIANT PROSPECTS.

The *Economist* of last Saturday talked of the Eastern railroad, its present business and its future prospects, in the following style:

To the thoughtful and impartial observer, scanning the route of the Eastern railroad, its branches and connections, its capabilities and possibilities assume vastly proportions than the ordinary mind is apt to discern. Although enjoying a larger patronage in freight and passenger business during the past year, than at any time since the war, yet, large as it has been, the figures are small as compared to what they would be, provided the absolutely needed expenditure could be made for increasing in freighting facilities at its various points of shipment. For reasons well known to the public and regretfully known to its management, necessarily short sidings, limited storage facilities, and many other drawbacks have had to be borne to await such action as the future financial strength of the corporation might permit. Should the present legislature grant the necessary legislation now sought,—to enable its earnest supporters to realize an amount of increased capital to be applied to the development of better facilities in its freighting department,—there would be such an increase in the business of the road as its most sanguine friends have never yet contemplated.

Not only is this true of the freighting but of the passenger department as well. Let there be expended such as a sum as may be necessary to bring into direct communication with the main line the magnificent seashore summer resorts along the coast from Boston to Portland, and we shall see such an increase in the present almost worthless seashore property as but few could fully realize, and such vastly increased number of summer tourists along its route as never before seen, sending thrift and prosperity into those sections where is now scarcely more than a barren waste.

Notably is this true of the contemplated construction of the Newburyport & Portsmouth seashore line, which, if built, would inevitably result in an enhancement of value in real estate on its line to an extent abundantly guaranteeing the cost of its construction. It would not be at all unreasonable to affirm that the opening up of the Newburyport & Portsmouth route would render the stock of the Eastern road stronger by far than any other possible means that could be devised for its advancement. The absolute needs of improved freighting and passenger facilities, here in Boston as well as at other important points on its line, if properly met, would all increase the business of this road to fully double that of any period in its history.

We hope that after reading the above no citizen of Portsmouth will be so unpatriotic as to object to the passing of the proposed new railroad through his front yard or garden.

A CORRECTION.

Mr. Editor: "The Truth of History" demands correction of an error in an article copied by you from the New York *Observer*; it is therein stated that "Mr. John Wentworth—long John—was a farmer for Daniel Webster"—an utter mistake; Mr. Wentworth never farmed for anyone except himself, and at the time referred to had been five years a resident of Chicago. W.

THE BANKER'S DAUGHTER.

Bronson Howard's famous "society drama," the "Banker's Daughter," is advertised to be presented in Music hall on Tuesday evening of next week by the Union Square Theatre Co., of New York. Concerning this company the Buffalo (N. Y.) *Courier* says:

The company that presented this drama to a large audience in Buffalo last evening was exceptionally artistic. Indeed, with one exception, there was no part that suggested to our rather uncritical mind possibility of improvement. Miss Adele Belgrade is just our ideal "Lilian." Joseph Whiting's "John Strebelow," Chas. Walcot's "Phipps," W. S. Dabolt's "Count," E. L. Tilton's "Westbrook," Archie Cowper's "Routeledge," Mrs. Walcot's "Mrs. Brown," Rose Graham's "Mrs. Holcombe," and Little Georgia's "Natalia," we must hand over to the metropolitan critics, who can ever find something to condemn. These characters were sustained throughout the evening in a manner that seemed to us natural; and while there are a great many things in histrionic art that we never heard of, we do claim, as a right which no dramatic critic can lay better claim to, that we know an easy, natural-appearing man when we see him, as well on the stage as in the drawing room. A play that presents only drawing room scenes is, therefore, as likely to be justly criticised by one who knows natural ease as by one who knows what constitutes imitation of ease. We who know little of the reason are as likely to know when a star shines brightly as the most scientific stage astronomer who knows all the causes of the glittering. Hence, we assume the right to say, the Collier combination is a constellation—a "big dipper" composed of nine stars, longer of handle than is usually seen. The mounting of the play was the best, by all odds, that we have ever seen on the stage here, and every time the curtain went up on a new scene the audience cheered loudly. The scenery the company carries is very attractive.

FUNERALS.

The funeral of the late John Stavers occurred on Monday afternoon at five o'clock, at the North church. Prayer was offered by Rev. Mr. McGinley at the residence of the deceased, whence the remains were taken to the church. The pall bearers were Ex-Gov. Goodwin, David Kimball, and Deacons John Knowlton and E. P. Kimball of the North church. There was a large assemblage of the friends of the deceased gathered at the spot where he had so long worshipped. A choir of six male singers supplied the music. The body was placed in a receiving tomb at the south cemetery.

The remains of Miss Ellen T. Pickett reached this city from Hartford, Conn., on Tuesday morning, in charge of W. R. Morgan, undertaker, of that city. Funeral services, conducted by Rev. W. A. McGinley, were held at the residence of William H. Hackett. The pall bearers at this service were John M. Hill and Isaac A. Hill, of Concord, and William H. Hackett and Joseph B. Upham, Jr., of this city. There were present relatives from Hartford, Conn., Boston, Concord, and Bradford, Vt.; and a large circle of friends in this city paid this last tribute of respect to a lady of most estimable character, who in a residence of many years in the family of her uncle (Washington Williams, deceased,) had won many friends, who had warmly appreciated her many good traits. Like Mr. Stavers, Miss Pickett for many years had been a constant attendant at the service of the North parish, and was always identified in hearty sympathy and material aid with the many good works and deeds which if not sounded abroad always accomplished much for parish and charitable purposes. The remains were interred in the Williams lot in the south cemetery.

SUPREME COURT--CARPENTER J.

TUESDAY, April 11th.

The April term of the supreme court opened at Exeter on Tuesday morning at ten o'clock, a large representation of the bar being present. Prayer was offered by Rev. B. I. McDaniels, pastor of the Unitarian society at Exeter. Judge Carpenter then delivered an elaborate and instructive charge to the grand jury, in which he explained the reason for the adoption of many of the customs and requirements of our law, tracing their origin to the common law of England. The following is a list of the grand jurors returned to serve at this term:

William H. Locke, Rye; Charles M. Dustin, Salem; Joseph S. Cook, Sandown; Charles S. Dow, Seabrook; Frederick B. French, South Hampton; Hollins Pease, South Newmarket; Charles W. Scott, Stratham; Joseph L. Cottle, Windham; Samuel B. Mason, Atkinson; John Davis, Auburn; Justin J. Bean, Brentwood; Jeremiah Brown, Candia; William C. Ela, Chester; Joseph Collins, Danville; William F. Chase, Deerfield; Stephen Reynolds, Derry; John L. Philbrick, East Kingston; William H. Tilton, Epping; John I. Towle, Exeter; Blake B. Lyford, Fremont; George W. Weeks, Greenland; Charles W. Pressy, Hampstead.

George W. Weeks, of Greenland, was appointed foreman, and the jury retired with the county solicitor to consider the criminal business to come before them. It is understood that there is not very much business to engage their attention this term.

Attorney General Tappan was in attendance, and the notorious case of the State vs. Edmund R. Ingalls, late town treasurer of Candia, indicted for defalcation, was assigned for trial on Tuesday, the 25th inst. It is expected that the trial of this case will occupy a week.

The following libels for divorce were heard by the court, decisions being reserved:

Mary J. Mathews vs. William H. Mathews; parties of Newmarket: cause, desertion; Kivel for libellant.

Nathan Norton vs. Phebe A. Norton; parties of Candia; cause, desertion; Patten for libellant.

Ellen F. Robbins vs. Harvey B. Robbins; parties of Nottingham; cause, habitual drunkenness; Hatch for libellant.

Sarah A. Watson vs. Frank H. R. Watson; parties of Seabrook; cause, desertion; Hoyt for libellant.

Cally F. Hoyt vs. William Hoyt; parties of Raymond. The libellee last fall strayed within the jurisdiction of the commonwealth of Massachusetts and committed larceny, and in consequence was apprehended, tried, and sentenced to be confined in the Massachusetts state prison for five years. Libellant prays for divorce under our statute which provides, among other causes, the conviction of either party of a crime punishable with imprisonment in the state prison for one year, counsel maintaining that it was immaterial where the crime was committed or the imprisonment imposed. Submitted. Hoyt for libellant.

The jury cases will be taken up on Wednesday morning, to commence with Wheeler vs. the Traders Insurance Co.

REAL ESTATE,
AT AUCTION.

UNDER license from the Court of Probate for this county, I shall sell at Public Auction on the Premises on

SATURDAY, the 22d day of April, at twelve o'clock noon,

The lot of land situate at the corner of Austin and Summer streets with the three story dwelling house and stable thereon, being the former mansion house of the late Joseph W. Pickering.

The lot measures one hundred feet on each street. The land is high and well drained, and the situation one of the most pleasant and eligible at the west end of the city.

Three-quarters held on trust, and one-quarter on fee will be sold together, making title to the entire estate. Further particulars of

WALLACE HACKETT,
Trustee under will of L. Pickering.

AUCTION SALE
— OF —
REAL ESTATE
IN GREENLAND, N. H.

THE Undersigned, executor of the last will and testament of Moses Mann, late of Greenland, in County of Rockingham, deceased, by virtue of the power given to him in said will and testament, will sell at Public Auction on,

Tuesday, April 25th,
At 11 o'clock in the forenoon, on the premises,

A certain lot of land with the dwelling house thereon, situated on the road leading from "Greenland Parade" to Hampton, nearly opposite the homestead of said Moses Mann, and containing about eighteen acres.

Three acres of said land are tillage, the remainder pasture land; the same will be sold with the buildings in one lot; or the buildings with the three acres of tillage land will be sold together, and the pasture land separately, as may best suit purchasers.

The house on said lot is a two-story building, measuring eighteen by thirty-six ft.

ALSO, AT 12:30 P. M.,

The subscriber will sell on the premises, one common and undivided half of a pasture situated on Winnacut Road in said Greenland, containing one hundred acres, more or less, and owned by said Mann, in common with Horace and Charles Whidden.

This tract of land has running water the entire year, and is regarded as the best and most valuable pasture in this vicinity.

The interest of the said Whiddens in said pasture will also be sold at the same time and place, if desired.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr. Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS

THE BEST AND The Richest **BLOOD, BRAIN and NERVE -F-O-O-D-**

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to their existence it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. This is once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

The Science of Life, or Self-Preservation, is the most extraordinary work on Physology ever published. There is nothing whatever that the married or single of either sex can either require or wish to know, but what is fully explained. In short, the book is invaluable to all who wish for good health.—*Toronto Globe.*

The book for young and middle aged men to read just now is the Science of Life, or Self-Preservation. It is worth many times its weight in gold.—*Medical Times.*

The author of the Science of Life is a noble benefactor. He reaches the very roots and vitals of disease, and is enabled to apply thorough remedies. The book already is read upon both continents by millions.—*London Lancet.*

The Gold and Jewelled Medal awarded the author of the Science of Life was fairly won and worthily bestowed.—*Massachusetts Ploughman.*

Thousands of extracts similar to the above could be taken from the leading journals—literary, political, religious and scientific—throughout the land.

The Book is guaranteed to be a better medical work, in every sense, than can be obtained elsewhere for double the price, or the money will be refunded in every instance.

Thousands of Copies are sold by mail, securely sealed and post-paid, to all parts of the world, every month, upon receipt of price, $1.25. Address

Observant Answered.

Ed. Chronicle: It is one thing to observe—and a good thing too—but one must consider as well as observe, or erroneous and unfair expressions of opinion may unwittingly be entertained and expressed. For instance: Your correspondent who reproved the N. H. S. P. C. A. in a communication to Monday's CHRONICLE, signed "Observant," affirmed that the society in its annual report neglected to say much in regard to the cruelty to "human beings" perpetrated by unscrupulous hucksters who buy sick and exhausted cattle to slaughter for food. Our friend has evidently been "Observant," and knows something about the abuse he so strongly condemns.

But just a little wise consideration of the subject on his part would have convinced him that the "Cruelty society" ought not to bear the blame of the evil he complains of. If the festering flesh of sick oxen is sold to the ignorant public by villainous hucksters as wholsome food it probably entails disease and suffering upon the abused consumers; but it is the duty of the state and municipal officers to enforce the sanitary laws. If offal which should go to Gehenna, or the rendering kettles of the soap boilers, is hawked about the streets of cities and towns and sold to the purchasers of cheap meat, it is an offence to which every "Observant" citizen should call the attention of the health committee, city physician, or both. They are appointed their offices for the express purpose of protecting the innocent people (men and women) from that species of cruelty. Scold them, Monsieur Observant, as much as they deserve for their dereliction in the performance of the one duty of their calling; but please remember that the S. P. C. A. is a voluntary association which works for nothing, and pays its own expenses.

Neither is it altogether neglectful of its duty in refer ence to the "point" not especially dwelt upon in the annual report. The cruel methods at present in use for the transportation of food producing animals was condemned in unmeasured terms. The efforts of the society are directed, mainly, to the prevention of the abuses that produce the diseased and maimed condition of cattle which makes their flesh so prejudicial to the public health. Humanely treated animals yield health giving food. Tortured creatures produce poisonous meat.

Cruelty to animals, is cruelty to human beings. S. P. C. A.

Stephen Harvey of "Great Hill," North Berwick, has a horse nine years old, which takes the girls to school a distance or more than a mile, in the morning, and goes for them at night without a driver. When the children hitch up the reins and send him away they tell him to turn out for the teams and be careful, and he obeys. It is still stranger that he will go from home alone, and although there is a rode branching off, which he is made to travel every day, and often several times a day, he goes direct to school and places the carriage close to the door-steps, and waits for the school "to break."—*Exchange.*

Fire Marshal James S. Thompson resides at 1209 Filbert street, Philadelphia, Pa., and concerning St. Jacobs Oil, he says: "A very troublesome attack of rheumatism in my forearm has been overcome by the aid of St. Jacobs Oil. I think that all persons who have to be exposed to the weather would act wisely in keeping St. Jacobs Oil on hand."

Louis Tessier, a wealthy horse dealer from Hartford, Conn., who sold nine well bred horses at Montreal last Friday for a large sum, was victimized out of a considerable portion of the proceeds that night in a house of ill-fame, the keeper of which has been arrested.

Ladies in delicate health or feeble children never fail to find relief by using "Wheat Bitters." All druggists keep them.

Mayor Low of Brooklyn, N. Y., officiated on the 8th inst at the marriage of Mr. Emil J. Koch of South Brooklyn, twenty-one years of age, to Miss Ella M. Fender, a resident of Boston, Mass., aged nineteen years. Mr. Allen, the mayor secretary, said that the mayor was getting tired of kissing brides, and therefore that customary proceeding was not carried into effect. The bride must have been awful homely.

Food for Young and Old.

Food and medicine for young and old, prepared without fermentation, from Canadian barley malt, hops, quinine, bark, etc. Malt Bitters are warranted more nourishing, strengthening, vitalizing and purifying, by reason of their richness in bone and muscle producing material, than all other forms of malt or medicine, while free from the objections urged against malt liquors.

Gen. W. L. Burt, formerly postmaster of Boston, was stricken with paralysis at his residence in Saratoga, N. Y., last Thursday evening. Gen. Burt has been a most untiring worker in whatever business he undertook, and his friends have frequently warned him of the penalty which he would have to pay for his negligence of the ordinary rules of health.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, aches, pains, sores, etc., it is the most *effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After four years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpe, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. Lunn, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest are the best friends.

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, hundreds of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines, it is perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

Failing!

That is what a great many people are doing. They don't know just what is the matter, but they have a combination of pains and aches, and each month they grow worse.

The only sure remedy yet found is BROWN'S IRON BITTERS, and this by rapid and thorough assimilation with the blood purifies and enriches it, and rich, strong blood flowing to every part of the system repairs the wasted tissues, drives out disease and gives health and strength.

This is why BROWN'S IRON BITTERS will cure kidney and liver diseases, consumption, rheumatism, neuralgia, dyspepsia, malaria, intermittent fevers, &c.

203 S. Paca St., Baltimore, Nov. 28, 1881.

I was a great sufferer from Dyspepsia, and for several weeks could eat nothing and was growing weaker every day. I tried Brown's Iron Bitters, and am happy to say I now have a good appetite, and am getting stronger.

JOS. MCCAWLEY.

BROWN'S IRON BITTERS is *not* a drink and does not contain whiskey. It is the only preparation of Iron that causes no injurious effects. Get the genuine. Don't be imposed on with imitations.

SULPHUR BITTERS

The Greatest Blood Purifier ON EARTH.

This Great German Medicine is composed of Yellow Dock, Mandrake, Gentian, Dandelion, Juniper Berries, etc., combined with the Extract of Sulphur, which makes it the Greatest Blood Purifier known. Do not even take BLUE PILLS or arsenic, they are deadly. Place your trust in SULPHUR BITTERS, the purest and best medicine ever made. Your Kidneys are out of order? Use SULPHUR BITTERS. If you are sick, no matter what ails you, use Sulphur Bitters! Don't wait until you are unable to walk, or are laid on your back, but get some at once, it will cure you. Sulphur Bitters is The Invalid's Friend. The young, the aged and tottering are soon made well by its use. Remember what you read here, it may save your life, it has saved hundreds. Don't wait until to-morrow, Try a Bottle To-Day! PRICE, ONE DOLLAR. A. P. Ordway & Co., Chemists, Sole Proprietors for U. S. and Canadas.

Is Your Tongue Coated with a yellow sticky substance? Is your breath foul and offensive? Your stomach is out of order. Use SULPHUR BITTERS immediately! It is your best friend. Urine thick, cloudy, ropy, or high-colored? IT IS Sulphur Bitters!

Dyspepsia? Dyspepsia? Dyspepsia?

SULPHUR PLASTERS cure pain, in the side, KAUFMANN'S PILLS do not gripe. 25 cents.

Hon. Reed Paige Clark died at his home farm in Londonderry, on Saturday, April 8th. He was born in Hancock, in 1807, and has been a citizen of Londonderry about fifty years. He at various times held offices of trust in his own town, representing it in the state legislature in 1856 and 1857. He was a member of the governor's council under the administration of Gov. Goodwin in 1860 and 1861, and for a time, at the beginning of the rebellion, discharged the duties of adjutant general. He leaves a son and a daughter.

The Manchester *Mirror* of the 10th inst. says: "The Amoskeag Veterans may pride themselves upon having in the ranks the champion short-range shooter of this country. Mr. H. G. Bixby, of Nashua, accomplished a feat with a rifle on Thursday last at Walnut Hill, near Boston, that eclipses anything of its kind on record. At a 200-yards' range he obtained a score of twenty-eight consecutive bulls-eye, which is eight points ahead of the best previous record, twenty bulls-eyes made in 1880 by Wm. Farrow. In addition, Mr. Bixby's score of ninety in the sharpshooters' match has never been beaten."

The Cocheco Manufacturing Co., at Dover, are considering the advisability of lighting their mills by electricity.

Wm. A. Cloutman, of Alexander, was arrested on the 10th inst. for an assault with a knife on John A. Smith, with intent to kill. He was held in $500 to appear.

In the supreme court at Concord, April 10th, Frank Leonard of Providence, R. I., was sent to the state prison for fifteen months, for stealing.

Col. Harry D. Pierce, of Hillsborough, son of the late Gov. Pierce and brother of the late President Pierce, died on Sunday, April 9th, aged about sixty years. He was a prominent temperance man, and formerly representative of the town.

Mrs. John G. Lutz died at Bridesburg, Pa., April 10th, of trichinosis.

Mr. Charles Lincoln, who has been engaged by the Massachusetts Kennel club to superintend its coming show, is reported as saying that this will unquestionably be the best of the kind that Boston has ever seen.

A series of three matches for 200 guineas each has been arranged in England between the American centre-board yacht Gleam and an unknown boat twenty-five feet in length, to take place between the 20th and 25th of May. The course is to be from the Ryde pier to Yarmouth, Isle of Wight, a distance of about twenty-five miles.

Senator R. Green Hays, of Louisville' Ky., thus refers to his experience: "St. Jacobs Oil cured me of a sprained back, accompanied by rheumatic pains. From what I understand, St. Jacobs Oil never fails to cure. It is wonderful in its action."

—Apropos of youthful prodigies who "improvise," *Le Temps* relates a story of Kalkbrenner's childhood, when one day he was to "improvise" in public, but after striking two or three chords he turned and said, with all simplicity: "Papa, I've forgotten the rest!"

A Valuable Addition.

Because it is beneficial to the scalp and adds to personal beauty by restoring color and lustre to gray or faded hair, is why Parker's Hair Balsam is such a popular dressing.

—A philosopher says: "The man who laughs is the sympathetic man." It is astonishing how many sympathizers a man has when he slips down and hurts himself.

Persons recovering from wasting diseases, such as malaria, fevers, etc., will be greatly benefitted by the use of Brown's Iron Bitters, a true tonic.

—A New Haven journal announces that at least one hundred families in that city get their preaching by telephonic connection with the churches. Perhaps they are lovers of a "sound" doctrine, and can secure it in no other manner.

How Often

We see some young man who has squandered his money and ruined his health by excesses, and before thirty years of age is an all broken down and played out man! In all such cases I prescribe nature's tonic and nervine, Sulphur Bitters. They supply food for the brain, strengthen the nerves, and are successful in nine cases out of ten.—*Old Physician.*

—If you will look in the nineteenth chapter of the Book of the Acts you will find that the "town clerk of Ephesus" was a man who never did anything rashly. Whenever you are asked to give a snap judgment just tell your questioner that you must consult with the "town clerk of Ephesus," and it will save you many a headache.—*Boston Star.*

Worth Remembering.

Now that good times are again upon us, it is worth remembering that no one can enjoy the pleasant surroundings if in bad health. There are hundreds of miserable people going about to-day with disordered stomach, liver or kidneys, when a bottle of Parker's Ginger Tonic would do them more good than all the medicines they have ever tried.

—How quickly we forget the rules of arithmetic as learned in school is shown in the fact that a prominent dry goods merchant in Boston worked half an hour on the following proposition, and failed to give an answer: If four men build a wall five feet high in four days, how long will it take six men to build a wall eight feet high in seven days.

Catarrh of the Bladder.

Stinging irritation, inflammation, all kidney and urinary complaints, cured by "Buchupaiba." $1. Depot, J. H. Thacher's.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats." 15c.

—When a man's hair grows long enough to cluster about his shoulders he either becomes a Texas scout or an Indian herb doctor.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Portsmouth Chronicle.

THURSDAY, APRIL 13, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

Naval Affairs.

The training ship Portsmouth arrived at Newport, R. I., on the 12th inst., having been detained on the passage from Norfolk by head winds.

A cable despatch received in Boston on the 12th inst. from London said it was reported in the latter city that the United States flag ship Richmond, en route from Panama to Yokohama, Japan, had foundered with all on board. Washington despatches of the 7th inst. reported the arrival of the Richmond at Yokohama on the 1st of March, all well.

The house naval affairs committee on the 11th inst. agreed to report favorably Mr. Morse's bill authorizing the sale of the Charlestown navy yard after appraisement by a commission composed of the commandant of the yard, the governor of Massachusetts, and the mayor of Boston.

News and Notes.

Mrs. Ida Smith, wife of Nicholas Smith, and eldest daughter of the late Horace Greeley, died on the 11th inst. of diphtheria.

Gov. Pitkin of Colorado has appointed George M. Chilicott of Pueblo to be United States senator to succeed Mr. Teller.

Guiteau sends the following to the press over his own signature: "Mrs. Frances M. Scoville, according to the newspaper reports, impudently filed a petition in Chicago for a conservator of my estate. The only estate I have is a copyright on my books, 'The Truth' and the 'Removal,' now in press. The absurdity of her pretension is apparent from the fact that I do not live in Illinois, and have not for nearly three years. Besides, I am not a lunatic. This was officially decided on at my trial. I have lived in Washington for over a year, and this is my legal residence. The court had better dismiss the petition peremptorily. The Scovilles are a nuisance, and I want nothing to do with them."

"Mrs. Mayburn's Twins," with her trials with them in the morning, noon, afternoon and evening of one day, by John Habberton, author of "Helen's Babies," has already passed to a second edition. The New York *Sun*, in an editorial notice of it, says, "it is a most interesting, wholesome, and instructive picture of certain phases of married life. We commend it to the thoughtful attention of all young husbands. No better book has been published this year, than 'Mrs. Mayburn's Twins,' by John Habberton. All wives should own it, and all husbands should profit by it. It is published by T. B. Peterson & Brothers, No. 306 Chestnut street, Philadelphia."

The long Black Canon of the Gunnison river, in Colorado, through which the Denver & Rio Grande railroad is to pass, is so narrow, and the walls so high, that the stars can be seen from its depths in the brightest day. In some places the walls are a mile in height, and scarcely more than forty or fifty feet apart. The engineers have zigzagged the line across the stream.

The cashier of the savings bank at Washington, Pa., is from $30,000 to $60,000 short in his accounts. He has been speculating in grain—with the bank's money.

The schools at Pottsville, Pa., have been closed on account of scarlet fever.

John Gottleib, a brakeman on the Erie railroad, recovered a verdict of $5,000 against the company at Newburg, N. Y., April 11th, for injuries sustained in an accident three years ago.

The centennial celebration of the discovery of the mouth of the Mississippi has been abandoned. Many people down that way just now wish that the unmanageable old stream had never been discovered.

THE HARRIMAN WILL CASE.

The hearing in this case was resumed in the probate court in Boston on Tuesday, the 11th inst., Gen. B. F. Butler appearing as counsel for the contestants of the will. Harriman, an old man, died somewhat suddenly at the Elm house in South Newmarket, kept by Ann Wiggin, and after his death a will was found leaving the bulk of his property to Ann Wiggin's brother, the probate of which will is opposed by Harriman's relatives. Ex-Gov. Gaston of Massachusetts is counsel for the heirs under the will.

On Tuesday, Lucian Pease of South Newmarket was the first witness put on by Gen. Butler. He testified to the general bad character of the Elm house and its inmates. The cross examination was very long and minute, and lasted until noon. On redirect examination the witness stated that the Elm house was visited by all classes of people.

Daniel C. Langdon was the next witness called. He stated that he had been a selectman of South Newmarket; knew of the Elm house, kept by Ann Wiggin; the reputation of this house had not been very good; liquor was sold there, and there were frequent disturbances; bad occasion to send police officers there nights and Sundays often when he was selectman; on one occasion the witness went to the Elm house at two o'clock in the morning to see about a disturbance there; Mrs. Wiggin stated that some persons had tried to come into the house, but were not allowed to, and thereupon broke the windows of the house; witness knew of several people who had died at the Elm house, and were buried at the expense of the town; should think the number of deaths there within his experience was about ten; people had complained to him of having been robbed at the house.

Mr. Gaston objected to the introduction of this testimony.

Gen. Butler said the case was just this: The defendant, Wiggin, claimed that he had taken this poor old man, Harriman, to a "quiet New England home," where he could be pleasantly surrounded. This was the Elm house, and he (Butler) proposed to show that there was a conspiracy between Wiggin and his sister, the keeper of the house, to rob the old gentleman. Therefore, he thought the evidence on the point in question was in order.

Judge McKim admitted the evidence, and the witness went on to state a case in which a man complained to him that he had lost $100 at the Elm house, and he had reason to know that Mrs. Wiggin had afterward returned that sum to him.

The case was not finished at the adjournment of the court.

Rev. Mr. Mellen of the Unitarian church of Dover will deliver the Memorial day address for the Grand Army post in that city.

H. F. Long has sued the city of Nashua for $5,000, for damages alleged to have been received by falling on a defective sidewalk.

William B. Gould of Hillsborough, ninety-two years of age, has voted at seventy-one annual elections. His first ballot was for Benjamin Pierce, the father of President Pierce, for moderator.

—"How profoundly still and beautiful is the night," she whispered, resting her finely veined temple against his coat-collar and fixing her dreamy eyes on the far-off Pleiades, "how soothing, how restful." "Yes," he replied, toying with the golden aureola of her hair, "and what a night to shoot cats."

—Germans and English swear by God, the Latin races by the Virgin, Danes by the devil. For the Swedes one devil is not enough. "A thousand devils take me" is his usual oath, or if the emergency demand, ten thousand. In moments of great excitement he rises to the occasion, and swears, "Ten thousand tons of devils take me."

—In one of the Brockton schools the other day, says the *Gazette*, the teacher was exercising her class in the mysteries of English grammar, and propounded the question, "What is the feminine of tailor?" "Dressmaker," promptly responded a bright-eyed little fellow, as a gleam of satisfaction spread over his countenance that he was able to comprehend the point in advance of his fellows.

—It is customary, in some localities, to teach children to think of a text as they drop their pieces of money in the contribution box. A certain little girl at Sunday school, recently, saw the box approaching, and began to search in her memory for a text. She hesitated for a few moments, dropped the dime in the box, and exclaimed, triumphantly: "A fool and his money are soon parted."

—A conversation arose between two newspaper men the other day in the presence of Mr. John Stetson as to the lines commencing "The mills of the gods grind slow." "They are Pope's," said one. "No, Pope never wrote anything of the sort," maintained the other. "I'll tell you how you can settle it," said Stetson, "I know Pope well—he's in St. Louis. Telegraph him and ask him if he wrote it. I'll pay the charge."

—Professor A. Brackman, of Nebraska, a wealthy widower, aged sixty, created a sensation at the Planters' house in St. Louis, a few days since, by proposing marriage to Mary Trail, one of the chambermaids. She accepted the offer, and he gave her presents valued at $1000, including diamonds and a wedding dress. Since then the reverend widower has disappeared, and his expectant bride has only the presents to show that the affair was not merely a dream.

—A young imitator of Buffalo Bill went into a photograph gallery, at Brownsville, Ky., to have his picture taken in border costume, with a big revolver in his hands. The weapon accidentally went off just as he had been heroically posed, and made a hole through his shoulder. They were carrying him out, just as two customers were coming in, and one said to the other: "See here! If they exhaust a man to that extent by taking his picture, I don't go in!"

—Do insurance-receivers receive? has been quite clearly proven in the affirmative at the investigations in New York. In fact they have done nothing else.

—An Ohio man turned his wife out of doors on an intensely cold night because she wished to discharge a pretty servant girl. She crawled into a hay loft, and nearly froze to death. Next day some neighbors dipped the husband into a barrel of molasses and then rolled him in a heap of feathers.

—The audience at the opera house in Madison, Wisconsin, the other night, had a jolly evening. The play was the "School for Scandal," but what amused the spectators was to see the sergeant-at-arms of the state assembly come in and pick out the members one by one and send them off, red in the face and gesticulating, to answer to their names in a pending call of the house.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2500 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $3.00,—*no assessments.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. THE FIRST NATIONAL BANK.

The charter of the First National bank of Portsmouth will expire by limitation of law on the 1st day of May next. It had been hoped by the management that some legislation by Congress would have enabled the bank to continue business by a renewal of the existing franchise, but the time is now so short that this hope has been abandoned. To provide against this contingency, the directors have obtained a new charter under the existing national banking laws, for a new bank to take the place and the business of the old bank, to commence May 1st, with the same bank title and capital as that of the old bank. A large majority of the stockholders (all heard from at the date of this writing) in the present bank have signified their desire to continue their interest in the new concern, and there is no doubt that this, the first national bank established in the country, will be continued, though under a new franchise.

THE CUTTING-DOWN QUESTION.

Mr. Editor: In a communication to your paper some days ago, "An Old Fireman" stated, in reply to a previous statement by "Ex-Fireman," that

I am one who believes not only in the proposed reduction of men in the department, but that the proposed arrangement, while it reduces the expenses, also makes the department more efficient. It cannot be denied that our steamer companies are larger than in other cities, comprising as they do twenty-one men, while the plan pursued elsewhere and found to be satisfactory, provides for only fourteen men.

If the proposed reduction will really cut down the department's expenses without impairing its efficiency, it should certainly be carried out; and this is the only question which should be considered. But would not the reduction in the number of men necessitate the keeping of horses in constant readiness to haul the hose carriages, as is the case in cities where the companies number but fourteen men each? or if this is not done, and the city horses engaged in general work, or contracted-for livery teams, are depended upon to draw the apparatus, is there not very great probability that on some occasion invaluable time will be lost at just the wrong moment—the start of a conflagration? It is no doubt true that our steamer companies are larger than they are in cities where horses are kept ready harnessed in the engine-house stalls day and night,—and they have need to be; but they are not larger than in Dover, (a city which has more than once of late been cited in the board of aldermen as a pattern for Portsmouth to follow,) where the steamer companies I am told number twenty-three men, the hook and ladder company twenty-five men, and the hose company forty men, their pay being $40 each per annum. FIREMAN.

POLICE COURT.

WEDNESDAY, April 12; *Batchelder J.*

David Levi Ramsbottom, of Epping, was before the court on a charge of assaulting John Gibbs of the same town with a pistol. The assault took place, as is alleged, on the morning of the 7th inst. The case was continued to Saturday, 15th inst., the accused being held in $500 for his appearance at that time.

AROUND HOME.

Snow fell at a lively rate for a few minutes on Wednesday afternoon.

In explanation of an incident referred to by a correspondent of the CHRONICLE some days ago, concerning the passing of two ladies under a freight car at the Vaughan street railroad crossing, we are informed that on *that* occasion it was the misfortune and not the fault of the railroad that the highway was blocked by the train, the locomotive having got off the track, and of course being powerless. The shifting engine had been sent for to open the passage, and while waiting her arrival the ladies mentioned were told the state of affairs by the flagman at the crossing, and informed that if they were anxious to proceed they could with entire safety pass under the car, which they proceeded to do.

Capt. Richard H. Seaward, of Kittery Point, has resumed command of the schooner Cocheco, which will sail to-day for Seal Harbor, Me., to load stone for Maryport, Florida. After discharging at Maryport she will proceed to Palatka, Fla., and take on board a cargo of railroad ties for New York.

The schooner Laura T. Chester, Kent master, which went on Hicks' rocks at Kittery Point on the morning of the 4th inst., and bilged, sailed for her home port, Camden, Me., on the 12th, having effected temporary repairs on the beach at Newcastle. Except a small hole in her bottom she appeared to be but little injured. Her cargo of 700 barrels of cement, from Rondout, N. Y., for Newburyport, was ruined by water, and was thrown overboard when she was on the rocks.

Naval Constructor Steele, since taking charge of the department of construction and repair at this navy yard, has directed that the apprentices in his department, who have of late been working on half-time, shall be given work the whole time, agreeably to a standing order of the secretary of the navy.

The schooner Lucy sailed for Smuttynose island on the 11th inst., with supplies for Lemuel B. Caswell's fishing station.

The gondola built at South Berwick, Me., for Capt. Cheney, by Mr. Lewis Holmes of this city, is seventy feet long; she has no centre-board, experience having shown that the old-fashioned leeboards are preferable. Mr. Holmes returned to this city on Friday, the 7th inst., and is fitting out his fleet of boats for hire.

E. S. Newton & Co. on Tuesday of this week shipped to Boston nine boxes of cod and two boxes of black salmon, the latter fish weighing from five to ten lbs. each. This firm report that up to that date, since the 1st of January, they have sent off 780 boxes of fish, aggregating nearly 400,000 lbs., purchased at prices ranging from two to six and a quarter cents a pound; and also 145,000 herring. The fishermen are said to have been well pleased with the prices this year,—better than for several seasons past.

Edward P. Shaw, of Newburyport, has purchased the gondola Swampscott at this port, and will use her in transporting stone from the quarry on the Merrimac to the jetty-pier at its mouth.

It is announced that Gen. Thom has awarded the contract for removing Badger's island ledge to James Andrews of Biddeford, Me., at $18 per cubic yard. One Portland man and two Boston parties made bids for the contract.

Captain Henry Haley, of Newmarket, has been granted a pension, with arrears amounting to $4000.

Mr. Charles Shannon, of this city, is teaching the grammar school at Kittery village.

A bathing house ninety feet long, and wide enough to furnish a set of rooms on each side, is being built at the Marshall house, York harbor.

The steeple of the Orthodox church at York village is to be razed as far down as the belfry, examination having shown it to be so rotten above that point as to be unsafe.

The contractors for straightening and improving the Bass Cove road, York, Messrs. Furbish and McIntire, have recommenced work, which was interrupted by the advent of winter.

At Fitzwilliam, since the commencement of the present year, there have been only ten deaths, the average being over eighty-two years. There were two whose ages were eighty-nine, while the youngest was sixty-five. The population of the town is 1,200.

"Mother" Goodrich, of Nottingham, is in her centennial year.

Willis A. Tucker, twenty-two years old, is chairman of the board of selectmen of Danbury.

Michael J. Noonan, the noted temperance reformer of Dover who was arrested for forgery a few days ago, it is said has a wife and several children living in Lowell, Mass., and a brevet wife and two children in Dover.

It is stated that for many years the death rate in Atkinson has not averaged over one per cent, and that the mean age of those dying was about seventy years. The celebrated Dr. Bowditch used to pass his vacation in that town, and once remarked that statistics proved the place to be the healthiest location on the continent.

The Kezer school fund in Canterbury includes $10,000 worth of property. The trustees have organized, and the income of the legacy is to be expended in the "Baptist" district.

An old man from the country was recently in Concord inquiring for the store of Perkins Gale, who went out of business twenty-five years ago, and who died in 1866. The man remarked to a merchant there that "fifty years ago Mr. Gale had a store here, but likely as not he may be dead by this time."

Samuel McCardy, aged eighty-three years, walked from Keene to Westmoreland, a distance of ten miles, to vote at the late election.

The tenth annual convention of the Catholic Total Abstinence Union of New Hampshire met in Dover on Friday, the 7th instant. The reports submitted showed that there are nine societies in the union with a membership aggregating 600, while the property owned exceeds $3,000.

Oak Hall Agency in Portsmouth.

Messrs. G. W. Simmons & Son, of Oak Hall, Boston, have established an agency for this city and vicinity for the sale of their custom and ready made men's and boys' clothing, at No. 33 Market street, Portsmouth, where anything contained at Oak Hall, Boston, can be procured, at the same prices as in Boston. Several dollars can be saved by buying your own and your children's clothing at the Oak Hall Agency, as they sell at the lowest prices in New England.

Treat Your Teeth

Rather than have them pulled. Let your dentist save all he can. You desire to have trouble, because you have not used SOZODONT. When properly fixed, then rub on the SOZODONT, and keep them all right for time to come.

A Cough, Cold or Sore Throat

Should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. "Brown's Bronchial Troches" do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, allaying irritation, give relief in Asthma, Bronchitis, Cough, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years "Brown's Bronchial Troches" have been recommended by physicians, and have always given perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25 cts a box everywhere. eod&wtjan22

AUCTION SALE

— OF —

REAL ESTATE

IN GREENLAND, N. H.

THE Undersigned, executor of the last will and testament of Moses Mann, late of Greenland, in County of Rockingham, deceased, by virtue of the power given to him in said will and testament, will sell at Public Auction on

Tuesday, April 25th,

At 11 o'clock in the forenoon, on the premises,

A certain lot of land with the dwelling house thereon, situated on the road leading from "Greenland Parade" to Hampton, nearly opposite the homestead of said Moses Mann, and containing about eighteen acres.

Three acres of said land are tillage, the remainder pasture land; the same will be sold with the buildings in one lot; or the buildings with the three acres of tillage land will be sold together, and the pasture land separately, as may best suit purchasers.

The house on said lot is a two-story building, measuring eighteen by thirty-six ft.

ALSO, AT 12:30 P. M.,

The subscriber will sell on the premises, one common and undivided half of a pasture situated on Winnacut Road in said Greenland, containing one hundred acres, more or less, and owned by said Mann, in common with Horace and Charles Whidden.

This tract of land has running water the entire year, and is regarded as the best and most valuable pasture in this vicinity.

The interest of the said Whiddens in said pasture will also be sold at the same time and place, if desired.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without Taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS

THE BEST AND The Richest

BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, *not by fermentation* but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make its tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

A "Peculiar Civilization."

They have a peculiar civilization out in Missouri, where the governor of the state secretly meets a train robber and makes a contract with him to murder the leader of his gang, in return for which he is guaranteed a pardon for his own crimes and $5000 in money.—*Manchester Mirror.*

And where the murdered murderer has a magnificent funeral, the sheriff of the county and his first deputy officiating as pall bearers.

Panic in a School Room.

Two Boston teachers paid a visit to one of the Auburn, Me., schools, on a recent Tuesday afternoon. One of them had a satchel in his hand. They happened to enter the school-room at recess. The children recognized their professional appearance, and a whisper, "They've come to vaccinate us" ran around the room. There was a great hubbub. One child after another huddled around the teachers and exclaimed, "Oh! I don't want to be vaccinated." It required a long time to soothe the alarm and restore calmness to the flock of juveniles. The Boston gentleman now desires to exchange his travelling bag for one that doesn't look so much like a pill-case.

A heavy snow-storm prevailed in New Brunswick on the 11th inst.

It is stated that Maine's Ex-Councillor Fogg, of greenback oratory fame, has decided to settle in Lancaster, Wisconsin, where he has been making six-hour speeches, and where he is appreciated. He will be no loss to Maine, let him settle where he will.

At the annual meeting of the Associated press of Maine, in Portland on the 11th inst., the following officers were elected: President, John M. Adams of the Portland *Argus*; treasurer, Alden M. Sprague of the *Kennebec Journal*, Augusta; secretary, H. W. Richardson of the Portland *Advertiser*.

The last Enoch Arden case is recorded by the Lawrence (Mass.) *American* as follows: "Fourteen years ago, Mr. B. A. Norton, a well-to-do workman in this city, went to California, leaving a wife at home. For a while he wrote and sent home money. Two years later his wife heard he was dead, and she consented to become the wife of a laborer in this city named Ford. Since then she has been living with this man, and has borne him several children. Meanwhile Norton, working in California, accumulated a little money. On Monday last he returned to this city. On enquiring for his wife, or at least she that was formerly his wife, he found her living on Common street, her name Ford; her husband serving a sentence in jail, and several little Fords running about the place. To say that he was astonished would be putting it mildly. As yet he has done nothing toward recovering his better half."

In countries where malaria is prevalent, or where the climate is subject to sudden changes—should be found in every house Brown's Iron Bitters.

Snowbanks several feet in depth can be seen on the shady side of the walls in many places in Kittery and York, and there are large quantities of it in the the woods, notwithstanding which many of the farmers are this week busy ploughing.

What was it John

That made your face so free and clear from pimples? said his sweetheart. Why, don't you know, Eva? For over a year I took everything I could think of without helping me, then I bought two bottles of Sulphur Bitters, and now I haven't one pimple on my face. It is the best blood cleanser I ever saw.

There is considerable excitement in Douglas, Mass., over the rescinding of the vote of the annual March meeting, whereby they voted "no" on the license question. The vote was rescinded by a hand vote, and it was then voted by the raising of hands to grant licenses this year. A great many claim that the rescinding of the vote and the new vote were illegal, as the check list was not used.

What Everybody Wants

Is a reliable medicine that never does any harm and that prevents and cures disease by keeping the stomach in order, the bowels regular, and the kidneys and liver active. Such a medicine is Parker's Ginger Tonic. It relieves every case, and has cured thousands. See other column.—*Tribune.*

Henry O. Smith, Jr., of Gloucester, Mass., has brought a civil suit against John Parkhurst, to recover $5,000 for alleged defamation of character in charging him with dishonesty while in Parkhurst's employ.

A Delightful Novelty.

Ladies prefer Floreston Cologne because they find this lasting combination of exquisite perfumes a delightful novelty.

There is growing a pretty strong suspicion locally that Long, who was lynched at Kokomo, Ind., may have been, after all, guiltless of the horrible crime charged against him. The evidence is entirely circumstantial, and some of it very shadowy.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

Swayne's Ointment

A RELIABLE REMEDY FOR ALL DISEASES OF THE SKIN, SUCH AS TETTER, BLOTCHES, RINGWORM, ERYSIPELAS, BARBERS' ITCH, SORES, ULCERS, &c.

NO. 1. Shows the effect of the SKIN, herpes or obstinate case, and resists the most vitiated, healing and conquering power of SWAYNE'S OINTMENT. On account of allaying the intense itching and insuring sweet repose, it is known by many as "THE GREAT CURE FOR ITCHING PILES."

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:

In fresh wounds, aches, pains, sores, etc., It is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:

We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:

After long years of use, I am satisfied it is positively efficient as the leading remedy for wounds, bruises, and sprains.

W. W. Sharpor, Valdosta, Ga., says:

It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:

It gave me immediate relief.

R. Lewis says:

In forty years' use it never has failed me.

W. W. Lum, Nicholsville, N. Y., says:

I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:

For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest are its best friends.

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced, a number of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines, it is perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

Failing!

That is what a great many people are doing. They don't know just what is the matter, but they have a combination of pains and aches, and each month they grow worse.

The only sure remedy yet found is BROWN'S IRON BITTERS, and this by rapid and thorough assimilation with the blood purifies and enriches it, and rich, strong blood flowing to every part of the system repairs the wasted tissues, drives out disease and gives health and strength.

This is why BROWN'S IRON BITTERS will cure kidney and liver diseases, consumption, rheumatism, neuralgia, dyspepsia, malaria, intermittent fevers, &c.

203 S. Paca St., Baltimore.
Nov. 26, 1881.
I was a great sufferer from Dyspepsia, and for several weeks could eat nothing and was growing weaker every day. I tried Brown's Iron Bitters, and am happy to say I now have a good appetite, and am getting stronger.
JOS. MCCAWLEY.

BROWN'S IRON BITTERS is *not* a drink and does not contain whiskey. It is the only preparation of Iron that causes no injurious effects. Get the genuine. Don't be imposed on with imitations.

SULPHUR BITTERS

New Hampshire Items.

The Great Falls post office was burglarized on the night of the 12th inst., the safe blown open, and between $1200 and $1500 stolen. The burglars left their tools, which were extra fine ones.

The Boston & Maine railroad company are preparing to build a double-track iron bridge over the Cocheco river at Dover this summer. The double track will be completed east to Exeter from Boston during the coming season, and two miles further west from Portland before the summer travel begins. Three new parlor cars have been built by the company during the winter, and five old ones have been refitted and repaired.

A young man who left Denver, Colorado, on the 9th inst., in a buggy with an unknown man, was found dead in the road about six miles from the city on the same day, with two bullet holes in his head, and is supposed to have been murdered. He had registered at a Denver hotel as Walter Lincoln of Boston, Mass., and it is believed he was Walter Lincoln Springer, aged seventeen years, son of David T. Springer of Exeter, a harness-maker. Walter L. Springer was for some time in the employ of Noyes Bros., of No. 4 Summer street, Boston, but left there about six weeks ago, since when nothing has been heard from him.

Elder Jonathan Russell, of Gilmanton Iron Works, has just received pension and arrears amounting to $1,817.60, on account of the death of a son in the war upon whom the father was dependent.

The pay roll of the Amoskeag corporation in Manchester, for the month of March, was $153,500. The corporation employs about 6,000 operatives, and now stands at the head of any in this country.

The total receipts of the recent Knights of St. Ansclmo ball in Dover amounted to $257.65; expenses, $156.40; net profit, $101.25.

The total receipts of the Knights of Pythias fair at Farmington, held some weeks since, amounted to $2027.23. The expenses were $1001.43; net profits, $1025.80.

The revenues of the post-office department exceeded the expenditures last quarter, for the first time since 1865. The excess is over a half million dollars.

Congressman Chalmers, of Mississippi, says he shall not be a candidate for re-election. Congressman Chalmers will be remembered in history as a partner in guilt with the infamous Forrest, in the Fort Pillow massacre, and as the man who by force and fraud twice elected himself to Congress from the "shoe-string district" of Mississippi; as a member of Congress his record is *nil*.

It is said that an anti-masonic movement has been started in Maine, with its head-quarters at Pittston, and that the managers propose to hold public meetings throughout the state. The Kennebec *Journal* thinks that the "Fool killer" should be on the lookout for members of the new party.

At Barnstable, Mass., on the 11th inst., George F. Burgess, convicted of embezzlement from the town of Barnstable, was sentenced to pay a fine of $1,000 and costs. A friend paid the amount, and he was released.

Ten dollars worth of Jesse James' effects have been sold for $200. So much for the name of being the boss ruffian.

Henry Moett, four times sentenced to death for murder, has again been granted a new trial at Hudson, N. Y.

By far the best remedy for the treatment of catarrh and its kindred diseases is Ely's Cream Balm, which is having the largest sales with us of any preparation now offered. The reports are all favorable, and we do not hesitate to endorse it as superior to any and all other articles in the market. The Balm is pleasant and easy to use. CYRUS LAWALL & SON, Druggists, Easton, Pa.

We have heard only words of praise for Ely's Cream Balm from many who are using it. One of our customers who has had catarrh for over forty years, says it has helped him more than anything he has ever used—after trying everything else. We can recommend it for catarrh, hay fever, etc., knowing that the results produced will be satisfactory. CHRISTINE & BODINE, Druggists, Trenton, N. J. Feb. 28, 1881.

Price fifty cents.

—The Langtry bonnet already appears on this side the Atlantic, though hardly six weeks out in London. The small, shallow shape with high front allowing a band wreath of full blown roses above the forehead, is the shape worn by Mrs. Langtry on the stage as Miss Hardcastle, in the play "She Stoops to Conquer."

Pain, irritation, retention, incontinence, deposits, gravel, etc., cured by "Buchupaiba." $1. Depot, J. H. Thacher's.

—An exchange says, "Andrew Jackson is dead." It is remarkable what a frightful amount of fatal sickness prevails among prominent men this year. Andrew's death will be deeply deplored. As the late Mr. Shakspeare says, "We could have better spared a better man."

Persons recovering from wasting diseases, such as malaria, fevers, etc., will be greatly benefitted by the use of Brown's Iron Bitters, a true tonic.

—Here rests his head upon the lap of earth, a youth to fortune and to fame unknown. Too much benzine crept underneath his girth, and played the mischief with his temperate zone.

"Wheat Bitters." Mothers require it. Children cry for it. Fathers buy it. Price $1.00 per bottle. For sale by all druggists.

—Madame Autran, widow of the author of "Poems de la Mer," died recently leaving a will of a strikingly impartial nature. It ordered that her heart shall be placed in the tomb of her second husband in France, but her body in her first husband's tomb in America.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

THE
New Hampshire Gazette!
Established 1756.
The Gazette is published every Thursday and sent to Subscribers at the low price of $1.50 per year, paid in advance, or $2 at the end of the year.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires in this city.

BOSTON, October 19, 1870.
R. H. EDDY, Esq.,—*Dear Sir:* You procured for me, in 1866, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have, occasionally, employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly, GEORGE DRAPER.

STARTLING DISCOVERY!
LOST MANHOOD RESTORED.
A victim of youthful imprudence causing Premature Decay, Nervous Debility, Lost Manhood, etc., having tried in vain every known remedy, has discovered a simple and cheap cure, which he will send FREE to his fellow-sufferers, address J. H. REEVES, 43 Chatham St., N. Y.

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poi-onous drugs should never be in introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

A Joke.

The New York *Tribune*, and a number of the so-called republican papers of Boston, are wailing terribly over the appointment of Roland Worthington of the *Traveller* as collector of the port of Boston, to succeed Collector Beard, whose term has expired. Col. Worthington is a square, out-spoken republican, a gentleman of the highest character, and a business man of most marked ability. Nothing can be said against him on any of these points. But what makes the hair of the "reform" press stand on end is that President Arthur appointed Col. Worthington on his merits, and not on the recommendation of the "reform" senators of Massachusetts, Hoar and Dawes. The joke comes in when we remember how these same papers howled about the "insolence" of Senator Conkling of New York in combatting the "constitutional prerogative of the President" at the time Collector Merritt of New York was removed before the expiration of his term to make room for Judge Robertson, the "reform" candidate who wanted Merritt's place, and got it.

Independence.

There is enough independence in Massachusetts to spare an abundant supply for New Hampshire.—*Boston Transcri t.*

No doubt of it; a microscopic "supply" of independence, of the Massachusetts variety, would be "abundant" so far as the New Hampshire demand is concerned. The republicans of New Hampshire have ever been confronted by the best-organized and hardest-fighting section of the democratic party that any northern state can show; and the long series of republican victories over such stubborn and alert antagonists has been won by the maintenance of the most absolute "independence" of the lofty dictation of the Massachusetts self-appointed oracles. The New Hampshire republicans have a habit of winning victories, and are not likely to give it up even for the sake of having their "independence" commended by the Boston papers.

A Wonderful Discovery.

The Boston *Herald* says "the Methodist creed is the same it always has been, unprogressive and solidly Calvinistic." The *Herald* has long been noted for its enterprise in gathering the news whether there is any or not, but this last feat beats every previous one; the discovery that Methodism and Calvinism are synonymous may well be counted the most startling discovery of the nineteenth century.

News and Notes.

Barnum's "Jumbo" is the first passenger of any considerable note arriving at New York of late whose trunk the custom house officers were willing to check without much prodding.

The franking privilege amendment to the post-office bill has been killed in the national house of representatives.

Christine Taylor, an old colored woman of Washington, was on the 12th inst. convicted of the murder of two small children named Miller, on the farm of Jos. Fisher near that city, in August last.

A married woman named Maguire disappeared from Ware, Mass., Dec. 22d, and was supposed to have been accidentally drowned. On the 12th inst. her body was found in the river, with heavy stones tied to it.

Michael Crane was struck by a train of cars at Lowell, Mass., on Tuesday evening, the 11th inst., and so badly injured that he died an hour later.

Patrick Sullivan, a private watchman, had a desperate encounter with burglars at Eaton, Cole & Burnham's factory in Bridgeport, Conn., Tuesday night, the 11th inst. Sullivan was shot and badly beaten, but may recover. The burglars got nothing.

Congressman Morse of Massachusetts, from the committee on naval affairs, made a favorable report on the 12th inst. upon the bill "to abolish prize money and regulate pensions in the navy." The bill provides that the entire proceeds of all ships and vessels, and the goods taken on board of them, which shall hereafter be captured by any public vessel of the United States, and shall be adjudged lawful prize, shall be paid into the treasury, to the credit of the naval pension fund. It also prescribes the rate of pension in the various grades of the service.

Frank C. Pease has been convicted in Boston of murder in the second degree, for killing his wife. The murderer and his victim were natives of Rockland, Me., and neither appears to have been of much account, the husband being especially worthless.

The Brush Electric Light company offer to erect a tower 250 feet high on the public garden in Boston, and brilliantly light the entire garden and surrounding streets at all hours of the night for $4000 per year, or $1400 more than it costs for the gas lamps now in use, but giving a great deal more brilliant light.

A new anti-Chinese bill was introduced in the national house of representatives on the 12th inst.

John T. McCafferty of Woodstock, N. B., was fatally crushed by the cars at Gorham on the 10th inst., while attempting to board a moving train.

At Lawrence, Mass., April 12th, two smallpox cases were discovered by the city physician. They had been under the care of a regular physician for a week, but he failed to report them.

The Chicago court has denied Mrs. Scoville's petition to act as Guiteau's conservator.

Fred Norman, a Norwegian—also a fool—proposes to row across the Atlantic in a boat twelve feet long, four feet wide and two and a half feet deep.

At Cambridge, Ohio, April 12th, John Nassett, a farmer aged sixty-five years, in a fit of rage shot his son John fatally, and then killed himself.

John F. Slater, of Norwich, Conn., has given $1,000,000 as a fund for educating the colored race.

One of the once wealthiest landlords in Connaught, Ireland, who was well known in the hunting-fields there before the Land League rose into power, is now driver of one of the London omnibuses. He was Boycotted out of his old belongings.

AROUND HOME.

The schooner D. K. Ham, Garland master, arrived from Boston on Wednesday, the 12th inst., and proceeded up the river to Eliot for a cargo of bricks the same night. The G. W. Raitt, bricker, sailed Boston from at eleven o'clock Wednesday night, and arrived at this port Thursday morning at six o'clock.

The little steamer Pinafore, belonging to Laighton Bros. & Co., of the Shoals, started from Appledore island on Thursday morning last to run into this port with two plumbers who had been at work on the island. When within a mile or two of Whalesback something about the cylinder gave out, and the sail was hoisted; but a change of wind drove the boat down close to the Eastern Sister, where she came to an anchor, and set her ensign union down. This signal of distress, though not noticed from the shore, was seen at the Shoals, and Mr. Oscar Laighton and Capt. "Judd" Randall ran in from the islands in a wherry to render aid. On arriving at the disabled seamer Mr. Laighton removed the cylinder head, and so far fixed things that the boat was enabled to get into the lower harbor with her own steam. She was subsequently towed up to town by the tug Ann, and had made the trifling repairs necessary to fit her for service again.

It was reported on Thursday that the Eastern railroad managers had given orders for the vaccination of all employes of the road, the vaccination to be performed when the pay-car made its regular visit, the paymaster being accompanied by a surgeon; and that any employe refusing to be vaccinated would be peremptorily discharged from the company's service.

In addition to a recent payment of five thousand dollars to Mrs. Hilton, widow of Frank W. Hilton, the Mutual Life Ins. company of New York paid this month the sum of five thousand dollars insured on the life of the late John Harworth of Dover. An insurance by a reliable life company is sure to prove a valuable help just when most needed by its beneficiaries.

Hon. Frank Jones, a farmer at Gravelly ridge in this city, sold recently three pairs of fat oxen to Messrs. Sawyer, Hollis & Co., of the Brighton abattoir. The net weight of these cattle when dressed for market was over six thousand pounds. Mr. Jones as a cattle grower may be reckoned a success.

Commodore Pickering and wife, and Mrs. Heffenger, of this city, and Admiral Taylor and family, were recently registered among at the arrivals at the Davis house, at Kittrel, N. C.

The local board of United States pension examining surgeons organized on the 12th inst. by the choice of Dr. J. F. Hall as president, Dr. D. W. Jones as secretary, and Dr. S. C. Whittier as treasurer. Hereafter the board will hold regular meetings on the first Wednesday of each month, for the examination of applicants for pension, or increase of pension.

A small building has been put up near the spring market by Mr. John Caswell, to be used as a lobster-boiling house.

Hon. Horace Gray, justice of the supreme court of the United States, will preside during a part of the May term of the circuit court which begins in this city on the 8th proximo. Judge Gray is expected to be in this city for this purpose on the 11th of May, and will be present at the Massachusetts term May 15th.

There was no work at the navy yard on Thursday, the 13th inst., Fast day in Maine occurring on that date.

The Massachusetts house of representatives has passed to be engrossed a bill authorizing the Eastern railroad company to issue a preferred stock in lieu of certificates of indebtedness.

THE

Mutual Life Insurance Co.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policy-holders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2500 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent.—probably the smallest that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $5.00,—*no assessable.* This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, regular meeting, Thursday evening, April 13th, Mayor Sise in the chair:

Present, the full board.

The records of last meeting were read and approved.

Bond of Michael E. Long as police officer was received and approved.

The city marshal's quarterly report was submitted and referred; it shows a balance of $338.41, which he has paid over to the city treasurer.

A communication from the president of the Eastern railroad was received relative to furnishing gravel to fill certain portions of the north mill pond. The committee on this subject was authorized to confer with the railroad officials, to report.

Ald. Caswell reported that the plank for making sewers and cess-pools in the north pond would cost $300.

There was a long discussion concerning the street lights on the corners of the custom house lot, ending in the police being instructed to extinguish them the same as other lights.

On motion of Ald. Martin, Ald. Green's retrenchment resolution was taken from the table; the mayor decided that as a joint resolution it must be referred to the committee on the second reading of bills.

Ald. Martin thought if the large salaries were to be cut down, the insufficient ones,—such as those of the assessors,—should be increased.

Ald. Caswell thought the school teachers were paid more than was advisable; and wanted to know why the assessors should be paid more than the aldermen, who were expected to devote a large part of their time to the city's business.

A joint resolution amending the ordinance relative to the fire department, sent up by the common council at the last meeting, was taken from the table. The mayor ruled that the ordinance could not be changed by a joint resolution, and that the title of the act must be changed. It was sent down for correction, and by the council laid on the table.

The matter of a fence between the city's land on Court street and the land of Capt. Bradford, U. S. N., was referred to the committee on city lands and buildings.

The mayor said there would be no important business to come before the board on the 20th inst., and suggested an adjournment for two weeks; and after some desultory discussion, such an adjournment was taken.

SUPREME COURT--CARPENTER J.

The case of Wheeler vs. Hartford Insurance company was transferred to the law court on an agreed statement of facts.

The grand jury concluded their work and were dismissed Thursday forenoon. They found twenty-four indictments, but their subject matter has not yet been disclosed.

SALE OF GEO. E. LANE'S STORE.

The sale of the stock, fixtures and goodwill of the late firm of Geo. E. Lane & Co., of Exeter, stationers, etc., took place on the premises of the late firm at twelve o'clk, noon, on Thursday last, by agreement of all parties concerned. The sale was conducted by Sheriff Kent, who stated that the stock had been appraised by Messrs. E. C. Eastman of Concord, Temple of Manchester and Follansby of Exeter, at a fair valuation. It was in excellent condition, and was to be sold for a percentage of its value, which was $8877.18, aside from the fixtures. The terms of the sale were $1000 cash down, and the balance in two days. There was a very fair attendance, and the property was sold to John M Thompson of Stratham, for seventy-two per cent of its appraised value. It is understood that Mr. Thompson will open the store and continue the business. The fixtures were then sold separately, and brought fair prices, their appraised value being about $700.

THE BANKER'S DAUGHTER.

The play is under the auspices of the Union Square Theatre management, and it is produced with every advantage of cast and scenic setting—the scenes being all new and duplicates of the original models. It is a commendable feature of the entertainment. The play is a very strong society drama of unflagging interest from first to last, and is thoroughly clean in language, business and suggestion. It is of the emotional class, well lighted with genteel comedy which follows the serious scenes like sunshine and breeze together. The parting of the husband and wife after the duel is a very strong dramatic situation, admirably acted. The company is all satisfactory, and there are several fine dramatic artists among them. "The Banker's Daughter" by this combination is an elegant and powerful performance, and has made an unequivocal hit.—*Albany Argus.*

At Music hall on Tuesday evening of next week. Sale of reserved seat tickets commences at Preston's to-day.

STIRRING THE POOL.

The rumors which have prevailed to some extent during the past few days of a closer union between the Eastern and Boston & Maine railroads, are traced to the fact that the pooling contract under which the roads have been doing business at competing points expires this year, and it will soon be necessary to make some new arrangement. The matter is already receiving the attention of the directors, for its adjustment will undoubtedly require many conferences and much discussion.

The present contract, which gives a certain per cent to the road doing the business, and a certain smaller per cent to the other road, was made in 1877, and was then satisfactory and equitable. Since that time it appears that the business of the two roads has increased so unevenly that the balance upon the regular settlements between the roads is now largely in favor of the Boston & Maine. That is, the Eastern road is continually paying out upon the aggregate of this competing business, and the Boston & Maine is receiving a large amount of money which it does not earn, except under the contract which entitles it to the certain per cent. The Eastern directors will probably insist upon very important changes in any new pooling contract that is made, and so the discussion of the matter, pending actual negotiations, has been begun early.

There is, as yet, certainly no basis for supposing that anything like a consolidation of the two roads will be the final result. Such a thing is said to lie at the very farthest limits of possibility. The Eastern road, however, is in a better position for proposing or accepting terms for any business arrangements than it was a few years ago; but the best of feeling prevails between the officers of the two roads, and there is no doubt that an equitable adjustment of matters will be reached, or, at least, that the old rivalry and ruinous competition will not be revived.

A NEW RESERVOIR.

A cap-stone about five feet square and fifteen inches thick, with a circular hole through the centre about fifteen inches across, was on Thursday last placed in position over the reservoir and drilled well of the Eastern railroad near the station in this city, which will hereafter be available for fire extinguishing purposes. The reservoir, which is eighteen feet in diameter and twenty-five feet deep, is now full of water up to the waste-pipe, about three feet below the surface of the ground; it is fed from a hole seven inches in diameter, drilled though the rock to a depth of over three hundred feet, and the supply of water, if pumped from a low level, is practically inexhaustible, but whether or not there is "head" enough to force water up into the reservoir in as large quantity as might be required is not known, and it would not be amiss to have the matter tested by one or more of the city's steam fire engines.

A government agent was looking over the site of the former Sagamore house at Frost's point, Rye, on Wednesday of this week, to report upon its advantages as a location for a general hospital for the United States navy. No better place can be found for the purpose between Eastport and the Rio Grande.

The schooner Maria Webster arrived at this port on Thursday morning, the 13th inst., from Pawtuxent river, Virginia, with a cargo of extra large and nice oysters for W. Freeman.

We are informed that Mr. William Frost, of Lynn, Mass., a native of Newcastle, will succeed Mr. Louis Trask as foreman of the cutting-room at the Portsmouth Shoe factory.

The schooners Storm King and Christie Campbell arrived at Boston on the 13th inst., the former with 10,000 and the latter with 8,000 lbs. of fish. Both vessels left for Provincetown the same day, to bait up.

Mr. Warren Caswell, of Rye, planted five acres of potatoes on the 5th of April. The seed used had previously been sprouted by stove heat in a sunny room.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS

THE BEST AND The Richest BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED. THOROUGHLY TESTED. ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are the most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the brunt of every day work and life, and in order to avoid sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, *not by fermentation* but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. There make in themselves a tonic, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and cannot not be compounded with the thousand and one cheap alcoholic bitters which are sold as curealls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

SOLD by druggists, $1.00 per bottle.

Mr. Chandler Confirmed.

The senate on the 12th inst. confirmed the nomination of Hon. William E. Chandler to be secretary of the navy, by a vote of twenty-eight to sixteen, all the republicans and four democrats voting for the confirmation. Only two speeches were made—one by Bayard of Delaware against confirmation, and one by Mr. Rollins in its favor.

The Comet.

The new comet continues to give promise of a brilliant future. In three or four weeks it will probably be conspicuous in the northern sky, but at present it cannot be discerned by the naked eye. Even in the telescope it is a faint object, but the observer quickly perceives that, under the mighty pull of the sun, it is quickening its flight every hour, and rapidly growing larger. In June it will dart into its perihelion, sweep around the sun, and, it is hoped, burst into a blaze of cometary glory. The direction of its flight is such that, if it does fling out a long tail, we shall have a fine view of it. The comet will at no time come near the earth, but it will be one of the most remarkable ever known for its close approach to the sun. The figures of the caculators vary, but all agree that the comet will go very close to the sun, and some express doubt whether it may not strike the solar orb. In that event we may behold such a spectacle as man never witnessed before, or, more likely, we shall know nothing of the catastrophe to the comet except what the astronomers tell us. At any rate we have no fear of the consequences, for if the comet should strike hard enough to be spattered all around it is not likely that any of the pieces will come this way.

A meeting of the committees from the different cities and towns interested in the Knox & Lincoln railroad was held at Damariscotta, Me., on the 8th inst., and it was voted, twenty-one to five, that it is advisable to sell the road to the Maine Central for thirtsen hundred thousand dollars, on a twenty-forty bond, at five per cent. A sub-committee was instructed to submit this to the Maine Central, the latter road having withdrawn all propositions.

A triple murder, followed by robbery and arson, occurred at Camas creek, Idaho, about the 2d inst. Three Chinamen were engaged in mining at a remote place on the creek, and known to have been in possession of about $700 in gold dust. On the 5th inst. their cabin was found burned, together with the charred remains of two Chinamen. On the claim was found the body of the third, shot through the head and his throat cut from ear to ear. A young white man named Gamaway has been arrested.

George William Curtis has just succeeded in securing the appointment of a neighbor to the New York custom house without that competitive examination which the great reformer demands for the friends of other men.

In countries where malaria is prevalent, or where the climate is subject to sudden changes — should be found in every house Brown's Iron Bitters.

—Puck says this is a godless country. A man was arrested for kneeling and praying aloud in Broadway. He might have stood up and sworn with impunity.

Ladies in delicate health or feeble children never fail to find relief by using "Wheat Bitters." All druggists keep them.

—The Jersey peach growers have put out their annual statement to the effect that it has been a hard winter for fruit trees and therefore there will be a short crop of fruit the coming season.

The city treasurer of Milwaukee, Wis., Michael Krause, Esq., extolling the praises of St. Jacobs Oil, said: "In my opinion St. Jacobs Oil is a sure cure for rheumatism every time. I have used that invaluable remedy myself for rheumatic pains, and in my judgment, it has no equal in that line. It is a grand discovery."

—A young man at Port Jervis was engaged to marry a young lady, but she retrograded on him. He then took a stepfather, and proposed to the mother. They are now bossing that girl together.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with tetter, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words, "Give me liberty or give me death."

There is nothing whatever that the married or single of either sex can either require or wish to know, but what is fully explained. In short, the book is invaluable to all who wish for good health.—*Toronto Globe.*

The book for young and middle aged men to read just now is the Science of Life, or Self-Preservation. It is worth many times its weight in gold.—*Medical Times.*

The author of the Science of Life is a noble benefactor. He reaches the very roots and vitals of disease, and is enabled to apply thorough remedies. The book already is read upon both continents by millions.—*Le don Lancet.*

The Gold and Jewelled Medal awarded the author of the Science of Life was fairly won and worthily bestowed.—*Massachusetts Plowman.*

Thousands of extracts similar to the above could be taken from the leading journals—literary, political, religious and scientific—throughout the land.

The Book is guaranteed to be a better medical work, in every sense, than can be obtained elsewhere for double the price, or the money will be refunded in every instance.

Thousands of Copies are sent by mail, securely sealed and post-paid, to all parts of the world, every month, upon receipt of price, $1.25. Address

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In fresh wounds, aches, pains, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have seen its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpes, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lovis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It *relieves* pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.*

Its success is *testified* because of its merit. Since the Pain Killer was first introduced, *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued than *ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines,* it is *perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.

CatarrH

DIRECTIONS.

For Catarrh, Hay Fever Cold in the Head, etc., Insert with little finger a particle of the Balm into the nostrils; draw strong breaths through the nose. It will be absorbed, cleansing and healing the diseased membrane.

FOR DEAFNESS, Apply a particle into the ear, rubbing in thoroughly.

Hay-FeveR

—A fair trial will convince the most skeptical.—

ELYS' CREAM BALM

Effectually cleanses the nasal passages of Catarrhal virus, causing healthy secretions, allays inflammation and irritation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment as directed will cure Catarrh. As a household remedy for cold in the head and snuffles it is unequalled. The Balm is easy to use and agreeable. Sold by all druggists at 50 cts. On receipt of 50 cts. will mail a pack age. Send for circular with full information.

Messrs. Seabury & Johnson, Manufacturing Chemists, 21 Platt St., New York:

Gentlemen:—For the past few years we have sold various brands of Porous Plasters. Physicians and the Public prefer Benson's Capcine Porous Plaster to all others. We consider them one of the very few reliable household remedies worthy of confidence. They are superior to all other Porous Plasters or Liniments for external use.

Benson's Capcine Plaster is a genuine Pharmaceutical product, of the highest order of merit, and so recognized by physicians and druggists.

When other remedies fail get a Benson's Capcine Plaster.

You will be disappointed if you use cheap Plasters, Liniments, Pads or Electrical Magnetic toys.

Electricity in Lighthouses.

The annual report of the lighthouse board recommends the introduction of electricity in some of the "first-order seacoast lights." Congress, it is to be hoped, will enact necessary legislation. The improvements in electric lamps, burners, and in all agencies for generating electricity make the experiment safe. In fact the question of the supply and regulation of light in this way is no longer one of experiment. Electricity has supplanted every other form of artificial light in some of our largest business establishments. In many cities and towns it has driven out gas for the purposes of street illuminations, and will do so in New York as soon as the necessary machinery can be arranged. The adoption of the electric light would be a very great benefit to mariners. There are atmospherical conditions under which it can be seen when all other lights are invisible. The government should keep up with the improvements of the time.—*New York Herald.*

Persons recovering from wasting diseases, such as malaria, fevers, etc., will be greatly benefitted by the use of Brown's Iron Bitters, a true tonic.

The prohibitionists of Iowa have made a careful canvass, and think they will be able to carry the prohibitory amendment by at least twenty thousand majority.

—The unaccountable actions of a big, burly tramp caused a great fright to Mrs. James Cooper, living on the railroad near Glenfield, Pa She was alone in the house with her children, and seeing the man approach the house she locked the doors and secured the windows. Thus repulsed, the tramp walked to the track and laid his head on the rail, quietly awaiting the coming of a train. The frightened lady thinks she lived a week or two while watching the worthless man, who, however, as soon as he heard the whistle of a train, picked himself up and sauntered off, chuckling at the joke.

—Jesse James' mother finds some consolation for his violent death by reflecting that it must have come some time or other, and that he is happier in heaven than he would be here. But what occupation can Jesse have in a sphere where the beings are immortal, and revolvers are of no account? Will he not find existence irksome in a land where men can not be shot?

This is indeed an enlightened age, and yet there are thousands of people ignorant of the fact that a slight cold neglected often terminates in consumption. Adamson's Botanic Balsam cures coughs and colds as by magic. Trial size, 10 cts. Larger bottles, 75 cts.

—Two of the most fashionable ladies in Austin were conversing about Easter bonnets and other topics a few days ago, when one of them said there was a very dangerous dog in her neighborhood. "Has he bitten anybody?" asked one of the ladies. "Yesterday he caught a little pig by the ear, and bit it terribly." "Is that so? If he is that kind of a dog, I'm not going to let my children play in that neighborhood." "Nor I mine either."

What Everybody Wants

Is a reliable medicine that never does any harm and that prevents and cures disease by keeping the stomach in order, the bowels regular, and the kidneys and liver active. Such a medicine is Parker's Ginger Tonic. It relieves every case, and has cured thousands. See other column.—*Tribune.*

A Delightful Novelty.

Ladies prefer Floreston Cologne because they find this lasting combination of exquisite perfumes a delightful novelty.

—Together they were looking over the paper. "Oh my, how funny," she said. "What is it?" he asked. "Why, here's an advertisement that says: 'No reasonable offer refused.'" "What's so odd about that?" "Nothing, nothing," she replied, trying to blush, "only those are exactly my sentiments." If that young man hadn't taken the hint, and proposed right then and there, she would have hated him.

HALL'S VEGETABLE SICILIAN HAIR RENEWER is a scientific combination of some of the most powerful restorative agents in the vegetable kingdom. It restores gray hair to its original color. It makes the scalp white and clean. It cures dandruff and humors, and falling-out of the hair. It furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft and glossy, and is unsurpassed as a hair dressing. It is the most economical preparation ever offered to the public, as its effects remain a long time, making only an occasional application necessary. It is recommended and used by eminent medical men, and officially endorsed by the State Assayer of Massachusetts. The popularity of Hall's Hair Renewer has increased with the test of many years, both in this country and in foreign lands, and it is now known and used in all the civilized countries of the world.

A Lesson in Equestrianism.

Horseback riding as an art, and as a beneficious exercise, is one of the most judicial habits that one could cultivate. While it affords the equestrian every opportunity for the cultivation of graceful posing, it comprises all the healthful elements of the most invigorating pleasures. Like all else in this world, however, if indulged in immoderately, the results are extremely painful, and oftimes dangerous. Galled limbs, and piles that itch intensely, particularly after getting warm in bed, are frequently the outcome of excessive exercise in the saddle. In such cases, however, the evil can be thoroughly eradicated by applying Swayne's Ointment, which, as a cure for piles—itching or otherwise, has no equal.

A Great Blessing to Mothers and Nurses.

"Swayne's Teething Cure" for infants. This new theory and infallible remedy has saved the lives of thousands of children. When the child is in pain, or restless with its teeth shooting in its gums, simply rub the gums for two or three minutes with the "Cure." What little it may swallow will relieve colic, pain and flatulence, prevent fever, and avoid that painful operation of lancing the gums, which always makes the next tooth harder to come through and sometimes causes death. Depend upon it, mothers, it will give rest to yourselves and immediate relief and health to your infants. A very able medical writer, who enjoys a large and lucrative practice, says: "Rubbing the gums with a soothing lotion, is the only true method for children teething; poisonous drugs should never be introduced into their delicate stomachs." "Swayne's Teething Cure" is prepared only by Dr. Swayne & Son, Philadelphia, and sold by all leading apothecaries at 25 cents a bottle.

Over three thousand women are employed in the railway offices of Austria. They get from fifteen to thirty dollars a month. Nearly all of them are widows of defunct male employees on the different roads.

Gen. Orrin L. Mann, sheriff of Chicago, Ill., gives this as his opinion of St. Jacobs Oil: "Some time ago I was troubled with rheumatism. Every one was free with his sympathy and suggestions, but nothing relieved me of the severe pain. I had read the testimonials of people I know who had been cured by the use of St. Jacobs Oil, and I thought I would test it. The first application worked wonders, and I was not long a sufferer. It is wonderful what little show that malady has when brought into contact with the great pain panacea."

Maggie Kingsley of Potsdam, N. Y., was supposed to be dead. The corpse was kept nine days, when, just as the burial was to take place, Maggie revived. She is now out all right.

How Often

We see some young man who has squandered his money and ruined his health by excesses, and before thirty years of age is an all broken down and played out man! In all such cases I prescribe nature's tonic and nervine, Sulphur Bitters. They supply food for the brain, strengthen the nerves, and are successful in nine cases out of ten.—*Old Physician.*

Portsmouth Chronicle.

SATURDAY, APRIL 15, 1882.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

News and Notes.

By a boiler explosion in a mill at Baltimore, on the 13th inst, twelve persons were killed and many injured.

At Turner's Falls, Mass., a merchant named G. L. Rist is reported to be daily losing customers, the Irish residents of the town having banded together to "boycott" him on account of his having been a member of the jury which acquited McMillen, charged with murder in killing the Catholic priest McCarty.

The attorney-general of Pennsylvania has brought suits against 213 mutual life insurance companies in that state. These are the so-called "graveyard insurance" companies, and are to be wiped out if possible.

Secretary Hunt, on the 13th inst, received a cable message from Lieut. Harber, at Irkutsk, Russia, stating that he had closed the contract for a steamer to proceed up the Lena river in search of the missing Jeannette crew, and was about to start north.

The senate has passed, by a vote of forty-one yeas against thirteen nays, the bill authorizing the secretary of state to adjust and pay the heirs of Capt. Samuel Reid and the other owners and the crew of the privateer Gen. Armstrong, not exceeding $70,739.

Capt. H. W. Howgate, the signal service defaulter, escaped from the jailer in Washington on the 13th inst.

Pease, the Boston wife murderer, has gone to state prison for life.

New Hampshire Items.

The house of John K. Ham of Barrington was burned on the night of the 12th inst., with all its contents; loss $400; no insurance. "Dodapher" Ham, son of the owner of the house, went home drunk from Dover that night, set his bed on fire, and came near being burned to death, his father and brother being barely able to rescue him.

In Dover, on the morning of the 13th inst., Mrs. Mary Bacon, wife of Dr. Horace Bacon of Biddeford, Me., who had been visiting friends in Dover, was found dead in bed at the residence of her son, Charles E. Bacon, who with his wife was absent with the New Hampshire club on a southern trip. Mrs. Bacon was about seventy-five years old, and highly regarded. The remains were taken to Biddeford for burial.

It is said that the ice on Lake Winnipesaukee is still eighteen inches thick.

AROUND HOME.

A raft of logs on the way from Eliot to Mason's steam saw mill in this city broke apart on Thursday last when near "the pulpit," above Freeman's point, and many of the logs went adrift. Some of them went ashore at various places from Freeman's point to Church hill, and others went down river and were lost. Part of the logs belonged to Mr. Mason, and the rest to John Mathes of Eliot, from whose place the whole lot was cut.

See notice of auction sale by Mr. Wendell, at the auction rooms No. 16 Congress street, at ten o'clock this forenoon, of furniture, carpets, wagon, buggy, harness, horse, etc.

The Exeter *News-Letter* says "The dredging at the 'roundabouts' has begun, and the work of cutting a new channel through the 'ox-bow' is progressing rapidly."

Capt. James Tobey of Eliot, aged eighty-one years, has sawed and split five cords of wood this spring.

Agamenticus Commandery, United Order of the Golden Cross, of York, which started on the 1st inst. with seventeen members, took in seven others on the 13th.

The funeral of Naval Constructor John Lenthall took place from his late residence in Washington on the 13th inst., and the remains were interred at Rock Creek cemetery. The pall bearers were Rear Admiral C. R. P. Rodgers, Rear Admiral J. J. Ammen, Chief Naval Constructor T. D. Wilson, Naval Constructors J. W. Easby, S. H. Pook and H. A. Goldsborough. A general order announcing the death of Mr. Lenthall and paying a high tribute to his memory, was issued by Secretary Hunt on that day.

Webster's Knife and Fork.

When Daniel Webster's father found that his son was not robust enough to make a successful farmer he sent him to Exeter to prepare for college, and found a home for him among a number of other students in the family of "old Squire Clifford," as we of a younger generation have always heard him called. Daniel had up to this time led only the secluded life of a country farmer's boy, and though the New Hampshire farmers have sent out many heroes as firm and true as the granite rocks in the pastures, there cannot be among the hard and homely work which such a life implies the little finenesses of manner which good society demands. Daniel was one of these diamonds of the first water, but was still in the rough, and needed some cutting and polishing to fit him to shine in the great world in which he was to figure so conspicuously.

None saw this more clearly than the sensible old squire. The boy had one habit at the table of which the squire saw it would be a kindness to cure him. When not using his knife and fork he was accustomed to hold them upright in his fists on either side of his plate. Daniel was a bashful boy of very delicate feelings, and the squire feared to wound him by speaking to him directly on the subject. So he called aside one of the other students with whom he had been longer acquainted, and told him his dilemma. "Now," said he, "I want you this noon at the table to hold up your knife and fork as Daniel does. I will speak to you about it, and we will see if the boy does not take a hint for himself." The young man consented to be the scape-goat for his fellow-student, and several times during the meal planted his fists on the table, with his knife and fork as straight as if he had received orders to present arms. The squire drew his attention to his position, courteously begged his pardon for speaking of the matter, and added a few kind words on the importance of young men correcting such little habits before going out in the world. The student thanked him for his interest and advice and promised reform, and Daniel's knife and fork were never from that day seen elevated at table.

When, after a vacation, Daniel's father brought the lad for a second term to Exeter, he put in his saddle-bags a good fat turkey from the Franklin farm, which he gave to the squire as an expression of his gratitude for Daniel's improved manners.—*Exeter cor. of Chicago Advance.*

Linoleum Floor Cloth.

This extraordinary floor covering is made of the most lasting materials—mainly cork and solidified oil. It has been before the public for several years, and has successfully stood tests as no oil-cloth or carpet could undergo. It is unhesitatingly recommended as the handsomest and most comfortable floor covering before the public, and is equally suitable for the dining room, offices, stores, etc., in fact, in every place where an article of this kind is needed. Every square yard of the cloth has "Linoleum" printed on the back; none other is genuine. All carpet dealers keep it.

of New York,

F. S. WINSTON, President.

The Mutual Life Insurance Company of New York is THE OLDEST Company, with thirty-seven years of experience.

It is the largest Company by many millons of Assets in the World.

It is purely Mutual—without Capital or Stockholders to share in profits, and no bonuses allowed to Officers, Trustees, or Employees.

It confines its business to regular Life and Endowment Policies, and the granting of Annuities. No new or experimental plans.

Its premium rates are lower than any other regular Life Insurance Company, and Policy-holders participate in current earnings annually.

No Policy-holder need forfeit his Policy, provided three full annual premiums have been paid, and application is immediately made for a paid-up Policy, when necessity arises to do so.

Assets have more than doubled during the past ten years, notwithstanding the six years of financial panic.

Its Interest and Rent Receipts alone have exceeded its Death Claims TEN MILLIONS of Dollars ($10,000,000.)

It has issued over 220,000 Policies; insured over $700,000,000; received over $276,000,000 in premiums; and returned to Policyholders over $162,000,000.

It can and does afford the cheapest, safest, and most satisfactory insurance investment of any Company in the world.

Is not this well styled a marvel in Finance? No more beneficent institution exists upon the face of the earth than this greatest of financial organizations, combining the greatest possible good for the greatest number with an expertness in financiering that is paralleled only by the sturdy integrity of its managers and the proud pre-eminence of its commercial, patriotic, and scientific record.

Fortunes in Colorado.

ONE of the greatest mining enterprises in that famous mineral state is the Atlantic-Pacific Tunnel, which was started a little more than one year ago to tunnel through a range of mountain over 2500 feet, cutting at right angles more than 200 known silver and gold bearing veins of ore at the great depth of 4000 feet, to make fortunes for those interested. A safe and permanent investment for large or small sums, and a good prospect for large dividends. Safer than savings banks. More durable than bonds. The first year's tunneling of 1200 feet, crossed six or eight veins, which produced a dividend of ten per cent,—probably the amount that will ever be declared, as new veins of known great value will be cut within a year, which the management have good reason to believe will necessitate the sale of no more stock. Shares are now selling for a short time only, at $5.00,—so assessable. This is no stock jobbing concern, but a legitimate working enterprise; every dollar received is invested in opening the tunnel. AT MUSIC HALL!

SUCCESS EVERYWHERE! New York! Philadelphia! St. Louis! Chicago! Boston! Montreal!

Special New York Scenery! A Fall of Real Water! Bewitching Costumes!

Muslin Dresses. Moonlit Piazzas. Flirtation, Courtship and Marriage.

W. H. GILLETTE, THE SUCCESSFUL AUTHOR, PLAYS AND CARRIES OFF THE DARK-EYED HEROINE!

The "Professor" comes with the famous Original New York Company who played it at the Madison Square Theatre, the celebrated Hazel Kirke Theatre, for 150 consecutive performances. The success of this play of "The Professor," which is original, unique and remarkably amusing, is one of the events of the theatrical decade. "The Professor" will open here with the 323d consecutive performance. The success of "The Professor" in the West has been remarkable. In St. Louis it followed Patti and Geistinger with crowded houses, and the newspapers of that city show how enthusiastically it was received. The features of "The Professor" are that it is a light, vivacious, frivolous, delightful comedy, making no pretentions to Shakspearian massiveness. It is merely a charming recreative piece that men who work all day in their shops delight to see. The man who is too tired to read, or too tired to appreciate the merits of a great tragedy, or too tired to listen to a symphony even by a great master; who is too tired to enjoy the prolonged extravaganzas of a comic opera, finds positive relaxation and refreshment in seeing "The Professor." It is full of girls, full of wit, full of bright sayings and sparkling with effervescing repartee. The young people like it, the old people like it, the solid men of business like it, the fastidious belle of society likes it. In fact, everybody says "The Professor" is "The Hit" of the season. Mr. Gillette, the author, plays the part of the Professor, and his success is admitted. His character is entirely original, the acting is quaint, unique, sarcastic and at the same time refreshingly delightful. The girls are good looking. Their dresses are picturesque as apple blossoms, and when five or six of them make love to the Professor at one time, the ushers are unable to restrain the merriment of the delighted house. The man who forges steel ten hours a day; the man who superintends the vast business of a great establishment or the airy clerk with a waxed mustache who manipulates the destinies of a bank ledger—all are equally charmed with the Professor, if you don't believe it, consult the sheet at the box office, its logic is invincible. "The Professor" will show the prettiest girls and the finest fall of real water, the most artistic scenery and complete stage appointments ever presented in the city. All the ingenuity of the Madison Square Theatre, with its remarkable resources, has been exhausted in presenting "The Professor" in the highest style of art. There is no doubt there are people in various parts of the world, some now being shipwrecked upon stormy coasts, some being frozen in northern latitudes, some dying of hunger in the wilderness, some perishing under the blazing rays of a tropical sun, who would be delighted to attend the Professor performances next week. But neither the faithful missionary who is being torn to pieces by cannibals, nor the hunter who has lost his way in the northwest, nor the man who has been cashier of a bank and has absconded to Australia, can possibly get here in time to see "The Professor." But all good citizens may congratulate themselves that "The Professor" will be here with a fall of real water and original mother-in-law, flirting girls, and a programme that extends through three hours of continuous satisfaction, and will be the attraction at Music Hall.

THE RED-SKINNED DREAMER.

A great many years ago, long before the big buildings were seen in Portsmouth, there was a little Indian boy who lived in a wigwam among the trees, just beyond the bridge. One night as he was asleep in a brown leather tent that his painted father had given him, he awoke with a terrible scream. His mother, who did not wear calico, and who had never seen a dry-goods store in her life, leaped from her bed with a sheepskin wildly adjusted to her shoulders, and rushed to her little boy and asked him what was the matter. "Oh, mamma," said he, as his face pressed her brown cheeks with terror, "I've had an awful dream." "What did you dream, my little bear-killer?" said the dusky mamma, as she drew the sheepskin tightly around her mahogany shoulders. "Oh," said he, trembling in every muscle, "I dreamt that the big white men came sailing up the river in fire ships and tied them to trees, leaving a brave captain with a long iron rod with a hole in it, to watch the boats, to see that they did not pull down the trees and sail away. Then these men went up to where the little river runs into the big river, and took guns and axes and powder, and in one day built a thousand wigwams out of wood and stone. And then big fire ships with iron masts followed. And iron wagons came roaring over the country, and in two days there were more people in the pale men's wigwams than there are hairs in my head. When I walked through the wide stone-paved trails I was awfully frightened. Nobody seemed to notice me, but I afraid, all the same." "Well," said the Indian boy's mother, "don't get scared. Give us the rest of your story. I can't read dime novels, and I want to hear all you have to say." "Well," said the little bear-killer, vainly searching for some tobacco, "you won't believe it, but the number of white men increased, and the number of fire ships increased, and the number of iron wagons with iron wheels increased, until the whole country seemed to roar like thunder. And the pale men were buying goods and digging iron from western mountains, and selling it, until business became so good that oil ran out of the hills and down into the rivers. When I looked out over the land I saw no Indians. For thousands of miles the pale-faces seemed to cover the earth, and I grew awfully frightened. I looked around to see if there were any bears to comfort me among the strange people, but there were no bears; only one, and he was in a big cage. The pale-faces stood around, and one wicked man took money from the other pale-faces who came to see him, while another man turned a wheel and played a whistling machine. I thought it was awful to see how the world had become corrupted by the wickedness of the pale-faces." "Well, that is all very good," ejaculated the Indian boy's mother, "but what else did you see?" "I saw beautiful faces in the windows, and on the walls there were pictures of pretty white girls, playing among the trees by the waterfalls in the mountains. Then I was very sad, for I thought of the forests I had seen by sparkling rivers in the west. A pale-faced captain, who seemed to be in great authority, came along with his squaw, whose beads glistened like drops of dew. 'Oh,' said she, in the white man's tongue, 'Dearest Hubby, take me to see The Professor.' The pale man smiled and bowed his head. Then she seemed very happy, and I was about to ask her to take me too, when I awoke." The reply of the Indian mother to her darling little bear-killer is not given, but the lady whose gems glistened like drops of dew will attend the 323d performance of "The Professor," on Thursday evening, and she will sit in the front row of the parquette circle.

SITE FOR THE NAVAL HOSPITAL.

In view of the probability of the establishment at this port of a naval hospital it has been suggested that Cooper's hill, Newcastle, offers more advantages as a building site than any of the locations hitherto named. The highest land on the river front, affording the most magnificent of ocean and inland views; a constant current of pure and invigorating air, generated by the swift-running tides; the natural and beautifully sloping sides, giving excellent and easy opportunities for drainage; an abundance of pure water; with near by, at the westerly base of the hill, a charming and smooth beach and still water, making bathing easy and perfectly safe; a wharf privilege unsurpassed on the Atlantic coast, where the largest ships of our present or prospective navy could lie in still water, made so by the breaking of the tides at Goat island point on the west and another point on the east; its nearness to the navy yard and this city, making communication easy and the landing of stores a work of but an hour; all these and other potent reasons are given why this conceded lovely spot should be selected by the government as the best to build upon. We hope the government agent will examine this site, and if he does so we have no doubt that he will be favorably impressed with the advantages it offers. NEWCASTLE.

JUST SO.

What formerly became of the garbage and waste material now used in making the marginal road around the south pond, is a question frequently asked now a days by those who have occasion to see the large amount of debris deposited every week. A road will soon be completed to Richards avenue and a great public improvement accomplished, and at the same time rubbish removed from all parts of the city which no doubt formerly went behind some shed or outbuilding, or into some corner of the yard, to rot under the rays of the hot summer sun. The removal of the garbage and ashes and the covering of the flats should be considered a sanitary measure, and the city government receive the merited praise for inaugurating such a good work. X. X. X.

A SILLY FARCE.

The grand jury for the county have signed and published a card of thanks to the county solicitor "for the uniform courtesy and kindness with which he directed them" at the April term. Are courtesy and kindness so rare between officials as to need special mention? Was the condition of the jury so disagreeable or their labors so arduous as to require special kindness on the part of the solicitor? What has kindness to do with it, anyhow? We suppose that the solicitor should have presented his cases like a lawyer and a gentleman, and would have expected no vote of thanks for the performance of his duty. B.

"GREAT CRY AND LITTLE WOOL."

Mr. Editor: It seems to be the opinion of many that there should be retrenchment and reform in the city government, but when you try to have them state in what branch or branches, they are unable to state, except in a general way.

That a few dollars could be saved here and there cannot be denied, but in the aggregate the sum would not amount to the item of $4500 which is to be inserted in the appropriation bill to pay for the extension of Vaughan street. The extension of that street was needless, and that the sum of $4500 was wasted on it was no doubt due to the petitioners, among whom may be found some of the wealthiest men of the city. The city government did its best to prevent the outrage, but the saying "that" the county commissioners will never deny a petition" proved true in this case, and the city pays the bills.

Who that can remember our streets thirty years ago, would go back to those days in regard to the condition of the streets? Who claims that our streets are too well lighted? and no item in the appropriation bill has increased in proportion to that of lighting. Who would go back to the old hand-tub system of a fire department, paying the firemen five dollars per annum, their present pay being forty dollars per annum, an increase of eight hundred per cent? Could any of the city government prevent the presentation of the bonds long overdue, and to pay which an item of nearly $4000 is to be inserted in the appropriation bill? Can the city government regulate the county and state tax? And who is there that would advise or even suggest less care for the poor? for they are with us always, and we may be one of them, some day. Let us have charity.

THE BANKER'S DAUGHTER.

Few plays have ever been placed upon the American stage which have held favor with the public, and enjoyed a longer run than has this. One is not satisfied with one representation, but finds pleasure in witnessing its repetition. It is certainly one of the strongest plays ever presented here, and the company in whose hands it now is, is, to say the least, a powerful one. Those comprising it, without exception, are all artists of ability. Miss Adele Belgrade, as the "Banker's Daughter," was simply superb. She has an excellent command over her emotional abilities, and knows full well how to use them. She was very effective as the heart-broken wife, and her apparent grief seemed to be shared in, to a large extent, by her sympathetic audience.

The other members of the company were far above the average, and taken as a whole, the play and company are among the best ever favoring Toledo with a visit. It is pronounced by all who have seen the drama in other cities to be the best ca-t that has ever rendered it.—*Toledo Blade.*

THE CHARLESTOWN NAVY YARD.

The Boston *Advertiser* editorially says:

Two reasons have been produced against the proposed sale of the Charlestown navy yard, one that the sale would weaken the government, and one that the estate would go back to the original owners of the estate or their heirs. The latter is no argument; nor is it a valid statement; the government owning the estate in fee-simple, which gives no other person any title, however remote or indirect, in the establishment. It does not appear how the sale of the navy yard can weaken the government, as the latter will get an equivalent for its property, and need not lose one good mechanic or engineer. In fact, what is now done in the navy yard expensively can be done cheaper and equally well at other navy yards public or private. An additional reason for selling the navy yard is the fact that in case of war it would offer special and highly legitimate attractions to the enemy, while as private property it will possess a certain immunity. But the main reason for surrendering the property to private control is economical. At present the navy yard is expensive, troublesome, and unable to pay its expenses; as private property it would pay taxes, help commerce, and promote business.

A much more cogent argument against the proposed sale comes from "A. G.," who writes from Kittery Foreside to the Boston *Post* under date of April 13th as follows:

If Congress votes to abolish the Charlestown navy yard the democrats will stand a mighty poor show at carrying Maine or New Hampshire. The yard at Kittery would be filled with men, workmen and bummers, and more republican voters would swarm there than was the case in the palmy days of Robeson and Grant.

That would be horrid. Increased activity at this navy yard would be hailed with delight by all business men on both sides of the river, it is true, and would "put on his feet" many a workingman who now has a hard struggle to support himself and family; but the interests of both business men and mechanics should be subordinated to the assumed needs of the democratic party. By all means let the sale of the Charlestown yard be prevented, lest it should result to the advantage of Portsmouth and Kittery.

Woman's Triumph.

A Severe Surgical Operation. It is Endured Without taking Ether. Subject, Mrs. Edward Myers, of Rondout, N. Y.

(From the Correspondence of the Kingston, N. Y. *Freeman.*)

The case of Mrs. Edward Myers, of Rondout, New York, furnishes an apt illustration of woman's power of endurance. This lady had been treated for months in the usual way for erysipelas of the hand, without benefit. Not until her hand had become a mass of putrified flesh did she turn to Dr Kennedy, proprietor of the "Favorite Remedy," for help.

He at once informed her that it was impossible to save the hand—it must be amputated. She received this terrible intelligence quietly, declined to take ether, stipulating merely to hold her husband's hand during the operation, and underwent the painful process without moving a muscle or uttering a groan. Dr. Kennedy then gave "Favorite Remedy" freely to cleanse the blood and prevent the return of the disease, and Mrs. Myers now lives and rejoices in her great deliverance.

"Favorite Remedy" is fast becoming a trusted household friend in all cases of female weakness and diseases of the blood. One dollar a bottle. Your druggist has it.

WHEAT BITTERS

THE BEST AND The Richest

BLOOD, BRAIN and NERVE

-F-O-O-D-

CAREFULLY PREPARED, THOROUGHLY TESTED, ACCEPTABLE AND RELIABLE.

The Phosphates of the Wheat are its most valuable food property, and are, when properly prepared, the most acceptable nutriment with which to build up the system.

The Blood, Brain and Nerves are the forces which bear the strain of every day work and life, and in order to save sickness it is wise to BUILD FOR HEALTH.

Wheat Bitters are prepared, not by fermentation but by solution and are richest in the Phosphates, while the starch and impure matter are eliminated. These make in themselves a basis, to which is added the best and choicest medicinal qualities, necessary to make it a tonic and bitter. It is at once healthful, pleasant to the taste and must not be confounded with the thousand and one cheap alcoholic bitters which are sold as cure-alls. Medicine is doubly effective when used with food, so as to nourish while it corrects.

Sold by druggists, $1.00 per bottle.

Funeral of Jesse James.

Jesse James was buried at Kearney, Missouri, on Thursday. Mourning relatives, hosts of friends, officers of the law in the vicinity, and the reverend clergy, all seem to have united in paying extraordinary honors to his remains. Never before had Kearney seen so grand a funeral. Among the pall bearers of the dead man were a sheriff and a deputy sheriff, and the coffin was followed to the grave by an immense throng on horseback, in wagons and on foot. The Rev. Mr. Martin—by permission of the afflicted family assisted by the Rev. Mr. Jones—conducted the religious services in the crowded church. The hymns "What a Friend I Have in Jesus," and "Where Shall Rest be Found?" were sung in the most solemn style, and the Rev. Mr. Martin assuaged the grief of the mourners in a funeral sermon full of comforting language. The honor paid to Jesse James dead goes far to explain the immunity he enjoyed living. He could pursue his career of plunder and murder unpunished, because of the consideration he enjoyed as a hero, terrible in his revenges. Jesse James had the funeral of a saint, thanks to the officers of the law, two of whom bore his corpse in honor to the grave after he had been assassinated through treachery. And that was the end of a most cowardly and bloodthirsty ruffian in a civilized state of the American union. In all the records of brigandage and murder there is no instance more astounding than this of Jesse James.—*New York Sun.*

Pluck and Long Life.

The force of will is a potent element in determining longevity. This single point must be granted without argument, that of two men, every way alike and similary circumstanced, the one who has the greater courage or grit will be the longer lived. One does not need to practice medicine to learn that men die that night just as well live if they resolved to live, and that myriads who are invalids could become strong if they had the native or acquired will to vow they would do so. On the other hand, there are those who have no other quality favorable to life, whose bodily organs are nearly all diseased, to whom each day is a day of pain, who are beset by life-shortening influences, yet who live by will alone.

Jesse James a Delegate to the Chicago Convention.

James E. Mellenry, ex-register of lands, and now editor of the Jefferson City *Tribune*, says, "It was stated several days since in the *Post Dispatch* that Jesse James never attended political conventions. This is an error, for I have authoritative information that he was a delegate from the state of Mississippi to the Chicago convention under his assumed name of Johnson, which appears to have been his favorite disguise."

"Who is your authority?

"One of the most distinguished confederate officers, who knows the Jameses better than his own family. He positively declares this statement to be true, and I know that this officer was in Chicago at the time as an interested spectator."—*St Louis Post Dispatch.*

Mrs. Paulina Lunt, widow of the late Skipper Lunt of York, is ninety-three years old, and is smart and enjoying the best of health. She does the house-work for herself and son.

In countries where malaria is prevalent, or where the climate is subject to sudden changes—should be found in every house Brown's Iron Bitters.

The subject of the removal of the capital of Kentucky from Frankfort to some other city in the state has been under discussion in the Kentucky legislature, the present session. Louisville is ambitious of securing it, and a few days ago an election was held in the city on the question of appropriating $1,000,000 for the purpose. The proposition was carried by a large majority.

A Valuable Addition.

Because it is beneficial to the scalp and adds to personal beauty by restoring color and lustre to gray or faded hair, is why Parker's Hair Balsam is such a popular dressing.

The work of frescoing Christ church is to be begun at once by New York artists. The chime of bells is daily expected.

Worth Remembering.

Now that good times are again upon us, it is worth remembering that no one can enjoy the pleasant surroundings if in bad health. There are hundreds of miserable people going about to-day with disordered stomach, liver or kidneys, when a bottle of Parker's Ginger Tonic would do them more good than all the medicines they have ever tried.

John Cunnock, Esq., agent of the Great Falls Manufacturing Co., and Councilor Jameson, were in town on Friday.

Food for Young and Old.

Food and medicine for young and old, prepared without fermentation, from Canadian barley malt, hops, quinine, bark, etc. Malt Bitters are warranted more nourishing, strengthening, vitalizing and purifying, by reason of their richness in bone and muscle producing material, than all other forms of malt or medicine, while free from the objections urged against malt liquors.

A horse belonging to Grant & Co., of the York and Portsmouth stage line, broke its leg below the ankle joint on the 13th of February. Dr. J. C. Stewart of York set the broken limb, which knit firmly and straight, and the horse is now able to go as well as ever.

A Powerful Contrast.

When the soldiers of the dark ages were attacked with fever, they could do naught but suffer. Medical science had not yet developed a cure. This labor of love and humane duty was left for Dr. Swayne, whose Ointment for skin diseases is as infallible in its results as was the inspiring potency of Patrick Henry's memorable words. "Give me liberty or give me death."

PERRY DAVIS' PAIN KILLER

A Never-Failing Cure for Burns, Scalds, Bruises, Cuts, Sores, etc.

After forty years of trial, Perry Davis' Pain Killer stands unrivaled. It is safe! It acts immediately! It never fails!

Editor of the St. John (N. B.) News, says:
In flesh wounds, aches, pains, sores, etc., it is the *most effectual* remedy we know of. No family should be without a bottle of it for a single hour.

From the Cincinnati Dispatch:
We have *seen* its magic effects, and *know* it to be a good article.

From I. S. Potter, U. S. Consul at Crefeld, Rhenish Prussia:
After long years of use, I am satisfied it is positively efficient as a healing remedy for wounds, bruises, and sprains.

W. W. Sharpe, Valdosta, Ga., says:
It is a panacea for all bruises and burns.

From R. W. Adams, Saco, Me.:
It gave me immediate relief.

R. Lewis says:
In forty years' use it never has failed me.

W. W. Lum, Nicholville, N. Y., says:
I use your PAIN KILLER frequently. It relieves pain and soreness, and *heals* wounds like magic.

J. W. Dee says:
For Scalds and burns it has no equal.

PERRY DAVIS' PAIN KILLER is not a new untried remedy. For forty years it has been in constant use; and those who have used it the longest *are its best friends.*

Its success is *entirely* because of its merit. Since the Pain Killer was first introduced *hundreds* of new medicines have come and gone, while to-day this medicine is more extensively used and more highly valued *than ever before.* Every family should have a bottle *ready for use.* Much pain and heavy doctors' bills *may often be saved* by prompt application of the Pain Killer. *Unlike most medicines it is perfectly safe* even in the hands of a child. Try it once thoroughly, and it will prove its value. Your druggist has it at 25c., 50c. and $1.00 per bottle.

PERRY DAVIS & SON, Proprietors, Providence, R. I.
